HURT, BRUISE OR SPRAIN

ST. JACOBS OIL

THE OLD-MONK-CURE RELIEVES FROM PAIN

Price 25c and 50c

IRRIGATION IN CANADA.

Alberta Country Fast Coming to the Front.

The Canadian Pacific Railway company is now engaged in a great irrigation work, just east of Calgary, that will eventually bring under water 1,500,000 acres of as fine land as there is in all of Canada. They have just thrown open to settlement the first block of 110,000 acres, which they are selling at from $15.00 to $25.00 per acre. In connection with this irrigated land they are selling non-irigable lands at from $12.00 to $15.00 per acre, which cannot be surpassed for grazing purposes, and affords a range where stock may graze throughout the entire year without shelter.

The future of Western Canada, and particularly the southern portion of Alberta province, is assured. Calgary, its metropolis, a city of 20,000 inhabitants, comosed largely of Americans, is a live, up-to-date city. Its retail business is in the hands of bright, progressive business men, who handle enormous stocks. There are a number of jobbing houses located there, and a home market for stock is afforded by a large packng house. Along the line of the Canadian Pacific railway in Southern Alberta, there have been twenty elevators established the past year, to be followed by thirty more next year, so that there will be no shortage for the immense crops produced in this section.

Impending.

Reporter—Colonel, you have read what Senator Gotleft says about the country facing an industrial crisis. Do you think his fears are justified?

Eminent Statesman—So far as he is concerned, young man, they are. He is face to face with the dreadful alternative of going to work at something or starving to death.

Caution.

Imitations have been placed upon the market so closely resemblina Allc ck's Pla ters in general appearance as to be well calculated to deceive. It is however, in general appearance only that they compare with Allcock's, for they are not only lacking in the best elements which have made Allcock's so efficient, but are often harmful in their effects. Remember that Allcock's are the original and only genuin porous plasters—the best external remedy known—and when purchasing plasters the only safe way is to always insist upon having Allcock's.

Fall of the Mighty.

"This is the time of year," triumphantly declared the flat dweller, "when the iceman gets just about what's coming to him. He no longer rings an irate bell, ejaculates 'Ice!' in conquering tones, stands on the threshold with the splendid air of a reigning monarch, and deals out a 2 cent piece of ice for 10 cents.

"On the contrary, softly rings an apologetic bell, and outside stands a meek-faced man imploring patronage; not only imploring patronage, but generously handing out 5 cent pieces of ice for 10 cents."

WORKS IN THE GARDEN.

Eighty-Seven Years Old, but Has a Sound Back.

Robert Scollan, 87 years old, of 55 Garden Street, Seneca Falls, N. Y., a fine sturdy old gentleman, who works in his own garden, gives thanks to Doan's Kidney Pills for his sound back and kidneys; Mrs. Goetchious, his daughter, says: "Father had a severe attack of kidney trouble and lumbago, which caused him much suffering. He began taking Doan's Kidney Pills and was soon cured. We always keep them on hand. My husband was cured of bad pains in the back by taking only part of a box."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Vulgar Fractions.

Everything that Bobby learned at school he endeavored to apply in his daily life and walk. When his mother asked him if one of his new friends was an only child, Bobby looked wise and triumphant.

"He's got just one sister," said Bobby. "He tried to catch me when he told me he had two half-sisters, but I guess I know enough fractions for that!"

TO CURE A COLD IN ONE DAY

Take LAXATIVE BROMO QUININE Tablets Druggists refund money if it fails to cure. E. W GROVE'S signature is on each box. 25c.

Economy.

"What's the matter with that man?" asked the dealer, after the customer had gone out. "He got mad when I tried to sell him a Christmas tree."

"That's Uppem," said one of his neighbors. "He's rich and proud, but stingy. He hangs all his Christmas presents on his family tree."—Chicago Tribune.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube re-toned to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Hall's Family Pills are the best.

Valid Excuse.

Indignant Matron (in crowded car)—Sir, when so many elderly women are standing up why don't you rise and offer one of them your seat?

Seated Passenger (with dignity)—You are laboring under a mistake, madam. I am the Bearded Lady.

THE SPENCER SEEDLESS APPLE

An Expert Investigates It and Makes Flattering Report.

