

THE OREGON MIST.

VOL. XVII.

ST. HELENS, OREGON, FRIDAY, JULY 27, 1900.

NO. 32.

EVENTS OF THE DAY

Epitome of the Telegraphic News of the World.

TERSE TICKETS FROM THE WIRES

An interesting collection of items from the two hemispheres presented in a condensed form.

Llama, Tex., was demolished by a cyclone.

St. Louis Transit Company refuses to arbitrate with the strikers.

Chicago Chinese, having just learned of the trouble in China, are greatly excited.

Twenty persons were prostrated by heat at New York. Temperature 100 degrees.

Foreign warships have their guns trained on Chefoo, in anticipation of an outbreak.

Fleet of the revolutionists has been captured by government forces in Colombian rebellion.

The big steel plant of the Federal Steel Company, at Lorain, Pa., has been closed down, throwing 4,000 men out of work.

Two transports, with 1,200 officers and men, sailed from Manila for Taku. The hospital ship Relief has also been sent to Taku.

Mrs. Elizabeth C. Tolman, wife of General J. C. Tolman, and a pioneer of 1852, died at her home in Ashland, Or., aged 71 years.

At New York city, Terry McGovern, feather weight champion of the world, defeated in three rounds, Frank Erne, light weight champion of the world.

Sealing claims are to be arbitrated. Russia, United States and England have finally agreed on a method of disposing of long pending Behring sea trouble.

In Bombay, India, for the week ending July 7, there were 9,928 cases of cholera in the famine district, of which 6,474 were fatal, and in the native states 9,526 cases, of which 5,892 were fatal.

Joe Barton, a wealthy sheepman of Westfall, Malheur county, Or., was accidentally killed while stacking hay on his ranch, being struck by a derrick fork, one prong of which pierced his neck.

Peoria, 60 miles southwest of Dallas, Texas, was swept by a cyclone, killing three persons. Two churches, several dwelling houses and an immense amount of farm property was destroyed.

The first suit for damages growing out of the Fourth of July street car accident at Tacoma, in which 43 lives were lost, has been filed by Harry Gail, for the death of his son Harry, for \$5,000. Many other suits are expected.

Demand for harvest hands in Eastern Oregon is enormous.

More soldiers are needed for garrison duty in the Philippines.

Chinese reformers are using every endeavor to save the foreigners.

A mountain of gold bearing quartz is said to have been found in the Blue river district.

A daughter of Theodore Havemeyer, the sugar king, shot and accidentally killed herself.

Manila is now the counterfeiter's paradise. Big snap in making American dollars out of Mexican dollars.

Andy Smith, 70 years old, was struck with paralysis at Kalama, Wash., and when found had been four days without food or water.

Heavy rain storms are raging in Northern Wisconsin. All railroads have suffered from washouts. Hail did great damage to crops.

It is reported that 10,000 Boers are preparing to emigrate to America. President Kruger will refuse to surrender until his supplies are exhausted.

Theodore Grell, aged 80, an employe of the woolen mills at Oregon City, Or., was accidentally drowned while attempting to get into a boat to row home.

The American bark McNear was lost on a reef near Laysan island, near Japan. The passengers and crew spent two days on the water and landed on Laysan island.

Judge W. H. Washington, of Philadelphia, a direct descendant of Augustine Washington, father of George Washington, is dead at Castle Creek Hot Springs, Arizona, of consumption. He was 45 years old and a lawyer of recognized ability.

A Holland submarine torpedo boat may protect the port of Portland, Or. Two of the new ones soon to be constructed will be assigned to service on the Pacific coast, and one may come to the Columbia river.

The Washington government will take every precaution against violence to Chinese in the United States, which is intimated in some sections, in order that the force of our demand for satisfaction from China shall not be weakened by counter claims.

Chinese bugs are doing great damage to Kansas crops.

American trade with China is chiefly in the region where the disturbance is greatest.

A steam automobile was built in England in 1834. It was regarded as a curiosity.

An Oklahoma woman wants a divorce because her husband had killed 27 men. After the 26th she drew the line.

LATER NEWS.

Lebanon, Or., had a \$10,000 fire.

Lord Roberts has attacked Middleburg.

Tien Tsin and neighborhood are clear of Chinese.

Oriental war is affecting the world's money markets.

Forty persons were injured at a street car accident at Niles, Ohio.

The New York Republican state convention will be held September 4.

