

"Dust Devils" of Nile Valley. Travelers in the celebrated Death Valley of California have described the wonderful contortions of the sand pillars that swirl in the wind sometimes send spinning across the hot plain. Even more remarkable are "dust devils" seen by an explorer in the valley of the White Nile. Sometimes two of these whirling columns, gyrating in opposite directions, meet, "and if they be well-matched the collision stops them and a struggle ensues as to which way they shall twist. Gradually one gains the mastery, and the two combined rush on together." Some of these whirlwinds will strip the clothes from an Arab's back, or send a goat spinning round and round like a top.

**HAD GIVEN UP ALL HOPE. CONFINED TO HER BED WITH DYSPEPSIA. "I Owe My Life to Pe-ru-na," Says Mrs. Huffaker.**

Mrs. Mittie Huffaker, R. R. No. 3, Columbia, Tenn., writes: "I was afflicted with dyspepsia for several years and at last was confined to my bed, unable to sit up. We tried several different doctors without relief. I had given up all hope of any relief and was almost dead when my husband brought me a bottle of Peruna. At first I could not notice any benefit, but after taking several bottles I was cured sound and well. It is to Peruna I owe my life today. I cheerfully recommend it to all sufferers."

**Revised Formula.**

"For a number of years requests have come to me from a multitude of grateful friends, urging that Peruna be given a slight laxative quality. I have been experimenting with a laxative addition for quite a length of time, and now feel gratified to announce to the friends of Peruna that I have incorporated such a quality in the medicine which, in my opinion, can only enhance its well-known beneficial character. **Makes a Difference.** Dwellers in apartment houses sometimes seem to forget that conversations in the entrance halls may be overheard by other tenants. This was the greeting which a belated husband received at the door of his apartment recently: "Don't talk to me! I know very well what you would say! But I know—you have been off playing poker and lost all your money!" "No, I didn't, my dear; I won twenty dollars," was the conciliating answer. The other voice suddenly modulated. "Well, perhaps after all we women are a little too severe—a man should have a little recreation now and then."

**Farmer and the Party Wire.** When the independent telephone companies first began to come together in conventions to exchange experiences, one fact was always commented upon with great curiosity by the managers of town or city plants, says Success. This was that they invariably met with failure in their endeavors to induce farmers to put in what are known as "lockout" devices, by means of which every telephone on a party line becomes practically a private wire. In cities, the party line is considered a great nuisance, because there is no privacy in conversations, and all the bells on the line are rung each time a subscriber calls. Naturally, the managers of plants figured that this objection prevailed in the country also; but, almost without exception, they found that one of the great attractions to the farmer was that his telephone did ring every time the other sixteen or twenty people on the line rang up, and that he could hear or be overheard in conversation. It was a practical demonstration of the social hunger the farmer has endured for centuries, and which is now ended, thanks to the arrival of telephone competition.

**Breaks Record for New Laws.** Washington, May 15.—The files of the index clerk at the State department show that the first session of the 59th congress has broken all records in the matter of completed legislation up to this moment. Already more than 3,000 laws have been enacted, which is between 700 and 800 more than in any preceding session up to the beginning of the month of May. The greater part of this mass of law was made up of bills of a private nature and only about 250 of the total enactments were general laws.

**Do Clerks Vote for Members?** Washington, May 21.—Speaker Cannon instanced his confidence in the reading clerks of the house yesterday. Williams, of Mississippi, during the filibuster against the bill to pay Samuel Lee \$10,000 for expenses incurred during his contest for a seat in the Forty-seventh congress, stated that he had heard the name of a member called out that the clerk had recorded him as voting when as a matter of fact the member was not in the city.

**IN THE NATIONAL HALLS OF CONGRESS**

**Monday, May 21.** Washington, May 21.—The legislative, executive and judicial appropriation bill was passed by the senate today within three hours from its reading. It carries appropriations aggregating \$29,815,259, an increase of \$59,845 over the amount reported to the senate. A number of unimportant measures were passed and at 3:30 o'clock consideration was given to pension bills.

