Vote for Wm. J. Clarke for State Printer on primary day, April 20th. Mr. Clarke is one of the oldest printers in the State and one of the best known country editors in Oregon. Mr. Harry West, of Scappoose, has four seedling walnut trees which were grown from nuts from a seedling tree at St Helens. The St. Helens tree has borne regularly every year for many years. Mr. West's trees are also bearing regularly. Two of the trees are larger than the other two and also bear larger nuts. The quality of all the nuts is excellent and the larger ones are larger in size than the average commercial walnuts. From a German in his employ who was familiar with walnut growing in Germany, Mr. West learned that the nuts should be washed in clear water just as soon as they are removed from the shucks. This washing keeps the shells light colored and attractive in appearance. Mr. West dries his nuts in the house, but if he were raising on a larger scale it would be necessary to have a drying house of some kind.—Oregon Agriculturalist.

TO FARMERS—The Mist has received from Senator Fulton a very long list of bulletins published by the department of Agriculture. They include such subjects as "The Feeding of Animals;" "Weeds and How to Kill Them;" "Silos and Silage;" "Potato Culture;" "Onion Culture;" "Care and Feeding of Fowls;" "The Dairy Herd;", "Pruning;" and very many others that should be of interest and profit to our farmers. If you will come to this office you may inspect this list, and any pamphlet will be sent to you on application.

A BIG MORTGAGE—A copy of the first mortgage given the Union Trust Company of San Francisco on the property of the Pacific railway and Navigation Co., now constructing a line from Hillsboro to the coast, with a connection at Scappoose, has been filed in the office of the county clerk. The amount of money loaned is $5,000,000, and it is expected to have the road completed to Tillamook within the year.

Mr. H. J. Bellarts has purchased Brinn Brothers' saloon and will move here with his family. Mr. Bellarts was formerly proprietor of the Hotel Sandy, of Sandy, Clackamas County, Oregon. He will probably build a residence as soon as possible.

VERNONIA ITEMS.

Ray Mills is home from Yankton for a week or ten days visit with his mother and brothers.

The Grange will give another basket social at their hall on Wednesday evening, April 4th. It will be a masqued affair. The object is to raise money for the new hall.

E. R. Throop left Tuesday morning via Clatskanie for Eastern Oregon, where he will spend a few weeks near Prineville with his son Lewis. This will be his first vacation from the busy life he has been leading for the past year or

The church and Sunday school have their committees appointed and are beginning preparations for an Easter service, which begins this year April 15th.

L. Bairn Crouse came ower from Houlton with a boot and shoe "drummer" last Thursday who sold quite a bill to D. W. Keasey. It is Mr. Keasey's intention to increase his stock of merchandise in all lines this spring and summer, and thus to be ready for trade when the rush comes with the new railroad.

Mrs. Redmond has this week had a new porch built in front of her hotel. She has rented and fitted up the Lavender house, just across the street from the hotel, so as to have room to accommodate the transients during the summer. Last Thursday night she had about all she could accommodate with beds.

Road contracts for permanent work near here were let last week and Lon Emmons got the one from the Braden Hill east to Bridge street; D. W. Keasey the one near the Taylor Bridge; D. T. Early the one near the Adams bridge and also a small one for some grading on the road east from Adams; C. B. Armstrong got two or three up the river in the Shannahan neighborhood; and Alex Sword that on the Pebble Creek road. In District 14 U. S. Mellinger, T. B. Mills, C. C. Keasey, and John Cheldelin carried off most of the contract work. There were no bids for the special work up about Kist, and on some sections bids were not satisfactory, so that our supervisors will have something to do in the permanent line during the summer.

Harley Redmond has taken the entire mail route between here and Houlton off G. W. Rice's hands and will complete the contract, which expires July 1 next. He and Will Lindsay do the carrying, one of them going through from Vernonia to Houlton, the other coming through from Houlton to Vernonia each day. The contract after July 1 has not yet been let, as we understand, no one being willing to take it at the Government offer of $1500 a year, the same as is now being paid. There is no money in it at this figure.

At the caucus held at Zillgitt's Hall last Tuesday evening the following city ticket was put in nomination to be voted upon at the city election to be held April 2, viz: President of the Council, R. Sesseman; Members of the Council, O. B. Maimsten, D. W. Keasey, A. Emmons and R. M. Ward; City Recorder, C. A. Malmsten; City Treasurer, C. L. Hatfield; City Marshall, C. V. Mills. It is a good ticket.