Minister Wu has word that the Pekin authorities are protecting the foreigners.

Crop prospects in the Pacific Northwest indicate a yield of 40,000,000 bushels of wheat.

The Cunary liner Campania cut in twain a bark, which sank at once, carrying down 11 men.

Colombian troops will fight the revolutionists outside of Panama, so as not to endanger the city.

Populists refused to go into the Idaho fusion, and nominated a full ticket, Democrats and Silver Republicans fusing.

Li Hung Chang got a cool reception at Hong Kong. Russia has called on the border provinces of Siberia for the reserves.

The Eight infantry is returning from Cuba to go to China. Heavy artillery has been ordered to leave Fort Kelly for the Orient.

Hawaiian plantation owners are trying to induce 5,000 Puerto Ricans to move to the Pacific islands on a three years' contract.

Documents relating to a plot against the American authorities in Manila have been found in a rebel recruiting office in San Miguel.

The Yaqui Indians, of Mexico, are reported to have broken up, and the government will offer them inducements to return to their farms.

The Fraser river fishermen's strike is now deemed beyond settlement, a serious collision between peace officers and strikers having taken place.

Count Castellane, husband of Anna Gonid, fought a duel with Count Orlovski in the suburbs of Paris, in which Orlovski was slightly wounded.

The executive council of the American Federation of Labor issued an appeal to all wage-workers to organize unions or join those already in existence.

The Chinese minister at Paris has notified Delcasse that the foreign ministers were safe July 18. The Belgian government has received word that they were alive on the 20th.

Smallpox is prevalent at Nome City.

Boxers are reported on the Korean frontier.

The shingle mill at Toledo, Or., was totally destroyed by fire.

There is said to be a lack of harmony between the allies in China.

Fire in Pomroy, Wash., destroyed property to the value of \$10,000.

Prince Tuan has an army of 15,000 men ready to fight the foreigners.

Republicans of Idaho nominated D. W. Standford, of Banook county, for governor.

Prince Tuan has issued an edict to fix a definite date for a general uprising in China.

The steamer Cutch has arrived at Vancouver, B. C., from Skagway, with \$300,000 in gold dust.

Milk dealers of Chicago are being prosecuted for using formaldehyde to preserve their product.

San Francisco Chinese may fight the boxers. American born Mongolians are organizing a national guard company.

The steamship Garonne, just returned from Alaska, has been chartered by the United States and will be used to carry supplies and troops to China.

England is alarmed over report that Chinese are invading Siberia, thus giving Russia an excuse for descending on Pekin and holding territory conquered.

Germany, Russia and France have come to an agreement regarding future action in China. Russia will carry on a separate campaign against Pekin on the north.

The Chinese embassy is alleged to have proposed to Japan a wholesale massacre of foreigners in both countries. Li Hung Chang is said to have been implicated in the affair.

The postoffice department has ordered that beginning August 1 all mails for the Hawaiian islands shall be forwarded exclusively to San Francisco or other American ports for dispatch, and that the present practice of dispatching these mails via Vancouver, B. C., be discontinued.

New locomotives just put on by the Denver & Rio Grande Railway have an unique attachment as a safeguard against robbers, in the way of a nozzle on the roof of the cab. These connect with the hot water of the boiler, and point at the rear end of the tender. The nozzle can send a mixed stream of steam and boiling water at 200 pounds pressure that would kill anyone in its range.

A Birmingham, N. Y., school teacher whipped a school boy and exploded a torpedo. He may die.

A six year old boy at Acorn Ridge, Mo., shot his brother dead as the result of a quarrel.

Japan has appropriated 50,000,000 men or war purposes. A yen is about the same as our dollar.

The Christian Endeavor convention in London will be attended by 10,000 delegates, 8,000 from America.

GIVEN HIS PASSPORTS

Russia Sends the Chinese Minister Home.

DIPLOMATIC RELATIONS SEVERED

The Chinese Invasion of the Amur Province is Equivalent to a Declaration of War Against Russia.

New York, July 21.—A dispatch to the Journal and Advertiser from London says:

The Chinese invasion of the Amur province is equivalent to a declaration of war against Russia, which, construing it as such, has handed the Chinese envoy at St. Petersburg his passports today and requested him to leave the country, along with the members of his mission.

