

Men, Remember This Fact

That in addressing Mrs. Pinkham you are communicating with a woman—a woman whose experience in treating women's ills is greater than that of any living person—male or female.

A woman can talk freely to a woman when it is revolting to relate her private troubles to a man.

Many women suffer in silence and drift along from bad to worse, knowing full well that they should have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probable examination of even their family physician. It is unnecessary. Without money or price you can consult a woman, whose knowledge from actual experience is unequalled.

Women suffering from any form of female weakness are invited to freely communicate with Mrs. Pinkham at Lynn, Mass.

All letters are received, opened, read and answered by women only.

This is a positive fact—not a mere statement. It is certified to by the mayor and postmaster of Lynn and others whose letters, all in a little book, Mrs. Pinkham has just published. Write for a copy. It is free. Thus Mrs. Pinkham has established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken and has induced more than 100,000 sufferers to write her for advice during the last few months.

Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Here are some of the cases we refer to:

Mrs. Pinkham Helps Two Women Through Change of Life and Cures Another of Sterility. Read Their Letters.

"DEAR MRS. PINKHAM—I feel that it is owing to Lydia E. Pinkham's Vegetable Compound that I am alive today. It has taken me out of a sick bed where I had lain for six weeks with a good doctor to tend me twice a day. My trouble was a change of life, had frequent hemorrhages. Your medicine checked the flow right away. I am now able to do all my work, and backache is unknown. I am forty-three years of age and enjoying good health."—Mrs. ANNIE FOSTER, Cascade Locks, Oregon.

"DEAR MRS. PINKHAM—When I first wrote to you, I was in a very bad condition. I was passing through the change of life, and the doctors said I had bladder and liver trouble. I had suffered for nine years. Doctors failed to do me any good. Since I have taken Lydia E. Pinkham's Vegetable Compound my health has improved very much. I will gladly recommend your medicine to others and am sure that it will prove as great a blessing to them as it has to me."—Mrs. GEO. H. JUNE, 601 De Kalb Ave., Brooklyn, N. Y.

"DEAR MRS. PINKHAM—It was my ardent desire to have a child. I had been married three years and could not become a mother, so wrote to you to find out the reason. After following your kind advice and taking Lydia E. Pinkham's Vegetable Compound, I became the mother of a beautiful baby boy, the joy of our home. He is a fat, healthy baby, thanks to your medicine."—Mrs. MINDA FINKLE, Koscoe, N. Y.

Two More Women Who Acknowledge the Help They Have Received from Mrs. Pinkham.

"DEAR MRS. PINKHAM—The doctor says I have congestion of the womb, and cannot help me. There is aching in the right side of abdomen, hip, leg, and back. If you can do me any good, please write."—Mrs. NINA CHASE, Fulton, N. Y., December 20, 1897.

"DEAR MRS. PINKHAM—I followed your instructions, and now I want every woman suffering from female trouble to know how good your advice and medicine is. The doctor advised an operation. I could not bear to think of that, so followed your advice. I got better right off. I took six bottles of Lydia E. Pinkham's Vegetable Compound and used three packages of Sanative Wash; and now I feel better than I have for years."—Mrs. NINA CHASE, Fulton, N. Y., December 12, 1898.

"DEAR MRS. PINKHAM—Have been suffering for over a year and had three doctors. At time of menstruation I suffer terrible pains in back and ovaries. I have headache nearly every day, and feel tired all the time. The doctor said my womb was out of place. Would be so glad if you could help me."—Mrs. CARL VOSS, Sac City, Iowa, August 1, 1898.

Please accept my sincere thanks for the good your advice and Lydia E. Pinkham's Vegetable Compound has done me. I did everything you told me to do, and used only three bottles, and feel better in every respect."—Mrs. CARL VOSS, Sac City, Iowa, March 23, 1899.

STRIKE AFFECTS TRADE.

Prices, however, still have an upward tendency.

Bradstreet's says: The unfavorable turn given the general industrial situation by the strike of anthracite coal miners and the possibility of wage disputes in the iron trade, with rather less activity in the latter industry, and some increase of weakness in the prices of cedar forms, have given an appearance of irregularity to the general trade and business situation. On the other hand, the course of staple prices has been very generally upward this week, fall distribution of dry goods, clothing, hats and millinery have been of large volume at nearly all markets; there is a decidedly better tone noted in the boot and shoe and kindred trades, and the strength of cotton goods, though apparently in excess of that shown by the raw material, has been regarded as indicative of confidence on the part of manufacturers.

The premature ripening due to the hot dry weather is responsible for part of the heavy movements of cotton to market, but back of this, of course, is the desire to profit by the exceedingly good prices ruling. The rash of receipts has been too much for the ball movement, however, and the prices are materially lower on the week.

Reports of damage of grain in shock in the Northwest and reinforced by Northwestern buying at Chicago, furnished the key to the advance of nearly 2 cents in wheat this week.

Wheat, including flour shipments, for the week aggregate 3,535,837 bushels, against 4,855,932 bushels last week.