Washington, May 21.—Decided opposition developed today in the house of representatives against the passage of the bill to extend the time for the completion of the Alaskan Central railway. Williams, of Mississippi, insisted that the bill was obnoxious because it exempted the property from license tax and tax on its railway during the period of construction and for five years thereafter. He believed that every individual as well as every corporation should pay his proportionate share of the tax burden. Powers, of Maine, insisted that the bill was a good business proposition. The bill and ways were ordered and the bill was defeated, yeas 109, nays 60, present 25, two-thirds not having voted in its favor. A bill was also passed authorizing the sale of surplus or unallotted land of the Coeur d'Alene Indian reservation.

**Saturday, May 19.** Washington, May 19.—The house arose today in its wrath and put to eternal sleep a measure that it had previously passed, making it a penitentiary offense for any official or employee of the government, including senators and congressmen, to make public any secret information that would have an effect upon the market value of any American products. The bill originally passed the house some weeks ago without discussion, and was intended to remedy a defect in the law as exposed by the recent cotton scandal in the department of agriculture. It was amended by the senate, and the report of the conferees brought the matter to the attention of the house today. After a heated debate in which the measure was attacked as vicious legislation by McCall of Massachusetts, Grosvenor, of Ohio, and Crumpecker, of Indiana, Republicans, and defended by Burleson, Democrat, of Texas, its author, and Chairman Jenkins, of the judiciary committee, the house, by a direct vote of 107 to 66, tabled the bill, having refused in the first instance to agree to the report of the conferees.

**Friday, May 18.** Washington, May 18.—After 70 days of almost continuous deliberation the senate today at 4:53 p. m. passed the railroad rate bill by the practically unanimous vote of 71 to 3. The three negative votes were cast by Foraker, Republican, of Ohio, and Morgan and Pettus, Democrats, of Alabama. There was a somewhat larger attendance of senators than usual, but the attendance in the galleries was by no means abnormal, and there was no manifestation of any kind when the result was announced. There was, however, an almost general sigh of relief among the senators.

Washington, May 18.—Reminiscent of the stressful days of the 47th congress were the scenes in and about the house today. Hardly had the journal been approved when the Democrats, under the leadership of Williams, of Mississippi, began the first real filibuster in a number of years, their object being to defeat the bill paying to the estate of Samuel Lee, of South Carolina, \$10,482 for allowances made by reason of the election of Lee, a negro contestant for a seat in the 47th congress. This bill has been reported favorably by nine congresses—six times by Republicans and three times by Democrats. After spending almost the entire day on the question the bill was passed.

**Thursday, May 17.** Washington, May 17.—With the exception of Bailey's digression, the entire day was devoted by the senate to a review of the amendments made in committee of the whole and covered somewhat more than half of the measure. There was a prospect of concluding the reading until the section granting to the Interstate Commerce commission power to fix rates was reached.

**Two Houses Will Soon Agree.** Washington, May 21.—There will not be a prolonged contest between the house and senate over the railroad rate bill. Indications are that it will be accepted by the house within a short time, substantially in the shape in which it was adopted by the senate. That was developed today at a conference between President Roosevelt, Speaker Cannon, Senator Spooner, Representative Hepburn, author of the bill and chairman of the commerce committee, and Representative Mann, also of the committee.

**Will Double Alaska Cables.** Washington, May 15.—Orders have been issued by General Allen, the chief signal officer of the army, for the installation of the duplex system on the Alaska cables. The commercial business of the cables has become so heavy that even by working night and day the operators are not able to handle all the dispatches. With the new system the capacity of the cables will be increased about 75 per cent. The supreme court of the United States has denied the petition for a rehearing in the Chicago traction cases.

