

# Hood's Sarsaparilla

Has won success far beyond the effect of advertising only.

The secret of its wonderful popularity is explained by its unapproachable merit.

Based upon a prescription which cured people considered incurable.

## Hood's Sarsaparilla

Unites the best-known vegetable remedies, by such a combination, proportion and process as to have curative power peculiar to itself.

Its cures of scrofula, eczema, psoriasis, and every kind of humor, as well as catarrh and rheumatism—prove

## Hood's Sarsaparilla

the best blood purifier ever produced. Its cures of dyspepsia, loss of appetite and that tired feeling make it the greatest stomach tonic and strength-restorer the world has ever known.

## Hood's Sarsaparilla

Is a thoroughly good medicine. Begin to take it TODAY. Get HOOD'S.

Excusable.

He—They say feathers are all the rage this year.

She—Yes—and heads, too.

He—Pain and powder are always more or less in vogue, aren't they?

She—Yes. But, then, you must remember this is the age of Indian fads.

Withers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children's teething pains.

Success may sometimes come unexpectedly, but work alone can hold it.—F. W. Murray.

STATE OF OHIO, CITY OF TOLEDO, ss.

FRANK J. CHENEY makes oath that he is the senior partner of the firm of F. J. CHENEY & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of HALL'S CATARRH CURE.

FRANK J. CHENEY Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1904.

A. W. GLEASON, Notary Public.

Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces of the system. Send for testimonials, free.

F. J. CHENEY & Co., Toledo, O.

Hall's Family Pills are the best.

Cleanliness prevents rust; the best-lubricated for machines last the longest.

For bronchial troubles try Pin's Cure for Consumption. It is a good cough medicine. At drug stores, price 25 cents.

Method in His Effort.

"You seem to have a great liking for large words."

"Well, sir," answered Mr. Ernest Pinkley, "I once knew a man whose life were saved by a big word. He once told me that I prevented, and by de time I found out what that word meant it were too late for me to hit him."—New Yorker.

For Infants and Children.

The Kind You Have Always Bought

Bears the Signature of J. C. Ayer & Co.

Merely a Hint.

The man who thinks he knows it all may find out by and by.

That the man who doesn't know so much eats far less humble pie.

Miss Alice Bailey, of Atlanta, Ga., escaped the surgeon's knife, by using Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I wish to express my gratitude for the restored health and happiness Lydia E. Pinkham's Vegetable Compound has brought into my life.

"I had suffered for three years with terrible pains at the time of menstruation, and did not know what the trouble was until the doctor pronounced it inflammation of the ovaries, and proposed an operation.

"I felt so weak and sick that I felt sure that I could not survive the ordeal, and so I told him that I would not undergo it. The following week I read an advertisement in the paper of your Vegetable Compound in such an emergency, and so I decided to try it. Great was my joy to find that I actually improved after taking two bottles, so I kept taking it for ten weeks, and at the end of that time I was cured. I had gained eighteen pounds and was in excellent health, and am now.

"You surely deserve great success, and you have my very best wishes."

Miss ALICE BAILEY, 50 North Boulevard, Atlanta, Ga. — \$5000 full of original of above letter proving genuineness cannot be produced.

All sick women would be wise if they would take Lydia E. Pinkham's Vegetable Compound and be well.

# THE BEST POMMEL SLICKER IN THE WORLD

TOWER'S FISH BRAND

Like all our water-proof coats, boots and hats it is often washed but never equalled.

Made in black or yellow and fully guaranteed by us.

FOR SALE BY ALL RELIABLE DEALERS. STRICTLY TO THE SIGN OF THE FISH.

It is much better and easier to scrub soiled flannels with a small brush than it is to rub them clean on a board.

A rather stiff brush about four or five inches long is the best article for this purpose. Scrub the bands and seams of heavy woolen shirts, as well as those of cotton, in this way. This small brush is excellent in washing corsets or any heavy pieces that are difficult to rub on a board. If the brush has a small handle the garments may be more easily cleaned with it.

