Steps have been taken to organize a national negro party in Philadelphia. Prominent negroes—bishops, ministers, editors and lawyers—at a meeting decided to place a presidential ticket in the field with negro candidates. The plan is to organize the party in every state of the Union, and nominate candidates for state and congressional offices.

An American water hyacinth which is not infrequently an obstruction to navigation in southern rivers has been successfully killed on the Malpome canal, New Orleans, by a chemical spray.

A license to sell intoxicants was given to a man in Benton, Ky., with the proviso that no one should be allowed to "treat" in his barroom, and that every patron must pay for his own liquor.

CLOSED WITH SONGS

Picturesque Scene When the House Adjourned.

ALL ANIMOSITY WAS FORGOTTEN

Feature of the Last Day Was the Victory of the Old Conferees on the Naval Bill.

Washington, June 9.—In marked contrast with the exciting incidents attending the bitter struggles of the closing hours of the session, Speaker Henderson laid down his gavel at 5 o'clock this afternoon at the conclusion of one of the most picturesque scenes which have ever occurred in the hall of representatives. Party passion and personal rancor, which have brought the house to the brink of actual riots at times during the last 48 hours, gave way in the closing half-hour to good fellowship, which ended in a patriotic outburst that stirred the crowded galleries to the highest pitch of enthusiasm.

During a brief recess, taken within 30 minutes of the time fixed for the final adjournment to give the president an opportunity to affix his signature to the bills that were being rushed to him for approval, a group of members, led by Mercer (Rep. Neb.), Hall (Dem. Tex.), Fitzgerald (Dem. Mass.), and Tauney (Rep. Minn.), congregated in the area to the left of the speaker's rostrum and began singing patriotic airs. The galleries were hushed to the doors. "Columbia, the Gem of the Ocean," "Auld Lang Syne," "The Red, White and Blue" successively rang out. As the singing proceeded, members joined the group, until, without regard to age or party, the entire membership of the house joined in the choruses. The spectators in the galleries applauded each song until the strains of "Dixie" filled the hall. Then their unbounded enthusiasm broke out in wild cheers. But the enthusiasm "Dixie" evoked was not to be compared with the remarkable demonstration which followed, when, in a clear and ringing tone, Fitzgerald (Dem. Mass.) started the national anthem with the inspiring words, "Through the Dawns' Early Light." In an instant all the men, women and children in the galleries were on their feet joining in the singing. The mighty chorus from thousands of throats reverberated through the hall, making the pulses leap and the blood tingle. It was a magnificent and soul-inspiring spectacle. The ladies took time to the rhythm of the music with their handkerchiefs and the men beat the measure with their hands. The speaker, pausing as he entered the hall, raised his voice also.

The excitement produced by the scene overcame a white-haired old man in one of the public galleries, and when the song ceased he jumped upon his seat and shouted: "That is the song of the angels in Heaven." He was plainly a crank, but as he showed a disposition to harrange the house, he was quickly ejected.

After Speaker Henderson had made a graceful farewell speech, thanking the members for their courtesy, and had declared the house adjourned, the members testified to his popularity by singing "For He's a Jolly Good Fellow," and the newspaper correspondents in the press gallery celebrated their emancipation from the burdens of congress by singing the "Doxology."

The principal feature of the closing day in the house was the reversal of its action last night in turning down the conferees on the naval bill for yielding on the item relating to ocean surveys.

Overnight the sentiment of the house underwent a complete change, and today the members voted by a large majority to accept outright the senate amendment, which goes much further than the compromise which the conferees offered last night. The new conferees, led by Cannon, who had brought in a compromise which they considered more satisfactory, were ignominiously pushed aside. It was a distinct victory for the old conferees—Foss (Rep. Ill.), Dayton (Rep. W. Va.), and Cummings (Dem. N. Y.). The other features of the closing day was the course of Lantz (Dem. O.) in blocking unanimous consent legislation. For three days he had objected to bills because the majority would not allow the testimony in the Coeur d'Alene investigation to be printed, and he maintained his position to the end.

Canadian Army Food Scandal. Ottawa, Ont., June 9.—The opposition in the house of commons endeavored to make a scandal out of the emergency food supplies to the Canadian soldiers now in South Africa, and which was supplied by the Canadian government. F. D. Monk charged that a spurious article was sent instead of the genuine. Dr. Borden, minister of militia, stated that the emergency food was purchased under contract from Dr. E. Devlin, of Montreal, and was tested months before it was bought from the contractor. Another test was made of the samples on hand, and the tests were satisfactory. The charge of the opposition is that Dr. Devlin did not supply the class of goods that he agreed to do.

