Verdict in the Williamson, Gesner and Biggs Land Case.

GUILTY AS CHARGED.

Portland, Sept. 28. - "Guilty as charged in the indictment." After Heney Working Hard to Secure chief of the division of mining and three trials, extending over three three trials, extending over three months, John Newton Williamson, Representative in congress from Oregon; Dr. Van Gesner, his partner, and Marion R. Biggs, their triend and the LAWYERS WANT CASE DISMISSED United States commissioner for the general land office at Prineville, have been declared to be guilty of the crime of conspiracy to suborn perjury, and have been thrown upon the leniency of the court, by reason of their previous good character.

The long and tiresome third trial of the case has passed into history, but Thaddeus S. Potter and Ira Wade will unlike the first and second, it has been face the Federal court this morning productive of a decisive result. Once charged with a conspiracy to defraud more the cause of the government and the indefatigable energy of United ment, which was argued yesterday by States District Attorney Hency have S. B. Huston and M. L. Seattle, Wash., Sept. 29.—Chinese merchants in Seattle state that they have mail advices from Canton which criminal negligence, declare the viceroy of that province has acknowledged his inability to put down the boycott. The vicercy insists that the boycott. The viceroy insists that the damage caused by the the merchants and people will buy as ported that the damage caused by the they see fit. He adds, though, that fire in the army storehouse at Hirothey sentiment is being resisted, and shima amounted to 1,849,107 yen, that some gains have been made by the equivalent to about \$924,533, including The larger part of General Linie-vitch's army will winter in the field boycott

LAND FRAUD CASES

More Convictions.

Should Indictment Be Found Faulty Defendants Will Go Free on Statute of Limitations.

Portland, Oct. 3.-Willard N. Jones the government, provided Judge Hunt overrules the demurrer to the indictfor the government.

Several moves have been made by the defense to prevent the case coming to trial, but so far they have been unsuccessful, though their efforts have hindered the consideration. The first indictment against the defendants was admitted to be defective by the district attorney and was dismissed, while the present indictment was returned just as the statute of limitations was about to run. A plea in abatement was filed by the attorneys as the second step, but this was overruled by the court, upon which the demurrer was presented. Yesterday morning it was submitted upon a statement of contention by the different attorneys interested in the

The court listened to the argument on both sides and then took the matter of its decision under advisement until this morning, when it will make known its opinion. If Judge Hunt should de-cide for the defense, the defendants would be enabled to escape prosecution entirely, as the statute of limitation has by this time run and no new indictment could be drawn or voted replace the present one.

STEALING IS EASY.

New York Bank Clerk Takes Money to Prove It.

Nwe York, Oct. 3 .- By the confession of Henry A. Leonard, a young clerk in the employ of Halle & Stieg-litz, brokers at 30 Broad street, the niystery of the robbery on Wednesday his parents at 566 East 136th street. was arrested yesterday and kept in close confinement while the detectives continued their search for the missing securities, every dollar of which was

recovered today.

The prisoner, who is only 24 years old and who has previously horne the reputation of an industrious and thoroughly reliable clerk, made the astounding statement in his confession, that he had planned and carried out

TRAIN HELD UP.

Great Northern Express Car Dynamited and Safe Looted.

Seattle, Wash., Oct. 3 .- The Great Northern overland train, leaving Seatthe baggage and express car dynamited five miles from Ballard, at 8:45. The sanitary authorities are erecting was 11 o'clock before the train pulled into Edmonds and the most meager reports were sent to the local office.

Three men are known to have done the work. Two boys, who got on the blind baggage here, as soon as the holdand began holding up the passengers. They were captured. They say two of the men were on the blind baggage when they got on and the third got on

SANDS ARE RICH IN ORE.

Black Deposits Near Mouth of Co-

lumbia Give Results. Portland, Oct. 3 .- Dr. David T. Day, Geological survey, announces that his experiments with black sands at the Lewis and Clark exposition have been Coregon's Convict Labor Goes to the Lost to Buyer. eminently successful. Dr. Day says the black sand found in the vicinity of the mouth of the Columbia river is of suffi-

cient value to warrant its being concenrated, as it contains valuable minerals that will average not less than \$7 per ton. The experiments carried on in the concentrating pavilion at the exposition proved that a ton of the black sands taken from the Columbia river will average \$5 in magnetite, or iron and \$2 in other minerals. He says the exact value of the gold and platinum has not been determined as yet, but that the iron alone makes it valuable enough to pay the cost of transporta-

tion and then leave a splendid profit. Dr. Day has been experimenting with these black sands for some time. He says the extent of the sand beds is practically unlimited, and that in some places they have been found to be 70 feet in depth. Samples have been taken from the surface sands and from the bottom of the beds, and the rich mineral always shows up when the sand is concentrated. He says the deeper the sand is obtained the richer it is in minerals.

