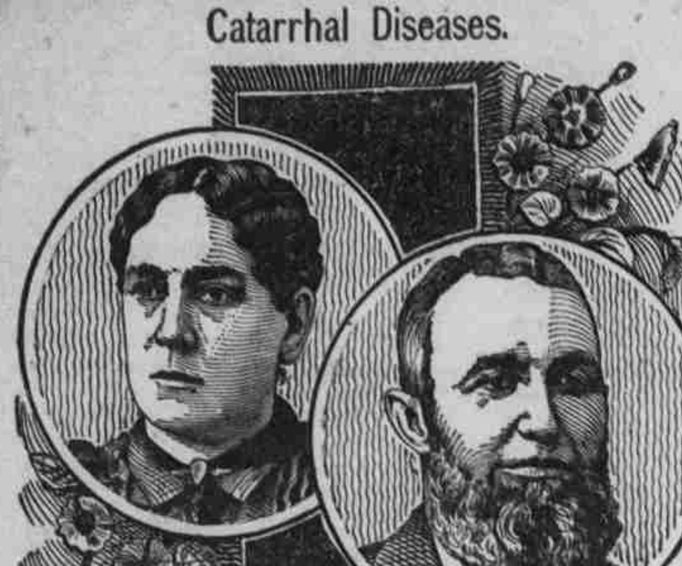
THE OLD FOLKS AT HOME

Are Never Without Peruna in the House for Catarrhal Diseases.



MR. AND MRS. J. O. ATKINSON, INDEPENDENCE, MO.

Under date of January 10, 1897, Dr. Hartman received the following letter:

"My wife had been suffering from a complication of diseases for the past 25 years.

"Her case had baffled the skill of some of the most noted physicians. One of her worst troubles was chronic constipation of several years' standing.

"She also was passing through that most critical period in the life of a woman—change of life. In June, 1895, I wrote to you about her case. You advised a course of Peruna and Manalin, which we at once commenced, and have to say it completely cured her. She firmly believes that she would have been dead only for those wonderful remedies.

"About the same time I wrote you about my own case of catarrh, which had been of 25 years' standing. At times I was almost past going. I commenced to use Peruna according to your instructions and continued its use for about a year, and it has completely cured me.

"Your remedies do all that you claim for them, and even more. Catarrh cannot exist where Peruna is taken according to directions. Success to you and your remedies."
John O. Atkinson.

In a letter dated January 1, 1900, Mr. Atkinson says, after five years' experience with Peruna:

"I will ever continue to speak a good word for Peruna. In my rounds as a traveling man I am a walking advertisement for Peruna and have induced many people during the past year to use Peruna with the most satisfactory results. I am still cured of catarrh."
John O. Atkinson,
Box 272. Independence, Mo.

When old age comes on, catarrhal diseases come also. Systemic catarrh is almost universal in old people.

This explains why Peruna has become so indispensable to old people. Peruna is their safeguard. Peruna is the only remedy yet devised that meets these cases exactly.

Such cases cannot be treated locally; nothing but an effective systemic remedy could cure them. This is exactly what Peruna is.

If you do not receive prompt and satsifactory results from the use of Peruna, write at once to Dr. Hratman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, president of the Hartman Sanitarium, Columbus, O.

Energy is Eternal.

Who is there who dares to say that when old age is reached there is not as much laid by in that soul wrapped in its weary body as there was in the infant full of latent power? We know not where the infant's forces come from, nor where the dying man's energy goes, to, but if nature teaches us anything it teaches us that forces such as these are eternal in the same sense that matter is eternal and space endless.—Frank Bolles.

Immune.

Towne—It's a shame the way these big corporations put the screws on the people.

Browne—Never mind—they'll have a hot time in the next world.

Towne—If I could believe that there'd be some consolation in that thought, but corporations, you know have no souls.—Philadelphia Press.

Just a Small Matter.

As Morgan and Gates closed a little deal John said to Pierp: "'Pears to me I've got a few dollars coming," and Pierp, reaching down in his jeans, brought up a handful of checks and paid the difference right there. It wasn't much; only eighteen million dollars.

Their Opinion of the War.

The following conversation was overheard in a South African blockhouse near the close of the Boer war: First soldier—"Say, d'ye think we shall be home for the coronation?" Second soldier—"Coronation be blowed! We shall be —— lucky if we are home in time for the resurrection."

Language of Parrots.

