IT'S PLAIN BUSINESS

When you get dental work done. System and precision all the way through in our office, but we do temper business with a little compassion for a nervous patient. We try to make it a painless business.

MISS LUCY M. MCGIVNEY

'PE-RU-NA WORKED SIMPLY MARVELOUS

Suffered Severely With Headaches—Unable to Work
Miss Lucy V. McGivney, 452 3rd Ave. Brooklyn, N. Y., writes:
"For many months I suffered severely from headaches and pains in the side and back, sometimes being unable to attend to my daily work."

WAR DEPARTMENT ASSUMES ENTIRE CONTROL OF SITUATION

Associated Press dispatches from every important city in the land indicate that \$12,000,000 in cash is already in sight for the relief of the fire and earthquake sufferers in and about San Francisco, and that a total of \$20,000,000 is likely to be raised.

WASH DAY

"Wash day is Monday everywhere," said a globe trotter.
He made a gesture of amazement. "How strange that is," he said. "We believe in the Bible, the Algerians believe in the Koran, but both of us believe in the same wash day."

A Great Campaigner

Congressman Thomas Hedge, of Iowa, holds that Leslie M. Shaw, secretary of the treasury, is one of the best political campaigners in the country. "Nobody ever gets away," said Hedge, "if Leslie gets a chance to address him personally. In one campaign he carried an audience he would circulate among the voters, saying to this man and that: 'I wish you would give me the correct time, I am afraid of losing my train.' Of course, each man complied, feeling flattered at the request. Shaw used to say it was hard on the watch, but he believed the votes he made in this way more than made up."—Indianapolis News.

FIRE STILL BURNING

But Has Lost Its Fury and Is Now Slowly Dying Out.

NATION COMING NOBLY TO RELIEF

Foreign Countries Stand Ready With Help, But Their Aid Will Not Be Needed.

San Francisco, April 20.—Plunged into absolute darkness tonight at 10 o'clock, San Francisco has not seen the conclusion of the devastating work of the conflagration.

The fire that started at Nob Hill and worked its way to the North Beach section, sweeping that section clear of buildings, was later veered round by a fierce wind and made its way southerly to the immense seawall sheds and grain warehouses. The flames were heading directly for the immense Ferry building, the terminal point of all central overland and local trains of the Southern Pacific road.

Tonight the principal remaining fire was confined east of Van Ness avenue and north of Union street, but was burning its way to the shore.

Late this afternoon the police broke open every saloon and corner grocery in the saved districts and poured all malt and spirituous liquors into the gutters.

HUNDREDS DEAD IN HOTELS

Over 75 Bodies Taken Out—One Hundred in Cosmopolitan.
San Francisco, April 20.—The three-story lodging house at Fifth and Minna streets collapsed and over 75 dead bodies have been taken out. There are at least 50 more dead bodies exposed. This building was one of the first to take fire on Fifth street.

At least 100 people were lost in the Cosmopolitan hotel on Fourth street. The only building standing between Mission, Howard, East and Stewart streets is the San Pablo hotel, which is occupied and running. The shot tower at First and Howard streets is gone. This landmark was built 40 years ago. The Risdon Iron works is partially destroyed. The Great Western Smelting and Refining works escaped damage, also the Mutual Electric Light works, with slight damage to the American Rubber company and Vietagas Engine company. Folger Bros' Coffee and Spice house is uninjured, and the firm is giving away large quantities of bread and milk.

Many are dropping dead from the heat and from suffocation.
Over 150 people are reported lost in the Brunswick hotel, Seventh and Mission streets.

NATION TO THE RELIEF

War Department Assumes Entire Control of Situation.
Associated Press dispatches from every important city in the land indicate that \$12,000,000 in cash is already in sight for the relief of the fire and earthquake sufferers in and about San Francisco, and that a total of \$20,000,000 is likely to be raised.

Before the cabinet, at its meeting yesterday, had resolved upon this course, however the Dominion of Canada had taken cognizance of the situation in San Francisco by voting \$100,000 in cash for relief, and dispatches from the seaport cities of British Columbia indicate that they are ignoring the existence of the international boundary line and are joining in the work of forwarding money and provisions with their sister cities on the Pacific coast.

Ruins Small Companies

Chicago, April 20.—It was declared last night by Chicago insurance men that many of the small accident and fire companies probably will be forced to suspend business because of their enormous losses in San Francisco. Even some of the bigger companies will be hard pressed. The total amount of liability involved is now placed at more than \$180,000,000 in San Francisco alone. This is considered conservative. Added to the losses in San Francisco will be at least \$50,000,000 to be met in other cities.

