RUMORED ENTERPRISES.

Air-Full of Projected Undertakings for This County.

There are numerous enterprises projected for this county to be consummated during the present year, so rumor says, and there seems to be pretty good prospects that there will be something more tangible than talk come out of all the rumors.

Some very extensive work is to be done in the vicinity of Clatskanie this spring in the way of building flumes and mills, etc., which will be very valuable improvements to that section of the county. In fact, this work is already in progress, which will increase the volume of business to be done in that vicinity, and will improve business conditions very materially.

The Goble railroad, which some time ago was sold under the hammer, has been purchased by Eastern people, together with a large body of splendid timber, and the new owners say they intend to revive operations with their logging road, besides, they contemplate the location and operation of a large mill about where the road reached the river. This improvement will be one of great importance and magnitude, not only to that section, but to the entire county, and it is certainly to be desired that there will be no slip in the plans as at present talked of.

Besides these undertakings there are others and views in the country back of Deer Island, said to be locating a route for a logging railroad to be terminated at or near Columbia City, where a large sawmill is contemplated. At that point is a splendid location for a mill, being on the river and railroad, and where there is not only a good opportunity for boonnage, but where the depth of water is ample for the safe harboring of any sized ship. There is a splendid body of timber west and south of Deer Island, owned, largely, by local people, who are endeavoring to promote this enterprise.

There is a possibility, also, that the Muckles mill at this place may be started in operation during the present year, not necessarily to run on the exclusive manufacture of lumber, alone, but there may be some new machinery installed and the plant operated in the manufacture of door stock, for which there is said to be a greater demand than can be supplied. There may not be anything of this talk, but the owners of the mill property here are now working on such a plan, and if the necessary encouragement can be had there may be something more than talk materialize.

The resources of this county are practically untouched, and there is reason in the belief that "hot air" is not all there is behind all these rumors. At least, let us hope that out of all of this talk there may come some material benefit to the county.

THE RUNYON ENTERPRISE.

Increased Facilities Being Added to Plant of Flume Co.

One of the foremost business enterprises of Columbia county is the plant of the Beaver Flume and Lumber Company, on the Beaver, the location of the offices and terminals being at Runyon station, on the Astoria road. This company will very soon have a plant in readiness that will give employment to up to 100 men, there being about forty men employed at the present time. There has been added to the equipment of the plant a steam wood sawing machine for cutting wood for railroad locomotives, and about forty cords a day can be turned off. This machine was installed at a cost of \$600, and is an adjunct that will increase the business capacity of the plant to a wonderful extent. The company is getting out a large number of cedar poles, besides a stock of shingle bolts for utilization at the large shingle mill just completed there. The Beaver Flume and Lumber Company is one among the leading enterprises of the county, and the advent of the energies expended by the company is opening up one of the best sections of the county.

SHERIFF HAS TAX ROLL.

Big Rush to Pay Taxes Before the 15th of March.

The county clerk finished with the work of extending the tax on the 1901 roll last Sunday, and Monday morning the big book was turned over to Sheriff Hattan, with the warrant of the clerk attached, and the sheriff is now engaged in the work of notifying taxpayers of the amount due from them. The first day the sheriff had the roll he collected over \$300, and there is good prospect that a great part of the amount due on the roll will be collected by the 15th of March, the desire being to take advantage of the 3 per cent discount. The total amount to be collected on the roll is \$57,715.75, divided into the several funds as follows:

Table with 2 columns: Fund Name, Amount. Includes State tax, State agricultural college, Total to pay state, County general fund, County school tax, Road tax, Special school tax, Soldiers' and sailors' fund, City of Vernonia (special), P.O.s, etc.

Before there will be any funds applicable to the payment of county warrants the state tax and the county school tax will have to be paid, the law so requiring, amounting to \$17,390.72. This amount will not be paid in by the middle of next month.

Deer Island Notes.

Mrs. DeVeve Milbrad, of Portland, is visiting with her sister, Mrs. Albert Adams, who is very ill.

Mr. J. M. Payne was a visitor to Hood River last week, looking for a place to locate, but says this place suits him, as they want \$500 an acre for their land up there.

Mr. and Mrs. E. Merrill moved to Portland Wednesday, where they expect to stay for a year or so, hoping the change will benefit Mrs. Merrill's health, and to send their daughters to school.

