PISO'S GURIFOR

EGRE WHILE ALL ELSE FAILS. Best Cough Syrup. Write for free trial. In a bottle. Sold by druggists.

CONSUMPTION

Hood's Sarsaparilla

Purifies, enriches and revitalizes the blood and builds up the whole system.

It radically and permanently cures all blood diseases, from pimples to scrofula.

It is the best constitutional remedy for catarrh, rheumatism and dyspepsia.

There is no time of year when it is not more widely useful than any other medicine.

These statements are confirmed daily by cured and grateful men and women.

Over 400,000 testimonials in the last two years—an unequalled, unapproached record!

Now put up in tablets, as well as usual liquid form. 100 Doses One Dollar.

Not Such an Easy Matter.

"These shoes will be all right," said the salesman, "after you have got them broken in." The young man, who had been hesitating between that pair and one a size larger, took the salesman's word for it, and purchased the shoes. A week later he came back to the store with a perceptible limp.

"I wish you'd stretch these shoes," he said. "They hurt my feet terribly."

"Haven't you got them broken in yet?" asked the salesman.

"Oh, yes," said the young man. "The trouble is that I can't get my feet broken in."

Fiso's Cure is a good cough medicine. It has cured coughs and colds for forty years. At druggists, 25 cents.

Was Too Honest.

Honesty is one of the leading principles taught in the public schools, and the teachers begin early to impress the value of this trait in character on the minds of the youngest pupils. A South Chicago teacher had a pupil who gave her much sorrow by his unfortunate habit of fibbing on every possible occasion. One day she kept him after school and gave him a serious "talking to." "Just look at the life of George Washington," she said, "he couldn't tell a lie." "Huh," remarked the unrepentant youth, "that was the matter with him?"

Not Near Him.

"It's really distressing to think," said the wealthy Mr. Farrasy, "that many very common and ignorant people will be admitted to heaven."

"Well," replied Mr. Cutting, "that needn't worry you."—Philadelphia Press.

His Main Fault.

"But why should you worry over your son?" said the incubator drummer. "You said he was cut out for something great!"

"That's just the trouble," sighed the old farmer. "He is so slow that every time he gets an opportunity somebody jumps ahead an' cuts him out."

Deafness Cannot Be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional treatment. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, it has a tendency to close, and hearing is lost. If you have a running or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh of the Eustachian Tube, and an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

J. C. GRENEY & CO., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

Could Not Trust Him.

After a wordy argument in which neither scored two Irishmen decided to fight it out. It was agreed, says the Washington Post, that when either said "I've enough" the fight should cease.

After they had been at it about ten minutes one of them fell, and immediately yelled, "Enough, I've enough!"

But his opponent kept on pounding him until a man who was watching them said:

"Why don't you let him up? He says he's got enough."

"I know he says so," said the victor, between punches, "but he's such a liar you can't believe a word he says!"

RHEUMATISM BODY RACKED

No other bodily suffering is equal to that of rheumatism. When the poisons and acids, which trench in the blood there is hardly any affected. The muscles become sore and dry, the joints inflame and swell, the bones agony, and the entire body is racked with indigestion, stomach troubles, torpid liver, inactive state of the system. The relief through nature's avenues is left to sour poisons which are absorbed into the blood all alike. In some cases it takes a wandering form; it may be in the arms or legs one day and in the shoulders, feet, hands, back or other parts of the body the next. Others suffer more seriously, and are never free from pain. The uric acid and other irritating substances find lodgment in the muscles and joints and as these deposits increase the muscles become stiff and the joints locked and immovable. It matters not in what form the disease may be the cause is always the same—a sour, acid condition of the blood. This vital stream has lost its purity and freshness, and instead of nourishing and feeding the different parts with health-giving properties, it fills them with the acids and salts of this painful and far-reaching disease. The cold and dampness of winter always intensify the pains of Rheumatism, and the sufferer to get relief from the agony, rubs the affected parts with liniments, oils, lotions, etc., or uses plasters and other home remedies. These are desirable because they give temporary ease and comfort but have no effect on the real trouble which is in the blood and beyond the reach of such treatment. S. S. S. is the best remedy for Rheumatism. It goes into the blood and attacks the disease at its head, and by neutralizing and driving out the acids and building up the thin, sour blood it cures the disease permanently. While cleansing the blood S. S. S. tones up the stomach, digestion and every other part of the system, soothes the excited nerves, reduces the inflammation, dissolves the deposits in the joints, relieves all pain and completely cures this distressing disease. S. S. S. is a certain cure for Rheumatism in any form; Muscular, Inflammatory, Articular or Sciatic. Special book on the disease and any medical advice, without charge, to all who write. Books Written in Prison.

