The Limerick Variety.
Some years ago Mons. Paul Villars, London correspondent of the Journal des Debats, went to Limerick on the occasion of a great Nationalist meeting.

On arriving at the hotel he asked for a room in the front of the house. A servant took him to a small dark room looking on to an inner courtyard. Monsieur Villars to the window and satisfied himself that there was a mistake.

"This is not the front of the house," said he.

"Oh, yes, sir," the servant said. "It's the back of the front."

Indian Woman Mine Owner

An interesting character is an old Mexican Indian woman, Mrs. Bernina Sarra, who has recently sold a mine near Hawthorne, Nev., to an Eastern syndicate for \$300,000. For years she has dressed in men's clothes and personally worked her claim herself, doing washing for prospectors and miners in order to secure necessary money. She says that she now intends to rest and enjoy the results of her long years of privation and hardship.

TEN YEARS OF PAIN.

Unable to Do Even Household Because of Kidney Troubles.

Mrs. Margaret Emmerich, of Clinton St., Napoleon, O., says: "For fifteen years I was a great sufferer from kidney troubles. My back pained me terribly. Every turn of mine caused sharp shooting pains. My eyesight was poor, dark spots appeared before me, and I had dizzy spells. For ten years I could not do housework, and for two years did not get out of the house. The kidney secretions were irregular, and doctors were not helping me. Doan's Kidney Pills brought me quick relief and finally cured me. They saved my life."

BAD BLOOD

THE SOURCE OF ALL DISEASE

Every part of the body is dependent on the blood for nourishment and strength. When this life stream is flowing through the system in a state of purity and richness we are assured of perfect and uninterrupted health; because pure blood is nature's safe-guard against disease. When, however, the blood is fed on weak, impure or polluted blood, the system is deprived of its strength, disease germs collect, and the trouble is manifested in various ways. Fustular eruptions, pimples, rashes and the different skin affections show that the blood is in a feverish and diseased condition as a result of too much acid or the presence of some irritating humor. Sores and Ulcers are the result of morbid, unhealthy matter in the blood, and Rheumatism, Catarrh, Scrofula, Contagious Blood Poison, etc., are all deep-seated blood disorders that will continue to grow worse as long as the poison remains. These impurities and poisons find their way into the blood in various ways. Often a sluggish, inactive condition of the system, and torpid state of the avenues of bodily waste, leaves the refuse and waste matters to sour and form uric and other acids, which are taken up by the blood and distributed throughout the circulation. Coming in contact with contagious diseases is another cause for the poisoning of the blood; we also breathe the germs and microbes of Malaria into our lungs, and when these get into the blood in sufficient quantity it becomes a carrier of disease instead of health. Some are so unfortunate as to inherit bad blood, perhaps the dregs of some old constitutional disease of ancestors is handed down to them and they are constantly annoyed and troubled with it. Bad blood is the source of all disease, and until this vital fluid is cleansed and purified the body is sure to suffer in some way. For blood troubles of any character, S. S. S. is the best remedy ever discovered. It goes down into the circulation and removes any and all poisons, supplies the healthful properties it needs, and completely and permanently cures blood diseases of every kind. The action of S. S. S. is so thorough that hereditary taints are removed and weak, diseased blood made strong and healthy so that disease cannot remain. It cures Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison, etc., and does not leave the slightest trace of the trouble for future outbreaks. The whole volume of blood is renewed and cleansed after a course of S. S. S. It is also nature's greatest tonic, made entirely of roots, herbs and barks, and is absolutely harmless to any part of the system. S. S. S. is for sale at all first class drug stores. Book on the blood and any medical advice free to all who write.

State Treasuries Overflowing.

Through ingenious methods of taxing railroads the treasuries of some States are so swollen that State officers are puzzled to know what to do with State funds. New Jersey's receipts from corporations have filled its treasury. Pennsylvania had a surplus of \$10,000,000 and no debt to speak of. Back taxes received from railroads and the collection of a war claim of \$1,000,000 have enabled Wisconsin to pay extraordinary expenses, put \$643,000 into the State treasury and cut the school tax levy in two.

In Jumping Over.

Little Dixon, aged three, had just learned that famous nursery rhyme, "Hi diddle, diddle," and electrified his mother one night by exclaiming, as he stood gazing in wonder at the new moon which had just risen.