Do parrots understand what they say? A scientist relates that he has a Brazilian parrot which is a fluent and accomplished speaker. A gray parrot was introduced on day, but the Brazilian hautily declined to have anything to say to the gray. Then a neighbor who has just been given a newly imported green Brazilian brought the newcomer to call. The moment the parrots caught sight of each other they broke into a torrent of apparently articulate language, consisting, as it seemed, of questions and answers, but what the language was no one present could tell. The owner of the first parrot had never during the years it had lived with him heard it speak the strange tongue. The two parrots talked to each other without ceasing all the time they were together, and a few days later, when they met again, exactly the same thing happened. Was the first parrot, long exiled from its native forests, asking eagerly for news of its people?

As to the Manner of His Going.

"And must I walk the planks?" faltered the captive.

"Certainly," replied the smart Corsair, with a frown. "You don't suppose I'm going to supply you with an automobile, do you?"

Piracy is essentially, an unprogressive industry. It does not respond to the modern spirit.—Automobile Magazine.

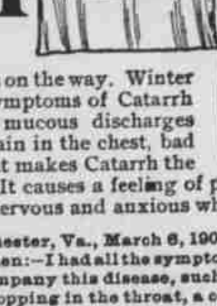
LOOK OUT FOR CATARRH



When the cold wave flag is up, freezing weather is on the way. Winter is here in earnest, and with it all the miserable symptoms of Catarrh return—blinding headaches and neuralgia, thick mucous discharges from the nose and throat, a hacking cough and pain in the chest, bad taste in the mouth, fetid breath, nausea and all that makes Catarrh the most sickening and disgusting of all complaints. It causes a feeling of personal defilement and mortification that keeps one nervous and anxious while in the company of others.

In spite of all efforts to prevent it, the filthy secretions and mucous matter find their way into the Stomach and are distributed by the blood to every nook and corner of the system; the Stomach and Kidneys, in fact every organ and part of the body, become infected with the catarrhal poison. This disease is rarely, if ever, even in its earliest stages, a purely local disease or simple inflammation of the nose and throat, and this is why sprays, washes, powders and the various inhaling mixtures fail to cure. Heredity is sometimes back of it—parents have it and so do their children.

Manchester, Va., March 6, 1901.
Gentlemen:—I had all the symptoms that accompany this disease, such as mucus dropping in the throat, a constant desire to hawk and spit, feeling of dryness in the throat, cough and spitting upon rising in the morning, scabs forming in the nose, which required much effort to blow out, sometimes causing the nose to bleed and leaving me with a sick headache. I had thus suffered for five years.
I commenced to take S. S. S. and after I had taken three large bottles, I noticed a change for the better. Thus encouraged, I continued to take it and in a short while was entirely cured. JUDSON A. BELLAM.
Main and Vine Sts., Richmond, Va.

In the treatment of Catarrh, antiseptic and soothing washes are good for cleansing purposes or clearing the head and throat, but this is the extent of their usefulness. To cure Catarrh permanently, the blood must be purified and the system relieved of its load of foul secretions, and the remedy to accomplish this is S. S. S. which has no equal as a blood purifier. It restores the blood to a natural, healthy state and the catarrhal poison and effete matter are carried out of the system through the proper channels. S. S. S. restores to the blood all its good qualities, and when rich, pure blood reaches the inflamed membrane and is carried through the circulation to all the Catarrh infected portions of the body, they soon heal, the mucous discharges cease and the patient is relieved of the most offensive and humiliating of all complaints.

SSS

S. S. S. is a vegetable remedy and contains nothing that could injure the most delicate constitution. It cures Catarrh in its most aggravated forms, and cases apparently incurable and hopeless. Write us if you have Catarrh, and our physicians will advise you without charge.

AS A FRIEND OF ALL

THE PRESIDENT IS HELPING ALONG PEACE NEGOTIATIONS.

Basis of Arbitration Must Be Fixed Upon First—Allies May Consent to Raise the Blockade, Provided They Can Renew It if Venezuela Does Not Pay—High Compliment to Roosevelt.

Washington, Dec. 31.—There is now in progress an active exchange of notes between the allied powers, Venezuela and the United States, respecting the method of submitting to arbitration the issues which have arisen between Venezuela and the allies. The weight of official opinion here this afternoon was that several days at least must elapse before any thing in the nature of a preliminary protocol can be made ready for signature. German insistence upon a prepayment of 10 per cent of her full claims before submitting her case to arbitration, and perhaps President Castro's resistance to meeting what the allies claim as the obligations of honor are believed to be now the sticking points. But it is hoped that these can be pased within the next few days, and it is further hoped that some arrangement will be made in the preliminary protocol for the raising of the blockade, though it is intimated that the allies' ships will be kept ready to renew it in case of any default on the part of Venezuela in her obligations.