A publisher was talking about Oscar Wilde's strange book, "De Profundis," with its pathetic decoration of a bird beating its wings against the bars of a cell.

"Wilde's is not the first good book to have been written in jail," he said. "Jail, in fact, seems to be a good place to write books in. Literary men surpass themselves there."

"John Bunyan wrote 'Pilgrim's Progress' in jail."

"Cervantes wrote 'Don Quixote' in prison."

"Defoe laid the plans for 'Robinson Crusoe' during a term of confinement imposed on him for the writing of a pamphlet called 'The Shortest Way with the Dissenters.'"

"Leigh Hunt wrote 'Rimial' in jail."

"Sir Walter Raleigh, during his fourteen years' imprisonment in the tower of London, wrote his excellent 'History of the World.'"

"Silvio Pellico and Tasso both did their best work in jail."

Losses From Insect Pests.

C. L. Marlatt, of the Department of Agriculture in Washington, has prepared a statement as to the loss by insect pests in the United States each year. He notes that the losses each year in all the plant products of the soil, both in the growing and in the stored state, together with those in live stock, exceed the entire expenditure of the national government, including the pension roll and the maintenance of the army and the navy. Placing the value of these products at \$5,000,000,000 per year, he notes an annual shrinkage due to insect pests of fully 10 per cent—in many cases of 50 per cent; but at 10 per cent, \$500,000,000 is "the minimum yearly tax which insects levy upon the products of the farm." This does not include loss to farm products in storage, \$100,000,000; or to natural forest and food products, also \$100,000,000; making a total annual loss of \$700,000,000 directly traceable to insect pests.—From W. S. Harwood's "Saving California's Fruit Crops," in the February Century.

A Good Check.

As he took off his coat his wife said to him gently:

"You remember those eight letters I gave you to post three days ago?"

He started.

"Yes, I—I remember."

"But you didn't remember to mail them, did you?" she said sweetly.

"No, I didn't. How did you find it out?"

"Among them," she explained, "was a postal card addressed to myself. Since it didn't reach me, I knew you hadn't posted my mail. I shall always use this scheme in future. It only costs a cent and it makes an excellent check on you. Now give me my letters, and I'll post them myself."

At Least a Help.

"Uncle David" was an Oldtown character, some of whose sayings have been put into black and white by Mr. Norton in his "Sketches" of that vicinity. David used to run rags of lumber down the Penobscot, and was wont to boast that he "always sold to one man, and when he didn't sell to him, he sold to somebody else."

One day Uncle David was standing on the river bank when a stern-wheel steambot passed. He gazed long and thoughtfully at the vessel, and then, turning to a bystander, said, in a tone of deep conviction:

"That wheel is a great service to that boat!"

Not as a Dish.

"Our English cousins," remarked the woman who has just returned from the land of John Bull, "do not wait until the arrival of Halloween to become interested in the tasty and nutritious nut. I was particularly impressed by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional treatment. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, it has a tendency to close, and hearing is lost. If you have a running or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh of the Eustachian Tube, and an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

IN THE NATIONAL HALLS OF CONGRESS

Monday, January 29.

Washington, Jan. 29.—The Chinese boycott and the administration of the forest reserves divided the attention of the senate today. The Chinese question came up in connection with a resolution of Tillman, directing an investigation by the committee on immigration. Tillman modified the resolution by omitting the major portion of the preamble, and, after considerable discussion, it was referred to the committee on contingent expenses.

Hayburn raised the question regarding the reservation of forests. He sharply criticized the methods of the forestry bureau and charged it with maintaining a press bureau for the purpose of attacking him. He declined, however, to hold the president responsible for this course. He said that the course was calculated to retard the development of the West.

Washington, Jan. 29.—What is considered a strike at the railroads was taken by the house today in the adoption of a resolution calling on the president to furnish information as to the existence of an agreement, in violation of the interstate commerce law, among the Pennsylvania, Baltimore & Ohio, Norfolk & Western, Chesapeake & Ohio, Ohio & Northern Central and Philadelphia, Baltimore & Washington, railroad companies. Opposition to the resolution did not develop until after it had been declared adopted by the speaker. At this point Dalsell, of Pennsylvania, moved to reconsider. This motion was laid on the table with the aid of 37 Republican votes united with the Democrats, under a rule which makes it impossible to reconsider the resolution without a two-thirds vote of the house.

Saturday, January 27.

Washington, Jan. 27.—In a session of two hours today the house passed the urgent deficiency appropriation bill, carrying \$15,216,103, incorporated in which is a provision that the eight-hour law shall not apply to alien laborers on the Panama canal. In addition it passed 262 private pension bills and read the Mann general bridge bill, making it the unfinished business for Monday.

