How About Your Title?

ARE YOU SURE IT IS ALL RIGHT? Remember that it is the
RECORD that governs. It is our business to search the
titles. If you contemplate buying land or loaning money on real-
estate security, take no man's word, but insist upon knowing what
the record shows regarding the title. An abstract is as essential as
a deed. Insist on having it. We have the only set of abstract
books in the county. All work promptly executed and satisfaction
guaranteed. If you have property to insure give us a call. We are
agents for the best fire insurance companies in the world. If you
have property for sale list it with us and we will find a buyer.

Greatest Clubbing Combina-
tion

TWO WEEKLY PAPERS FOR THE OF
ONE—GREATEST BARGAIN IN GOOD READING.

By a special arrangement we are able to furnish THE OREGON MIST
and THE WEEKLY CAPITAL JOURNAL at the following club-
bing price for both papers:

For One Year in Advance, \$1.50
For Six Months in Advance, 75c

The Weekly Journal, of Salem, Ore., prints most inside news about
our state government and the full legislative proceedings. Just
what you want for the coming season. The Journal is a large
eight page paper full of telegraphic news of the whole world. Sample
copy furnished free upon inquiry at this office.

WE OFFER YOU
For \$1.25 12-months' subscription to THE OREGON MIST.
One year's subscription to Conkey's Home Journal.
One year's membership in American Musical Association.

CONKEY'S HOME JOURNAL

Is a literary and musical monthly family magazine which should be in every home. Its
cover design is always in color. It is printed on good paper, and mechanically every
line is a tribute to the printer's art. Conkey's Home Journal is really two magazines
in one. The first half is devoted to special illustrated articles on subjects prominently
before the public, and short and serial stories. The second half is devoted to the inter-
ests of the mother and daughter. It also contains

WITHOUT EXTRA CHARGE

Practical lessons in lace and embroidery making.
Practical lessons in home millinery.
Practical lessons in interior decoration.
Practical suggestions for home dressmaking.
A complete fashion department showing the newest designs in hats and costumes,
shirt-waists and the smaller articles of feminine wear.

A complete pattern department, from which patterns may be ordered.
Photographs showing how to set the table.
Recipes and "Table Talks" which impart the information that is necessary to the
woman who would be "up-to-date".

The foregoing is supplemented by a department of music which contains each month
a copyright song, two-step or waltz, a lesson on Vocal Training and a lesson on Piano
Playing by eminent teachers.

"Boys Pets" is the subject of a series of articles for the boys. These articles are
thoroughly practical and tell how all kinds of pets may be raised both for pleasure and
money.

The American Musical Association enables its members to purchase sheet
music and all music supplies at discounts ranging from 25 to 90 per cent.
Sample copy of Conkey's Home Journal mailed to any address on request.

BRIGHT'S DISEASE.

The largest sum ever paid for a pre-
scription changed hands in San Fran-
cisco, August 30, 1931. The transfer is
involved in coin and stock \$112,500.00,
and was paid by a party of business
men for a specific for Bright's Disease
and Diabetes, hitherto incurable dis-
eases. They comprehended the serious in-
vestigation of the specific November 15,
1900. They interviewed scores of the
cured and tried it out on their merits by
putting over three dozen cases on the
treatment and watching them. They
also got physicians to name chronic, in-
curable cases, and administered it with
the physicians for judges. Up to Au-
gust 25, 87 per cent of the test cases
were either well or progressing favor-
ably. There being but 13 per cent of
failures the parties were satisfied and
closed the transaction. The proceed-
ings of the investigating committee and
the clinical reports of the test cases were
published and will be mailed free on ap-
plication. Address the John J. Fulton
Company, 420, Montgomery street,
San Francisco, Calif.

A cyclone in Central Kansas did
much damage to crops and property.

Four were killed and six others in-
jured by a Pittsburg elevator break-
ing.

discount from 4 to 3 1/2 per cent.

NEW COALING STATION.

Admiral Dewey Recommends One for
Dutch Harbor, Alaska.

