Minding His Own Business.

Wallace Cummings used to drive the old stage which ran between Bridgton and Portland. One day Wallace had as a passenger out of Portland a young city chap or dude, as Wallace called him. The scenery along the stage route was both beautiful and diversified; the young man was much interested, and as he sat on the box, or post of honor, beside Wallace literally plied him with questions as to what mountain that was and what river this was, etc.

The old driver, who detested this sort of interrogation, stood it as long as he could. Finally he blurted out: "Say, stranger, if you'll mind your business I'll mind mine."

Thus snubbed, the young man relapsed into silence.

They had driven about ten miles widow, you know." farther when they came to a long hill, where the driver was obliged to apply the brake. As he shoved his foot to ward it he immediately noticed that him? the mail bag, which always lay there, was gone. Evidently it had dropped off along the road.

Wallace stopped his horses; then, breaking the long silence, he said: Say, stranger, did you see that mall bag slide off?" "Yes, I did; some ten miles back,"

calmly remarked the young man. "Well, why in thunder didn't you tell me?" gasped the astonished driver.

The "dude" looked him squarely in the eye for a moment, and then ne drawled, imitating Wallace's tone: "Say, driver, you mind your business and I'll mind mine."

The rest of the journey was driven in cold silence.—Boston Herald.

One Way of Examining.

Ho, there, Zimmie," called the vil-lage physician's man-of-all-work to the lad who was passing. "Doctor said for me to tell you, if you came along, that he wanted to see you inside. Think he's lookin' for a new office boy. He's in the office now."

"You tell him to go straight up!" retorted little Zimmie Fiddler, preparing to run. "See me inside? not much! He needn't think he's goin' to git to cut me open on any such excuse as that! Blast him! That's no way to examine an office boy!"

Infant mortality is reported to be greater in Prussia than in any other country except Russia. The deaths the galt, isn't he?" first year are 6 to 7 per cent in Sweden, 15 in France and 23.6 in Prussia.

Sahib" in her proper place.

Railroad Rate Legislation. Testifying before the senate committee at Washington, Interstate Commerce Commissioner Prouty said in discussing the proposition to give that

commission the power to regulate railway rates:--I think the railways should make their own rates. I think they should be allowed to develop their own business. I have never advocated any law, and I am not now in favor of any law. which would put the rate making power into the bands of any commission or any court. While it may be necessary to do that some time, while that is done in some states at the present time, while it is done in some countries, I am opposed to it. The railway rate is property. It is all the property that the railway has got. The rest of its property is not good for anything unless it can charge a rate. Now it has always seemed to me that when a rate was fixed, if that rate was an unreasonable rate, it deprives the railroad company of its property pro tanto. It is not necessary that you should confiscate the property of a railroad; it is not necessary that you should say that it shall not earn three per cent or four per cent. When you put in a rate that is inherently unreasonable, you have deprived that com-pany of its rights, of its property, and the circuit court of the United States

has jurnidiction under the Fourteenth amendment to restrain that. . I have looked at these cases a great many times, and I can only come to the conclusion that a railroad comreasonable rate, and if any order of a commission, if any statute of a state legislature takes away that rate, the Fourteenth amendment protects the
