Rily Version in the meetings.

Justice Barwiso, and Mre. Anna Nias,

She seems to have made as important on the probalities of a patent, and how to obtain it. It can be best explained

as soon as it was eat up they fell to work pinching out little pieces of wood where that honey had laid and scaked into the wood-They seemed suck all the sweet out of it and then carried it down the side of the log then let it drop-soon this little pile of sawdust began to look

"I found the agents were cutting these little bits of wood to obtain the sweets on which I suppose they live.

"Most of the agents left after they had ser with three spoons ful of water, wood. The feather seemed to moisten the sides as well as the bottom of the groove so I unraveled the leg of one of September 9 is to be wedding day at my old wool stockings, and twisted four ence of the throngs in the street fair agents were now cutting that log off at

ing, as the management of the fair will work out of em. So I rooted up another deal. | berally with those who will con- little log that seemed just alive with pense of the Carnival company. Swains log. But it seems they belonged to sting and killing off each other, and such a slaugh ter of insects I never saw. "Before that battle ended most of the first workers and all of the new were too

dead to skin. "So I put some stricknin in the ho and killed off all that was left.

"I next rolled up another big chunk that was alive with agents, and got them tarted cutting in the groove, and carring off the sawdust.

"when I left home at least one third of that big log was cut into; but I expect evidently his wife and his sister, on they will stop for want of honey before I board a car on the avenue. He had get back.

"I am holding down my claim all went to Nehalem valley to take ap a claim in the burn, and try to farm,

and bragged not a little about our wonderful catch. To our great sup-prise the old inhabitants didn't share in our enthusiasm and pitylingly said, 'Boya, go up to the narrows and learn how to catch fish.'

"Well, up to the narrows we went, and the sight which met our eyes I will never forget, and yet it didn't amount to much. We simply saw a homely squaw standing on the edge of a rock and holding in her hand a seven foot pole, attached to which was a willow hoop and a bit of sack arranged to form a sort of dip-net. You may not believe what followed, but it is gospel truth, every word. That fair maiden of the north time and time again doused her crude stires W. P. Trokes, Houlton, Ore net in the waters of the Columbia gon. (Other pa; ers please copy.) river and every time brought three, four or more silver sides, weighing from four to eight pounds each. We watched that aquay catch fish for three mortal hours, and the way she landed them was a revelation."—San Francisco Chronicle.

"One day I happened to let some honey run over a log that was dry, and had no bark on— After a day or two the agents fell to enting that streak of honey, and as soon as it was ast on the fell to enting that streak of honey, and as soon as it was ast on the fell to enting that streak of honey, and as soon as it was ast on the fell to enting that streak of honey, and as soon as it was ast on the fell to enting the fell to enting the fell to enting that streak of honey, and as soon as it was ast on the fell to enting the fe has you by the throat, and there is

To kill the puma you must watch, always watch. You will see his yellow eyes sometimes in a tree. You will hear his breath at night as you pretend to sleep, and you wait till you see his foot steal out of the shad. ws; then you have him.

From a mountain wall you watch in the morning, and when you see him you follow and follow and do not rest till you have found him. when you have got him he is worth all.—Cosmopolitan.

A little girl and a big Newfound-land dog came through Stanben park yesterday. The little girl was carry g papa's dinner, and the big dog as caring for both. The little girl thought she would teach her comed the park she placed the handle of er basket in his mouth. He trotted along quite proudly, and when he came to the sparkling fountain and the cool looking pool be neath it the noble animal resisted the temptation to drop the basket for the pleasures the water offered him. He was too true! He'd take care of that basket if the pool freze over! cent to be married publicly at the ex- agents, and baited them up to the big He'd take the basket with him, who haven't the price, but would like another breed, for they at eace began ed carefully through and cooled papa's dinner in sparkling cool-water. He ducked bis head, but he never let go of that basket committed to his faithful care. He did not tarry long, sither, but came out, shook himsel and the basket dry, and trotted along "feeling betfer, thank you."— Utica Observer.

Masculine Dignity. Masouline dignity must be preserved at any cost. The other day a gen-tleman was about to put two ladies. oft his purse at home or spent his last cent, or for some reason found alone. Mr. Nias, died two years ago himself penniless, so while standing last June, and I left my three little on the curb he thoughtfully borrowed children with their Grandmother, and 35 cents from one of the laties. Then he bailed a car, bought six tickets. gave two to the conductor, tossed the rest carriessly at his wife find got off.

I had taken the car at the same corner, so I saw the whole perform ance. It seemed to me a significant illustration of the sort of care which many thoroughly improvident lords being taken care of in all the small and troublesome details which make

Brights Disease.

The largest sum ever paid for a preacridtlon, changed hands in (San Frencisco, Aug. 30, 1901. The transfer involved in coin and stock 1113,500.00 and
was paid by a party of business men for
a specific for Bright's Disease and Disbetes, hitherto incurrile diseases.
They commenced the sections investigation of the specific Nov. 15, 1909.
They interviewed scors of the cured
and tried it out on its merits by putting
over three dozen cases on the treatment
and watching them. Triey also got physistants to name chronic, incurable cases,
and administered it with the physicans
for judges. Up to Aug. 25, eighty-seven
per cent of the fest cases were either
well of progressing favorably.
There being but thirteen per cent of
failures, the parties were satisfied and
closed the transaction. The proceedings
of the investigating committee and the
clinical reports of the test cases were
published and will be mailed free on
application. Adjuses John J. Fulton
Company, 420 Montgomery St. San Francisco, Cal.
