BUFFALO BILL TO RESCUE. Runners Sent by Renegades for Help

Cody, Wyo., Nov. 5.—Colonel Wil-liam F. Cody ("Buffalo Bill"), accom-panied by Colonel Breck and several members of the party which returned a few days ago from a big bear hunt in the Big Horn Mountains, left here for Sheridan, Wyo., intending to hold a conference with the Utes before the latter start on their overland march to Fort Meade, where they are to stay in charge of the Sixth Cavalry until

to Drive Out Whites.

Notwithstanding the agreement which was reached at the conference between the soldiers and the Utes. there are fears of a general uprisin of all northern Indians. "Buffalo Bill, who is familiar with Indian charact eristics, has been kept closely advised of the developments in the recent troubles, and he believes the matter will not be entirely settled by the arrangement which puts an end to the wanderings and depredations of the Utes under Appah and Black Whisker At the instigation of the Utes, run ners have been going to all the tribe of the Sioux, Northern Cheyennes and Crows, with a view of inducing them to join in driving the whites out of counteract efforts of these messengers to stir up revolt. On his arrival at Sheridan, Colonel Cody will confer with the military authorities as to the exact methods of procedure.

GREAT FAMINE IN CHINA.

Ten Million on Verge of Starvation Crops an Utter Failure.

Shanghai, Nov. 5 .- Advices received here indicate that famine conditions of the most desperate nature prevail in the Northern part of the great Province of Kiang-Su, with but one exception the most fertile and valuable of many provinces of the empire. Ten millions of the total population of 21. 000,000 in the province are reduced to stern want.

Crops are an utter failure and scenes of suffering that rival anything in the empire's history are reported from every point in the region Food riots which have been marked with much bloodshed, are reported daily and so far the officials have taken no prevent the rioting spreading to The Oregonians examined the jute cities all of the local governors have

Pirates Seize Launches. Dunning visited the camp the Indians were on Bear Creek.

This is the latest reliabile information regarding the location of the Utes and at that time they were 70 miles from Sheridan and making westward to Tongue River.

Pirates Seize Launches.

Hongkong, Nov. 5.—Reports have been received that Chinese pirates have seized a British launch and two Chinese launches in West River and escaped with \$10,000 in booty after a running fight. No casualities are reported.

PSORIASIS. There is nothing more distressing than an itching, burning skin disease, and upon the return of warm weather those who are afflicted with skin troubles find the symptoms appearing and know that they will be tormented through the hot summer months. The blood is heated with humors and acrid matter, and as they are forced to the surface the skin seems to be on fire. The treatment of skin diseases with external applications is all wrong, because they do not reach the trouble which is in the blood The most such treatment can be expected to do is, allay the itching and burning and cover

up the trouble for awhile, but as soon as it is left off the disease returns. All food taken into the body contains, in some form, the elements necessary to sustain the different parts. One portion is used for the making of blood, another for muscle, one for bone, still another for fat, and so on. After these different properties are extracted from the food there still remains a portion that is uscless, or waste matter, which is intended to be disposed of through the natural channels of bodily waste, the Liver, Kidneys and Bowels. At this season of the year, however, these organs become

torpid, dull and sluggish, and fail to perform this duty, and these accumulations remain in the system and are absorbed by the blood to ferment and sour, producing burning acids and acrid humors. The blood cannot properly nourish the system while in this impure condition, and begins to throw off these acids through the pores and glands of the skin, producing Acne. Eczema, Tetter, Psoriasis, Salt Rheum and skin diseases of every description.

EOZEMA appears usually with a slight redness of the skin, followed by pustules from which there flows a sticky fluid that dries and forms a crust, and the itching is intense. It s generally on the back, breast, arms, legs and face, though other parts of the body may be afflicted. In TETTER the skin dries, cracks and bleeds, and is often very painful. The acid in the blood dries up the natural oils of the skin, causing a dry, feverish, hardened condition and giving it a leathery appearance. AONE makes its appearance on the face in the form of pimples and black-heads, and is particularly disagreeable because of its unsightly appearance, while **PSORIASIS**, a scaly disease, comes in patches on different parts of the body. One of the worst forms of skin disease is **SALT RHEUM**. It discharges a watery fluid, forming sores and producing intense itching. The head and face are the parts usually affected and sometimes the hair falls out and a mass of sores forms on the scalp.

These and all skin diseases are due to the same cause-burning acids and humors in the blood, and until this vital fluid is cleansed and made pure they will continue. The best treatment for all skin diseases is S. S. S., a remedy that is purely vegetable, being made entirely from roots, herbs and barks, and acts directly on the blood with a cleansing, healing effect. It neutralizes the acids and purifies the blood so that the skin, instead of being blistered and burned by the fiery fluids, is nourished by a supply of cooling, healthy blood It goes down into the circulation and forces out every particle of waste or foreign matter,

builds up the blood and cures all skin diseases promptly and permanently. S. S. S. does not leave the least particle of the poison for future outbreaks, but entirely rids the blood of the cause for all skin diseases. S. S. S. tones up the system and regulates the

Liver, Kidneys and Bowels so that they will carry off the natural waste and refuse matter through the proper channels, instead of leaving it to be absorbed by the

blood. Nothing equals S. S. S. in the treatment of these troubles and for building up the general health. Write for our treatise on skin diseases and any medical advice you wish, We make no charge for either. THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.