Business failures for the week in the United States number 183 as against 167 last week.

Canadian failures number 21, as against 24 last week.

DURING THE GOLD FEVER.

Nissapina Were Played with Bottles of Champagne in Melbourne.

Gold threatened to become as common as silver in the days of Solomon. In one year \$12,000,000, in eight years \$25,000,000, were won. Some men at Golden Point made as much as \$400 each a day. Another exceptionally lucky party unearthed thirty-four pounds of gold in one day. No wonder that such "pockets" were termed "jewelers' shops." Occasionally a nugget worth \$10,000 was unearthed. The result of this sudden influx of wealth almost without labor, and with risks which are infinitesimal as compared to Klondike, was the temporary demoralization of the population. Melbourne, in the height of the gold fever, has been described by one who knew it well as "a fevered, drunken, delirious pandemonium." The lucky ones—and there were thousands of them—squandered their riches in the most reckless fashion. Some of their fantastic tricks would scarcely be credited were they not attested by witnesses still living. The game of nippina, we are told, was played with bottles of champagne, for which he who broke last had to pay; dozens of the same costly wine were emptied into tubs, and drunk from tin pans, and beer being added to give "body" to the beverage; one man, in imitation of Calligula, shod his horse with gold; sandwiches made of banknotes were devoured; silver wrapped up in banknotes was thrown to popular actresses instead of flowers; in fact, money was so plentiful that the reckless diggers could not "knock it down" fast enough. They thought they only had to dig a few feet in the earth to get plenty more, and for a time it almost seemed as if this were so. Such were some of the characteristics of Victoria's hot youth.—Pall Mall Magazine.

SHE WAS A PROVIDENT BRIDE.

How a Young Woman Saved Money for a Wedding Toast.

A promising young lawyer who has an office in the Girard Building has just made the delightful discovery that his fiancée is also a financier. The young man's sweetheart resides in Germantown, and for several months past he has called upon her regularly twice a week. When he first met the girl, two years ago, he was, of course, extremely anxious to make a good impression, and he lavished many presents upon her. The girl's parents are quite well to do, but she disapproves of any sort of display or prodigality, and when, in the natural course of events, the young man proposed and was accepted, she felt it to be her privilege and her duty to read him a little lecture on "Economy." She called his attention to the fact that every time he called he had been in the habit of bringing flowers and candy to the value of a dollar or two. She suggested that in the future he should discontinue the presents, handing over a silver dollar instead whenever he came to see her. He laughed, for he thought she was joking, but she speedily assured him that she was much in earnest. So he paid his dollar regularly, and finally came to the conclusion that the money was being devoted to charity. The wedding day was set for next month, and an extended tour was contemplated. Unfortunately, the young lawyer recently took a "flyer" in stocks, and dropped so much money that he had to notify his fiancée that their wedding trip must be dispensed with. The dear girl laughed at him, and leaving the room for a moment, presently returned with a satchel containing 250 silver dollars. Their plans will not be changed.—Philadelphia Record.

HIS SINGING RELEASED HIM.

Prisoner Tries His Voice and Is Discharged From Custody.

A few years ago a young man dressed in tattered clothes was locked up at the Desplains street police station charged with disorderly conduct. Though his clothes were torn and his hair unkempt made his appearance look like that of a tramp, he was not. In the eyes of the policeman who arrested him for doing nothing he looked like an ordinary beggar.

He was taken to the police station regardless of his pleadings and put in a dingy cell, where he spent nearly two days, and had it not been for the police captain he might have stayed there longer.

It was while the other prisoners were being tried in court and the police captain was sitting in his private office looking over reports that a sweet tenor voice was heard singing "My Old Kentucky Home." The moment the sweet notes were coming from the cell, the captain listened a moment and dropped the reports he was reading on his desk until the song was finished.

When the song was finished the captain ordered the prisoner to be brought before him. When the singer, who was the shabby-dressed young man, appeared before the police official, the latter asked the young man to repeat the song, which he did.

When he had finished the officer looked at him a moment and said, "Young man, you have a good voice." When the captain asked him where he lived and what he did he bowed his head as if in sorrow and refused to answer. When the police official learned under what charge he was being held a prisoner he ordered his release. The singer, after thanking the captain, strolled slowly out of the police station into the street and wandered away. His identity is still a mystery.—Chicago Chronicle.

A Singular Monstrosity.

A writer in Science describes a curious monstrosity which has come under his observation. This is a cock with no signs of spurs upon the tarsal, but with a couple of well-developed spurs upon the head, on either side of the comb, giving the creature the appearance of being horned. These mock spurs are not attached to the skull, whatever they may originally have been, but are loose. Instances are on record of spurs being grafted on to combs, but, so far, no similar case is known to have occurred in nature.

An Aitchison Man Who Has Twelve Children Recently Starved to Death While at the Dinner Table; before he had served them all death came to his relief.

Many a woman, sick and weary of life, dragged down by weakening drains, painful irregularities, depression, and the hundred and one ailments which affect women only, has found in Per-na a bright star of hope, which has changed her misery to joy, her suffering to health.