The friends and relatives of Mrs. Susie Gragg made her a surprise dinner last Saturday, February 23d, it being her 76th birthday. After dinner the ladies gave several selections in music, both instrumental and vocal, everyone expressed themselves as having a good time and after wishing "grandmas," as she is generally called, many happy returns, departed for their homes. Those present were: Mrs. Susie Gragg, Mr. and Mrs. A. J. Gragg, Mr. and Mrs. S. Gragg, Mr. and Mrs. E. Merrill, Miss Susan Gragg, Mrs. Ann Gray, Mr. and Mrs. Matt. Mr. and Mrs. Malcolm, Mr. and Mrs. P. Clark, Mr. and Mrs. Shearer, Mrs. C. H. English, Misses Bessie Malcolm, Susie and Iona Merrill, Effie McDonald, Minnie Clark, Frances Gragg, Messrs. Chas. English, Geo. Merrill, S. Klunder, J. A. Holiday, Walter George, Orville Malcolm, Harold English, Elmer Shearer.

We have on hand now a stock of blank receipt books of our own manufacture. These receipts are roomy and each book contains one hundred blanks.

Correcting Grade Books.

Assessor White and deputy, Chas. Blakeley, have been engaged for the last two or three weeks in correcting the grade books for the past year and making the necessary changes in the present ownership books, all of which involves a great amount of diligence and labor. No year in the history of the county equals the past year in numbers of transfers of real estate, consequently the correcting of the grade books has developed into a big task. This work is done in order to make certain of the proper owner of the particular piece of land on the first day of March, which is known as "base day," so designated by law, and the assessment of all property is made in accordance with who the owner was on the first day of March of each year. Just as soon as this work is completed Mr. White will start into the field to make the assessment for the year 1902.

Mr. Frakes Not a Candidate.

County Commissioner Frakes is not a candidate for re-election, as will be seen by the following letter received from that gentleman:

SCARROON, Feb. 22.—(TO THE EDITOR.)—I have heard it said that I am a candidate for re-nomination for the office of county commissioner. I want you to announce through your paper that under no circumstances will I accept the nomination. I hope this will be all that is necessary to stop the rumor.

DEMANDS ATTENTION.

Things Easily Done to Improve Conditions for Better Health.

In suggesting ways and means for improving the appearance of your premises it is easy to make large generalizations as to methods. Unfortunately, however, the force of large and comprehensive statements is so dissipated that it strikes nowhere with any effect. We say we ought to improve our appearance and condition generally, and everybody says "amen." The assertion is too general. It gives every man a chance to say, that his Jones, across the street, but it didn't touch me. Let this be an apology for getting down to particulars. How does your door yard look? If you have never mowed the grass before, begin this year. If you can't afford a lawnmower, get a scythe. There is plenty of moisture to keep your lawn green up to July if you will give it a little attention. Why not do it? It will help the looks of your place wonderfully, and won't cost anything but a little labor.

How is your back yard? A pretty good way to judge a man is by his back yard, you know. Is yours full of old tin cans, broken crockery, discarded kitchen utensils, cast-off clothing and other disgusting clap-trap? Get it in a pile, burn what is combustible and hire a man to haul off the remainder. This will give you a 10 per cent boost in the estimation of all clean and orderly people, yourself included.

Do you have a lot of old moss-covered fruit trees in your yards? Trim out the top, scrape off the moss; buy 10 cents worth of lime, catch a pail of rainwater, make a gallon of whitewash and whitewash the trunks. This will improve the health of the trees and add wonderfully to the looks of your place.

Do the slops from your house run out through a spout in the wall and fall into a disgusting, disease-breeding pool outside? You had better stop that kind of thing. If you don't, you will take your departure from this sphere suddenly, some day, without choice of routes or definite location for the future. An Eastern man will hold his breath and run till he gets out of range of such a nuisance. You couldn't live in the same ward with it anywhere except in Oregon. Better construct a sewer; it's cheaper in the long run. If you can't afford to do this, or are not properly located for it, you had better carry off your slops and not let them form a menancing pool.

OUTLINE OF TAX LAWS.

Will Not Build a Mill.

Although we have before printed an outline of the provisions of the new law in regard to taxpaying, we consider it such an important matter that we reproduce the following synopsis of the law, which went into effect on the 1st of last December:

1. If you pay your taxes on or before March 15 you will be allowed a rebate of 3 per cent.

2. If you pay your taxes between March 15th and up to and including the first Monday in April, there will not be any rebate, neither will there be any penalty or interest added.

3. If your taxes are not paid on or before the first Monday in April, they become delinquent, when there will be added a penalty of 10 per cent, and the tax will also draw interest at the rate of 12 per cent per annum in addition to the penalty.

4. If you pay one-half of your taxes on or before the first Monday in April, then the remaining half may run up to and including the first Monday in October following; but if the last half of tax due is not paid by the first Monday in October it becomes delinquent, and there will be added to such balance a penalty 10 per cent, and in addition, the balance will bear interest at the rate of 10 per cent per annum from the first Monday in April until paid.