There has been much adverse criticism of the Spencer Seedless Apple, notably in the Rural New Yorker and some of its satellites. The opinion of a recognized horticulturist, who has made a thorough examination of the apple, being allowed free range in the orchard where they are grown, should be valuable to those who are thinking of planting these trees, as well as to those who by reason of the criticisms have been deterred from purchasing.

A company was recently organized in Canada to handle the Spencer Seedless Apple trees, but the adverse criticisms alarmed the organizers, and they refused to proceed further with the negotiations until they could have the proposition thoroughly examined by an experienced horticulturist of reputation of their own selection. This was readily assented to, and as a result the Hon. John Dryden, who for more than twenty years was minister of agriculture for the province of Ontario, was selected to examine and report on this apple.

The Hon John Dryden's name is a household word in Canada and Great Britain, and his reputation is such as will carry great weight wherever he is known. His report is most flattering and an unqualified endorsement of the apple. A copy of it is sent free upon application to the Spencer Seedless Apple Company, Everett, Washington.

How Animals Doctor Themselves.

Man might often take from the lower animals a lesson as to the care of himself when ill. All sorts of animals suffering from fever eat little, lie quiet in dark, airy paces and drink quantities of water. When a dog loses his appetite he knows where to find dog grass, which acts as a purgative and emetic. Sheep and cows, when ill, seek certain herbs. Any animal suffering from chronic rheumatism keeps as far as possible in the sun. If a champanzee be wounded he has been seen to stop the bleeding by a plaster of chewed-up leaves and grass.

IN THE NATIONAL HALLS OF CONGRESS

Monday, February 11.

Washington, Feb. 11.—The senate today passed the army appropriation bill, carrying $81,600,000. The amendment which permitted the government to accept reduced rates on army supplies and permitted army officers and enlisted men to accept reduced transportation and an amendment increasing by 20 per cent the pay of officers and enlisted men were defeated on points of order.

Washington, Feb. 11. — Bills relating to the government of the District of Columbia were considered in the house today. The house in committee of the whole favored a flat 4-cent street railway fare, together with a provision for eight tickets for 25 cents in the District of Columbia, but in the house the amendment was defeated. Thereupon "no quorum" was made and the house at 5:10 adjourned.

The Indian appropriation bill was sent to conference.

Saturday, February 9.

Washingotn, Feb. 9. — After conferring with Speaker Cannon and with the committee on rules, Chairman Foss of the naval affairs committee, asked the house to consider general debate upon the naval appropriation bill closed, so that, when the bill is again taken up, it may be under the five-minute rule for amendment. Mr. Foss urged that the house pay heed to the passing of the days and the approaching adjournment of congress. The house then adjourned out of respect to the memory of Mr. Rixey.

Washington, Feb. 9.—The adoption of an amendment authorizing the secretary of war to supply militia for the various states with arms and equipment used by the regular army created considerable discussion in the senate today.

The senate passed the omnibus lighthouse bill, which carries Senator Fulton's amendments for Cape Blanco and Cape Arago. The bill also carries $30,000 for a lighthouse at Eliza island, Bellingham bay, and $125,000 for a lighthouse on Cross Point, Alaska.

Friday, February 8.

Washington, Feb. 8.—A new high record in the way of passage of private pension bills was made by the house today, when 725 bills were passed in an hour and a half.

The naval appropriation bill, carrying $95,425,000, was taken up and under the order of general debate speeches were made by Lamar of Florida on the railroad rate bill, Higgins of Connecticut favoring the creation of the White Mountain and Appalachian forest reserves and Mondell of Wyoming on the "limitations of Federal authority" and the withdrawal of coal lands from entry.

Washington, Feb. 8.—The senate today passed the Indian appropriation bill. Frazier made an address maintaining state's rights, after which the army appropriation bill, carrying a total of $81,500,000 was taken up.

The army measure was partly read for approval of committee amendments and adjournment was taken shortly before 6 o'clock, when it became apparent that considerable debate was to be occasioned by an amendment to permit the government to receive reduced rates from the railroads for the transportation of troops and supplies for the army and to allow army officers and their families to accept free transportation. The adoption of this amendment would be a modification of the railroad rate bill passed at the last session of congress.

Thursday, February 7.