**Inquiry Into Coal Monopoly.** Philadelphia, May 15.—The Interstate Commerce Commission will tomorrow resume its inquiry into the alleged close relations between railroads and big coal corporations. Nearly the entire time, it is expected, will be devoted to efforts to prove the ownership of stock in coal companies by officials of the Pennsylvania railroad and discrimination in car distribution. The Baltimore and Ohio will also be put under microscopic examination.

and the question of the constitutionality of that provision was raised. The attack was made on the clause giving to the committee discretion in the matter of preserving rates, and a long debate ensued. The question was still under discussion when the day came to a close. Washington, May 17.—After two weeks' debate the house today passed the naval appropriation bill, carrying \$99,746,000. The amendment providing that the secretary of the navy could go into the open market and purchase chains, anchors and cordage, should it be demonstrated that they could be had cheaper in free markets than they could be made by the government, was defeated today by a vote of 188 to 123. By the action of the house on a second amendment, upon which a separate vote was demanded, a 4 per cent differential will be allowed bidders from the Pacific Coast on ships constructed there. The vote was very close, three Republicans changing from no to yes, Haughen of Iowa, Thomas and Longworth.

**Wednesday, May 16.** Washington, May 16.—The consideration of the rate bill in committee of the whole was concluded by the senate today, and the measure was then reported to the senate, where there will be opportunity to review and alter all the amendments heretofore made. Practically the entire day was devoted to consideration of the anti-pass amendment, which was adopted after making so many exceptions as to arouse laughter every time the provision was read. The work of the senate after the bill was reported was confined to the partial consideration of the pipeline provision, which was so amended as to strike out the Morgan proviso extending its operation to other countries where the United States had jurisdiction.

Washington, May 16.—The naval appropriation bill, carrying nearly \$100,000,000, was completed today in the house after one of the busiest days of the present congress. The feature of the day's debate grew out of the attempt to defeat the appropriation for the largest battleship of its class in the world and the tenor of the speeches for the big ship was that the American republic must be abreast of the nations of the world in the strength of her navy. The opponents talked for peace, disarmament and arbitration, and insisted that there was no national need for such a large navy. The amendment introduced by Burton, of Ohio, to strike out the appropriation for a rival to the British Dreadnaught was defeated, as was the amendment leaving the construction of the battleship to the discretion of the secretary of the navy after the second Hague conference. A final vote on the bill will be taken tomorrow.

**Tuesday, May 15.** Washington, May 15.—With the exception of the anti-pass amendment, the senate concluded its discussion of the railroad rate bill in committee of the whole and, as soon as that provision shall be disposed of, will take it up in the senate. The general expectation is that the pass question will be disposed of early tomorrow, and the general hope is that the bill may be passed before the close of tomorrow's session. The greater part of the day was spent in discussing the eighth section of the bill, relating to the personnel of the Interstate Commerce commission, resulting in the elimination of the entire section and the restoration of the present law, which provides for five commissioners at salaries of \$7,500.

Washington, May 15.—The House by a decided vote today reaffirmed its faith in the Navy department, defeating an amendment of Tawney, chairman of the appropriations committee, to limit the expenditures on a ship to 10 per cent of the cost, a vote of confidence coming after two hours' hot debate. Having reached the section of the naval bill dealing with increase in the Navy and, realizing that considerable debate must ensue, the house adjourned until noon tomorrow. Tawney was emphatic in declaring that it was both bad policy and bad administration to give to the Navy department the right of spending \$11,000,000 for repairs of vessels without so much as being compelled to give an account to any one for the money expended.

**Should Continue Filibuster.** Washington, May 21.—Democratic members of the house of representatives today were signing an indorsement of an action of Williams, the minority leader, in filibustering in the house for the purpose of hurrying action on the steeplebill. The indorsement was drawn by Henry, of Texas, and circulated by Beall, of that state. It asks Williams to continue to demand roll calls on every motion which can be made in the passage of bills or the adoption of resolutions and raise the question of no quorum when possible.

**Don't Poison Baby.**

**FORTY YEARS AGO** almost every mother thought her child must have PAREGORIC or laudanum to make it sleep. These drugs will produce sleep, and A FEW DROPS TOO MANY will produce the SLEEP FROM WHICH THERE IS NO WAKING. Many are the children who have been killed or whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labelling them "poison." The definition of "narcotic" is: "A medicine which relieves pain and produces sleep, but which in poisonous doses produces stupor, coma, convulsions and death." The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrups," etc. You should not permit any medicine to be given to your children without you or your physician know of what it is composed. **CASTORIA DOES NOT CONTAIN NARCOTICS**, if it bears the signature of Chas.
