A LAW which the next session of the Oregon legislature should enact is one providing for the protection of the citizens against contagion with infectious diseases and also making provision for the care and isolation of those afflicted.

THE total yield of Oregon hops last season was 74,000 bales. At an average price of 3 cents, growers received \$1,200,000.

THE erection of a large and modern school-house in our town, upon which work has just started, is one of the important forward steps in the march of progress.

LOCAL horticulturists inform us that fruit prospects were never better than at present. Out of the apparent unfavorable climatic conditions will come a great blessing should the predictions of these students of nature be correctly founded.

THIS is an era of discoveries. A research of the code of laws recently enacted reveals many things. The new election law provides that the polls shall remain open until 7 o'clock on election day, an hour later than usual.

OSMOSIS has again won honor and occupies another high place. The flagstaff on the new federal building at Chicago is of Webfoot growth and is 72 feet long and only 14 inches in diameter at the base.

THE record of the republican party in this country stands for sound business principles and good management of county affairs. By their acts you shall know them.

PRESIDENT ROOSEVELT took pleasure in attaching his signature to the bill appealing the internal revenue taxes imposed on account of the war with Spain, amounting to \$70,000,000 a year.

KANSAS claims to be the most prosperous state in the country. The state bank commissioner has recently compiled statistics showing that there was in the national, state and private banks \$59.28 for each man, woman and child in the state.

SINCE 1860 the number of workmen engaged in manufactures in the United States has increased one-fourth, reaching a total of 5,321,000. With the world for their market, our army of artisans is bound to expand rapidly.

IN 1864 the United States exported 2721 horses and imported 45,610. Last year we exported \$2,350 and imported only \$785. Let demagogues keep their hands off this great business.

VOTERS must not be deluded by the idea that because they registered two years ago that is sufficient. You must register again this year, and register at once, too.

Keasey Notes.

When the weather misters them we are misled but for many years by The Oregon Mist we have never been misled.

Occasionally the news grinder grinds a few items of news for the Keasey correspondent, thanks to the great grinder.

An excellent sermon was presented to an audience composed almost entirely of young people, at Keasey, last Sabbath, by Rev. Weir.

Mrs. Ella McPherson has been quite seriously ill, so much so as to require the attendance of Dr. Hatfield—improving at present writing.

Miss Austin, of Minneapolis, who has been visiting friends at Warren during the past winter, opened school at Keasey Monday, April 28th. Although petite in form she brings a mind well stored with learning received in the Minneapolis high school and university.

Mr. Thomas Pettifjohn, of Upper Rock creek, so surprised some of the people of Nehalem and Rock creek valley, that they have scarcely yet recovered breath. He has brought to his for many years bachelor abode a pleasant young wife to sit at his once lonely table.

No Loss of Time.

I have sold Chamberlain's Colic, Cholera and Diarrhoea Remedy for years, and would rather be out of coffee and sugar than it. I sold five bottles of it yesterday to threshers that could go no farther, and they are at work again this morning.—H. E. Phelps, Plymouth, Oklahoma.

Veronica Pick-Ups.

Miss Ruby Hiait, of Mist, began school in the Wilkinson district last week. Gust Gustafson is getting ready to depart for the logging camps, where he expects to work during the summer.

J. W. Bench, our new mail carrier, is an on-timer, and that makes it pleasant for the patrons of the Veronica post-office.

Mrs. W. G. Woods was quite sick on Friday last, having to give up her music class during the day, but is able for duty again.

W. W. Allen made a flying trip out to Heaton the first of the week. He says the roads over the mountains are simply terrible.

A Mr. and Mrs. Wilcox, of Portland, were in last week holding down their claim on East fork. On their way in and out they were the guests of Commissioner Case.

Prof. Whitten and a friend from Clatskanie passed through here on Tuesday on their way to the Upper Nehalem, where they have timber claims. They returned Friday.

G. W. Rice went out to Forest Grove and other Washington county points this week. He brought in a grain drill, which he will use in doing his seeding on the Ranch farm.

J. H. Rose, who has been visiting his brother, S. R. Rose, and other relatives here the past two months, left the first of the week for Clatskanie, where he thinks of going into business.

Geo. Smith and family, well and favorably known here, although they have been living at Heaton, have moved to Castalia, where Mr. Smith expects to get work. They have a claim east of town.