The importance of this Chinese declaration of war against Russia, of this bold invasion of Russian territory, lies in the fact as the matter now stands, that it virtually releases the czar from his obligations to the foreign powers to act in concert with them in China. He is placed thereby in a position to act independently, not only with reference to the defense of his dominions against the Chinese invasion, but also as regards the carrying of war into the enemy's country and an eventual march upon Pekin.

Should a Russian army, proceeding from Siberia, reach Pekin and capture it before the allies could get to it from the Pacific coast, the czar would be able to dictate terms to China independently of the other powers, and without any regard to their wishes, virtually establishing himself as master of the country.

The British and German governments, alarmed at the idea of this eventuality, have today decided to abandon the policy which they have pursued until now and to declare war upon the Chinese government, thus placing themselves in line with Russia and France, and the United States is expected to follow suit immediately.

France has, indeed, already issued, today, a decree forbidding the sale of arms or war material of any kind to the Chinese, while Germany has already prohibited the Chinese envoy at Berlin from communicating with his government except through the German foreign office, and is preparing to give him his passports. Here in London, the Chinese minister has already packed all belongings, removed his boys from the schools and cancelled all his engagements, so as to be ready for immediate departure.

In addition to the corps of the Imperial Chinese army, which has invaded Siberia with orders to drive all foreigners out of the rich gold-bearing Amur province of the czar, there are five other corps, one of which is engaged in destroying the Russian railroad in Manchuria and in driving all the foreigners, especially the Russians, from the northern portion of the empire; another is to occupy the roads between Pekin and Shan Hai Kwan; yet another is to concentrate at Nanking, while columns are being directed in hot haste to Tien Tsin, to the borders of Corea, and to the neighborhood of Shanghai.

Altogether the Pekin government is estimated to have under arms at the present moment no less than 1,000,000 men, splendidly equipped with Mauser rifles, smokeless powder and quick-firing ordnance, and carefully trained under the direction of Danish and German officers. This huge army is under the orders of Prince Tuan.

In addition to this, there is the Chinese fleet, reconstructed and reorganized since the war with Japan, and comprising 15 first-class cruisers or the very latest type. These are cruising about the Yellow sea, with their decks cleared for action.

Inasmuch as five vessels of the allied fleet, including the British battleship Terrible, are cruising about in the same waters, reconnoitering various towns and forts and inviting the latter to open fire upon them, news may be expected at any moment of a naval battle.

Nine other foreign men-of-war are at anchor off Shanghai, with the object of assisting in the defense of that city in the event of its being attacked by the big Chinese army, which is now within one day's march of the place.

THE HOT SPELL.

Caused Seventy Deaths at New York Yesterday.

New York, July 20.—The hot weather today caused or contributed toward the death of more than 70 persons in this city and vicinity. As many more stricken ones are in the hospitals, and some of them will succumb before the night is over. More than half the fatalities were among babies and little children, and there are now about 40 bodies of the little ones lying at the morgue at Bellevue.

This was the third day of the spell of intense heat. Late tonight the temperature moderated. Early this morning the sun began its deadly work, and before the day was fairly well started the hospitals were busy. On the streets the temperature ranged from 93 to 105, and the official report from the weather bureau, high above ground, was 94 deg. shortly before 5 o'clock tonight.

One death was from an attempt at suicide made while the subject was crazed with the heat. Many little children are badly hurt by falls from fire escapes, on to which they had crawled for relief from the oppressive weather.

Horseless Artillery.

Chicago, July 21.—A piece of "horseless" artillery, otherwise a Colt's rapid fire, mounted on an automobile of special construction, today started on an experimental trip from Fort Sheridan to Washington. The carriage, besides the gun, carried Major A. P. Davidson and three cadets from the Northwestern military academy. Miss Helen Gould, accompanied by General Joseph Wheeler, saw the party set out from Fort Sheridan early in the day. General Wheeler gave Major Davidson a note to be delivered to General Miles in Washington, while Miss Gould wished them good luck, and remarked that if the automobile could be used for carrying guns, it could be used for Red Cross work. The vehicle is a four-wheeled contrivance, weighs 2,300 pounds, and is driven by gasoline. At Washington Major Davidson will endeavor to demonstrate that the invention is practicable for use in actual warfare.

Terrific Weather in Europe.

London, July 20.—Terrific bad conditions throughout Europe. The mercury indicated 85 degrees in the shade this morning. The hospitals are busy caring for victims of heat prostration. Nine fatal cases are reported today. Laborers are obliged to knock off work during the hottest hours of the day.