Washington having been the pivot about which all the negotiations have turned up to this point, it is surmised that it may also be the scene of the final act in the shape of the signature of the protocol, either by the resident representatives here of the powers interested or by special agents sent to this neutral ground for the purpose. An erroneous idea obtained in some quarters as to the functions of the President and Secretary Hay in this matter, and they have been represented as endeavoring personally to conduct the negotiations, as drawing up protocols and generally taking a leading part in all that is going on. It is pointed out at the State Department that, while ordinarily a misunderstanding on this point would be trifling, it happens in the present case that reports of such activity on the part of the United States officials after the President had expressly declined to assume the duties of arbitration would surely be ill received in Europe and might perhaps lead to some backward steps that would be a matter of regret to the Government, which earnestly desires to have the parties reach an honorable settlement of their differences.

It is explained at the State Department that the part of the United State United States Government just now is that of "good friend" to all parties that it is not undertaking to draw up protocols or impose limitations upon the parties, but it is confining its offices to getting them together and keeping them so. In this view it will not be necessary for our Government to prescribe how the Monroe Doctrine shall or shall not figure in the protocols; it will judge for itself by results how our interests are affected, and will not indulge in premature or uncalled-for protests.

As for the terms of the arbitration, it is stated that they are in a fair way speedily to be adjusted, but nothing can be said of the details. It is presumed that the allies will agree to terminate the blockade, though no stipulation has yet been entered into on that point. Nothing has been heard recently of the part to be taken by United States Minister Bowen in the final settlement, and it begins to appear that, after all, Venezuela will probably be represented by one of her own people.

DISOBEYED THE RULES.

Naval Commander Takes His Wife to Sea and is Ordered Ashore.

Washington, Dec. 31.—Commander John E. Roller, ex-commander of the old gunboat Monocacy, has reached this country from the Asiatic station, having been ordered home by Rear-Admiral Evans for persistent infraction of the rules which prohibit the commander of a vessel from permitting his wife to make her home aboard the ship. It is charged that after offending in that particular several times Roller's attention was called to the violation of the regulations, but with no apparent effect. When his last offense came to the ears of Rear-Armiral Evans the latter detached him and ordered him home.

Pope Admires American Officers.

Rome, Dec. 31.—The pope today received in private audience Commander William H. Reeder, Chaplain Edward J. Brennan and Lieutenant Henry Seigmier, of the United States training-ship Hartford. Commander Reeder and Lieutenant Seigmier were in full uniform. The pope remarked on the smartness of the American navy uniform, and said he regretted the Hartford was not coming nearer to Rome. He would have enjoyed seeing more of the officers and men, as he had the most pleasant rememberances of meeting with Americans.

Damages for a Boycott.

Chicago, Dec. 31.—A verdict having a significant bearing upon the right of labor organizations to maintain or assist in maintaining a boycott was rendered today in Judge Vaile's court, whereby George Hinchcliff was awarded $22,000 damages against the members of the Chicago Masons' & Builders' Association and the Brick Manufacturers' Association. Hinchcliff asked for $100,000 damages, which he alleges he has sustained owing to a boycott of the product of his brickyard at Hobart, Ind., on the part of the associations mentioned in 1898.

Starved to Death in Bolivia.

Seattle, Dec. 31.—News has just reached here that John S. Rouse starved to death in the wilds of Central Bolivia in June, 1900, while on an exploring trip. But one man of a party of 30 escaped. Rouse was one of the pioneer mining men of the State of Washington, coming first to this section in 1879. On his last trip he was one of a party representing the Bolivian government. His friends here will ask the Department of State to investigate his death.

Do Not Fear General Tung.

Pekin, Dec. 31.—Officials here discredit the reports that General Tung Su Siang and Prince Tuan are moving on Siang Fu with troops. The missionaries, however, are said to be retiring from that region.

TRAINS MET HEAD-ON.

Twenty-Eight Dead—Mangled Passengers Suffer from Cold Also.

London, Ont., Dec. 31.—A frightful collision occurred a short distance from the little station of Wanstead, Ont., on the Sarnia branch of the Grand Trunk Railroad, last night. The express was running nearly two hours late, and was making fast time. The freight was endeavoring to make a siding to get clear of the express, but failed by a minute or two.