Washington, May 27.—Admiral
Dewey, as president of the General
Board, has made a report to Secretary
Moody, recommending the immediate
establishment of a coaling station at
Dutch Harbor, Alaska, and the erec-
tion there of a coal depot with an
initial capacity of 5,000 tons. The es-
timated cost of the work is about \$51,
000. The money is now available. Be-
lieving that the establishment of a
coal depot at this strategic point will
strengthen the United States on the
Pacific Coast, the President has heartily
approved the plan, and prelimi-
nary steps in the work have been taken
already.

Dutch Harbor is located on one of
the Aleutian Islands, and is on the di-
rect commercial route between the
ports of Behring Sea and Southern
Alaska and the Pacific Coast of the
United States. It is also in the line of
steamships passing through the Uni-
mak Pass, most of which make Dutch
Harbor a port of call. Its use as a coal
depot site was first recommended by
Rear-Admiral Bradford, Chief of the
Bureau of Equipment. His recom-
mendation was referred to the Gen-
eral Board, and is now about to be
executed according to his plans.

Dutch Harbor will form the fifth
in the chain of coal depots along the
Pacific Coast, which will begin at San
Diego and include San Francisco, Pu-
get Sound and Sitka. Honolulu is the
sixth in the chain, and Guam probably
may be added to the list.

FIRE LOSS A MILLION.

A Large Philadelphia Warehouse Is an
Entire Loss.

Philadelphia, May 27.—Fire this
evening in the building of the Front
Street Warehouse Company caused a
loss estimated at \$1,000,000. The
building which was three stories high
on Front street and fire in the rear,
with two sub-cellars, containing mer-
chandise of a general character. One
floor was packed solidly with matting
and there was 1500 rolls of carpet, 500
barrels of molasses, a carload of
wines, and other liquors, a carload of
matches and much machinery.
Everything in the building was de-
stroyed either by fire or water.

The fire started in the basement
and was not discovered until the cen-
ter of the first floor was in flames.
The character of the goods in the
building made it an easy prey to the
flames, and the whole structure was
soon ablaze. The contents of the
building were owned by many firms
and individuals, and it is not known
tonight what amount of insurance
was carried.

UNIONS DON'T UNDERSTAND.

Energy Must Be Properly Directed If
They Would Live.

Chicago, May 27.—Clarence S. Dar-
row, who was chief counsel for the
miners in the recent arbitration grow-
ing out of the strike in the anthracite
coal fields, delivered an address to
the Henry George Association here
today on the "Perils of Trades Uni-
onism." The general tone of his talk
was that "labor unions do not under-
stand the principles upon which they
are founded and along which they
must work if they are to continue in
existence." He said in part:

"Men catch trade unionism, specu-
lation, combination, as they catch the
measles or the mumps. Capital has
caught the fever of combination until
it has gone mad over corporations and
trusts. Likewise, labor has caught
the fever of trade unionism and with-
out knowing what it means or real-
izing how it may be of real service to
the world, has turned its power and
energy in the direction of building up
organizations.

"Unless this force is turned to po-
litical power or substantial methods
for bettering industrial conditions then
all this great movement must be for
naught."

Great Irrigation Dam.

Washington, May 27.—The Geolog-
ical Survey has prepared a model of
the extensive dam to be constructed
on Salt river, 65 miles above Phoenix,
Ariz. This dam will be among the
first and also among the largest irri-
gation enterprises to be undertaken
by the Government under the new law.
The exact proportions of the dam are
188 feet thick at the base, 330 feet
long at the top and 250 feet high. It
will contain 11,600,000 cubic feet of
masonry. The reservoir to be con-
structed will drain over 6000 square
miles of territory.

Estate Long Unsettled.

San Diego, Cal., May 27.—By an or-
der of court the valuable estate of
James W. Robinson is to be distrib-
uted. The case is a remarkable one.
Robinson, who was once Lieutenant-
Governor of Texas and subsequently
a prominent lawyer in this state, died
here in 1857. For some reason his
heirs, who lived in Ohio and else-
where in the East were not aware of
his death until long afterward and no
efforts were made until comparatively
recently to settle up the estate.

