

FOR WOMAN'S HEALTH IN THE MINING WORLD

Barnes Letters from Women Relieved of Pain by Mrs. Pinkham. DEAR MRS. PINKHAM:—Before I commenced to take your medicine I was in a terrible state, wishing myself dead a good many times. Every part of my body seemed to pain in some way. At times "menstruation" my suffering was something terrible. I thought there was no cure for me, but after taking several bottles of Lydia E. Pinkham's Vegetable Compound all my bad feelings were gone. I am now well and enjoying good health. I shall always praise your medicine. —Mrs. AMOS PRESLER, Box 296, Romeo, Mich.

Female Troubles Overcome. DEAR MRS. PINKHAM:—I had female trouble, painful menses, and kidney complaint, also stomach trouble. About a year ago I happened to pick up a paper that contained an advertisement of Lydia E. Pinkham's Vegetable Compound, and when I read how it had helped others, I thought it might help me, and decided to give it a trial. I did so, and as a result am now feeling perfectly well. I wish to thank you for the benefit your medicine has been to me. —Mrs. CLARA STIBBER, Diller, Neb.

No More Pain. DEAR MRS. PINKHAM:—Your Vegetable Compound has been of much benefit to me. When my menses first appeared they were very irregular. They occurred too often and did not leave for a week or more. I always suffered at these times with terrible pains in my back and abdomen. Would be in bed for several days and would not be exactly rational at times. I took Lydia E. Pinkham's Vegetable Compound, and menses became regular and pains left me entirely. —Mrs. E. F. CESTER, Brule, Wis.

Equine Losses in War. In all protracted wars the loss in horses from disease is terribly heavy. In Napoleon's campaign across the Niemen, out of 60,000 horses, no fewer than 45,000 succumbed in six months. At the siege of Plevna the Russians lost 30 per cent of their draught animals, and in the Egyptian wars of 1883 the English horses were disabled, of which 600 died from sickness and only 60 on the field of battle. —Pearson's Magazine.

Every saloon at Tallahassee, Tenn., has been placed under the legal ban charged with Sunday liquor selling.

Crime Prevented in Berlin. Crises of violence, whose perpetrators have remained undiscovered, have become so common in Berlin and its neighborhood that the Prussian minister of the Interior has given notice that all violent deaths shall be reported at once to a special bureau, which shall decide whether the local or Berlin police shall take up the case, and in certain instances shall set its own detectives to work. —N. Y. Sun.

Physician and Morphine. In a recent address before a graduating class of medical students occurs the following most sensible advice: "While fewer physicians become insane than members of other professions, a larger proportion become addicted to the use of morphia. Opium in any form is exceedingly dangerous when self-administered. No physician should attempt to treat himself, but always take the advice and follow the direction of another physician."

Less Chance of Recovery. Prof. G. Sims Woodhead, M. D., professor of pathology, Cambridge University, perhaps the greatest authority on pathology in the world, recently wrote for "Abkari," edited by W. S. Caine, of London, as follows: "For the last year or two I have been keeping note of the various observations that have been made in regard to the use of alcohol in disease, and I am coming to believe more and more firmly that the patient who takes, or has taken, alcohol has a less chance of recovery than the patient who abstains."

NO REMEDY EQUALS PERUNA, SO THE WOMEN ALL SAY.

Miss Susan Wymar, teacher in the Richmond school, Chicago, Ill., writes the following letter to Dr. Hartman regarding Pe-ru-na. She says: "Only those who have suffered as I have, can know what a blessing it is to be able to find relief in Pe-ru-na. This has been my experience. A friend in need is a friend indeed, and every bottle of Pe-ru-na I ever bought proved a good friend to me." —Susan Wymar.

Value of a Knowledge of Geology to the Prospector. (By Earl Douglas, University of Montana.) The study of the remains of plant and animal life that have existed in past ages is like history, astronomy, fossil languages, politics and all other branches of human knowledge; it is interesting when one gets interested in it. But it is extremely difficult to get very deeply interested in something that we know nothing about. There are so many branches of knowledge that one cannot know everything. But the subject on which I am asked to write is, I believe, of vital interest to the miner and prospector, though our knowledge of it was not developed for their special benefit, but because of the interest and fascination of the subject itself.

A heavy business is doing in refined sugar, and the manufacturers are over-sold. A good margin of profit exists in this trade. Reports from the boot and shoe industry are of rather unsatisfactory trade prospects, and leather and hides are rather weak at the East, but strong at Chicago, where heavy purchases for Philippine army purposes have strengthened the situation.

Whoever so named New York's gloomy prison chose an apt and significant phrase. Many a wretched criminal has found indeed therein that the path of sin is the path of death, and has mourned at the burial of his own blighted hopes and ruined resolutions.

MIDSUMMER BUSINESS.

Distributive Trade is on a Restricted Scale. Bradstreet's say: Midsummer dullness in distributive trade and industry, and further reduction of prices in manufactured goods, particularly iron and steel and raw textiles, but a marked movement in nearly all agricultural products.