There was a dreadful crash, the locomotive reared up and fell over in a ditch, the baggage-car of the express telescoped the smoker, and in an instant the shrieks and cries of the wounded and dying filled the air. The loss of life is 28. The injured numbered many more, and many of these may die. Several of the dead were horribly mutilated. Heads were cut off, legs were wrenched from their bodies, and the level stretch of snow became srimson with the blood of the victims.

Operator is Blamed.

The responsibility for the accident has not been definitely fixed, but it is believed to have been due to a telegraph operator's error. The operator at one of the stations where the two trains stopped gave an order to the freight to pass No. 5, the Pacific express, at Wanstead. In the system of the Grand Trunk this order should have been duplicated, a copy being given to the conductor and engineer of the express. Instead of this the conductor of the express received a clearance order, telling him that he might run through. The freight train in the meantime had stopped at Wanstead to sidetrack, and was telescoped by the express. The blinding storm which was raging rendered objects invisible at the distance of a few feet.

The operator at Wanstead is not usually on duty at night, but last evening he happened to be in the office for a short time. He was going out of the door when he heard the telegraph instrument click and immediately call repeatedly the message: "Stop No. 5." "Stop No. 5." Seizing a latern, the operator dashed for the door, and as he closed it behind him he heard the crash of the collision up the track.

WAR ON CHRISTIANS.

Said to Be the Plan of New Aspirant to Throne of Morocco.

London, Dec. 29.—The correspondence of the Times at Fez, Morocco, describes the situation as having become very serious, owing to a large increase in the number of the pretender's followers whom the government troops are too weak to attack. Reinforcements amounting to 12,000 men, he says, will leave tomorrow and an additional force of regular cavalry has been called out.

Many tribes not already in rebellion are wavering and are ready to join the rebels in the event of a serious government defeat. The pretender is fully supplied with everything necessary and has distributed his forces over a district where they can be collected or dispersed very quickly.

The Times' correspondent adds that the pretender's position is a very strong one. He professes not to claim the throne for himself, but desires to overthrow the Sultan on account of his European tendencies. If successful, the pretender proposes that the rebels shall nominate a new Sultan from the Shehifian family who would promise to continue the war against the Christians.

SLAUGHTER OF INFANTS.

Disclosure of Horrible Customs in Japan—A "Prison Editor."

Victoria, B. C., Dec. 31.—Correspondence of the Associated Press received from Yokohama by the steamer Tartar tonight included details of a horrible baby-farming conspiracy in Osaka. An elderly woman, her married daughter, husband and two others have been arresed for infanticide, and it is learned since that they started operations by killing 300 children., 80, this year.

The Japan Times has an account of how a Japanese of Kochi was married to a corpse. His bride-elect, the daughter of Kintara Sawada, committed suicide on the eve of her marriage. The body was recovered, and at the request of the dead woman's parents, the ceremony took place between the living and the dead.

The Kobe Chronicle publishes a lengthy account, telling of the "prison editor" employed by Japanese papers whose duties are to be imprisoned in case a verdict is given against the paper he is supposed to edit, for libel or other offenses.

Dolly Earle's Suicide.

Philadelphia, Dec. 31.—Dolly Earl, a member of the "Merry Widows" company, playing at a burlesque house here, committed suicide tonight in her dressing-room by swallowing carbolic acid. She left the following note, addressed to J. A. Fallinger, Rochester, N. Y.:

"Forgive me, all. Can't stand trouble."

Miss Earl was about 30 years old. Her home is said to be in Oklahoma. She was formerly a member of the "Runaway Girl" company, which stranded here about two weeks ago.

California Likes Rain.

San Francisco, Dec. 31.—The rain storm which visited California on Christmas night proved to be of enormous benefit to growing crops, and the prospects for a fine harvest of grain and fruit were never better. The winter has been a mild one, free from severe frosts, and with just enough rain to promise good spring crops. The weather is now delightful. The temperature is in the neighborhood of 60 degrees. The tourist travel to California has been unusually heavy this winter.

Benjamin H. Calef Dead.

New York, Dec. 31.—Benjamin H. Calef, an accountant, died in his home at East Orange after a long illness. He was associated with Jay Gould and General Grenville M. Dodge in western railroad enterprises; had been special and private accountant for the late George M. Pullman and Robert T. Lincoln, and was an executor of the Pullman estate. He lived in Chicago until he removed to East Orange, 16 years ago. His widow and three children survive him.

Empress Dowager Greets Miles.

Pekin, Dec. 31.—The Dowager Empress and Lieutenant-General Miles exchanged flattering speeches at today's audience, the Dowager assuring the General that the "success of the American Army was assured under a commander so celebrated."