Washington, Feb. 7.—The house today completed and passed the river and harbor appropriation bill, carrying more than $80,000,000, with sundry amendments, all of which were suggested by the chairman of the committee, Burton. Among the important amendments adopted were:

For the maintenance and continuing of the improvement of the Chicago river, $200,000 being an increase of $180,000.

A survey of the Missouri river was authorized, from its outh to Sioux City.

A bill amending the naval appropriation bill was taken up and made the continuing order.

Washington, Feb. 7. — The Indian appropriation bill received rough handling by the senate today. The amendments of the committee, especially those suggested by the special committee which went to the Indian Territory last summer to investigate conditions, were nearly all rejected on points of order.

The provision which allowed full-blood Indians of the Indian Territory to sell their surplus land was defeated by a vote of 31 to 32, which leaves in force the provision of the law known as the McCumber amendment, prohibiting the alienation of such land for 25 years.

The debate on the bill today was confined to the amendment allowing land alienation. Stone made the principal speech for the amendment and Spooner the principal argument against it.

Wednesday, February 6.

Washington, Feb. 6. — The Indian appropriation bill again was in the sole topic of discussion by the senate today, but little progress was made. The day was spent in a discussion of the proposition to repeal the restrictions on the alienation of surplus land in the Indian Territory. No conclusion was reached on this matter when the senate adjourned.

Washington, Feb. 6.—The advocates of a 14-foot channel for the Mississippi river from Chicago to St. Louis and the gulf met defeat when the house in committee of the whole, during consideration of the rivers and harbors appropriation bill, voted to stand by the recommendation of the committee in opposition to the project. Although there was much speechmaking on the part of the friends of the measure, they secured only 43 votes for the amendment, as against 415 against it.

Earlier in the day Dalzell of Pennsylvania offered an amendment providing for the continuance of work on dam No. 7 on the Ohio river, but it was defeated on a test vote which showed that the chairman of the rivers and harbors committee, Burton, had a large majority of the house with him as to any amendment to the bill.

After completing 72 pages of the bill the house adjourned.

Tuesday, February 5.

Washington, Feb. 5. — The senate spent the entire day in considering the Indian appropriation bill, but without concluding the question of amendments. The army appropriation bill was reported and will be taken up as soon as the Indian appropriation bill has been disposed of. The bill carries $81,500,000.

The principal items in the increase in the military bill are: Washington-Alaska cable, $190,000; signal service in Cuban pacification, $50 000; contract surgeons, $60,000; regular supplies, $596,643; barracks and quarters, $1,372,227; transportation, $702,964; increase incident to the passage of a bill extending and promoting the efficiency of the artillery corps, $6,221,160.

Washington, Feb. 5. — Several test votes were taken by the house committee on public lands to determine the attitude of the committee towards President Roosevelt's policy of leasing government coal lands. The committee voted against the general leasing system for coal lands, but by a vote of 5 to 4 favored a bill to lease such lands in limited areas.

Another vote showed that the committee favors the renting instead of the present system of selling land, but with modifications in the present plan, which will make fraud more difficult.

May Kil New Judgeships.

Washington, Feb. 9. — It is understood that the conference committee may kill Senator Piles' bill authorizing the appointment of two additional circuit judges for the Ninth circuit. This bill was attached as a rider to a less important California bill, reported a few days ago, and the conference committee threatens to kill the rider. There is a desire to force the Piles bill to stand upon its merits, and a strong disposition in the house to kill the bill entirely. If the bill fails, Judge Hanford, of Seattle, will get no promotion.

Will Not Raise Salaries.

Washington, Feb. 9. — Chairman Payne, of the house ways and means committee, after a brief visit to the president today, expressed the opinion that there was no chance at this session of congress for the enactment of legislation increasing the compensation of government employes, as is proposed in a bill now before congress. He declared there was no need of a blanket increase of salaries and that as a rule the government employes were amply pai..

Seeks a Terminus.

San Francisco, Feb. 6.—Strakenouchi, manager of the Osaka Shoshen Kaisha Steamship company, arrived festerday on the America Maru from Yokohama for the purpose of selecting a Pacific Coast terminal for his line. The company operates freight steamers from Japan to Vladivostok, Corea, Shanghai, Formosa and Hongkong, and is desirous of extending its line to this coast. Manager Strakenouchi will look into the facilities here and will also visit Portland, Seattle and Tacoma, and perhaps Santiago, before deciding.