No woman need suffer from the derangements peculiar to her sex, if she will give Per-na a fair trial.

The majority of weaknesses which make woman's life a burden, spring from a simple cause. The mucous membrane which lines the pelvic organs becomes weakened and inflamed owing to strain, cold, overwork, etc. This causes catarrhal congestion, inflammation, the eyes, changes in depression of spirits, irritability, weakness and suffering. It shows in the haggard lines of the face, the dull eyes, the shallow complexion and angular form.

For the prompt cure of such ailments try Per-na. It drives away "the blues," clears the complexion, brightens the eyes, changes thinness to plumpness, and cures pain, aches and drains, because it immediately strikes at the root of such troubles and removes the cause.

The trouble with the air castle girls build is that they are all parlor and music room, with no kitchens attached.

After all, we know but little about this world of ours. There are great broad roads intersecting the ruins—roads such as China cannot show today—and Hedlin says that everything in the city was built upon a grand scale.

A Mechanical Resuscitation.

Professor Laquerde, of the Academy of Medicine, Paris, and M. Auguste Mouchel have devised a little machine for restoring persons in a state of suspended animation to life by the method of "lingual traction," a method now used with great success in cases of drowning, lightning stroke, electric shock and suffocation. The tongue is drawn out rhythmically, so as to stimulate the breathing organs, and this method has been effective in cases given up as hopeless, but only after a very long application. The friction sometimes needs to be kept up for three hours before reanimation, and, as the new machine is worked by an electric motor and quite automatic, it saves much laborious exertion, and can save life where the usual methods would fail.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and resorted to local remedies, and by constantly telling to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It cures Catarrh in any case it fails to do so. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c.

Croquet Still Popular.

It was generally supposed that croquet had gone altogether out of fashion, but on many lawns of country houses where formerly tennis nets were stretched croquet wickets and hoops are once more seen. It has been found that tennis is too violent a game for the majority of women and golf makes a greater demand on the time and patience of women than most of them can afford. Croquet is found to be a more suitable and convenient relaxation.

Metric System in Russia.

It is probable that the metric system will be introduced before long in Russia; the bill which has been prepared to this effect by the minister of finance has received the approval of the state council, with the understanding that the university and the various scientific societies will give their assistance in the verification of the weights and measures necessary for commercial use. The details have been nearly all decided on, and will be submitted to the council in the near future. Since 1896 the metric system has been used by the medical service of the army in the compounding of formulas, this having been made obligatory.

King as a Father.

King George, of Greece, as the father of a family, may serve as a model. The first thing he thinks of is the education and welfare of his children. At the time of the departure of Prince George for Crete, about a year ago, there was a painful scene at the palace. The king, notwithstanding the efforts he made to hide his emotion, could not withhold his tears, and when his son threw himself into his arms, asking if he had any orders to give him, King George replied in a voice full of affection: "I have no orders to give you, my child. Providence will guide you. Go, and rely on the grace of God."

The impression is gaining that pigeons are not so useful for long ocean flight as has been believed.

Eruptions

Dry, moist, scaly letter, all forms of eczema or salt rheum, pimples and other cutaneous eruptions proceed from humors, either inherited, or acquired through defective digestion and assimilation.

To treat these eruptions with drying medicines is dangerous. The thing to do is to help the system discharge the humors, and to strengthen it against their return.

Hood's Sarsaparilla permanently cured J. O. Hines, Franks, Ill., of eczema, from which he had suffered for some time, and Miss Alvina Walter, Box 212, Algona, Wis., of pimples on her face and back and chafed skin on her body, by which she had been greatly troubled. There are more testimonials in favor of this great medicine than can be published.

No External Symptoms.

The blood may be in bad condition, yet with no external signs, no skin eruption or sores to indicate it. The symptoms in such cases being a variable appetite, poor digestion, an indescribable weakness and nervousness, loss of flesh and a general run-down condition of the system—clearly showing the blood has lost its nutritive qualities, has become thin and watery. It is in just such cases that S. S. S. has done some of its quickest and most effective work by building up the blood and supplying the elements lacking to make it strong and vigorous.

SSS is the greatest of all tonics, and you will find the appetite improves at once, strength returns, and nervousness vanishes as new rich pure blood once more circulates through all parts of the system.

S. S. S. is the only purely vegetable blood purifier known. It contains no minerals whatever. Send for our free book on blood and skin diseases and write our physicians for any information or advice wanted. No charge for medical advice.

JOHN POOLE, PORTLAND, OREGON, can give you the best bargains in general machinery, engines, boilers, tanks, pumps, pipes, belts and windmills. The new steel 1 X 1 windmill, sold by him, is unequalled.

Situations IN BUSINESS OFFICES

are open to two classes of persons. (1) Those who write well, are accurate in figures, understand bookkeeping, etc. (2) Those who are skilled in shorthand and typewriting. Persons who are proficient in both lines are better off still. They are always given the preference. We teach all these branches, and many more. Investigate our work. It will pay. Call, or write.