Butchery By Turks.

London, May 27.—The Sofia corres-
pondent of the Morning Leader tele-
graphs that the Macedonian commit-
tee reports that the Turks have bur-
ied the village of Banat, near Seres.
Only 48 of the 500 inhabitants es-
caped and many women and girls
were outraged and murdered and
their bodies cast into the water.

HAPPENINGS HERE IN OREGON

LAND FOR RESERVE.

Big Withdrawal Made in Warner Valley
Section, Southern Oregon.

The interior department has decided
upon another forest reserve for Oregon,
this time in Southern Lake county,
in the Warner mountain country. By
direction of Secretary Hitchcock, the
vacant public lands in a tract of over
990,000 acres in Lake county, and 44 1/2
townships adjoining in Northern Cali-
fornia, have been temporarily with-
drawn from all entry, with a view to
their examination to determine the ad-
visability of creating a forest reserve
about the town of Lakeview. The
Oregon lands withdrawn are: Town-
ships 34 to 41 inclusive, ranges 16, 17,
18 and 19; townships 37, 38 and 41, range
19; townships 36 and 37, range 20;
townships 35 to 41 inclusive, ranges 21
and 22, all south and east. The town-
ship in which Lakeview is located, and
the townships immediately north,
south and west, are not included in the
withdrawal.

A forest reserve in the Warner Moun-
tain region is recommended by the
geological survey, not only for the pre-
servation of the timber, but for the
preservation of the water supply. Goose
lake lies in the center of the withdraw-
al, and a number of streams which
supply it with water have their head-
waters within that region. Moreover,
the headwaters of Sprague river, Drews
creek, Warner creek, and a number of
other streams would all be protected by
a forest reserve in this region.

In view of the development of irri-
gation enterprises in Lake county and
in Northern California, the creation of
this forest reserve is considered most
essential. The lands withdrawn are to
be examined this summer, and such
tracts as are found unsuitable for re-
servation will ultimately be restored to
entry. The remainder, beyond a ques-
tion of doubt, will be permanently re-
served.

Half a Hop Crop.

Much complaint is being expressed
by the hop growers around Harrisburg.
From some cause the vines have not
come up in many hills in the yards
thereabout, while many of the vines
are blighting. It is the opinion of the
growers that the trouble is due to
worms in the roots. Still there are
those who do not incline to this opin-
ion. However, all agree that the re-
sult will not be over half a crop in that
locality.

Better Catch of Fish.

Reports from the mouth of the river
are to the effect that the catch of fish
is a trifle better, but as the catch dur-
ing the past week or ten days has been
very small, this does not mean much.
The time is fast approaching, however,
when big runs are to be expected, pro-
vided, of course, that the weather and
other conditions turn more favorable.

Joining Two Branches.

Again it is reported that the long
looked for link connecting the two
lines of the Southern Pacific between
Springfield and Eugene will soon be
built, and the report seems to come
from a reliable source. A surveying
party is to be sent by the company at
once to make final location of the route
for the connection, which it is the in-
tention to construct during the present
year.

Water Supply Falls.

There is a shortage of water at the
Oregon agricultural college. The source
of supply is a large well, which for-
merly afforded sufficient water, but the
growth of the college and the largely
increased amount of water required ren-
ders the output of the well insufficient
to meet the needs. Every day now the
well is pumped dry, in spite of the
fact that there is careful husbanding of
water in all the departments.

Sugar Beets Need Rain.

About 30 Japanese have arrived in
Pendleton from Portland to work in
the beet fields of the Oregon sugar
company, and 120 more are expected
to follow soon. The beets are growing
slowly, and almost at a standstill for
want of rain. Grain, gardens and
orchards are also suffering.

Portland Markets.

Wheat—Walla Walla, 70¢71¢; val-
ley, 74¢.
Barley—Feed, \$20.00 per ton; brew-
ing, \$21.
Flour—Best grades, \$3.95@4.30; gra-
ham, \$3.45@3.85.