Mrs. Anderson, a prominent society woman of Jacksonville, Fla., daughter of Recorder of Deeds, West, says:

"There are but few wives and mothers who have not at times endured agonies and such pain as only women know of. I wish such women knew the value of **Lydia E. Pinkham's Vegetable Compound. It** is a remarkable medicine, different in action from any other I ever knew and thoroughly reliable.

"I have seen cases where women doctored for years without permanent benefit who were cured in less than three months after taking your Vegetable Compound, while others who were chronic and incurable came out cured, happy, and in perfect health after a thorough treatment with this medicine. I have never used it myself without gaining great benefit. A few doses restores my strength and appetite, and tones up the entire system. Your medicine has been tried and found true, hence I fully endorse it."—Mrs. R. A. Anderson, 225 Washington St., Jacksonville, Fla.—*$5000 forfeit if original of above testimonial proving genuineness cannot be produced.*

The experience and testimony of some of the most noted women of America go to prove, beyond a question, that Lydia E. Pinkham's Vegetable Compound will correct all such trouble at once by removing the cause, and restoring the organs to a healthy and normal condition.

MOTTO FOR NEW YEAR.

Eat Whatever You Want, But Be Sure and Have Good Teeth.

Now that the holiday spirit is prevalent everywhere it is a good time to be a little selfish and think what would be the best present to give to oneself.

Why isn't a good set of teeth one of the best things you can have in this life?

Wise Bros., the famous dentists in the Failing building, Portland, Oregon, have had a large run of Business during these holidays, probably somewhat in consequence of the people's special desire just now to make themselves sensible presents.

Why don't you go to this firm before the new year and have your teeth looked after?

When you come to think of it, there is nothing we want more than a sound set of teeth. Our health and all our happiness depend much upon what we eat. If we cannot masticate our food properly we are restricted to only a few eatables, and even in their case we cannot properly chew and digest our food.

Not long ago the fear of pain the and great expense of dental work kept nearly all the masses away from dentists. Now it is all different. There is positively no pain when such dentists as Wise Brothers do your work. Wise Brothers' charges, also, are in reality very moderate. If your teeth are apparently in good order the best way is to go and have them looked over so as to be sure that they are all right and in sound condition. If your teeth are decayed, then the best way is not to lose any more time but go immediately and have the bad teeth taken out. Even if you have to get an entire new set the expense will be trifling in comparison with the great and lasting benefits you will derive from having a set of teeth that look for all the world like the natural ones, and which will serve you in every respect nearly as well as your own that grew in your mouth.

The popularity of this great dental firm, Wise Brothers, whose signal success we have from time to time noted in these columns, is much to be desired. They have proved to everbyody that we need not suffer any longer with bad teeth and poor food. We can all eat what is good for us, and we all can afford to have the best teeth in the world.

Extracting teeth without pain was a short time ago a myth. Now it is a grand reality.

"No wonder. They realize that any couple with a child would have to move out and find more room."—Philadelphia Press.

Mocha and Java.

Not very much pure Mocha and Java coffee is brought to this coast. In fact we don't believe there is another brand in the market, besides Monopole, which is all pure Mocha and Java. But we know Monopole. As a matter of fact not every lady likes pure Mocha and Java, but if you do and are willing, like your Eastern friends, to pay a little extra for the pure unadulterated article, you'll find it in Monopole. Your dealer handles it or knows where to get it for you. Wadhams & Kerr Bros., coffee roasters, Portland, Oregon.

THE BLOOD.

The blood is life. We derive from the blood life, power, beauty, and reason, as the doctors have been saying from time immemorial. A healthy body, a fresh appearance, and generally all the abilities we possess depend on that source of life. It is therefore the duty of every sensible man to keep the blood as pure and normal as possible. Nature, in its infinite wisdom, has given us a thermometer indictaing the state of the blood, which appeals to our reason by giving notice of its impurity. Small eruptions of the skin, to which we scarcely pay any attention, headache, ringing noises in the ears, lassitude, sleeplessness, are generally a sign that the blood is not in its normal state, but is filled with noxious substances. These symptoms deserve our full attention. If more attention were paid to those symptoms, and steps taken to remove them, then many illnesses from which we suffer would become unknown, and the human body would become stronger and healthier. Attention therefor should be paid to those warning signs, and the blood can be purified and poisonous substances removed from it by the use of Dr. August Koenig's Hamburg Drops, discovered more than 60 years ago.

Fixing the Blame.