# Science AND INVENTION

London produces ten lunatics per day; New York nearly as many, with greater proportionate increase.

The self-lighting Bunsen burner of a German chemist depends upon the igniting effect of a pellet of palladium sponge, which is passed over the escaping gas as the tap is opened.

Over-fatigue is regarded by Dr. Burton-Fanning as the determining cause of 10 per cent of his cases of pulmonary consumption. Even a single excess—as unusual bicycling, climbing, hunting, or even dancing or tennis—may bring into activity unsuspected latent tuberculosis.

The statement is generally made that the principal geysers of the Yellowstone Park greatly exceed in size and power all others in the world. J. A. Ruddick, now of Ottawa, Canada, contradicts this, and says that the Waimangu Geyser in New Zealand far exceeds in proportions anything described in the Yellowstone region.

Mr. Ruddick has never himself seen Waimangu in action, but has often written in proportions anything described in the Yellowstone region. Mr. Ruddick has never himself seen Waimangu in action, but has often written in proportions anything described in the Yellowstone region.

Mr. Ruddick has never himself seen Waimangu in action, but has often written in proportions anything described in the Yellowstone region. Mr. Ruddick has never himself seen Waimangu in action, but has often written in proportions anything described in the Yellowstone region.

# QUEER STORIES

In Valparaiso all the conductors on trolley cars are women.

Persons with blue eyes are rarely affected with color blindness.

Sleepers made of earthenware are used on some of the railroads in Japan.

In making the best Persian rug a weaver spends about twenty-three days over each square foot of surface.

Each ear has four bones. The body has about 500 muscles. The human skull contains thirty bones. The lower limbs contain thirty bones each.

Every hair has two oil glands at its base. The sense of touch is duldest on the back.

The thoroughness in which the agricultural schools of the Western States are going into the education of farmers is illustrated by the announcement that the Iowa State Agricultural College has just established a course of instruction in the slaughtering of live stock.

It is a laboratory course, and the young farmers will learn the art by practical instruction.

Ceylon, according to its recent census returns, has no fewer than 145 inhabitants over one hundred years of age. Seventy-one of these are males and seventy-four females.

Of these forty-three men and fifty-two women claimed to be exactly one hundred, while the highest age returned was 120.

One hundred is a good round age, and no doubt every indolent octogenarian who could not be bothered to remember the year of his birth put down one hundred to save time.

The precious pearl is produced, at least in many cases, by the presence of a minute parasite in the shell-secreting mantle of the pearl oyster and other mollusks from which pearls are obtained.

A spherical sac forms around the parasite, which becomes a nucleus about which the substance of the gem is gradually built up in concentric layers. Some times the parasite remains at the center of the pearl, and sometimes it migrates from the sac before it has become hopelessly imprisoned.

Reasoning upon these facts, Dr. H. Lyster Jameson, to whose efforts the discovery of some of them is due, suggests the possibility of the artificial production of marketable pearls by infecting beds of pearl oysters with the particular species of parasites that are known to attack such mollusks with the effects above described.

THEATER FLOATS ON SCOW.

How People Along Three Great Rivers Are Supplied with Amusements.

A floating theater, designed to supply the towns along the Ohio, Illinois and Mississippi rivers with dramatic entertainments, has recently been constructed and is about to start on its journeyings.

Its seating capacity is for 1,000 people and there are boxes for the elite and a pit for the orchestra. In addition the vessel is sufficiently large to admit of numerous sleeping rooms for the actors, the deck hands and all those connected with either the show or the boat.

The entire force numbers forty. On the steamer which tows the floating theater, besides the boilers and engines, there is a complete electric light plant, besides a kitchen and dining room.

In view of the fact that the long water route of the floating theater carries it into the warmer portions of the South the season for the show does not close until late in the Southern winter. The entire route comprises 2,500 miles.

The boat starts at Pittsburgh and visits the towns of the coal miners and steelworkers along the Monongahela river. Next it returns and goes down the Ohio to the Kenawha, thence to Cairo, and later up the Illinois river to La Salle. Then, after going back to the Mississippi, the boat slowly makes its way in the direction of New Orleans.