Chicago, June 9.—A special to the Record from Victoria, B. C., says: News was brought from the East by the steamer Empress of Japan that a serious uprising against the British has again broken out in North Borneo. Many refugees who arrived in Labuan say that the cause of the outbreak was the general dissatisfaction against the rule of the chartered company. In the fighting several British were killed and seven wounded. Twenty-five Chinese were killed, and the environs of the city were totally destroyed.

EDUCATION IN PHILIPPINES.

What Dr. Atkinson Proposes to Accomplish in the Islands.

HE WAS CAUGHT NEAR MANILA

Brave Stand of 31 Americans Against 600 Insurgents at Catubig.

Manila, June 11.—General Pio del Pilar, the Filipino leader, has been captured near Manila.

Washington, June 11.—Perhaps the most thrilling and picturesque incident of the entire Philippine war occurred at Catubig, on the island of Samar, where, April 15 last, a party of 31 enlisted men of company K, Forty-third volunteers, held at bay a force of some 600 insurgents during four days of fierce fighting, reinforcements arriving just in the nick of time. The war department has received reports from Captain H. M. Day, of the Forty-third volunteer infantry, and First Lieutenant J. T. Sweeney, of that regiment, who commanded the rescue party, giving all the details of the attack, siege and the relief.

According to the reports the attack on the garrison at Catubig began without warning, Sunday morning, April 15. From the hills on all sides, from every point of vantage in the town and from a deserted church directly adjoining the barracks from the insurgents' refuge was on fire. All efforts to subdue the fire failed, and, finally, the little band, made a dash for the river bank. Some were killed before the bank was reached, others fell dead in a boat in which it was intended to make the opposite shore, and when a trench was finally dug with bayonets, only 18 of the 31 were left to man it. Here, for two more days, Corporal Carson, handling his men with the judgment of a veteran, held out under a terrific fire until the arrival of Lieutenant Sweeney's command, which had been ordered to supplement the garrison at Catubig, and which was on its way up the river on the steamer Lao Aug. Not until within a quarter of a mile of Catubig, says Lieutenant Sweeney, in his report, did they hear the noise of the engagement. Then he realized that he and his men were sorely needed and he ordered the captain of the steamer to run his boat at top speed. The Lao Aug steamed up to Catubig under a rain of Manner bullets from both shores. The small boats were lowered, a landing effected, and the rescuers fought their way through the open to their comrades in the trenches, buried the dead within reach, brought back to the boat the besieged party, numbering now only 13 men, and then steamed down the river.

A NAVAL EXPERIMENT.

Putting Warships in Condition for Immediate Service.

Washington, June 9.—Secretary Long has issued an order for an experiment of the utmost importance to the navy. The purpose is to see how much time would be occupied in putting into condition for active naval service a part of the United States fleet to meet an emergency.

The vessels selected for the experiment are the battle-ships Indiana and Massachusetts, now laid up in ordinary at League Island, with a skeleton organization of officers and men aboard. Captain Dickens commands the Indiana and has six officers and about 150 men under him. The Massachusetts is under command of Captain Train, with four officers and about 150 sailors. Orders have been telegraphed Admiral Casey, the commandant of the League Island yard, and the two captains above named, to put the ships into condition for immediate service, to last at least 60 days. No notice has been previously given of the department's intention. By the terms of the order the ships must clear League Island inside of three days. The officers who have projected the experiment hope to do better than that.

The ships each have about 650 tons of coal aboard, but must be supplied with food, maps, bedding, ammunition, etc. The hardest question to deal with in the present straits of the navy is that of personnel. Officers were wired at once, and it was necessary to rob some of the bureaus of the navy department of much-needed assistance. The officer most remote from League Island is Lieutenant Wilson, at Boston, so that all of them should be aboard ship by tomorrow night. The Hartford's crew, now at Norfolk, has been ordered to leave tonight for League Island, and from her numerous crew the complements of the Indiana and the Massachusetts will be brought to the standard. About 300 men and 12 officers will be required for each battleship.

CYCLONE OF FIRE.

Town on the Mesaba Iron Range Wiped Out.

Duluth, Minn., June 9.—The entire business and most of the residence section of the town of Virginia, on the Mesaba iron range, was wiped out of existence today about noon, and it only took 60 minutes to do it. In that time fully 165 buildings were reduced to ashes. Telegraphic communication was cut off very soon after the first news of the fire came, and was not resumed until this evening.