AUTHOR OF IT ALL.

Li Hung Chang Looked Upon as Originator of the Plot.

London, July 21.—The Shanghai correspondent of the Daily Express says: "Intense indignation is felt here at the honors in Hong Kong that have been accorded to Li Hung Chang, who is looked upon in Shanghai as the originator of the whole fendish anti-foreign plot."

"A Chinese merchant who has just arrived from Pekin gives horrible details of the massacre. He says he saw European women hauled into the street by shrieking Boxers, who stripped them and hacked them to pieces. Their dismembered limbs were tossed to the crowd and carried off with howls of triumph. Some were already dead, having been shot by foreign civilians. He says he saw Chinese soldiers carrying the bodies of white children aloft on their spears while their companions shot at the bodies. He gives other details too horrible to be particularized here."

"It seems that the Boxer leaders had organized a plan, including the offering of rewards and rich loot, for the annihilation of Europeans throughout China, and that Prince Tuan's soldiers have been emphasizing the opportunity the soldiers have had of seizing the bodies of white women."

TORTURED BY BOXERS.

The Terrible Fate of One of the First Victims.

San Francisco, July 21.—A Chronicle special from Victoria, B. C., says: "Advice received from North China contain particulars of the awful torture inflicted on the Rev. H. V. Norman, who, with Rev. C. Robinson, was among the first of the American missionaries to become victims of the Boxers."

A correspondent writing from Tien Tsin on July 7, says some refugees who had arrived there gathered from Chinese ghastly details of the torture inflicted on Norman.

It seems that he fell into the hands of Li, the head man of a little town hard by the little Anglican mission, where he and Robinson had their headquarters. In a quarrel between Boxers and Christians, the converts had driven off the Boxers from the mission and Li vowed vengeance. This he took in a horrible manner when Norman was thrown into his hands.

After his capture by the rioters, from whom Li took the captive, the missionary was stripped of the retinue of Li and a collar of iron fastened to his neck. A short chain was attached and he was tethered to a stake. The Chinese men, women and children then poked sharp sticks into his flesh and jabbed him with tridents. When he sank down, weak with the loss of blood and half crazed by the awful torture, and was unable to get upon his knees even, the chain being too short, he was thrown on his nude body and as he writhed in agony, he was stabbed to death. His body was cut to pieces.

Robinson, the other missionary, was slaughtered without being so long in agony. He was cut down by a mob and hacked to pieces almost instantly. A number of the mission converts were slaughtered. Some were asked to recant and those who did so to save their lives were saddled and bridled and forced to crawl to the temple idols.

THE HOT SPELL.

Caused Seventy Deaths at New York Yesterday.

New York, July 20.—The hot weather today caused or contributed toward the death of more than 70 persons in this city and vicinity. As many more stricken ones are in the hospitals, and some of them will succumb before the night is over. More than half the fatalities were among babies and little children, and there are now about 40 bodies of the little ones lying at the morgue at Bellevue.

This was the third day of the spell of intense heat. Late tonight the temperature moderated. Early this morning the sun began its deadly work, and before the day was fairly well started the hospitals were busy. On the streets the temperature ranged from 93 to 105, and the official report from the weather bureau, high above ground, was 94 deg. shortly before 5 o'clock tonight.

One death was from an attempt at suicide made while the subject was crazed with the heat. Many little children are badly hurt by falls from fire escapes, on to which they had crawled for relief from the oppressive weather.

Transported Sail.

San Francisco, July 19.—The United States army transport Summer, bearing a detachment of troops, surgeons and hospital assistants, sailed today for Nagasaki where it is generally believed further orders will be received directing the vessel to proceed to Taku, China. At least two officers who were on the transport are under direct orders to join the forces under command of Brigadier-General Adna R. Chaffee, at Taku.

Mrs. J. S. Felton, of Corvallis, Or., whose husband died some months ago, has been endeavoring to support herself by raising chickens, but is having hard luck. Of 300 fowls she has raised, thieves have stolen all but three dozen.

Sidney Edgerton.

Akron, O., July 21.—Hon. Sidney Edgerton, aged 82, died here today. He was the first justice of the supreme court of Idaho, and the first governor of the state. He was twice elected congressman from this district.

Chicago, July 21.—James Nicol, vice-president of the Chicago board of trade, was suspended for one year at a meeting of the directors tonight. The charge was bucket-shopping.

