LOCAL AND GENERAL.

There is now ready for the top dressing one mile of crushed rock road between St. Helens and Miller creek, at a cost of about \$700. This is over one of the roughest pieces of road in Columbia county; but when completed it will give us a highway of which any county would be proud. The work has been well done, every care being taken to give level grades, and all the culverts are made of rock. In addition to this a good piece of work has been done beginning above Warren, where a mile of road has been graded and rolled. There will be a fairly good road between Scappoose and St. Helens next winter, and before another year we will have a road from St. Helens to the Multnomah county line that can be driven over at full speed in the winter time.

 Everybody who can afford it should buy a ticket to the ball to be given for the benefit of the St. Helens ball team at the Opera House in this city on this Friday evening. The boys are worthy of encouragement.

Mr. Joseph Gallitens, of Deer Island, paid us a pleasant visit Saturday last. A "pleasant visit" may be described as one where the visitor pays a year's subscription in advance and gives the editor an encouraging talk.
 A Set of Dishes Free—I am giving away dishes to my cash customers. You get a coupon with each cash purchase of ten cents and over, and you can exchange these coupons for all varieties of the best class of China ware. Goods on exhibition at my store. Great inducements that it will pay you well to investigate.
 H. MORGUS, St. Helens.

Oregon has on display at St. Louis a rough log thirty feet long and ten feet in diameter. This log is one of seven cut from an Oregon fir at Blind Slough, in Clatsop county, which stood two hundred feet to the first limbs. The whole tree scaled forty thousand feet.
 The Sunnyside Sunday School is going to give a Fourth of July celebration at the Rice place, between Deep Creek and Mt. At, and has invited Mr. W. H. Powell, of this city, to deliver the oration. Mr. Powell has consented, and will no doubt give satisfaction to his old friends and have an enjoyable Fourth.

The Royal Chinook salmon is the best fish that swims, and Chinook shoes are the best shoes on the market. They are made of the very best material and are sure to give satisfaction. Bailey & Brinn, Houlton's reliable dealers in general merchandise, keep them for sale at from \$3.50 to \$5.
 The editor of the Mstr acknowledges the receipt of a neatly-printed invitation to attend the celebration of the Fourth of July at Rainier. We may not be able to be there, but we trust the citizens of Rainier may have a good old-fashioned time, and judging by the names on the committee, we are confident there will be an abundance of amusement for all who attend.

Dupont & Sons, of the Valley shingle mill, will deliver shingles to customers at St. Helens, Houlton, Columbia City, Warren and neighborhood. They manufacture the very finest grade of cedar shingles and guarantee their prices to be as low as shingles of the same grade can be procured elsewhere.
 The greatest care should be exercised in guarding against fires at this season of the year, and the city ordinance in respect to firecrackers, etc., should be enforced. A small blaze was observed Tuesday evening in the sawdust in front of the meat market. It was quickly extinguished, but had it occurred two hours later, the chances are we would have had a serious conflagration.

The new rules for the government of rural mail carriers which go into effect July 1, are much more strict than they have been heretofore. They must not let any outsider ride with them, they must not solicit business of any kind, their right to carry packages outside the mails is restricted, they must not carry liquors, and a lot more such regulations that will take off the profits from their jobs.
 Many of the Scappoose, St. Helens and Houlton people were keenly disappointed on Sunday last when they found that the A. & C. train refused to stop for passengers, either at Scappoose or Houlton. About twenty-five people bought tickets at Scappoose, and probably seventy-five at Houlton. Their money was returned to them and they were informed that the train was crowded and could take no more passengers. We commend the company for refusing to overcrowd its trains, but it seems that it should be able to provide a sufficient number of cars to handle its traffic. Several hundred people must have been disappointed Sunday in not being able to visit Seaside. Arrangements had been made for a match game of ball at the coast, between the Seaside and a Columbia county team, and the boys were warm at not being able to secure transportation.

WANTED—Stave bolts, yellow fir timber, 38 inches long. For information write Western Cooperage Co., Houlton, Ore.
 Like most booms, it is very probable the widespread rush for cascara bark this season in the Northwest will be disastrous to speculators and unfavorable for the future of the industry. The demand for barberry trees has been something of a craze, because of the widespread report that the cured bark would easily command 25c a pound, and groves are being denuded in many sections, with the result that prices have dropped rapidly and a glut in the market is promised. The operations this year will also reduce the future supply very largely as one peeling is said to end the productiveness of a tree, and a source of moderate profit will be eliminated through the get-rich-quick effort.—West Coast Trade.

 A visit to the exposition grounds at Portland this week shows a great amount of work has been done there lately. The frames of four immense buildings are now up and they will soon be under cover. A small army of men is at work and every day shows a marked advance. The grounds are beginning to reveal what they will be like when completed. The flower beds are flourishing, the lawns are mowed and the grass is growing with care and constant watering received, and by next year the effect will be fine. The rolling grounds lend themselves admirably to adding to the picturesque effect and no exposition site that the writer has seen, and he has seen several, has had as much natural beauty as the Lewis and Clark situation. The model farm already begins to make a showing and a year hence it will be one of the great attractions of the fair.

ATTEMPTED SUICIDE.
John Sobieski Cuts His Throat From Ear to Ear.
 John Sobieski, of Yankton, attempted to commit suicide at 3 o'clock a. m. Thursday morning by cutting his throat with a razor. Sobieski had been a great sufferer from an injury received some years ago by being crushed by a falling tree, and this is given as the cause of his desire to leave this world. He procured the razor and took it to bed with him Wednesday night, and at about 3 yesterday morning he shouted to his wife that he had killed himself. Dr. Ross was summoned and found that Sobieski had slashed his throat almost from ear to ear, but had failed to open the wind pipe, and it is probable that he will recover, though he expresses no desire to live, and is sorry that his attempt at self-destruction was unsuccessful. Sobieski is an old resident of Columbia county and has always been a hard working man and a good citizen. He is about 60 years of age.