The news tonight indicates that it was a veritable cyclone of fire. The entire country around is parched and ready to burn. The flames broke out at the Moon & Kerr mill, on the shore of Silver lake, southwest of the town. The main business section of the city is over five blocks from the mill, and over this intervening territory the flames spread fiercely, carried directly to the business buildings by a fierce southwest wind. Within an hour it had carried everything between the mill and the railroad station, eight blocks away.

The path of the flames was as clean out as that of a cyclone. The territory over which the fire traveled covered about 12 blocks, about nine of which were thickly built up. Tonight there is not a business house, hotel or store standing in Virginia. The residence portion of the town was only partially burned. The school house is untouched, as also are most of the churches. The loss is estimated at \$600,000. Not more than \$124,000 insurance is carried in the town.

A member of the San Francisco Musicians' Union has been fined \$50 for violating the laws of the organization.

A New Transport. New York, June 9.—An Erie basin shipbuilding firm has begun work on the transport Kilpatrick, whose reconstruction will cost \$408,000. The Kilpatrick is intended to ply between San Francisco and the Philippines. She will be entirely remodeled, her engines will be overhauled and large steel deck houses will be built on the spar deck.

CAPTURE OF PILAR

Real Filipino Leader Taken by Americans.

RUSSIA WANTS MORE MONEY

In Need of More Cash to Complete the Trans-Caucasian Line.

New York, June 11.—The advice from London that M. Rothstein, a well-known financier of St. Petersburg, would soon arrive in this country, with a view to looking over the situation here as an agent of his government and determining whether or not a large Russian loan could be floated in the United States, is said by leading foreign bankers in this city to be accurate. Whether or not M. Rothstein shall ultimately be successful in his mission, however, it is not believed by prominent local financiers that he will be able to place a loan of any magnitude in the United States for the next few months, until the presidential campaign shall be ended.

It may be remembered that in February of this year, the Russian imperial government negotiated a loan of \$15,000,000 with a syndicate of New York banks, trust companies an insurance companies. In exchange for their money the syndicate receive four per cent bonds, guaranteed principal and interest by the Russian government and secured by a first mortgage on the Wladikawos railway system. The loan now sought is also for railway construction, according to a Wall street man interested in the February operation, who said:

"M. Rothstein, president of the Russian Imperial Bank of St. Petersburg, and one of the government's trusted agents is, I have been informed, coming here to get money for the Russian trans-Caucasian railway. This is one of the longest roads in the world and is not completed by any means. Money is needed. M. Rothstein is coming from London here, and is going to Washington to see the Russian minister, through whom all negotiations are to be made."

The London report also said that a large Russo-American bank might be established here as an outcome of M. Rothstein's visit, but this is regarded by all authorities here as exceedingly unlikely.

Plague in Brazil. New York, June 9.—A dispatch to the Herald from Rio Janeiro says: It is announced that during the last 24 hours there have been eight new cases of plague. An official bulletin says that since the plague appeared there have been 88 cases in which 26 have proved fatal.

The South Atlantic squadron, under command of Rear-Admiral Schley, has been ordered to sail for Montevideo.

Fire in Baker City. Baker City, Or., June 11.—At 10 o'clock this morning Carter & Miller's slaughter house was burned to the ground. The buildings are a complete loss; value, \$600. Large stocks of hides were on hand and are partly damaged. No insurance. One of the employees was burning off, and a strong wind which sprung up is supposed to have carried sparks into the dry buildings. The entire loss is about \$1,000.

Labor is paid three cents for producing 144 boxes of matches. Labor buys these matches back and pays \$1.44.

Volcano Comes to Life. San Francisco, June 11.—Captain O. J. Storr, of the transport Leelanaw, reports that a volcano in the South seas, which has been quiet for many years, has again resumed action. The volcano is located on the Dedicas rocks, Babuyan islands, near where the cruiser Charleston was lost. The Leelanaw passed within three miles of the rocks, and clouds of steam were observed coming from the crater. The waters about the islands were also troubled.

Admits Killing Horton. Skagway, June 11.—The trial of the 12 Indians charged with murdering Bert Horton and his young wife, from Eugene, Or., on Lynn canal, 35 miles from Skagway, last October, was begun in the highest court of Alaska in this city yesterday. Judge Melville Browne, recently from Wyoming, on the bench. Only one of the Indians has pleaded. He is Jim Hansy, who first confessed that he killed Horton. In pleading he said: "I killed the man; I did not murder the woman."

