Our county officials and their able deputies worked like Trojans in assisting their unfortunate neighbors in trying to save personal effects. The buildings that a cruel fire was licking up were as dry as tinder and naturally it was a "hot time in the old town tonight." Although the moisture stood in beads on their begrimed faces, they never tired until the end came.

DENMORE TYPEWRITER FOR SALE—Nearly new and in every respect as good as new. Can be purchased for \$75. Inquire at the MIST office, St. Helens, or of Lew Davies, Warren, Ore.

Hop pickers who left their homes in this county have mostly returned. In some fields the hops were up to the standard, while in others only fair to middling. The complaint seemed to be that work was not steady and this naturally reduced their earnings. It is said that one of our girls had a 10-lb. rock in her basket to help the weight. "All same Melican man."

Old papers for sale. See Frank Plagg, agent Evening Telegram.

The Royal Chinook salmon is the best fish that swims, and Chinook shoes are the best shoes on the market. They are made of the very best material and are sure to give satisfaction. Bailey & Brinn, Houlton's reliable dealers in general merchandise, keep them for sale at from \$3.50 to \$5.

Our school is running smoothly and the pupils have settled down to business in earnest. A full and competent corps of teachers have been employed by our wide-awake school directors. While considerable trouble was experienced by a lack of text books in certain grades, owing to the fire which wiped out the supply, a new stock has arrived and will be added thereto. St. Helens has a fine temple of learning and we urge pupils to study diligently and faithfully, to not be dilatory, but prompt. Who knows but what the youth who now studies his lessons in St. Helens' school may some day be president of this big nation—with a big "N."

The steamer Mascot, of the Vancouver Transportation Company's line, lies on the sands at the mouth of the Lewis river. The accident happened thusly: Nearing Lewis River, Captain Harry Reeves shaped her course Tuesday evening to make that entrance, but instead hung up on the sands this side of the mouth. She immediately filled and sank, but lies in an easy position. She had on board about 20 tons of freight, but this was shifted so that at high water there was but three inches covering her main deck amidships. She also carried a number of passengers, to whom the mishap proved inconvenient, but no injuries grew from it. The steamer G. M. Walker has come to the aid of the Mascot, taking her freight on to Lewis River points, and giving her wrecking appliances. The Mascot is to be siphoned out and patched up and towed to Portland and repaired. Since being launched in 1890 the Mascot has gone to the bottom four times.

Ellis Jennings and Donald McRae, two timberland owners, have returned to Portland from a firefighting campaign in Columbia County, west of Deer Island. They have a large force of men employed at that point, but say there is very little use in fighting fire at this stage, as a few minutes of wind will undo the work of hours on the part of firefighters. "We have men placed at the trails and along the creeks," Mr. Jennings said, "and they can probably stop the progress of the flames if the wind keeps down; but what we need is a heavy rain that will stop the further progress of the fire. Most of the timber in Columbia County is now owned by Eastern men, who will lose heavily this year."

The fruit canning season is approaching and the price of sugar is sure to go up. Prudent housekeeper should order a supply from Bailey & Brinn, Houlton's reliable grocers.