The idea of a floating theater is not exactly new, but the extensive scale upon which it is being conducted and the fact that it is the drama instead of the vaudeville program that is being presented attracts unusual attention.

"Faust" is the production which has been presented this season.

Along the route of the floating theater the towns are often but ten or fifteen miles apart. Therefore the jumps of the boat and its company are not long ones. On the upper deck of the steamer is a calliope. Long before the theater reaches the town in which it is to show the sounds of this instrument may be heard. The idle population of the river towns at once begins to assemble on the wharf.

As the steamer comes within a few hundred feet of the dock the calliope is silenced and a brass band strikes up a familiar air. The crowd on the wharf then grows larger. Many are there awaiting the first opportunity to secure reserved seats. When the boat touches the wharf the sailors, some of whom are later transformed into actors, make the vessel fast and put the gangplank in place. The scenery is arranged and the orchestra rehearses while the cook is preparing the next meal in the kitchen. The people come aboard and select their seats. Instead of doing so from a diagram on shore. At night the theater is brilliantly lighted by electricity and a searchlight flashes over the surrounding territory. The entertainment lasts about three hours.

RATS MADE BEDS OF MONEY.

When the Nest Was Found the Missing Bills Were All Intact.

A short time ago Mrs. Mike Muller, who keeps a grocery on the corner of Eighth and Elm streets, hid away where she could easily find it, \$76 in bills for use at a time when necessity or desire required it. She thought of thieves, but not of the rodent description, and was, therefore, quite particular in selecting a hiding place. A few days later she thought she would take a look at her hidden treasure, with the view of assuring herself that the money was where she had hidden it, but on going to the place her surprise can easily be imagined when, on placing her hand where the money ought to have been, she discovered that it was gone.

Matters remained in that condition up to a few days ago, when, hearing a rat traveling around the house, the idea struck her that rats were the real purloiners of her money. Going to work with a vim she was not long in ripping up two or three planks from the floor of one of the rooms of the house and, instituting a close search, was greatly excited to find that rodents had actually stolen the money, packed it away and made a cozy bed of it, for there it was before her eyes. Every bill was found intact, not a dollar missing.—Henderson (Ky.) Gleaser.

Making Money Out of Garbage.

The borough of Fulham, London, by the use of its garbage in the furnace of the municipal electric lighting plant makes a profit of \$3,442 a year.

Laugh when a friend tells a joke; it is one of the taxes you must pay.

# SISTERS OF ST. JOSEPH

RELY ON PE-RU-NA TO FIGHT CATARRH, COUGHS, COLDS, GRIP

Peruna for coughs and colds in children.

SISTERS OF ST. JOSEPH Use Pe-ru-na for La Grippe and Winter Catarrh.

In every country of the civilized world the Sisters of Charity are known. Not only do they minister to the spiritual and intellectual needs of the charges committed to their care but they also minister to their bodily needs.

Whenever coughs or colds, la grippe or pneumonia make their appearance among the children these Sisters are not disconcerted, but know exactly the remedies to apply.

With so many children to take care of and to protect from climate and disease these wise and prudent Sisters have found Peruna a never-failing safeguard.

Dr. Hartman receives many letters from Catholic Sisters from all over the United States. A recommend recently received from a Catholic institution in Detroit, Mich., reads as follows:

Dr. S. B. Hartman, Columbus, Ohio: Dear Sir—The young girl who used the Peruna was suffering from laryngitis, and loss of voice. The result of the treatment was most satisfactory. She found great relief, and after further use of the medicine we hope to be able to say she is entirely cured. Sisters of Charity.

This young girl was under the care of the Sisters of Charity and used Peruna for catarrh of the throat, with good results as the above letter testifies.

From a Catholic institution in Central Ohio comes the following recommendation from the Sister Superior:

"Some years ago a friend of our institution recommended to us Dr. Hartman's Peruna as an excellent remedy for the influenza of which we then had several cases which threatened to be

of a serious character. We began to use it and experienced such wonderful results that since then Peruna has become our favorite medicine for influenza, catarrh, cold, cough and bronchitis."