DRIVEN BY CLUBS.

Martinique Workmen for Canal Compelled to Land at Colon.

sailles, under contract to work on the under the American sanitary regulahere before they embarked, and that later they learned these conditions were intolerable and deadly. Yesterday morning, however, 500 of

declined to leave the ship under any consideration. These were forcibly ejected from the vessel this afternoon by Panama and Canal zone policemen, but not until nearly every one of them had been clubbed and several were

bleeding from ugly wounds.
All yesterday and last night the Versailles was guarded by Panama policemen. Early this morning the French consul at Colon, M. Bonhenry, ap-pealed to the men to listen to reason, explaining that they had left Martinzone emigration agent, guaranteeing the payment of their passage here, and that while working on the canal they would have, in addition to their wages, the guarantee of free quarters and free medical attendance.

ARMY STORES BURN.

Temporary Buildings Contained Millions of Dollars' Worth of Goods.

Tokio, Oct. 3. - A fire which broke shima at 1 o'clock and continued for over three hours, destroyed 20 temporary buildings, together with their contents, consisting principally of provisions and clothing. The cause of the

fire is being investigated.

A large portion of the clothing had been removed from a new storehouse before the fire. The extent of the damage is believed to be comparatively slight. There was no toss of life.

A later telegram from Hiroshima said that the fire was still burning at 1 o'clock this afternoon. In addition to the 20 buildings, several others filled with fodder were destroyed. Although the buildings were constructed of light material, they contained an enormous amount of stored goods, and the structures being of inflammable nature, the flames were difficult to extinguish, de-spite the desperate efforts of the troops. The fire was discovered at I o'clock, and spread with great rapidity. It was probably of incendiary origin. The loss is variously estimated at from \$2,-000,000 to \$5,000,000.

Older Than Aztec Monarchy.

Mexico City, Oct. 3. - Explorations made at an old Toltec pyramid on the Magueyitos hacienda, in the state of Puebla, have disclosed the fact that the structure was built of clay bricks, which proves it to be far older than the Aztec monarchy, and possibly older even than the Toltee occupation of the country. Several elaborately carved figures were found representing men in Chinese dress and with marked Chinese figures. Antiquarians are much puzzled, for the evidence points to Chinese settlement in Mexico in the past ages.

Blown Up by Mine.

Chefoo, Oct. 3 .- The coasting steamer Hsiesho, plying between Shanghai and Tientsin, struck and was totally destroyed by a mine 90 miles south of the Shantung promontory Saturday morning. Fifteen persons on board the vessel were drowned, included among them being Engineers Mauchan and Muir. The foreign passengers and a portion of the crew of the Hsiesho were rescued by two passing steamers. Seventy-one were taken to Shanghai.

Big Order for Rails.

Montreal, Oct. 3 .- It is officially an nounced that the Grand Trunk Pacific has given an order for \$4,000,000 worth of steel rails to the Dominion Iron & Steel company, of Sidney, B. C. The

OREGON STATE ITEMS OF INTEREST

Stove Foundry People.

Salem - An agreement has beer reached between Governor Chamberlain and the Loewenberg-Going company for the leasing of convict labor at the penitentiary for a period of two years. The price to be paid for labor is the same that has prevailed in the past, but several changes have been made in the contract in other particulars.

Because there is a popular desire that convicts be employed on the public roads, in which desire Governor Chamberlain joins, and because the last legislature authorized the appointment of a commission to investigate the subject and report to the next legis lature, the governor refused to make a contract now for the leasing of convict labor for more than two years. Insistence upon the shorter period made it impossible to secure a higher price than has been paid in the past-314 cents per hour for each man.