ACCURATE SAMPLING

Considered Essential to Accurate Assaying.

A PRACTICAL MINER'S VIEWS

Protests Against the Use of Assay Certificates as Documentary Evidence.

"Accurate sampling is quite as essential as accurate assaying, for if the sample does not truly represent the lot, or mass, from which it was taken, the subsequent assays will be valueless. The assayer on chemist will usually receive the samples already prepared, but as he will occasionally be called upon to take his own sample a knowledge of the art of sampling is essential."

In the Northwest a majority of the samples brought to an assayer are taken by the prospector, or other interested party, and as the assay certificates are often used as the documentary evidence of the value of the property, the assayer should be very careful to state on the face of such certificates exactly from whence he obtained the sample on which the assay was made.

If an assayer samples the ore himself, he owes it to his client to state, as it doubles the value of the certificate. If he did not take the sample himself he should place the responsibility of the sample where it belongs, by stating who did take it. Without some one known vouching for the ore of the sample, assay certificates should carry no weight as documents. This can best be accomplished by the assayer seeing to it that his printed certificate blank is worded to cover the desired points, telling the whole story, and protecting him from any after talk.

I must protest, also, against the habit of certain assayers in filling in the value of the ore on the assay certificate, as they do, at the price of the metal in marketable shape delivered in New York. It shows a gross ignorance on the part of the assayer as to the value of the ore here, and often misleads the prospector mightily, at the same time furthering and opening the door for fraudulent practice. I have seen, this summer, assay certificates upon which the copper of 5 per cent ore was figured out at 18 cents, equal to \$18 per ton, whereas no smelter could afford to pay more than about one-third that price.

A good practical rule to use in figuring out approximate values of a sulphide ore, at present market quotations, is as follows:

Allow \$1.25 for every per cent of copper the ore contains.

Allow 40 cents for every per cent of lead the ore contains.

Allow 50 cents for every ounce of silver the ore contains.

Allow \$20 for every ounce of gold the ore contains.

These values are for ore delivered on the line of railway.

The prospector has to sample his own claim and wishes to know the truth. Naturally, I ask how he is to do it, and the following remarks are for his benefit, not for the professional:

In sampling a lead, if the vein is so that it will all have to go for treatment, a section of uniform thickness right across the whole face of the lead should be taken for ore samples.

Another, and quite as satisfactory a method, is to sample all the rock that comes out of the prospect, or sample the dump, if there is any, by cutting channels through it on the same principle as in sampling a ledge.

It must always be borne in mind in sampling that there is liable to be a great difference between the dump and the fine ore, and consequently a due regard must be had to getting the proper proportion of each.

Hand-picked samples are never reliable, and should always be avoided. Experienced mining men frequently take hand samples of particular classes of the ore in a mine, have these assayed and often from these results they estimate what grade of ore they are mining. This may be correctly done, and it is wonderful how close to correct assays experienced men can "guess;" but it is uncertain at the best, and dangerous for inexperienced persons to attempt to be guided by such estimates.

Assays cannot be averaged, unless one knows the actual weight of the material represented by each assay, and only then by a long calculation, too long to describe here, except briefly.

In mine cases out of ten when the "average assay of a mine" is spoken of, it is incorrect and is usually obtained by adding up a number of separate assays and dividing the sum by the number of such assays. It is quite correct to take an average sample, have that assayed, and call it the average assay; but this is seldom done. The correct average assay may be obtained by multiplying the weight of each lot of the ore by the assay of such lot, and the product of such multiplication and divide this sum by the sum of the weights of the various lots of the ore. The quotient of such division will be "the only correct average assay" obtainable.

O. M. ROSENDALE, In Portland Telegram.

Castle Crag Tavern Burned.

Dunsmuir, Cal., July 23.—Castle Crag Tavern, a fashionable summer resort in the Sierra mountains, was destroyed by fire, together with its contents, at an early hour this morning. There were 800 guests in the hotel. All escaped without injury. The fire originated in the laundry. The total loss is estimated at \$200,000. The hotel was owned by the Pacific Improvement Company, one of the incorporations of the Southern Pacific Company.

NAGASAKI THE BASE.

Japanese Government Gives Its Cheerful Assent.