Another recommend from a Catholic institution of one of the Central States written by the Sister Superior reads as follows:

"A number of years ago our attention was called to Dr. Hartman's Peruna, and since then we have used it with wonderful results for grippe, coughs, colds and catarrhal diseases of the head and stomach.

"For grip and winter catarrh especially it has been of great service to the inmates of this institution."

SISTERS OF CHARITY All Over the United States Use Peruna for Catarrh.

A recommend recently received from a Catholic institution in the South west reads as follows:

A Prominent Mother Superior Says: "I can testify from experience to the efficiency of Peruna as one of the very

best medicines, and it gives me pleasure to add praise to that of thousands who have used it. For years I suffered with catarrh of the stomach, all remedies proving valueless for relief. Last spring I went to Colorado, hoping to be benefited by a change of climate and while there a friend advised me to try Peruna. After using two bottles I found myself very much improved. The remains of my old disease being now so slight, I considered myself cured, yet for a while I intend to continue the use of Peruna. I am now treating another patient with your medicine. She has been sick with malaria and troubled with leucorrhoea. I have no doubt that a cure will be speedily effected."

These are samples of letters received by Dr. Hartman from the various orders of Catholic Sisters throughout the United States.

The names and addresses to these letters have been withheld from respect to the Sisters but will be furnished on request.

One-half of the diseases which afflict mankind are due to some catarrhal derangement of the mucous membrane lining some organ or passage of the body.

A remedy that would act immediately upon the congested mucous membrane restoring it to its normal state, would consequently cure all these diseases. Catarrh is catarrh wherever located, whether it be in the head, throat, lungs, stomach, kidneys or pelvic organs. A remedy that will cure it in one location will cure it in all locations. Peruna cures catarrh wherever located.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

# HOMES OF THE ESKIMOS

Cozy Snow Houses in Which They Spend Long Winters.

Despite the great rigors of the Arctic regions the Eskimos live comfortably enough, considering the state of their civilization, in their igloos, or snow houses. These, says a writer in The World's Work, are dome-shaped structures, exposed to the full blast of the north wind, and are hardly distinguishable from the surrounding snow drifts. They are built entirely

with a view to keeping out the cold air, and admirably serve the purposes of their rude but skillful architects. At the entrance stands a large block of snow. This is the door. In the daytime it is pushed aside. At night it is drawn before the opening, which it completely fills, keeping out of the passage both drifting snow and prowling animals. In order to enter the snow house, it is necessary to crawl on "all fours" along a tunnel about 30 feet long. At the end is the storehouse, which leads to the living apartments.

Light is let into the interior through large, clear sheets of ice. In the center of the living room stands the "kudlik," a saucer shaped thing full of moss and seal oil which serves as a stove by day and both stove and lamp by night. The beds are seal skins piled upon the floor.

Business Woman's Rules. Be honest. Don't worry. Be courteous to all. Keep your own counsel. Don't complain about trifles. Be loyal to your employer. Don't ask for vacations. Be business-like, not womanish. Be prompt—a little ahead of time—if possible. Be neat and attractive but unobtrusive in your person. Take kindly criticism in the spirit in which it was intended. Do the very best you can each day and every day, so that when there is a chance for promotion, you will not only be "called, but chosen."

Could Not Favor Unions. The city of Toronto recently called for bids for firemen's clothing and the lowest competitor was the Crown Tailoring Company. The contract, however, was awarded at a higher price to a concern using the union label. Thereupon the Crown Tailoring Company obtained an injunction. In rendering a judgment Chancellor Boyd declared that in issuing its specifications the city could not demand the use of any particular union label and thus discriminate against certain classes of laborers who might be as capable as those entitled to use the label. The true test of ability, he held, is not membership in a union.

Doctors for Russia. Russia is very short of doctors, having only eight for every 100,000 inhabitants. Great Britain has 180 for the same number.