"OOO-oo-oo, mamma, just look!"

"What is it, dear," said she.

"Why," he answered, in amazement, "that old cow has gone an' kicked a piece right out of it."

Something New About Elijah.

The vicar of St. John's Gainsborough, England, says that recently the scholars in his parish were asked to give an account of the translation of the prophet Elijah to heaven, and one boy wrote: "Elijah, the prophet, was carried into heaven by a whirlwind, and the children stood up and cried, 'Go up, thou bald head! Go up, thou bald head,' and before he went up he divided the Red Sea."

A Nurse for Sick Dogs.

A young New York woman is a trained nurse for sick dogs. For some time she has been a member of the staff of the New York Dog Hospital, where the sick pets of the wealthy are nursed back to health. She often has as many as a hundred dogs to care for. It is her duty to give them their medicine and in other ways carry out the doctor's orders exactly as a trained nurse would do for human patients.

CONFLICT IS FEARED

Violence Seems Certain in San Francisco Labor War.

MILITARY FORCES ARE PREPARED

United Railroads May Muddle Under Eagle's Wing by Asking for Federal Injunction.

San Francisco, May 7.—An air of nervous expectancy hangs over the city of San Francisco. It is such a quiet, suppressed sentiment as bespeaks approaching conflict. The situation is serious with a gravity born of uncertainty. The United Railroads propose to resume the operation of its lines with non-union men. Two thousand union men are on strike, and, while neither side will discuss the possibility of violence, the situation has been carefully canvassed by the police, the militia and the officers of the regular army.

There is a settled feeling in the city that the cars cannot be operated without violence of some sort. Wherever the subject was discussed, the opinion was expressed that trouble was inevitable. While still hoping that no outbreak will attend the running of the cars, the authorities have made preparations for any emergency. General Funston arrived last night and assumed command of the department of California. The militia armories are being guarded and the police force has been given emergency orders.

The situation is complicated by the telephone strike and the vast industrial army made idle by the ironworkers' strike. Among the unions the feeling prevails that the defeat of the carmen would be the heaviest blow the unions could receive.

Reports are current that, if trouble attends the attempt of Mr. Calhoun to run the cars, he will force the issue upon the government, either through a request for a receiver or through injunction proceedings in the Federal court.

PREDICTS COAL FAMINE.

Union Pacific Official Says Road Will Sell No More Coal.

Cheyenne, Wyo., May 7.—"I look for a greater coal famine next year than ever before, and the Union Pacific, which has always taken care of the people along its line, will no longer be able to do so on account of the Hepburn bill," is a statement attributed to W. L. Park, general superintendent of the Union Pacific railroad, by the Wyoming Tribune today.

"The small dealers," Mr. Park is further reported to have said, "have in a way depended upon the railroad for the supply of coal to help them out, and, unless they store their own coal during the coming summer, they will face a famine in the winter. Coal consumers along other lines where a similar arrangement has been maintained by coal-carrying roads will meet the same emergency. The Union Pacific will store coal as usual this summer, but will have none to sell."

TORNADO WASTES PRAIRIE.

Wrecks Villages and Kills People in Northern Texas.

Fort Worth, Texas, May 7.—A storm of wind and rain, which was general throughout a considerable area in Northern Texas and which at some places assumed the proportions of a tornado, according to meager reports received here tonight, has resulted in the loss of at least three lives, the injury of many other persons and great damage to property and crops.

Record Trip Around Horn.

Los Angeles, May 7.—A special to the Herald from San Diego says that the steamer President, one of the vessels afloat, now engaged in an effort to break the existing record for a voyage around Cape Horn, is reported to have passed San Diego yesterday afternoon. The message was received by wireless telegraph and stated that the President, which left Philadelphia March 23, would arrive at San Francisco tonight or Wednesday morning. If the estimate is correct the President will make the trip in 46 days.

Forest Land Reopened.

Helena, Mont., May 7.—Notice of the release of thousands of acres of Montana lands, which were withdrawn some weeks ago for national forest purposes, was received today at the Helena land office from Commissioner of the General Land Office Ballinger. Notice was received stating that "for lack of funds all hearings set for date later than May 25, except at Carson City, Nevada, and cases in California and Los Angeles, set for May 27," are postponed. This will tie up a good many tracts of land in this district.

Shots Fired in Labor Riots.

