A YOUNG LADY'S LIFE SAVED. At Panama, Colombia, by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Dr. Chas. H. Uter, a prominent physician of Panama, Colombia, in a recent letter states: "Last March I had as a patient a young lady sixteen years of age, who had very bad attack of dysentery. Everything I prescribed for her proved ineffectual and she was growing worse every hour. Her parents were sure she would die. She had become so weak that she could not turn over in bed. What to do at this critical moment was a study for me, but I thought of Chamberlain's Colic, Cholera and Diarrhoea Remedy and as a last resort prescribed it. The most wonderful result was effected. Within eight hours she was feeling much better; inside of three days she was upon her feet and at the end of one week was entirely well." For sale Edwin Ross, Druggist.

The price of wood keeps advancing slowly, but with a steady movement. And it is hard to obtain, owing to the fact that good choppers are hard to obtain. Sunday, the Astoria & Columbia River railway began to use coal for their engines instead of the popular Oregon fir. Next they may have our trains pulled by oil burners.—Astoria Herald.

The East Fork Shingle & Manufacturing Company, of Pittsburg, have received their new engine and boiler and are now installing the same. The other machinery was placed in position some time ago. The officers of the company are: President, William Pringle; vice-president, W. D. Case; Secretary, E. J. Mills; treasurer, J. W. Parker. The mill is convenient to a large body of fine timber, and will soon be ready for active operations. They will no doubt turn out the finest shingle ever put on the Pacific coast market, as the Nehalem cedar cannot be excelled anywhere.

A Cure for Cholera Infantum.

"Last May" says Mrs. Curtis Baker, of Bookwater, Ohio, an infant child of our neighbor's was suffering from cholera infantum. The doctor had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days time the child had fully recovered, and is now (nearly a year since) a vigorous, healthy girl. I have recommended this Remedy frequently and have never known it to fail in any single instance." For sale by Edwin Ross Druggist.
