FLING AWAY CARE.

From this time on, during the next ten days, will be lively times in Portland. Ringling's circus shows there two days—yesterday and today—besides the street carnival, which is now in progress and will continue until Saturday, the 15th. To these attractions thousands of people will flock, bent upon seeing the sights and unconsciously, and with a lavish hand, spending the hard-earned dollars, the result of many months of steady labor. But why not? The annual outing must be had, and this occasion offers greater advantage to the granger for a pleasant time than others. The harvest is garnered and the equivalent in cash is in hand. The little articles which fancy pictures as an addition to the pleasure and comfort of the ordinary individual from the rural regions will be purchased in innumerable quantities, making the heart happy and former privations forgotten. While thousands of people will go to view the many attractions of the carnival, thousands of others will be attracted by the presence of the circus, and everybody will incidentally go to see the elephant. But what makes life worth the living? Certainly not the humdrum of everyday routine business affairs. Both mind and body need recreation, and certainly no better opportunity offers than a visit to the metropolis, where new faces, new and many attractions are encountered, even though the pocket book does suffer. Our advice to our readers is to fling care to the wayside for a day, at least, and steal away to the circus and carnival. Your time will be profitably employed and you will, in many respects, be amply repaid.

QUALITY AND DEMAND.

Supply and demand, as a matter of fact, regulate prices, but some of the farmers of this County have just recently encountered a new obstacle in the disposition of their products, especially hay. There can be no hue and cry raised about demand, unless it be failure to supply it. There has been a strong demand of late to supply the Government with 3000 tons to be shipped to the Philippines. Local merchants have made repeated strenuous efforts to supply a portion of the hay required, but to a degree failure has attended their efforts. The Government is somewhat exacting in the matter, but not overly so. It wants a good quality of hay, and is willing to pay for it, but the quality of such an article, especially in this vicinity, is limited. The Government's refusal to accept any and all kinds of material labeled hay is a very good lesson to some of our farmers that hay must be hay, not cheat, thistles, fern and other inferior and detrimental weeds and grasses. The great difficulty is neglected meadows. They have been allowed to "run out." The timothy that grows in many meadows forms but a very small per cent of what the ground produces, yet the product is prepared and put on the market regardless of its inferiority. There need be no surprise that difficulty in disposing of such an article is encountered. It falls far short in required quality and is labeled "refused" at the shipping station. To overcome this difficulty our farmers must plant and resow the grass ground. Such should be done at least every four years, and oftener would repay the effort. The less clover that is mixed with the timothy renders the product all the more salable. Hence, care in the growth of a good quality of timothy hay is becoming one of the necessities in agricultural pursuits in order to be successful. Good quality always commands good prices.

RAISE RATE OF ASSESSMENT.

It is evident that methods are soon to be inaugurated which will make capitalists or speculators, rather, weep. Most of the timber lands of the Coast Counties are now owned by speculators. On these lands taxation has not been burdensome, materially enhancing the inducement to buyers to acquire larger holdings. A plan is now well under way in Clatsop County to raise the valuation of timber lands next year. The average valuation of timber land in Clatsop last year was $1.92 an acre. The average in Columbia County last year was $2.35, which, perhaps, was somewhat too low, but under the circumstances it was as high as it justly should be placed. The rate in Clatsop County should be raised. Capitalists have flocked there and acquired title to thousands of acres of valuable land, yet the assessment is not anywhere near as high as that paid for improved land. The timbered lands mentioned possess far greater value than the improved lands and should be compelled to pay proportionately to their real value to their owner. The rate in Clatsop County is outrageously low. Two times the amount would be too low. In 1899, twenty-eight timber syndicates owned 102,000 acres of selected timber lands in Clatsop County, the assessed valuation being $195,000. It is the intention to assess this land at not less $2.50 an acre, which will increase the total assessed valuation by $86,770, and increase the total amount of revenue by over $3000. With this additional sum, many new roads can be constructed throughout the country districts. The matter has already been placed before the Assessor of that County, who favors it, and will assess the lands at $2.50 an acre. Even with this increase, the assessed valuation will be lower than that in neighboring Counties in Oregon and Washington. The timber lands of Clatsop County are being corralled by the big syndicates, many of which own more than 5000 acres. Timber is regarded as a great speculation, and almost every acre of good land in the County has been bought.

