Tendency of the T me.

The tendency of medical is toward preventive measures. The best thought of the w rld is being given to the sub ject. It is easier to prevent than to cure. It has been fully demonstrated that pneumonia, one of the most dangerous diseases that medical men have to contend with, can be prevented by the use of Chamberlain's Cough Remedy. Pneumonia always results from a cold or an attack of influenza (grip), and it has been observed that remedy counteracts any tendency of these diseases toward pneumonia. This has been fully proven in many thousands of cases in which this remedy has been used during the great prevalence of colds and grip in recent years, and can be relied upon with implicit confidence. Pneumonia often results from a slight cold when no danger is apprehended until it is suddenly discovered that there is a fever and difficulty in breathing and pains in the chest then it is announced that the ratient has pneumonia. Be on the safe side and take Chamberlain's Cough Remely as soon as the cold is contracted. It alway cures. For sale by Edwin Ross.

It fills our hearts with sadness, envy, and rage to think that Fish Hawk has a poet that can lay Whittier and Longfellow in the shade,

With his tender little verses
So full of mirth and grace;
No doubt the editor's waste ba-ket
Is quite their proper place.

Found, between Fish Hawk and Mist, a memorandum book. It bears no name only Fish Hawk. The owner can have the same by calling at postoffice. The first page reads as follows: Sunday, May 12, I rode all day. Munda, patched my britches. Tusday, washed all day. Wensda, got set taters out. Thursda, cleared patch for turnips. Saterda, went to town got dog. Sunda, got pig I moved.

A final to the correspon-lent from the wilderness of Fish Hawk:

From morning till night, your tongue's never mute.
No matter what's said you start a dispute.
You argue and rant, with out reason or sense,
And show to all subjects an ignorance dense.
We are sick of your blather, do give us a rest,
Or we'll have to suppress you, you wearisome pest.