A BLOODY SUNDAY

Half a Dozen St. Louis Strikers Shot Down.

DEPUTY SHERIFFS DID SHOOTING

Several Outbreaks in Various Parts of the City-Militia Is Being Prepared for Action.

St. Louis, June 12.—The day just ended has been one of the most eventful and bloody since the great strike on the St. Louis Transit began more than a month ago. There were numerous encounters between strikers and other individuals and the constituted authorities, resulting in four deaths and the wounding of five or more persons, mostly strikers. The dead are: C. Edward Thomas, striking conductor on the Chouteau avenue line; shot in breast by deputy sheriff; died on the way to hospital.

George Kine, striking motorman on Delmar avenue line; shot in abdomen by deputy sheriff; died at city hospital.

Fred Boehm, aged citizen, shot and instantly killed while standing in his front yard by deputy sheriff.

Ed Burkhardt, striking conductor on Delmar avenue line; shot in head; may die.

The day was quiet until this afternoon, when the police were taken off a number of street car lines for the purpose of giving them a rest and to test the ability of the Transit Company to operate without friction.

The most serious trouble broke out between 6 and 7 o'clock in front of the six-story building on Washington avenue, between Broadway and Sixth streets, occupied by the sheriff's posse, comitatus as a barracks and headquarters. Several hundred strikers had gone to East St. Louis earlier in the day to attend a picnic given for their benefit, and toward evening began retracing home. The trouble was precipitated when 150 strikers in uniform and headed by a drum corps, came west on Washington avenue. In their caps, some of them had carls bearing these words: "Union or nothing; liberty or death."

Just as they were passing the barracks, a car of the Park avenue division was going west. A number of the men broke from the line and rushed for the car which was without the usual police guard. A brick was thrown through the car window and a shot was fired by somebody not known.

At the first intimation of trouble the sheriff's posse swarmed from the building and surrounded the crowd of strikers, calling on them to disperse. Other shots were fired. Then several deputies turned loose their repeating shot-guns, loaded with buckshot. As far as can be learned only four men in the strikers' ranks were hit. Not a deputy was wounded.

Under the command of Colonel Cavender, the deputies arrested 20 of the strikers and took them into the barracks, where they were searched. Three revolvers and a number of pocket knives were secured, and the prisoners were taken to the Four courts, where they were locked up pending an investigation. The remainder of the strikers fled, followed by a squad of mounted police that had been summoned. They dispersed without further trouble.

CHINA GETS WORSE.

Civil Foreigners in Peking Are Under Arms to Fight.

Tien Tsin, June 12.—The special train that went to examine the line and reconnoiter returned last night. The railway was found clear two miles beyond Yang Tshu. The engineers, with the guards, walked a mile and a half further. They found the ties and two bridges burned, and the railway torn up.

The first repair train, with Admiral Seymour and his staff, 650 British, Captain McCalla's 100 Americans, 40 Italians and 25 Austrians, left this morning at 9:30. A Hotchkiss and other guns were mounted in the center of the train. A second train left at 11 o'clock, with 600 British, Japanese, Russian and French troops. Repairing matter and new rails were taken along.

There are 31 foreign war vessels at Taku. A message from Peking to the admirals asserts that the situation is hourly growing more dangerous for foreigners. All those at Peking have taken refuge in Legation street. The civil males are under arms to fight with the regulars, if necessary. The approaches to Legation street are surrounded by howling mobs of undisciplined soldiery, with cannon and bayonets. The international guard were holding off the mob, which screamed insults and threats.

To Prospect Siberian Coast. San Francisco, June 12.—The Russian syndicate headed by Count Charles Bogdanovitch, that is to prospect the Siberian coast for gold, sailed for the frozen north on the chartered steamer Samoa today. There are about 40 in the party, all told, among them being 27 miners, headed by H. Roberts, of Comstock fame. Paul de Lamechaffsky also accompanies Count Bogdanovitch. He was formerly a Russian mail agent, and knows every bay and inlet on the Siberian coast. The vessel cleared for Alexander bay, and will be gone about six months.

Railway Nearly Destroyed. London, June 12.—General Forester Walker wires to the war office from Cape Town, under today's date as follows: "Information received from natives early yesterday reports the enemy in three columns near Homing Spruit. The railway has been almost completely destroyed between America and Roodeval."