Miss E. Austin came in last week with E. E. Nickerson and went on up to Keasey Friday, where she will teach the school in district No. 27. She is from Minneapolis and is an experienced teacher.

O. Malmsten and son, Franklin, were at Corvallis two or three days of last week. F. E., who has been visiting the folks here the past month, returns to Minnes. is either this or next week, but he goes rather reluctantly since he likes the Nehalem.

Rev. A. Weinert filled the pulpit here morning and evening, and at Keasey in the afternoon, Sunday last, returning to Tigardville on Monday. Rev. E. L. Jones will come in next week to be here until the sitting of conference.

The cold rains recently are making some of our people feel rather blue. The ground had already been slow to get in condition to plow and many have not sowed any grain or planted a garden seed yet, and now the prospect is for another week or two of delay. But the sun will smile by and by, and there will be seed time and harvest, for the Nehalem never fails.

Sciatic Rheumatism Cured After Fourteen Years of Suffering. "I have been afflicted with sciatic rheumatism for fourteen years," says Josh Edgar, of Germantown, Cal. "I was able to be around, but constantly suffered. I tried everything I could bear of and at last was told to try Chamberlain's Pain Balm, which I did and was immediately relieved and in a short time cured, and I am happy to say it has not since returned." Why not use this liniment and get well? It is for sale at the St. Helens Pharmacy.

Resolves News Notes.

John Seffert, of Deer Island, was here last Saturday.

Lindley Meeker, of Houston, was here a few days ago.

William Rose, of Mist, is visiting in the vicinity this week.

Mrs. Koble visited friends in Kalama the latter part of last week.

The Northern Pacific put in the crossing again for the Goble road.

E. H. Hopkins, of Rainier, is now cutting wood for Farr Bros., at Near City.

A. Meyer, of Portland, came down on Friday of last week to look after things on his farm.

J. H. Collins and wife, of St. Helens, were the guests of T. C. Watts and wife last Sunday.

School began in district No. 20 Monday morning with Mrs. J. H. Collins, of St. Helens, teacher.

NOTARY PUBLIC. COSTYMANING. J. B. GODFREY, Dealer in Real Estate and Maker of Abstracts.

ST. HELENS, OREGON.

New Bank Bills.

A bill that is now before congress and has been endorsed by almost everyone who has examined its provisions, provides for printing the \$1, \$2 and \$5 bills in the future with blank spaces on the back. These bills, of course, are to pass from hand to hand before the blanks are filled. When it is desired to send one in the mail the blanks are filled in with the initials of the sender in ink, the name of the sender to be written on the back, and the money has ceased to exist as currency, and has been changed into a check on the United States government, having all the safety of a bank check, and ready for enclosure in his letter. When the payee receives this check he treats it just the same as he would any other check—indorses it, goes to the nearest bank or postoffice and deposits it or cashes it.

The paid check finally reaches the treasury department, when it is replaced by a new one, with spaces unfilled. This keeps the circulation at par. No change, however, is made in the new system for the government, the only change being in the character of the printing on the bills of \$5 and under.

The bill also provides for the issue of \$75,000,000 of fractional currency with blank places similar to the larger denominations, presumably \$20 and \$50 bills. The provision under the new system for a continual renewal insures clean money, both in the fractional currency and in the larger bills. The government fee on the \$5, 10, 15, 25 and 50 cent pieces is to be 1 cent each.

The new currency would be such a great convenience for all desiring to send money by mail that it is thought it will be adopted in a short time.

Won't Follow Advice After Paying for It.

In a recent article a prominent physician says, "It is next to impossible for the physician to get his patients to carry out any prescribed course of hygiene or diet to the smallest extent; he has but one resort left, namely, the drug treatment." When medicines are used for chronic constipation, the most mild and gentle obtainable, such as Chamberlain's Stomach and Liver Tablets, should be employed. Their use is not followed by constipation as they leave the bowels in a natural and healthy condition. For sale at the St. Helens Pharmacy.

We furnish Tax Meter and Weekly Oregonian for \$2.00 a year.

The Jennings-Spaulding Company, of Westport, ran a survey into their timber, which lies on the Nehalem slope, and find that from the Westport slough to the summit, a distance of 2 1/2 miles, the heaviest grade is 3 per cent. This grade is maintained for only a few hundred feet, the average grade being only 4 per cent, a cut of forty-seven feet being necessary in one place.