Connellsville, Pa., May 7.—Benjamin Carter, a negro strike breaker, was stabbed in the back, two negroes were arrested for carrying firearms, and patrolmen and members of the state constabulary were fired upon tonight during a riot between white men and negro strikebreakers at the plant of the Sligo Iron & Steel company. The mills have been closed since April 13 until a few days ago, when several carloads of negroes were imported from Pittsburgh.

Relations Not Severed.

Mexico City, May 7.—Diplomatic relations between Mexico and Guatemala have not been severed. Tonight the sub-secretary of foreign affairs, Jose Algorria, emphatically denied the report emanating from Washington to the effect that Minister Gamba had been recalled.

Strike Fever Is Spreading.

San Francisco, May 6.—The iron workers strike has settled down to a sleep. Practically all the ironworks, foundries and shops in the city are closed. It was said today that the employers would declare for an "open shop" this week. Another strike looming up on the horizon is that of the bakers. The Bakers' union held a midnight meeting last night to formulate demands for a considerable increase in wages and possibly an eight hour day.

Attacked by Guatemala.

City of Mexico, May 6.—Telegrams from Salina Cruz tend to confirm a report that the Guatemalans attacked the Mexican lighthouse at San Bartolome on the west coast.

SUBMITS TO NEW LAW.

Harriman Annuls Long Contract With Clark Railroad.

Washington, May 6.—Official information reached the Interstate Commerce commission today of the cancellation of a traffic agreement entered into June 18, 1903, between the Southern Pacific and the San Pedro, Los Angeles & Salt Lake railroad companies.

In the opinion of the commission the abrogation of the agreement is of the highest importance. The facts concerning it were developed at the recent inquiry into the relations of the Southern Pacific with other corporations. It was the opinion of several Interstate Commerce commissioners that the agreement was in restraint of trade and might subject the officials who entered into it to a prosecution under the Sherman anti-trust act.

Notification of the abrogation of the agreement was received in a letter from R. S. Lovett, of New York, general counsel of the Southern Pacific company. Mr. Lovett assigns as the reason for the action the enactment by the California legislature of a law which prohibits contracts restricting competition.

The agreement binds the Salt Lake road not to change rates within 99 years without the consent of the Southern Pacific. It came out at the inquiry that the agreement extends beyond California and binds the Salt Lake road to build no extensions north of Salt Lake parallel.

MONEY IS TRACED.

Witness Saw United Railroads Official Pay Gold to Ruof.

San Francisco, May 6.—Sensational testimony was given before the grand jury today by United States treasury officials, which laid bare the details of the bribery of Abe Ruof, Mayor Schmitz and the members of the board of supervisors by the United Railroads. Through the testimony of Superintendent Leach of the mint, Assistant Treasurer Julius Jacobs, of the San Francisco stock exchange, and others, \$225,000 of bonds was traced from the hands of the United Railroads to the city officials. Several officials of the United Railroads were also called as witnesses, but invoked their constitutional right and refused to testify.

One of the most startling pieces of testimony was that of Mr. Leach, who told the grand jury that he personally had seen Thorneville Mullaly, assistant to the president of the United Railroads, pay \$5,000 to Ruof. This was only the beginning. Other witnesses completed the chain of evidence, which, it is predicted, will result in the indictment of some of the most prominent officials of the local traction trust.

WORRY ABOUT OLD CATHEDRAL.

London Corporation Quarreling With County Council.

London, May 6.—Citizens of London are anxious about the safety of St. Paul's cathedral. The southwest tower is leaning several inches out of perpendicular and large cracks have appeared in the stone work.

A sharp conflict has arisen between the City corporation and the London County council regarding the stability of the cathedral. The council proposes to run a main sewer under the threatened tower, and this the citizens resent as likely to hasten the ruin of the cathedral. Lord Mayor Treloar has spoken vigorously on the necessity of safeguarding London's cathedral, while Sir Benjamin Baker, the most eminent civil engineer in England, says he is prepared to pledge his professional reputation that the proposed sewer could not in any way affect the cathedral.

A public meeting to protest against the construction of the sewer is being arranged at the Guildhall, where the lord mayor will probably preside.

Japan Has Get-Rich-Quick Fever.