Chairman Hepburn today reported to the house his railroad rate bill with the favorable recommendation of the entire committee. The bill will come up next week.

Friday, Jan. 26.

Washington, Jan. 26.—The first attempt at filibustering during this session occurred in the house today on a Democratic endeavor to defeat the provision of the urgent deficiency bill waiving the eight-hour law for foreign laborers on the Panama canal. The amendment was placed in the bill in committee of the whole after the house had divided many times on every pretext which Whiggism could make the cause for a vote. When the bill was finally finished, late in the day, a demand for a separate vote and roll-call on that amendment was made and ordered, at which time the house adjourned. The vote will occur tomorrow. The amendment was ruled out of the bill on a point of order on Tuesday, and its insertion today was effected under the provisions of a special rule brought in from the rules committee for the purpose.

The only other controversy of the day resulted from an attempt to increase by \$115,000 the amount for meat inspection by the department of Agriculture. This increase was refused after an animated debate.

Thursday, January 25.

Washington, Jan. 25.—The house today passed the bill according to today. The Republican opponent spent its entire force yesterday no effort was made to defeat the bill in its final passage, only 33 of the "opponents" voting against it. The bill passed by the vote of 194 to 150, a vote which preceded this vote at 11 o'clock and was practically a foregone conclusion. The bill was passed so far as any hope was entertained of changing the measure in slightest degree.

The bill as passed provides that Oklahoma and the Indian Territory shall constitute one state under the name of Ioma, and that Arizona and New Mexico shall constitute a state under the name of Arizona. Should the terms of the two former territories, respectively state constitutions contain clauses prohibiting the

Trade With Russia.

Washington, Jan. 29.—Trade of the United States with Russia, including the Asiatic part, during the fiscal year of 1905 was, by the record of the bureau of statistics of the department of Commerce and Labor, amounted to \$28,800,000, of which \$11,800,000 represented imports into the United States and \$17,000,000 the exports of the United States to Russia. The figures are somewhat lower than the figures for the preceding year, when the total trade figures were in excess of \$31,300,000.

Will Test Dry Farming.

Washington, Jan. 31.—While the department of Agriculture does not deny there is merit in what is known as the Campbell system of dry farming and while it is willing that all credit for that comparatively new system shall go to its instigator, there is a strong belief in the minds of irrigation officials of that department that the system should be carefully studied by the government in order that its limits as well as its benefits may be discovered.

Names Three Ambassadors.

Washington, Jan. 23.—The president today sent the following nominations to the senate: Ambassadors extraordinary and plenipotentiary—Lube E. Wright, Tennessee, to Japan; David E. Thompson, Nebraska, to Mexico; Lloyd C. Griscom, Pennsylvania, to Brazil; governor general of the Philippine Islands, Henry Clay Ide, Vermont; vice governor of the Philippines, James F. Smith, California; assistant attorney general, Josiah A. Vanorndell, Wyoming; postmaster, Charles A. Berg, at Livingston, Montana.

Irrigation Engineers Confer.

Washington, Jan. 22.—Irrigation engineers of the department of Agriculture, under the direction of Elwood Mead, are in conference in Washington to outline the work for the coming season. A. P. Stover, of Oregon, and H. O. Raschbacher, of Idaho, are attending the meeting. These engineers are not connected with the Reclamation service, but make a special study of water resources, the use of water and drainage problems.

Light on Boycott.

Washington, Jan. 31.—The senate will begin the week with the consideration of the Chinese boycott. The question will come up in connection with a resolution offered last week by Senator Tillman, directing the committee on immigration to investigate the reports concerning Chinese opposition to American manufactures. When the question was presented Mr. Tillman asked for immediate consideration, but Mr. Aldrich objected. It is understood that he and other Republican senators dislike the preamble to the resolution.

Unite on Rate Bill.

Washington, Jan. 23.—After a conference lasting all the afternoon, the house committee on interstate and foreign commerce today agreed upon a rate bill to be known as the Hepburn bill, and to be reported to the house with the unanimous recommendation of the 18 members of the committee. It is the main bill of the original Hepburn bill, but a number of concessions were made to the Democrats, and their pleas as set forth in the Davey bill were freely incorporated in the perfected measure.

Hand-Pressed Oil of Lemon.

"This oil of lemon," said the spice merchant, "is an exquisite thing. It is hand-pressed—pressed by hand out of lemon rind. Smell it."

The odor of the clear oil suggested sunlit lemon groves miles in extent on a mountainside overlooking the blue sea.

"I'll tell you how the oil of lemon is extracted," he said. "A man sits with a sponge in one hand and a piece of fresh lemon peel in the other. He presses the peel against the sponge, giving it finally a certain difficult and dexterous twist, and this breaks the cells in the rind, and the oil—there's only a half drop of it—comes reluctantly out upon the sponge."