Second Judge for Oregon.

Washington, Feb. 5. — Senator Fulton today appeared before the judiciary committee in behalf of his bill dividing Oregon into two judicial districts. Fulton's bill will come up for final action at a meeting of the judiciary committee next week and it is understood that after being amended to provide only for an additional district judge, it will be favorably reported and be passed by the Senate. The committee is willing to authorize another judge to relieve the congestion, but not another full complement of court officials.

Idaho Law Upheld.

Washington, Feb. 5.—The Supreme court, in the appeal of Charles Brown and Leander L. Ormsby against Enos C. Walling, affirmed the decision of the Supreme court of Idaho, upholding the constitutionality of sections 1210 and 1211 of the Idaho state laws making it unlawful for the owner or herder of sheep to drive them on the land or possessory claims of other persons or herd them within two miles of a dwelling house on such possessory claims.

Steamers in Dire Peril.

Halifax, N. S., Feb. 6. — Two unknown ocean steamers, one of which is known to be disabled and the other thought to be, are anchored tonight in a dangerous position at Ketch harbor, a few miles west of this city, and the lives of those on board are in peril. The ships are less than a quarter of a mile off shore and within 100 yards of the breakers. A tremendous sea is running. The steamers have fired several guns and are sending up rockets, but owing to the terrific sea no aid could be given the vessels tonight.

Tariff Revision Shelved.

Washngton, Feb. 5. — Twice during this session of congress efforts have been made to secure a caucus of the Republicans of the house to consider a plan of revising the tariff. Both attempts ended in dismal failure. The original attempt was made by men from New England. The second attempt was made by representatives from the Middle West, Minnesota and Wisconsin. In view of these failures, it may be set down for a fact that there will be no special session of congress in the spring to consider tariff.

Gets Title to Rich Mines.

San Francisco, Feb. 6 — Title to mines in the Ferguson district of Nevada, was won today by Joseph De Lamar, through a decision rendered by Superior Judge Seawell. The Utah-Nevada Mining company was plaintiff and sought to dispossess De Lamar from the Monitor and Jim Crow groups of mines. The company alleged that since Lamar has been in possession $13,000,000 worth of ore has been taken from these mines.

Hood's Sarsaparilla

Has surpassed all other medicines, in merit, sales and cures.

Its success, great as it has been, has apparently only just begun.

It has received by actual count more than 40,000 testimonials in two years.

It purifies the blood, cures all blood diseases, all humors and all eruptions.

It strengthens the stomach, creates an appetite and builds up the whole system.

It cures that tired feeling and makes the weak strong.

In usual liquid form or in chocolated tablets known as **Sarsatabs.** 100 doses $1.

A Dose of His Own Medicine.

"Who is this Brander Matthews?" asked the new proofreader.

"He's the father of the simplified spelling," answered the man at the other desk.

"Huh! He doesn't seem to have got around his own name yet."

Thereupon, without the slightest compunction, he marked out the superfluous "t."

The Best of References.

The new servant had presented her references and the mistress read them over, declares a writer in Answers, with a doubtful eye.

"I am not quite satisfied with your references, Jane," she said.

"Nayther am I, mum," responded the stalwart maid, "but they're the best I could get."

PILES CURED IN 6 TO 14 DAYS.

PAZO OINTMENT is guaranteed to cure any case of itching, blind, bleeding or protruding piles in 6 to 14 days or money refunded. 50c.

Conditional.

Her—I'm not sure that I want to marry you, but I'm willing to enter into a conditional engagement.

Him—What are the conditions?

Her—If I meet anyone I like better than you, I'll break the engagement.

Him—And suppose I should meet a girl I like better than you?

Her—Oh, then I shall sue you for breach of promise.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Fortune in Fried Chicken.

One of the rich men of this country has a camp where he employs a cook at a fabulous salary, merely for her skill in frying chicken and making beaten biscuits. Whenever he visits the place with guests those dainties are provided and appreciated, the rest of the food being no better than found in ordinary homes.—Minneapolis Tribune.

For Infants and Children.

The Kind You Have Always Bought

Bears the Signature of Chas. H. Fletcher

His Specialty.