London, May 6.—Japan has caught the "get-rich-quick" fever, according to a London merchant who has just returned from Japan, and who says that unless the nation sobers down, speculative crises will become as common in Tokio as they are in New York. Some day a Japanese Leiter will make a corner in rice. The companies and syndicates floated during the twelve months ending in January last represented the astonishing total capital of \$700,000,000.

Will Not Give Up Lima.

City of Mexico, May 6.—Guatemala has refused to comply with the request of the Mexican government that Jose Maria Lima and Colonel Bore, charged with complicity in the assassination of General Barrillas, be extradited. The cabinet held a protracted session and, it is said, debated the advisability of immediately severing diplomatic relations with Guatemala. No one would talk, but Minister of Foreign Affairs Mariscal said that the position of the Mexican government may be announced tomorrow.

Busse Calls for Scalps.

Chicago, May 6.—Mayor Busse today formally asked for the resignation of Joseph Powell, William Prentiss and Frank Wenter, who constitute the civil service commission of Chicago. They refused and asserted that the mayor is without authority to ask them to resign. Mayor Busse refused to assign any reason for his action. After the commissioners' refusal to resign, Mayor Busse decided that he has the authority to remove them. Consequently he declared the offices vacant and appointed three new members to the board.

We Trust Doctors

If you are suffering from impure blood, thin blood, debility, nervousness, exhaustion, you should begin at once with Ayer's Sarsaparilla, the Sarsaparilla you have known all your life. Your doctor knows it, too. Ask him about it.

You must look well after the condition of your liver and bowels. Unless there is daily action of the bowels, poisonous products are absorbed, causing headache, biliousness, nausea, dyspepsia, and thus preventing the Sarsaparilla from doing its best work. Ayer's Pills are liver pills. Act gently, all vegetables. The dose is only one pill at bedtime.

Getting His Measure.

Aunt Filura was preparing soup for dinner, when one of the neighbors happened in on a borrowing errand. "Why, Aunt Filura, isn't that an unusually large soup-kettle?" asked the caller, with a calculating glance at the stove on her passage across the kitchen. "If you're just looking at the kettle, it does seem plumb sizable," said Aunt Filura, calmly; "but when you cast your looks on the extent and pilability of my Enoch's mouth, I reckon 'twon't look any too large, that kettle won't."

Property Censured.

"When Maxim Gorky dined with me," said a literary New Yorker, "he talked about the Russian censorship. 'He said that in the course of the Russo-Japanese war he had occasion in an article to describe the headquarters of one of the grand dukes. He wrote of these headquarters, among other things: 'And over the desk of his highness's tent is a large photograph of Marie la Jambe, the beautiful ballet dancer.' 'Before this article could appear, the censor changed that sentence to: 'And over the desk of his highness's tent is a large map of the theater of war.'"

The lighthouse at Coruna, Spain, is believed to be the oldest one now in use. It was erected during the reign of Trajan, and rebuilt in 1634.

One of the Important Duties of Physicians and the Well-Informed of the World

is to learn as to the relative standing and reliability of the leading manufacturers of medicinal agents, as the most eminent physicians are the most careful as to the uniform quality and perfect purity of remedies prescribed by them, and it is well known to physicians and the Well-Informed generally that the California Fig Syrup Co., by reason of its correct methods and perfect equipment and the ethical character of its product has attained to the high standing in scientific and commercial circles which is accorded to successful and reliable houses only, and, therefore, that the name of the Company has become a guarantee of the excellence of its remedy.

TRUTH AND QUALITY

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing, therefore we wish to call the attention of all who would enjoy good health, with its blessings, to the fact that it involves the question of right living with all the term implies. With proper knowledge of what is best each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to that end and the use of medicines dispensed with generally to great advantage, but as in many instances a simple, wholesome remedy may be invaluable if taken at the proper time, the California Fig Syrup Co. feels that it is alike important to present truthfully the subject and to supply the one perfect laxative remedy which has won the approval of physicians and the world-wide acceptance of the Well-Informed because of the excellence of the combination, known to all, and the original method of manufacture, which is known to the California Fig Syrup Co. only.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtlessly it will always be called for by the shorter name of Syrup of Figs—and to get its beneficial effects always note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna—as—Syrup of Figs and Elixir of Senna—is the one laxative remedy manufactured by the California Fig Syrup Co. and the same heretofore known by the name—Syrup of Figs—which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., that the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.