WITHYCOMBE'S PLATTFORM.

To F. I. Dunbar, Secretary of State of the State of Oregon, and to the Republican party and the electors of Oregon in the State of Oregon:

I, James Withycombe, reside at Corvallis, Benton County, Oregon, and my postoffice address is "Corvallis, Oregon." I am a duly registered member of the Republican party. If I am nominated for the office of Governor, at the primary nominating election to be held in the State of Oregon the twentieth day of April, 1906, I will accept the nomination and will not withdraw, and if I am elected I will qualify as such officer.

If I am nominated and elected I will, during my term of office, advocate and support:

Taxation of franchises and gross earnings tax on telegraph, telephone, express and sleeping car corporations.

Uniform assessment and taxation of railroads.

State regulation and examination of State and private banks, trust companies and savings banks.

Protection of the State in its ownership of public lands.

A Board of Control for State institutions.

One board for management of Norma Schools.

Improvement of the Columbia and Willamette rivers and coast seaports.

National ownership of the Oregon City locks.

Constitutional amendment permitting the Governor or people to veto individual items of appropriations.

Form for nominating ballot—"An honest and fearless performance of public duty."

He is a Hustler.

The people of the State of Oregon would do well to have a man like H. M. Cake, of Portland, in the United States Senate.

He had an opportunity to become thoroughly familiar with the needs of the state during his active participation in its organization along lines of commercial development No man in Oregon has been more active in this respect than Mr. Cake, and the knowledge thus gained has especially qualified him to ably represent the interests of her people at Washington. Mr. Cake is strongly opposed to the importation of Chinese coolie labor and for that reason believes that the Chinese Exclusion Act should be kept on our statute books.

He advocates the election of United States Senators by direct vote of the psople, and if elected will do all he can to bring about this important reform.

Our Washington Letter.

WASHINGTON, D. C.

That all Oregon lands now embraced within forest reserves which is more valuable for other than timber purposes, may be opened to private ownership and development, Senator Fulton has inaugurated a movement to have presented to the Interior Department authentic statements of the people contiguous and most interested. The Senator began with Lane county, which, from reports seemed to offer a striking example of the evil. Judge Chrisman, of Lane, says that at least 50,000 acres of land within the boundaries of his county and now embraced in the forest reserves, is amenable to agricul. ture, horticulture and livestock raising. This statement by one who is in position to be informed has been taken for the basis for action. Senator Fulton seeks the signed statement of all citizens of Lane county who are informed on the subject, and when gathered, if these bear out the report, will present them to the forestry bureau as reason why such land should be reopened to private ownership. It seems apparent that the Governments experts often differ with local residents regarding the real value of forest land for various purposes. As these experts are not always familiar with local conditions, and the residents of the community who are accustomed to build homes in forests should be, a full expression of sentiment and judgment by the practical man is sought. If land is found most valuable for its timber, the Senator says he will not be a party to any effort to throw it open, if the reserves are held to reasonable bounds. After getting at the bottom of existing conditions in Lane County, it will be the purpose to take up other counties affected by the reserves, until all agricultural land has been eliminated. In the past the agents of the forestry bureau have traveled over withdrawn areas, soundiug local sentiment, but complaint has been made that some of these agents are over-zealous in the reserve work, and instead of reflecting local sentiment as to the value of every part of the withdrawal for various purposes were eager champions of making the reserve as large as possible. The work now undertaken is to put in organized form local thought on the values of limited sections of the reserve, and finally determine what may be developed otherwise.

No doubt can be entertained of the enactment by the House of the measure for the relief of Nori'ern Pacific Land grant sufferers. Favorable report of the committee on public lands has been made, which insures enactment of the law by the House. When it becomes effective, the settlers will at last be assured enjoyment of their homes, while the company will be amply remunerated pursuant to the decision of the Supreme Court.

Eastern papers have taken up discussion of the matter of putting reclamation work more directly under Congress. Note is being made of the fact that in no other department has one official such enormous power and latitude as in prosecuting reclamation work. The theory of the change is to have projects submitted for appropriation by Congress. This agitation is without any charge of dishonesty or misappropriation by the Secretary of the Interior, being based upon the general practice that the power is too vast and the duties too exhaustive for one official.