HALF of the last British loan was taken by the people in the United States, so that in place of this country having to work to pay interest to British holders of United States bonds, the process is reversed and the Britisher is now compelled to send money to this country to pay interest on his obligations. This is another condition which Bryan promises to change when he gets into power.

THE general prosperity of the farmers in all parts of the country, north, south, east, west, resulting from good crops and good prices is a legitimate vote maker for the Republican party. The Lord gave the good crops and the Republicans gave the good markets and no amount of political misrepresentation can deprive either of the credit due.

TAMMANY cuts ice, Clark draws the checks, the Red Shirts terrorize the negroes, others would furl the flag baptized with the blood of heroes like Lawton, and all this in the holy cause of Republican saving. Satan rebuking sin is not in the race when it comes to such monumental inconsistency.

THERE never was a time in the history of any country when its salvation depended upon a lot of office seeking political adventurers whose claim to statesmanship rested alone on criticising the work of better men and trying to delude the people with promises impossible to fulfill.

THE total vote of Alabama in the recent election was 150,000. Alabama has two United States Senators and nine members of the House of Representatives. According to the census returns there must be some "government without the consent of the governed" in that State.

Now that all the legationers and foreigners are safe, of course it is possible for some people to look back and see how little cause there was for real alarm at any time. The people who can look back and see things are as plentiful as ever, says the Chicago Inter Ocean.

THE volume of money in the United States, gold valuation, has increased more than $100,000,000 each year since McKinley's election. It is a financial fact of the first magnitude and refutes the silver argument heard most frequently four years ago.

THE population of Greater New York, as indicated by the count just given out by the Census office is 3,437,202. An approximate estimate of the increase since 1890 shows it to have been 37.2 per cent.

MR. PETTIGREW expects to be re-elected to the Senate, which is the hardest thing that could be said of South Dakota. The probability is that the State will repudiate him with a resounding thump.

AMONG the victims of the riot in Akron were a 10-year-old boy and a 4-year old child in its mother's arms. Judge Lynch's methods of procedure are subject to such incidents.

OF all monopolies brought to light this year the Tammany ice trust is the meanest, and Senator James K. Jones' round cotton bale trust the most voracious.

RED shirtism in North Carolina and Gobelism in Kentucky are omitted from all Mr. Bryan's speeches on "government without the consent of the governed."

WITH America and England out of it, the war in China will lose two of its best attractions and the center of the stage will be left to the little Japanese.

GOVERNOR BACON of Georgia is still hammering the Philadelphia platform; which is all right, as we suppose it is a case of root, hog or die with Bacon.

IT is evident that the man who is selling cruisers to the Sultan of Turkey on ninety days' time has not been reading the papers lately.

IN the prospective division of China it is perfectly clear at this stage of the game that Russia is not going to be satisfied with the neck.

NEVADA is the least populous of the States, but it has three electoral votes and they will be found on the right side in November.

"GENERAL" COXEY is also too busy with his steel plant to lead an army of the discontented on to Washington just now.

THIS is not a good time to make the American flag eat dirt. And besides there is no man big enough for the job.

AT last accounts "Coin" Harvey was farming a farm, having made all the money that he could farming the farmers.

WHERE are those "Tariff reform" philosophers who used to tell us that Protection "stifles" foreign trade?

ANARCHY is but the result of the work of those politicians who labor constantly to array idleness against thrift.

IF predictions were only electoral votes Chairman Jones would be able to elect several Presidents this year.