Pottoffice Department's Task

Washington, April 20.—The War department has learned that the Southern Pacific freight sheds at San Francisco were seriously injured. The superintendent of the railway mail service at San Francisco has telegraphed that every train to and from Oakland is proceeding with reasonable regularity on slow schedule. He has been authorized by wire to call in subordinate officials and all clerks of the railway mail service not on regular duty and command the use of postal cars available to handle San Francisco mail.

Can't Deliver Telegrams

San Francisco, April 20.—The delivery of telegraphic messages from outside points to people in San Francisco is impossible. The messenger service of both the big telegraph companies no longer exists. Even had the companies an army of messengers, they would be of little value for the reason that the people are scattered far and wide, and that a journey from the ferry building to the western addition, or to the refugee camps consumes hours.

Will Build \$5,000,000 Plant

New York, April 20.—It was announced at the office of M. Guggenheim's Sons today that orders have been issued by that firm to proceed as soon as possible with the construction of a \$5,000,000 smelting plant in San Francisco.

DEATH LIST LARGE

Will Probably Exceed Even the First Estimates Made.

San Francisco, April 22.—Now that the extinction of the fire allows of inquiry, it has become known that hundreds, if not thousands, of people lost their lives, either in the collapse of buildings due to the earthquake or in the fire which consumed the ruins in which they were imprisoned alive, but injured and powerless to flee. A merely partial estimate places the total at over 700 in the lodging houses and a few adjoining buildings.

South of Market street the loss of life was chiefly brought about by the collapsing of many cheap lodging houses. Among others, the caving in of the Royal, corner of Fourth and Minna streets, added to the horror of the situation by the shrieks of its many scores of victims embedded in the ruins.

The collapsing of the Portland house, on Sixth street, between Mission and Market, came about in a similar manner.

Probable Republican Ticket.
Senator, short term, F. W. Mulkey.
Senator, long term, H. M. Calk.
Congressman, First District, W. C. Hawley.
Congressman, Second District, W. R. Ellis.

Governor, James Withycombe.
Treasurer, G. A. Steel.
Supreme Judge, Robert Eakin.
Superintendent Public Instruction, J. H. Ackerman.
State Printer, W. S. Dunaway.
Attorney-General, A. M. Crawford.
Labor Commissioner, O. P. Hoff.

ner. Fully 60 persons were entombed. Many of these were saved before the fire eventually crept to the scene.

The large five-story Brunswick lodging house with its 300 rooms filled with guests, on the corner of Sixth and Howard streets, collapsed to the ground entirely and fire started amid the ruins scarcely five minutes later. It is estimated that over 300 persons lost their lives in this building.

Part of the large Cosmopolitan house, corner Fifth and Mission streets, collapsed at the very first tremor. Many of the sleepers were buried in the ruins, others escaping in their night clothing.

At 775 Mission street, the Wilson house, with its four stories and 80 rooms, fell to the ground a mass of ruins. As far as known very few of the inmates escaped.

RESTORING WATER SERVICE

Within Four Days City Will Have Half Normal Quantity.
San Francisco, April 22.—Experts of the Spring Valley Water company who have been engaged in making a thorough examination of the mains and reservoirs of the system have reported that the company has in its reservoir enough water to supply the city at the regular rate of 30,000,000 gallons per day for a period of 600 days.

The only immediate problem is that of getting this supply into the city. Already pipes have been repaired in certain sections, and a supply of 7,000,000 gallons per day is coming in through Ocean View from Lake Merced. About 1,000,000 gallons of this is being consumed daily by Ocean View and the other towns along the pipe lines, but 6,000,000 gallons daily is reaching and will continue to reach the city proper.

Within a few hours another supply of 6,000,000 gallons daily will be poured into the city from College Hill station. This will furnish water to the southern section of the city. Already water is being supplied to the Black Point and Pacific Heights districts, and with an additional supply of 4,000,000 gallons daily, which is assured from lines that will be repaired within a day or two, the city will within four days be receiving a daily supply of between 16,000,000 and 17,000,000 gallons, which is practically equivalent to half the amount that was being furnished to the entire city prior to the earthquake.

Earthquake at Grants Pass

Grants Pass, Or., April 23.—An earthquake shock which broke some windows and awoke sleeping citizens was felt here at 1:11 this morning. The shock lasted between 15 and 20 seconds and was accompanied by a distinct rumbling noise. The motion of the undulation was from east to west and the oscillation was sufficient to set hanging lamps and pictures to swaying. Mayor George Good states that the shock was felt all over his house, which is a structure 75 feet in length and two stories high.