The new contract requires the stove foundry proprietors to employ not less than 150 men a day, whereas the min-imum number heretofore has been 100. There are now 390 prisoners in the penitentiary. About 100 of these are Colon, Oct. 3. — Six hundred and employed on the farm, in the stables fifty laborers from Martinique, brought in the kitchen, and on other work conhere Friday on the French steamer Ver- nected with the management of the in stitution. This leaves 290 to be othercanal, refused to disembark or to sub- wise employed. The foundry will now mit to vaccination, which is imperative take not less than 150, leaving 140 ou of employment. At many times the tions. They clamored to be taken back foundry will employ more than 150 to Martiniuqe, asserting that they had but this number must be paid for, ever been misinformed as to the conditions though not worked.

What to do with the 140 idle men i now the problem. A few of them can be employed on the public roads near Salem under a co-operative arrange them were with difficulty persuaded to land, and these were sent to points gang will be put at work grubbing out along the line of the canal. One hundred a piece of state land on the Reform along the line of the canal. One hundred and fifty remained on board and declined to leave the ship under any some idle, probably, at many times of

Wasco to Cultivate Hops.

The Dalles-Wasco county will, it is expected, in a few years become the banner hop producing county of the state. This season a number of farmers have been experimenting in hop culture with satisfactory results. The hops they have produced are of an ex cellent quality and the yield is very large. So successful has been the exique under contract with the Canal periment that a number of farmers are now contemplating putting out large yards next season and engaging in the business of hop raising on an extensive scale. There are thousands of acres in the county suitable for hop fields, as the hope thrive without irrigation and will do well on almost any of the up land that is sheltered from wind.

Quality is Perfect.

Salem-While it is yet too early to make accurate statements of the yield of hops in Marion county this year, estimates by men in the best position to judge are that the total yield will be in the neighborhood of 37,000 bales. quality will be perfect. In about a week, when the work of baling is farther advanced, a fairly accurate state ment of the actual yield can be made and the samples will show the quality Growers are showing little disposition to sell at present prices, but it is be lieved that 15 cents a pound would cause rapid selling.

Lane County Estimate More. Eugene-The best estimate that car be made at the present time of the amount of the hop crop of this county is not considered much more than guess, although it it based upon reports from a large number of growers. among those who are best posted there is a large variation in estimates. There will be at least 1,500 bales more than last year, which would make 7,500 bales, but some estimate as high as 8, 000. No better figures will be available until a poll is made after the baling is completed.

Yield and Quality Better.

Oregon City-The curing and baling of the hop crop in this county has nardly progressed sufficiently to warrant an accurate estimate as to the yield. In the aggregate, however, the yield by reason of the increased acreage, will exceed that of last year, the quality will be materially bester. With the exception of a few yards, the product will surpass in quantity that of last year, while the quality will be far better than that of 1904.

First Snow Falls in Bourne. Sumpter-The mountaineers report

the first snow of the season. In the highlands surrounding Bourne light falls have occurred in the early morn ings. The ground has been covered, but the snow has always disappeared before noon. Old citizens, who pride in the weather knowledge, say that the very warm and dry summer that has just died will be followed by

Douglas Crop Increased. Roseburg-This year's hop crop in Douglas county will approximate bales. The quality is good. No sales

are reported, as growers expect prices

to rise somewhat. Benton County's Yield. Corvallis—The estimated yield hops in this vicinity is 1,410 bales.

FORFEIT TO STATE.

Lost to Buyer. Salem-Certificates of sale for a total of 20,000 acres of state school land have been cancelled in the last few weeks, because of lapse in the payment of installments within the required time. Of this aggregate amount of chief sufferers, inasmuch as the the Interior department, the state will be able to use the land as base for the

selection of lieu land. The original purchasers of the land have forfeited the payments made, the reserve will probably not be salable for some time, as the state has raised the price to \$2.50 an acre. The 7,000 acres inside the reserve should find a market as base for lieu land, at \$5 an

A large proportion of the certifiates that have been canceled were among those secured by violation of the law governing the purchase of state school land. Prosecution of land fraud cases has scared many of the holders of certificates fraudulently obtained, and they have thought best quietly to drop the whole transaction, forfeit what they have paid and let the state keep the letter they have paid and let the state keep the letter they have paid and let the state keep the letter they have paid and let the state keep the letter they have paid and let the state keep the letter they have paid and let the state keep the letter they have paid and let the state keep the letter they have paid and let the state keep the letter they have paid and let the state keep they have they have paid and let the state keep they have they have paid and let the state keep they have they