In China girls are called instead of Mary Ann or Marguerite, "Spring Peach," "Cloudy Moon," "Celestial Happiness," "Coming Odors," or what may not be considered so nice, "Come-along-a-little-brother," or "Add-a-younger-brother" or "Leading-everlasting-younger-brothers." The latter means that a son would have been more welcome than a little "go-away-child," as they call the girls. They belong to the family of the husband-to-be and do not count in the family of their birth, so that when a Chinaman is asked, "How many children have you," he makes no count of the girls, although he may have ten. The boys only he counts, and his reply will indicate only the number of boys. He gives his boys such names as "Ancestral Knowledge," "Ancestral Piety," "Practice Industry," "Able to Sing Out," "Second God of Learning," "Excite the Clouds," "Beginning of Joy," "All Virtue Complete." The little slaves who begin life as household drudges before they graduate lower answer to such names as "As You Please," "Sparrows' Crumbs," "Joy to Serve," "Your Happiness," "Not for Me."

Since the Presidential election is near at hand a copy of the electoral vote cast for McKinley and Bryan in 1896 will be of interest to our readers, and it would be well for you to cut this out and file it away, for you will have many occasions to refer to it:

Endured Death's Agonies.

Only a roaring fire enabled J. M. Garrettson, of San Antonio, Texas., to lie down when attacked by asthma, from which he suffered for years. He writes his misery was often so great that it seemed he endured the agonies of death; but Dr. King's New Discovery for Consumption wholly cured him. This marvelous medicine is the only known cure for asthma as well as consumption, coughs and colds, and all throat, chest and lung troubles. Price 50 cents and $1.00. Guaranteed. Trial bottles free at the St. Helens Pharmacy.

An Arkansas paper says in one of the mountain Counties only one man took a newspaper and the citizens from some distance around would gather in to hear it read when it came. One listener one time asked: "What are they doing in Congress?" "Oh," replied the reader, "they're playing the dickens over there. They passed a law adding two months to the year, and the worst part of it is they have made them both winter months." "Blame their fool heads," said the listener, "and we are nearly out of fodder."

THAT if there is anything the American people can't lick, from a revenue stamp to man-of-war, we want to see it?

THAT tradition says, "There is no joy in riches?" We would be willing to risk considerable sorrow just now to enjoy a little personal experience, anyway.

THAT a man in Walla Walla the other day purchased a cowboy hat and joined the Roosevelt club. Afterward he had to go to a certain place on business and was in a hurry. He saw a small boy with a bike and asked to borrow it, but the lad knowing the man too well, replied: "Sorry, but you can't have my bike, you are a rough rider."

A Mother Tells How She Saved Her Little Daughter's Life.

I am the mother of eight children and have had a great deal of experience with medicines. Last summer my little daughter had the dysentary in its worst form. I tried everything I could think of, but nothing seemed to do her any good. I saw by an advertisement in our paper that Chamberlain's Colic, Cholera and Diarrhoea Remedy was highly recommended and sent and got a bottle at once. It proved to be one of the very best medicines we ever had in the house. It saved my little daughter's life. I am anxious for every mother to know what an excellent medicine it is. Had I known it at first it would have saved me a great deal of anxiety and my little daughter much suffering.—Yours truly, MRS. GEO. F. BURDICK, Liberty, R. I. For sale at the St. Helens Pharmacy.

How About Your Title?

ARE YOU SURE it is all right? Remember that it is the RECORD that governs. It is our business to search the records and show what they contain in relation to land titles. If you contemplate buying land or loaning money on real-estate security, take no man's word, but insist upon knowing what the record shows regarding the title. An Abstract is as essential as a deed. Insist on having it. We have the only set of abstract books in the county. All work promptly executed and satisfaction guaranteed. If you have property to insure give us a call. We are agents for the best fire insurance companies in the world. If you have property for sale list it with us and we will find a buyer.