Young Foley looked so downcast that the marketman asked why he carried such a long face.

"Fired," returned Foley, concisely.

"Fired?" repeated the marketman. "Give you any reason for doing it?"

"Yep," Foley said, with the air of a martyr. "The boss said he was losing money on the things I was making."

"Is that so? What were you making?"

"Mistakes."

Conclusive Reasoning.

A little elderly German who keeps a stationer's shop amuses and interests himself by making up stories about his customers and telling them to his family.

"Dat young lady who has de pink cheeks, she be married soon, I t'ink," he announced one night.

"Now, my Carl, you know nottings of her whateffer, is it not so?" and his wife tried to look as if she did not think him a wonderfully clever man.

"It is like dis," said the stationer, solemnly. "I observe, and I know. At first she buy paper and envelopes de same; later she buy twice as more paper, and den five times as more paper as envelopes. So I know she is become betrothed.

"And to-day," he said, beaming with pleasure, "to-day she buy only one half-dozen envelopes and five times as more paper; and when I tell her she get dem cheaper if she buy many, she say to me, 'I have no need of more, t'ank you,' so I know de friend he comes soon, and so comes de marriage on quickly."

More than $10,000,000 worth of sporting goods were sold in the United States last year.

Harvesting Dollars

is possible if the seed be judiciously planted.

Southern Alberta, Canada, has demonstrated beyond a doubt that it is the greatest cereal growing country on the continent, and "Alberta Red Wheat" grown there took both the Gold and Bronze medals at the Portland Exposition.

The Canadian Pacific Railway Company has 3,000,000 acres of the best of land, irrigable and non-irrigable, just east of Calgary, Alberta, which they are selling at from $12 to $15 per acre for non-irrigable and $18 to $25 per acre for irrigable.

Lands sold by them three months ago at these prices are now now being held by the purchasers at $50 per acre and upwards.

The harvesting of dollars invested in these lands is just as certain as the harvesting of cereals.

If you are interested drop a card to the address below for literature fully describing the opportunity of the age.

BAD BLOOD

THE SOURCE OF ALL DISEASE

Every part of the body is dependent on the blood for nourishment and strength. When this life stream is flowing through the system in a state of purity and richness we are assured of perfect and uninterrupted health; because pure blood is nature's safe-guard against disease. When, however, the body is fed on weak, impure or polluted blood, the system is deprived of its strength, disease germs collect, and the trouble is manifested in various ways. Pustular eruptions, pimples, rashes and the different skin affections show that the blood is in a feverish and diseased condition as a result of too much acid or the presence of some irritating humor. Sores and Ulcers are the result of morbid, unhealthy matter in the blood, and Rheumatism, Catarrh, Scrofula, Contagious Blood Poison, etc., are all deep-seated blood disorders that will continue to grow worse as long as the poison remains. These impurities and poisons find their way into the blood in various ways. Often a sluggish, inactive condition of the system, and torpid state of the avenues of bodily waste, leaves the refuse and waste matters to sour and form uric and other acids, which are taken up by the blood and distributed throughout the circulation. Coming in contact with contagious diseases is another cause for the poisoning of the blood; we also breathe the germs and microbes of Malaria into our lungs, and when these get into the blood in sufficient quantity it becomes a carrier of disease instead of health. Some are so unfortunate as to inherit bad blood, perhaps the dregs of some old constitutional disease of ancestors is handed down to them and they are constantly annoyed and troubled with it. Bad blood is the source of all disease, and until this vital fluid is cleansed and purified the body is sure to suffer in some way. For blood troubles of any character S. S. S. is the best remedy ever discovered. It goes down into the circulation and removes any and all poisons, supplies the healthful properties it needs, and completely and permanently cures blood diseases of every kind. The action of S. S. S. is so thorough that hereditary taints are removed and weak, diseased blood made strong and healthy so that disease cannot remain. It cures Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison, etc., and does not leave the slightest trace of the trouble for future outbreaks. The whole volume of blood is renewed and cleansed after a course of S. S. S. It is also nature's greatest tonic, made entirely of roots, herbs and barks, and is absolutely harmless to any part of the system. S. S. S. is for sale at all first class drug stores. Book on the blood and any medical advice free to all who write.