Washington, July 23.—As was anticipated, the Japanese government has given its cheerful assent to the application of the United States government for permission to land troops and military supplies at Nagasaki in transit to Taku, China. This privilege was desired in order that the Pacific transports plying between San Francisco and Manila should not deviate from the regular route, but that the troops and stock carried by them and intended for service in China might be transferred at Nagasaki to other vessels of the transport service and taken direct to Taku. The Japanese authorities not only have agreed to the proposed use of Nagasaki, but they also have assured the United States government that they will facilitate the movement of American troops and supplies as much as possible. The quartermaster's department of the army has provided three large transports of the Philippine service for use on the line between Nagasaki and Taku, and it is expected in this way to expedite the movement of troops to China.

The state department has issued the following bulletin:

"The secretary of state received this morning a dispatch from Consul Fowler at Chefoo, dated midnight, July 19, saying a Shanghai paper of the 16th said all foreigners were murdered. Fowler wired the government demanding the truth. The governor replied that his courier left Pekin on the 11th, and all then were safe, but Pekin, east city, had been carried by the rebels, with the intent to kill."

IMPROVED TOURIST SLEEPERS

Railroads Are Acceding to Demands of Middle Classes.

In response to the demands of the times the O. R. & N. and its connections are placing in operation a much better grade of tourist sleepers for Pacific Coast service than at any previous time. The largely increased traffic to this section of the country has demanded all the improvements of latter-day transportation, and in consideration of this the railroads are establishing a service which is excellent in every particular. Not only are the wishes of the first-class passengers served, but those who are traveling to and from the East on second-class tickets are splendidly cared for. There was a time when a tourist sleeper appealed to a limited number of people who were traveling on the "cheap" order, in every meaning of the term. Now, however, there has been a radical change. With the better tourist sleepers in operation the class of passengers has been improved, and one may now travel upon them and enjoy all the privileges of a first-class sleeper at a greatly reduced rate.

Daily, on the O. R. & N. east-bound fast mail, is attached one of these latest improved tourist sleepers, a model of beauty and handsome appointments. The new cars are almost an exact counterpart of the first-class sleepers.

One noticeable feature of the new tourist cars is the absence of a smoking apartment. The new cars being built by the Pullman Company are not provided with smoking apartments. This new departure has been taken because of the fact that most through trains are provided with composite cars, which provide a smoker for the sleeping-car passengers.

Two Mills Burned.

Spokane, Wash., July 23.—Fire this afternoon destroyed the large lumber plant of the Holland-Horr-Mill Company and caused a loss of \$30,000; insurance, \$13,000. It also destroyed the Crescent shingle mill; loss, \$2,000; insurance, \$1,000. A spark from the engine of the Holland-Horr mill was carried into a dust bin. The dust exploded and in a minute flames were sweeping through the mill. Two workmen were knocked down by the explosion and burned about the face and hands. In an incredibly brief period flames had extended to the lumber yards and soon acres of seasoned lumber were aflame. It was the hottest conflagration since the great fire of '39. Three firemen were overcome by the intense heat and smoke, but recovered later.

Troops to Leave Arizona.

Clifton, Ariz., July 21.—Orders have been received to put in readiness for leaving six troops of the Ninth cavalry (colored), which are garrisoned at Fort Grant, Huachuca and San Carlos, established to protect settlers in the several Apache regions of Arizona. The negro troops will be relieved by four troops of the Fifth cavalry at Jefferson barracks, Mo. The action will likely call for a strong protest from settlers, who claim they would be left unprotected from sanguinary Indians if the orders were made. According to reports received the six companies will go to San Francisco, probably the last of the month.

French Victory in West Africa.

Paris, July 23.—The Matin publishes a dispatch from Tripoli reporting a French victory in West Africa and the death of Rabat, former Sultan of Bornu, in the Sudan. The eldest son of Rabat was wounded in the fight. Omar Benigrahin has been placed on the throne of Bornu.

Sympathetic Strike Threatened.

St. Louis, July 23.—A special to the Post-Dispatch from Dallas, Tex., says: It has been informally decided by the Trades Association and American Federation of Labor that unless the strike trouble on the Consolidated street railway lines are settled by next Sunday, there will be a general walkout of the trades for the purpose of showing sympathy and through a general boycott and suspension of business compel arbitration. There are 4,000 men in the trades who will respond, it is said.

SHIP CUT IN TWAIN

Cunard Liner Campania Collided With a Bark.

THE SAILER SANK IMMEDIATELY

Seven of Her Crew Were Drowned—Campania Not Much Damaged.
