FRUIT INSPECTOR—Mr. Joseph Holladay, of Deer Island, has been appointed fruit inspector of Columbia County. His duty will be to enforce the State laws upon the subject of horticulture, to see that trees are sprayed, and to instruct the fruit raisers in regard to proper care of their orchards. His compensation will be \$3 per day while at work, and we have no doubt he will prove of great service to the horticultural interests of this county.

Business—Up to the tenth day of the present month there had been recorded in the office of the county clerk, 109 instruments in excess of the corresponding period in the year 1905. This would indicate that real estate in Columbia County is attracting considerable attention from the outside world. The predicted slump that was to follow the Lewis and Clark Exposition has failed to materialize, and instead we are to have better times and more new enterprises than ever before in the history of Oregon.

Sheriff White informs us that up to Wednesday night \$30,000 of tax money had been paid over to the treasurer, beating all previous records at this time of the year by about \$10,000.

AN IMPORTANT DEAL—A movement is on foot looking to the reclamation of an immense acreage of overflowed lands in T-4, 8-4, 7-5, and 8-5 in the northern portion of Columbia County. It is believed that all of this land can be reclaimed by diking at an expense comparatively small when the value of the reclaimed land is taken into consideration. If reasonable terms can be made with the land owners work will be begun as soon as possible.

The fishermen at Columbia City who were charged with catching sturgeon smaller than the legal limit insisted that the fish commissioner was mistaken, and the fish measured 28 inches dressed, and over the legal limit, forty-eight inches full length. This statement is in correction of a previous statement in the Mist to the effect that the fish measured 28 inches without noting that they were dressed.

SENATORIAL STATEMENTS.
View of Hon. W. M. Cake, Candidate for Federal Senator.

"I believe the public service corporations should be subject to Governmental regulation and control. The power of regulation should be vested in the Interstate Commerce Commission, and Congress, and should be exercised with due regard to the respective rights of the people and corporations.

"Trusts or combinations of capital organized for the purpose of controlling the utilities and necessities of the country, to the exclusion of legitimate competition, are contrary to public policy; in derogation to the rights of the people, and should come under the ban of the law.

"I believe in preserving the dignity of our American citizenship, and the freedom of the laboring classes of this country, and hence I am opposed to the admission of the Coolie labor of China, and the undesirable classes of continental Europe.

"The growing commerce of Oregon demands the deepening of the bar of the Columbia river; the construction of the Dalles-Celilo Canal; the opening of the upper Columbia; the improvement of Coos Bay, Tillamook and Yaquina harbors; the dredging of the Willamette and the Government ownership of the locks at Oregon City and federal appropriations should be made securing these improvements.

"A tariff should be maintained for the protection of American industries and American labor. Where, however, the necessity for protection is removed by the growth and development of a particular industry, the tariff should be modified to meet the changed conditions.

"The reclamation of the arid lands is one of the pressing needs of the Northwest, and a condition to its greater advancement, and the efficiency of the efficiency of the reclamation service should be one of the first cares of the Federal Government.

"The Federal Constitution should be amended to provide for the election of United States Senators by the direct vote of the people.

"I am in favor of the establishment of the parcels post."