5. On all personal property taxes, if one-half is not paid on or before the first Monday in April, the law compels the sheriff to levy upon and collect the same after May 1st, hence to prevent a levy upon personal property after May 1st it will be necessary for one-half to be paid as above stated.

6. The law compels the sheriff to sell all lands on which taxes have not been paid, and that such sales shall not be later than March 1st of the year succeeding the year in which the tax levy was made.

7. The property will be sold to the person bidding the lowest rate of interest, and certificates will be issued therefor, and deeds given to such property sold, unless redeemed within three years from the date of such sale.

DIED AT MONTAVILLA.

Alba Woodward, a Former Resident of Marshland.

The many friends in this county of Alba L. Woodward will be pained to learn of his sudden death from blood poisoning, which occurred in Portland on the 17th of this month.

In 1850, Mr. Woodward moved with his parents from his Eastern home to Wisconsin, residing there until in Minnesota until the year 1870, when he came to Oregon and settled at Marshland, shortly after his arrival. In 1868 he was married to Miss Lizzie Henderson of Minnesota, and went with his wife to Perry, Oklahoma, where they resided for several years, returning to Marshland in 1867. In the fall of 1900 he moved to Portland, and lived in Montavilla until his death. Mr. Woodward was a Mason and also belonged to Sumner Post, G. A. R. He leaves a widow, one brother, D. A. Woodward, of Tacoma, and two sisters, Mrs. Rhoda Metcalf of Minnesota and Mrs. Mary Amidon, of Oakland, Cal. His funeral took place February 19, the Masonic lodge having charge of the services.

It was a profitable time for all, and was enjoyed by the pastor as well as the people. He left for his home at Oregon City Sunday night.

The entertainment given Saturday evening by Mt. Vernon lodge, No. 77, Order of Washington, was a success in every way. An interesting programme was rendered, consisting of songs, music and a flag drill by members, representing George and Martha Washington, which was followed by refreshments and a general social time.

Mr. Wheeler is Rid of Rheumatism.

"During the winter of 1898 I was so lame in my joints, in fact all over my body, that I could hardly budge around when I bought a bottle of Chamberlain's Pain Balm. From the first application I began to get well, and was cured and have worked steadily all the year.—R. WHEELER, Northwood, N. Y. For sale at the St. Helens pharmacy.

F. G. Stanley, one of the purchasers of the Goble & Nehalem Railroad, in behalf of his associates, as well as himself, disclaims any intention of erecting a sawmill either at Goble or at any other point along the line of the road.

"Our intentions for the present, at any rate," said Mr. Stanley, prior to his departure for his home at Perry, where he is associated with the Grande Ronde Lumber Company, "are to operate the line as a logging road. We shall extend it as the tributary timber resources may make it necessary for the present, a tract of something over 4000 acres of timber land some distance up on the road, and propose to cut this first. We did not buy the Green tract of 2080 acres, as was reported.

"As we have a large plant at Perry to look after we do not deem it wise at this time to engage in the milling business at Goble or elsewhere along our new road, especially as we have a market for all the logs we can get out with the Portland mills."—Wednesday's Telegram.

CENTRAL COMMITTEE MEETS.

Called the County Convention for Saturday, March 23.

The county central republican committee for this county met in this city last Saturday, pursuant to the call, and transacted its business with dispatch. The meeting was presided over by Dr. H. R. Cliff, and Mr. A. J. Clark, of Rainier, was chosen secretary. There were but eight committeemen present, Auburn, Nehalem, Deer Island, Astoria and Marshland precincts being unrepresented. The apportionment of delegates was based on the vote cast in November, 1900, for McKinley presidential electors, at a ratio of one delegate-at-large and one for each 25 votes or major fraction of 25, which will make 45 delegates in the convention. The place of meeting for the convention was decided in favor of St. Helens, in fact, there was no opposition to the convention being held here. The date for the convention Saturday, March 23, is somewhat earlier than has been the custom for holding county conventions, but as the state convention is to be held earlier this year than usual, no doubt the action of the committee was correct. The primary elections are called for Thursday, March 20th, at 2 o'clock in the afternoon. The call for the convention will be found in this paper, containing detailed information.

Something That Will Do You Good.

We know of no way in which we can be of more service to our readers than to tell them of something that will be of real good to them. For this reason we want to acquaint them with what we consider one of the very best remedies on the market for coughs, colds, and that alarming complaint, croup. We refer to Chamberlain's Cough Remedy. We have used it with much good results in our family so long that it has become a household necessity. By its prompt use we haven't any doubt but that it has time and again prevented croup. The testimony is given upon our own experience, and we suggest that our readers, especially those who have small children, always keep it in their homes as a safeguard against croup.—Cadden (S. C.) Messenger. For sale at the St. Helens pharmacy.
