CHRISTMAS GREETINGS.

The Oregon Mist extends greetings to its 2000 readers, with the wish that they will have a Merry Christmas.

CHRISTMAS-TIDE.

Thou Blessed Babe of Bethlehem!
Who life we love, whose Name we laud.
Thou Brother, through whose poverty
We have become the heirs of God;

If any act that we can do,
If any thought of ours is right,
If any prayer we lift to Thee
May find acceptance in Thy sight,

Hear us, and give to us today,
In answer to our earnest cries,
Some portion of that sacred love
That drew Thee to us from the skies—

LOCAL CONDITIONS FAVORABLE TO MANUFACTURING ENTERPRISES.

According to Frank Carpenter's letter in last Sunday's Oregonian, condensed milk is one of the greatest and most profitable exports of Switzerland. And the business was started by a citizen of the United States. There is no better location on the coast for a condensed milk establishment than at St. Helens. With all the conveniences of deep water and rail transportation to the market centers, it is situated in the midst of the best conditioned dairy section of Oregon. In no other part of Oregon does milk producing grasses and other products grow as they do in Columbia county. As the lands are gradually being stripped off their timber there is scarcely a limit to the area that can be devoted to the milk producing industry.

No concentrated effort has ever been made to secure manufacturing enterprises of this kind for Columbia county. Sawmills, shingle mills and logging railways have come here because it was widely known that there was an opportunity for profitable investment.

To get manufacturing enterprises of other kinds, investors must be made aware of the opportunities offered.

A Eugene citizen thinks the water company should "adopt some public signal of warning when the thermometer approaches the danger point of cold"; and that "even people who let their pumps freeze could have timely warning." Haven't we noses and finger tips to warn us of freezing weather? The people who will not heed physical discomfort would pay little attention to "a public signal of warning." Don't try to make the water company responsible for downright neglect of others! They have enough other trouble. This is the paternal idea of government carried to the extreme in private affairs. Some people think the government or some one else should continually watch over them. And they get fooled. The government looks out for no one but the trusts. And they own it, at least buy the men who run it, or so many of them as are necessary in their business.—Eugene Guard.

In the event that the Columbia Logging Company of Vancouver, shall secure control of the St. Helens sawmill property, it will mean much in making this a shipping point. The company owns thousands of acres of timber lands up Lewis river, and have two or three sawmills besides the one at Vancouver. Under the existing conditions it is impossible to load deep water vessels at their mill docks. By acquiring possession of the St. Helens sawmill, they could lighter the products from the other mills, and complete the loading of seagoing vessels at the dock here. Negotiations are pending for the purchase of the interests of the stockholder litigants.

The county clerk has not yet advertised for bids for the printing for that office in accordance with the pledge made by the Rainier Gazette before election. And the fact that the Pittsburg Sentinel forced the county board to pay for the court proceedings, is still written in the Devil's book.

Coming as it does in a time of great commercial prosperity, the Special Number of the Scientific American, devoted to a description of the present state and vast magnitude of our transportation interests, both on land and sea, cannot fail of a good reception. The issue before us is gotten up with the characteristic good taste and discriminating judgment that have marked the previous special editions of this journal. The cover is peculiarly attractive, representing a crack American express train and one of the latest of the transatlantic express mail steamers. The articles cover the subject, broad as it is, very effectively. The number opens with an illustrated article on marine transportation, which is followed by others on the big steamships building at New London, the biggest ever built in America; on the "Kaiser Wilhelm II.," fastest transatlantic steamship; and an article showing graphically the vast amount of stores that are taken aboard, such as shipped for a single trip; on lake transportation, in which the special types built for this service are illustrated; and on auxiliary and turbine yachts. Under the head of Railroad Transportation, there is a very graphic description of a ride in the cab of the Twentieth Century Limited, taken by the Editor of the Scientific American, which is followed by a History of the American Locomotive, showing illustrations of typical engines from the earliest to the present time. The railroad statistics of the country are illustrated by a cleverly drawn diagram; there is an expert article on the block signal system; while there is a sereis of comprehensive chapters on the various phases of the electric traction problem, as it exists at the present time.

