

Hood's Sarsaparilla

We are often asked, Why does Hood's Sarsaparilla effect so many cures of cases that seem to be almost beyond the reach of medicine?

The answer is this, that this great medicine is enabled by the peculiarity of its formula to produce results unapproached by any other medicine, this peculiarity consisting in the balanced combination of the very best specifics for the blood, liver, kidneys, stomach, and bowels, namely, for the blood, Sarsaparilla, Stillingia, Yellow Dock; for the liver, Mandrake, Dandelion; for the kidneys, Uva Ursi, Juniper Berries, Pippisewa; for the stomach, Gentian, Wild Cherry Bark, Bitter Orange Peel; for the bowels, Senna, Mandrake and Dandelion.

Beyond the Limit.

"I don't mind folks borrowing," said Miss Hodges, plaintively, to an old friend who was paying her a visit, "but I've got an awful trying woman for a neighbor just now. She borrows such queer things I'm most out of patience with her."

"Shears and brooms and the flour-sifter and ironing board, I s'pose," said the guest, who had known life in a country town.

"Mercy me, I don't count such things!" said Miss Hodges. "Nor my best umbrella nor my carving-knife. I can make shift to get on without 'em for a while any time. But when she comes over to borrow my diary the other day, so's she could keep account of the weather and her hens' eggs and so on till her husband came back from California, she having given him hers to put down his expenses and sights in, so's she could copy her record in from my book in the right place—I declare I called it the cap-sheaf!"

Pepys' Furnace.

An electric resistance furnace was used by Pepys in 1815 for the cementation of iron. He took a piece of pure, soft iron and cut a slit along its length. The slit was filled with diamond dust, which was prevented from falling out by fine iron wire. The portion of the wire containing the dust was wrapped in mica. The wire thus charged was heated quickly to redness by the current from a battery. On opening the wire Pepys found that the diamond dust had disappeared and that around where it had been the wire had been converted to steel.—London Engineer.

IN THE NATIONAL HALLS OF CONGRESS

Monday, April 16.
Washington, April 16.—It took the house of representatives just one minute to pass Representative Jones' bill appropriating \$400,000 to continue work on the jetty at the mouth of the Columbia river.

Washington, April 15.—After a brief speech by Lattimer on in support of the house railroad rate bill, Foraker today took the floor on that measure and consumed practically all of the remainder of the day's session of the senate. He spent some time in the discussion of some of the amendments he suggested, and then entered upon the consideration of the entire question of railroad rate regulation, arguing against the constitutionality of the pending bill from various points of view.

Wednesday, April 11.
Washington, April 11.—Among the many bills passed by the senate today was one granting land on Morton island, in Snake river, Oregon, to that state as a fish hatchery. Other bills passed follow:

Authorizing the allotment of land to natives of Alaska; prohibiting the use of diving apparatus in the taking of sponges; authorizing the state of Montana to select lieu lands; prohibiting aliens from gathering sponges in American waters.

Friday, April 13.
Washington, April 13.—Owing to the fact that none of its members were prepared to speak on the railroad rate bill, that measure was temporarily laid aside today in the senate, permitting the devotion of the entire time to the consideration of other bills on the calendar. Of these more than 300 were passed, most of them being private pension bills.

Tuesday, April 10.
Washington, April 10.—For seven hours today the house had under consideration the postoffice appropriation bill, but in only a few instances were the provisions considered.

Thursday, April 12.
Washington, April 12.—The feature of today's proceedings in the house of representatives was the speech made by Cochran, of New York, who, under an agreement made on a previous day, was given an hour to elucidate the subject of "general debate" on appropriation bills.

Friday, April 13.—After spending much time in useless debate and wrangling, the house took up the postoffice appropriation bill.

Wednesday, April 11.—When Speaker Cannon called the house to order today, a senate bill ratifying an agreement with the Lower Brule band of the Sioux tribe of Indians, in South Dakota, was passed.

Thursday, April 12.—For more than four hours today Bailey held the undivided attention of the senate with a speech in reply to Spooner and Knox, and just before its conclusion there was a significant suggestion from Hale indicating the possibility of an understanding and an early vote on the railroad rate bill.

WHAT JOY THEY BRING TO EVERY HOME

as with joyous hearts and smiling faces they romp and play—when in health—and how conducive to health the games in which they indulge, the outdoor life they enjoy, the cleanly, regular habits they should be taught to form and the wholesome diet of which they should partake. How tenderly their health should be preserved, not by constant medication, but by careful avoidance of every medicine of an injurious or objectionable nature and if at any time a remedial agent is required, only those of known excellence should be used; remedies which are pure and wholesome and truly beneficial in effect, like the pleasant laxative remedy, Syrup of Figs, manufactured by the California Fig Syrup Co.

Syrup of Figs has also met with the approval of physicians generally, because they know it is wholesome, simple and gentle in its action. We inform all reputable physicians as to the medicinal principles of Syrup of Figs, obtained, by an original method, from certain plants known to them to act most beneficially and presented in an agreeable syrup in which the wholesome Californian blue figs are used to promote the pleasant taste; therefore it is not a secret remedy and hence we are free to refer to all well informed physicians, who do not approve of patent medicines and never favor indiscriminate self-medication.

Please to remember and teach your children also that the genuine Syrup of Figs always has the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package and that it is for sale in bottles of one size only. If any dealer offers any other than the regular Fifty cent size, or having printed thereon the name of any other company, do not accept it. If you fail to get the genuine you will not get its beneficial effects. Every family should always have a bottle on hand, as it is equally beneficial for the parents and the children, whenever a laxative remedy is required.

Car's Wealth in Forests.
Few people who have not traveled about the Russian empire can imagine how boundless is its wealth in timber. "Wooden Russia" is the name applied to the vast forest areas of Russia in Europe, which cover nearly 5,000,000 acres, or 25 per cent of the entire area of the country.

The orchestra, consisting of a violinist and a pianist, stopped to rest, and the chairman of the meeting took occasion to step to the front of the platform to apologize for the poor ventilation of the hall.

No Limit on Use of Franks.
Salt Lake, April 10.—That there is no law limiting or prescribing the character of printed matter which congressmen may authorize to be sent through the mails under official frank, is the gist of a decision rendered here today by Judge John A. Marshall, of the United States District court.

More Talk Coming.
Washington, April 16.—Speeches on the railroad rate bill will be the feature in the United States senate the present week.