South San Francisco Burns

Oakland, April 22.—A report reached here from San Francisco at midnight that a brick fire is burning in South San Francisco. The illumination can readily be seen from this side of San Francisco bay, a distance of eight miles. It is believed that the fire broke out afresh from smoldering embers that could not be subdued on account of the lack of water. When the fire was pronounced to be practically out in San Francisco, several frame buildings were standing in South San Francisco.

Docks Still Do Business

San Francisco, April 22.—South of Market street the loss on the water front proper is comparatively small. Several sheds have been entirely reconstructed and small repairs will have to be made to one or two of the docks, but beyond this the property loss is insignificant. There is nothing to interfere with the unloading of ships and steamers at any of the docks south of the ferry building, save at pier No. 2 of Mission dock.

Glendale Is Badly Shaken

Glendale, Or., April 23.—A distinct shock of earthquake was felt in this city at 11 minutes after 1 o'clock this morning. The shock was apparently heavier than the one of April 18, causing buildings to rock and rattle.

SKIN DISEASES

There is nothing more distressing than an itching, burning skin disease, and upon the return of warm weather those who are afflicted with skin troubles find the symptoms appearing and know that they will be tormented through the hot summer months. The blood is heated with humors and acrid matter, and as they are forced to the surface the skin seems to be on fire. The treatment of skin diseases with external applications is all wrong, because they do not reach the trouble which is in the blood. The most such treatment can be expected to do is, allay the itching and burning and cover up the trouble for awhile, but as soon as it is left off the disease returns.

All food taken into the body contains, in some form, the elements necessary to sustain the different parts. One portion is used for the making of blood, another for muscle, one for bone, still another for fat, and so on. After these different properties are extracted from the food there still remains a portion that is useless, or waste matter, which is intended to be disposed of through the natural channels of bodily waste, the Liver, Kidneys and Bowels. At this season of the year, however, these organs become torpid, dull and sluggish, and fail to perform this duty, and these accumulations remain in the system and are absorbed by the blood to form a system while in this impure condition, acrid humors. The blood cannot properly nourish the pores and glands of the skin, producing Acne, and begins to throw off these acids through the pores and glands of every description.

Eczema, Tetter, Psoriasis, Salt Rheum and skin diseases of every description.
Eczema appears usually with a slight redness of the skin, followed by pustules from which there flows a sticky fluid that dries and forms a crust, and the itching is intense. It is generally on the back, breast, arms, legs and face, though other parts of the body may be afflicted. In Tetter the skin dries, cracks and bleeds, and is often very painful. The acid in the blood dries up the natural oils of the skin, causing a dry, feverish, hardened condition and giving it a leathery appearance. Acne makes its appearance on the face in the form of pimples and black-heads, and is particularly disagreeable because of its unsightly appearance, while Psoriasis, a scaly disease, comes in patches on different parts of the body. One of the worst forms of skin disease is SALT RHEUM. It discharges a watery fluid, forming sores and producing intense itching. The head and face are the parts usually affected, and sometimes the hair falls out and a mass of sores forms on the scalp.

These and all skin diseases are due to the same cause—burning acids and humors in the blood, and until this vital fluid is cleansed and made pure they will continue. The best treatment for all skin diseases is S. S. S., a remedy that is purely vegetable, being made entirely from roots, herbs and barks, and acts directly on the blood so that the skin, instead of being blistered and burned by the fiery fluids, is nourished by a supply of cooling, healthy blood. It goes down into the circulation and forces out every particle of waste or foreign matter, builds up the blood and cures all skin diseases promptly and permanently. S. S. S. does not leave the least particle of the poison for future outbreaks, but entirely rids the blood of the cause for all skin diseases.

S. S. S. tones up the system and regulates the Liver, Kidneys and Bowels so that they will carry off the natural waste and refuse matter through the proper channels, instead of leaving it to be absorbed by the blood. Nothing equals S. S. S. in the treatment of these troubles and for building up the general health. Write for our treatise on skin diseases and any medical advice you wish. We make no charge for either.

THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.

ACNE, TETTER, ECZEMA, PSORIASIS, SALT RHEUM.

Dear Sirs—My body broke out with a rash or eruption which in spite of all efforts to cure continued to get worse. The itching, especially at night, was simply terrible, it would almost disappear at times, only to return worse than ever. I had tried many highly recommended preparations without benefit, and was inexpressibly delighted to give it a fair trial, and hearing of S. S. S., determined to give it a fair trial, and was inexpressibly delighted when a few bottles cured me entirely, removing every blemish and pimple from my body. I shall not fail to recommend S. S. S. whenever an opportunity occurs to do so.
E. M. MARNO, Escondido, Cal.