NEER CITY

The weather has been very fair this week.

Mr. and Mrs. John Farr went to Portland Friday on business, returning the same day.

Abe Neer was hauling freight for Farr Bros. with his powerful team.

Abe Neer and L. J. Bignell, exchanged cows last week.

Froster and Neer, have improved their large dam, now they have a pond large enough to run a small saw mill.

Mrs. B. H. Neer, went to Rainier on business last Saturday, returning on the Astoria train the same evening.

Froster & Neer have about 20 wood choppers at the present time, and are still looking for more.

Zitar Bashara, the Neer City merchant, is thinking of going into the poultry business.

Joe Bashara is staying with his son, Zitar at the present time.

John Chandler, of Scio, is now piling wood on the dock for Farr Bros.

Chief Spotted Tail is sick at heart just now before Christmas, for the fur-bearing animals fail to walk into his traps and he is talking of moving his quarters over to the Kalama river. All pale faces better steer clear of Spotted Tail.

Abe Link, of the wood camp, is training faithfully for his coming wrestling match, which will take place in Portland. So put your money on Abie boys, for he is a sure winner.

Two of the boys of Neer City have been debating over the steamer Robert Dollar, which was in St. Helens a week ago last Sunday, and they would like to ask the editor what kind of a mark she had on her stack a sign like this $ or a combination US? (Ed. Persons here who observed closely state that both characters were on the smokestack.)

We all wonder why William Meacham stays away from Reuben so awful long. Are you never coming back, Willie?

George Froster, jr., took a trip to Kalama Sunday on serious business.

Bigelow & Bignell have taken a contract of cutting 500 cords of wood for Frostner & Neer. They commenced last Monday before breakfast.

Mrs. Alice Stehman received a fine piano for a Christmas present.

I have had occasion to use your Black-Draught Stock and Poultry Medicine and am pleased to say that I never used anything for stock that gave half as good satisfaction. I heartily recommend it to all owners of stock.
J. B. BELSHER, St. Louis, Mo.

Sick stock or poultry should not eat cheap stock food any more than sick persons should expect to be cured by food. When your stock and poultry are sick give them medicine. Don't stuff them with worthless stock foods. Unload the bowels and stir up the torpid liver and the animal will be cured, if it be possible to cure it. Black-Draught Stock and Poultry Medicine unloads the bowels and stirs up the torpid liver. It cures every malady of stock if taken in time. Secure a 25-cent can of Black-Draught Stock and Poultry Medicine and it will pay for itself ten times over. Horses work better. Cows give more milk. Hogs gain flesh. And hens lay more eggs. It solves the problem of making as much blood, flesh and energy as possible out of the smallest amount of food consumed. Buy a can from your dealer.

How to Prevent Croup.

It will be good news to the mothers of small children to learn that croup can be prevented. The first sign of croup is hoarseness. A day or two before the attack the child becomes hoarse. This is soon followed by a peculiar rough cough. Give Chamberlain's Cough Remedy freely as soon as the child becomes hoarse, or even after the rough cough appears, and it will dispel all symptoms of croup. In this way all danger and anxiety may be avoided. This remedy is used by many thousands of mothers and has never been known to fail. It is, in fact, the only remedy that can always be depended upon and that is pleasant and safe to take. For sale by Edwin Ross.

At the Portland fourth annual meeting of the Oregon Historical Society, held in the City Hall Saturday, the need of a new building was discussed by secretary F. G. Young. In his report he comments upon the gratification of the members of the society in watching the Lewis and Clark Exposition project take a definite shape, for it was through the Historical Society that the scheme was launched. The project for the erection of a Memorial Building by the National Government was heartily endorsed. The report shows a marked increase in the collection of curios, having received 125 pioneer relics and 110 archaeological specimens, and 1120 arrow heads.

Albert Tozier, of Portland, who was in town Tuesday, has recently returned from a visit to his mines in Northern Idaho. He reports a heavy fall of snow in that section. Old settlers there state that there is more snow in the mountains contiguous to the tributaries of the Columbia river than there has been for 20 years. There will evidently be some big floods next June.