"When the sponge has taken up the dribblings of about a hundred rinds, it is wet enough to be squeezed out. An ounce or so of clear and fragrant oil then flows from it."

"There is no way to extract this oil within a lemon rind except by squeezing and twisting the rind by hand. It takes the rinds of about 1,200 lemons to make one pound of oil."

Revenge.

The rain fell monotonously from the gray sky, like tears from a sorrowful face.

"No, Jerome McWade! No, never!" Her cruel words wrung a groan from the strong man's lips, but he was not yet daunted.

"Can you not," he faltered, "learn to love me?"

"No. A thousand times no," she replied.

A wild, cruel light flashed in his eyes.

"And yet," he sneered, "they say never too old to learn."

And, pausing only to select the best umbrella, he rushed forth into the wet, cold night.

A Superb Defense.

Manager Jackal of the Jungle University eleven—We're going to let "Quills" Porcupine play half-back this afternoon.

Monkey '08—I hear he's a mighty dangerous proposition.

Manager Jackal—Well, he never gets sat on more than once during a game.—Puck.

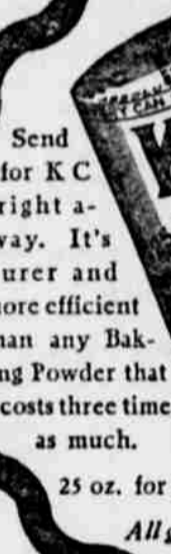

So Glad.

"We enjoyed your piano recital last evening immensely, professor."

"I am glad you did, madam. I was unable to be present myself, on account of an accident, but a brother artist kindly filled the engagement for me."

Grandfather's Cure for Constipation

Intestines with a costly waste of Digestive Juice, as Salts, Castor Oil, Calomel, Jalap, or Aperient Water, always do.

No—Cascarets strengthen and stimulate the Bowel Muscles instead.

These are the Muscles that line the Food passages and that tighten up when Food touches them, thus driving that Food on to its finish.

They are the Muscles that turn Food into Strength through Nutrition.

Well—a Cascaret acts on your Bowel Muscles as if you had just sawed a cord of wood, or walked ten miles.

That's why Cascarets are safe to take continuously in health; and out of health. Because they move the Food Naturally, digesting it without waste of tomorrow's Gastric Juice.

They thus work all the Nutrition out of it before it decays.

The thin, flat, Ten Cent box is made to fit your Vest Pocket, or "My Lady's" Purse.

Carry it constantly with you and take a Cascaret whenever you must get you need one.

Thus you will ward off Appendicitis Constipation, Indigestion, — and other things besides.

Druggists—10 Cents a Box.

Be very careful to get the genuine, made only by the Sterling Remedy Company and never sold in bulk. Every tablet stamped "CCC."

FREE TO OUR FRIENDS!

We want to send to our friends a beautiful French-made, GILLET'S PLATED RUBBER BOX, hand-embossed in colors. It is a beauty for the dining table. Ten cents in stamps is asked as a measure of good faith and to cover cost of Cascarets, with which this daily tribune is loaded. 713 Send today, mentioning this paper. Address Sterling Remedy Company, Chicago or New York.

For Lung Troubles

Ayer's Cherry Pectoral certainly cures coughs, colds, bronchitis, consumption. And it certainly strengthens weak throats and weak lungs. There can be no mistake about this. You know it is true. And your own doctor will say so.

—My little boy had a terrible cough. I tried everything I could leave of but in vain until I tried Ayer's Cherry Pectoral. The first night he was better, and he steadily improved until he was perfectly well. —Mrs. B. J. STEWART, Alton, Ill.

Made by J. C. Ayer Co., Lowell, Mass. Also manufactured at SASSAPILLA PILLS. HAIR VIGOR.

Ayers

Keep the bowels regular with Ayer's Pills and thus hasten recovery.

"Rubbing It In." When Mrs. Morse, after a lapse of thirty years, met her old schoolmate, Mrs. Graham, in the guise of a summer visitor to Aldersfield, she made up her mind to one thing: Lydia Graham's measure of worldly prosperity had been large, but not for one moment would Mary Ann Morse allow her to feel "set up."

It was with the intention of reducing any possible pride that might be lurking behind Lydia Graham's placid countenance that Mrs. Morse held her off at arm's length when the first affectionate greeting had been exchanged.

"How fat you've grown, Lyddy!" said Mary Ann Morse, holding her little figure erect as a small, stiff tree.

Mrs. Graham smiled contentedly, and Mrs. Morse saw that her thrust had done no harm.

"And yet—and yet you're wrinkled in spite of it," said this determined old friend; and then she gave Lydia Graham's flushed cheeks a consoling kiss.
