Monday, June 18.

Washington, June 18 .- After another day devoted largely to the Lake Erie & Ohio river canal bill, the senate today passed that measure with only 11 votes in the negative. In addition, several bills to which there was no objection received favorable action. There also was further discussion between Tillman and Hopkins over the resolution of the former for an investigation of the question of national bank contributions to political campaigns, which involved a renewed reference to the failure of the Chicago national bank.

The session adjourned upon the official announcement of the death of Lester, of Georgia.

Washington, June 18. - A blackdraped desk in the hall of the house of representatives today told the story of the passing of Rufus Leeter, late a representative in congress from the for the further gauging of the waters of First Georgia district. Previous to the United States under the direction any announcement Wadsworth, of New York, asked unanimous consent, which was granted, that the agricultural bill, creased the appropriations for forther senate amendments, be recommitted to the committee on agriculture Payne, of New York, by unanimous consent, then fixed Tuesday and Wed-nesday as suspension days, instead of today, in view of the early adjournment of the house.

Bartlett, of Georgia, announced the death of his late colleague, stating that he had been a member of the house for nearly 18 years. He offered the usual resolutions, which were agreed to. a further mark of respect, the house then adjourned until tomorrow.

Saturday, June 16.

Washington, June 16. - The senate spent the entire day debating the bill to incorporate a ship canal connecting lake Erie with the Onio river, and again adjourned without action on it. The bill was savagely attacked by Patterson as in the interest of speculation, and was as warmly defended by Knox and Nelson. LaFollette offered a number of amendments, which were laid on the table.

During a lull in the proceedings the president pro tem announced his signa-ture to the statehood bill. The senate adjourned at 4:30 p. m.

Friday, June 15.

Washington, June 15. - When the senate took up the Kittredge sea level anal bill today, Senator Teller spoke passage of the bill was advocated in support of that plan. He argued that as this government had practically prohibited the French government, and later had declined to allow private corporations to embark in the canal enter prise, the United States can not afford to hesitate on account of the cost in money or time. The fact that a sea level canal would cost more than a lock canal should not deter this country from giving to the world the best poswhich must necessarily be on the tide level. He expressed the opinion that if can and Democratic whips, the house a sea level canal could be built for the same price as a lock canal, all the enginers would favor it as the best possi ble canal. Hence he contended that in standing for a lock canal Chief Engineer Stevens discredits himself as an engineer.

Washington, June 15 .- The house today by a vote of 110 to 36 voted in favor of a lock canal across the Isthmus of Panama, the amendment to the sundry civil bill to this effect being presented by Littauer, of New York.

With members of congress sitting on the short steps in the sisles of the house, around the space in groups, the galleries filled, and with Burton, of Ohio, pointer in hand, discussing charts to show the difference between the sea shall be 2 cents a mile, effective Janua evel and lock canal, the house present- ry 1 next.

Washington, June 13 .- The senate adopted without division the conference report on the statebood bill at 6:20 o'clock this evening. The report was debated by Foraker

Bailey, Patterson, Money, Dubois, Morgan, Stone, McCumber and others. Dubois announced his intention vote against the acceptance of the port, because of the omission of the anti-polygamy provision inserted by the senate, and in doing so he took occasion to review his own political experience in dealing with the Mormons, eaying that he knew his stand on the question would result in his enforced retirement from the senate. The senate also listened during the day to an argument by Millard in opposition tue sea level Panama canal bilsl.

All food taken into the body contains, in some form, the elements necessary to sust the different parts. One portion is used for the making of blood, another for muscle, one for bone, still another for fat, and so on. After these different properties are ex-tracted from the food there still remains a portion that is useless, or waste matter, rations without beneat, and hearing of S. S. S. determined to give it a fair trial, and was inexpressibly delignment and pimple from my body. I shall not fail to ommend S. of the year, however, these organs become torpid, dull and sluggish, and fail to perform this duty, and these accumulations remain the system and are absorbed by the blood to ferment and sour, producing burning acids and acrid humors. The blood cannot properly nourish the system while in this impure condition and begins to throw off these acids through the pores and glands of the skin, producing Acne. Eczema, Tetter, Psoriasis, Salt Rheum and skin diseases of every description.

Escondido, Cal

EOZEMA appears usually with a slight redness of the skin, followed by pustules. which there flows a sticky fluid that dries and forms a crust, and the itching is intensis generally on the back, breast, arms, legs and face, though other parts of the body may be afflicted. In TETTER the skin dries, cracks and bleeds, and is often very painful. The acid in the blood dries up the natural oils of the skin, causing a dry, feverish, hardened condition and giving it a leathery appearance. AONE makes its appearance on the face in the form of pimples and black-heads, and is particularly disagreeable because of its unsightly appearance, while **PSORIASIS**, a scaly disease, comes in patches on different parts of the body. One of the worst forms of skin disease is **SALT RHEUM**. It discharges a watery fluid, forming sores and producing intense itching. The head and face are the parts usually affected. and sometimes the hair falls out and a mass of sores forms on the scalp.

These and all skin diseases are due to the same cause-burning acids and humors in the blood, and until this vital fluid is cleansed and made pure they will continue. The best treatment for all skin diseases is S. S. S., a remedy that is purely vegetable, being made entirely from roots, herbs and barks, and acts directly on the blood with a cleansing, healing effect. It neutralizes the acids and purifies the blood so that the skin, instead of being blistered and burned by the fiery fluids, is nourished by a supply of cooling, healthy blood. It goes down into the circulation and forces out every particle of waste or foreign matter, builds up the blood and cures all skin diseases promptly

and permanently. S. S. S. does not leave the least particle of the poison for future outbreaks, but entirely rids the blood of the cause for all skin diseases, S. S. S. tones up the system and regulates the
