**Where the Patch Belongs.**  
A New Englander recently had occasion to engage a gardener. One morning two applicants appeared—one a decidedly decent looking man, and the other of much less prepossessing appearance and manner.

After very little hesitation, the man of the house chose the latter applicant.

A friend who was present, evinced surprise at the selection, asking: "Has that man ever worked for you before?"

"No," replied the other; "in fact, I never saw either of them until today."

"Then why did you choose the shorter man? The other had a much better face."

"Face!" exclaimed the proprietor of the place, in disgust. "Let me tell you that, when you pick out a gardener, you want to go by his overalls. If they're patched on the knees you want him. If the patch is on the seat of his trousers, you don't."—Success Magazine.

**Latch Key Snafu.**  
Over in England the possession of a latchkey has lately been held in the courts to have an important bearing on the electoral rights of a man claiming to be a householder. With us the latchkey has grown so universal as to be no indication of a man's status, or a woman's either, for that matter. Not so very long ago the American woman's right to the latchkey was subject for jocular argument pro and con, but women's latchkeys are now as common as men's. For an institution that dates back only about seventy years the latchkey has stepped with some suddenness into its place of a universal necessity.—Boston Herald.

**Discovers a Resemblance.**  
"My dear," mildly remonstrated her husband, "speaking of this new idea in railway motor car construction, I wish you hadn't such a gyroscopic tongue."

"What do you mean, sir," angrily demanded Mrs. Vick-Senn, "by gyroscopic tongue?"

"Why, when you set it going it will run on one rail all day long, and never stop till the motive power gives out."

**Strangers.**  
Mother (returning suddenly)—Gracious, children, what have you been doing? Why, the room looks like a hurricane had struck it and Willie looks like he had been through a thrashing machine!

Tommy—Please, mamma, we have been playing Russian douma and Willie was the czar.

**Family Pride.**  
Tommy—My papa's automobile is a nicer one than your papa's."

Dicky—Bein' nice ain't nothin'. You can smell my dad's machine a mile away.—Chicago Tribune.

**Unreasonable.**  
The milkman scowled. "You people make more fuss about your milk than any customers I've got," he said.

"All we ask," said Mrs. Ferguson, "is that the bottles shall look clean, and that there shall be any fifth on the stopper."

"That's exactly what I'm talkin' about. Nobody else kicks about little things like that!"

**Historical Fragment.**  
James Monroe was putting the finishing touches on his famous doctrine. "I've got it hammered into shape at last," he said, "although I know, of course, there will always be somebody knocking it, but the same."

Remembering, however, that the Big Stick was on the side of the doctrine, he allowed his freshly barbered face to wrinkle into the semblance of a smile.

**His Full Share.**  
"I sometimes think, Brother Hardesty," observed the pastor, who was dining with him, "that a man ought to give one-tenth of his income to the Lord."

"I'm doin' more than that this year, elder," said Deacon Hardesty. "The only thing I'm makin' any money on now is my bees, and I feed mighty near half of 'em to the preachers."

**A False Alarm.**  
"There was a man dropping letters in the new postoffice building last Saturday."

"What! Are they ready to receive mail there?"

"No. This was an English workman and the letters he dropped were all h's."—Cleveland Plain Dealer.

**He Didn't Know Poker.**  
Father—Willie writes for more money, saying "the widow cost him even fifty." Now what cradle-catcher is making a fool of him, do you suppose?

—Harvard Lampoon.

**Then He Got Busy.**  
"Why do you look at me like that, you great, awkward bear?"

"O, Miss Pimmie, I—I protest I'm not a bear."

"Well, why aren't you?"

**Moderated Version.**  
"Fugh! I wish you wouldn't run that comb through my mustache!"

"Sir, you are the first man in 10,000 customers that has objected to that comb."

**Example in Full Sight.**  
Teacher—There is a proverb, "All is not gold that shines." Give me an example.

Scholar—Your nose, sir.—Megendorfer Blauder.

**Liberal Deduction.**  
Unsophisticated Stranger—Officer, you get a discount on your purchases at the fruit stands, don't you?"

Officer Googan—Wan hundherd per cent.

## HUNT PETTY FLAWS

Indicted Millionaires Raise Many Technical Points.

JUDGE WILL OVERRULE THEM

Pay on the Part of San Francisco Crafters to Gain Time—Quibbles Enrage Henev.

San Francisco, June 25.—Six of the corporation and city officials under indictments for bribery, President Calhoun, General Manager Mullally, Chief Counsel Ford and Assistant Counsel Abbott, of the United Railroads; Vice-President Glass, of the Pacific States Telephone & Telegraph Company, and Mayor Eugene E. Schmitz, through their attorneys, made determined efforts to have Superior Judge Lawlor set aside the indictments against them on grounds of technical errors. After two sessions of court had been consumed in the presentation of evidence in support of their contentions, the hearing was adjourned until 2 o'clock this afternoon, when arguments will be presented and authorities submitted.

Schmitz' attorney withdrew from the District Court of Appeals his petition for admittance to bail through writ of habeas corpus, and gave the explanation that technical omissions in the document necessitated its re-framing. It was said that a new petition will be filed.

During the hearing Messrs. Coogan and Moore amended the joint motion to set aside the indictments on grounds which they declare, establish firmly the illegality of the present grand jury and the invalidity of every act and indictment by that body performed and returned. One of the contentions of the defense is that the name of B. P. Oliver, the foreman, was twice drawn from the box. The attorneys for the indicted officials allege that Mr. Oliver's name was improperly returned to the box after it had once been drawn by Assistant District Attorney Henev and Harrison without authority from the court. Replying to this charge, Mr. Henev angrily declared that Judge Dunne had given the necessary authority by nodding his head. Judge Lawlor refused to rule in the matter until the testimony of Judge Dunne himself can be secured. He is absent from the city on his vacation.

DARROW OPENS CASE.

Statement to Jury in Defense of Haywood is Weak Affair.

Boise, Idaho, June 25.—Clarence S. Darrow's opening statement to the jury in the Haywood case yesterday was a disappointment. Like the cross-examination of Orchard by E. F. Richardson, it seemed to lack purpose, and those who expected a strong and plausible line of defense failed to find their expectations realized.

Mr. Darrow talked three and a half hours, but, beyond entering some details and making some charges, he accomplished very little, while his effort made a bad impression everywhere. He made the dual mistake of admitting what could not be explained and offering diphtherous explanations of those things which he declared the defense ready to prove in refutation of testimony brought out by the state.

At times he dropped into stammering to relieve the monotony, as when he launched into laudation of the Federation, when he attacked the mining companies and when he boomed over with well-simulated indignation at the work of the Pinkerton agency. In his attack on the mining companies, he sought to make it appear that these were oppressors of the miners until the Federation came along and humbled them into the dust, compelling them to give their men enough to eat and afford their proper hospital accommodations when ill. To those who know something of the provision made for miners in practically all camps where metalliferous mining is conducted, this all sounded very cheap.

Will Appeal to Uncle Sam

Oakland, Cal., June 25.—President Smith, of the Telegraphers' Union, announced this afternoon that he would ask the aid of the United States government in the settlement of the strike. He said he would appeal to President Roosevelt and members of the Cabinet to intercede on the ground that the transaction of National business is interfered with by the strike. President Smith asserts that, when investigation made by the President and the Cabinet officials, it will be learned that the striking telegraphers are in no wise to blame.

Fight Harriman in Court.

Chicago, June 25.—Stockholders representing a minority interest of 60,000 shares of Chicago Terminal Transfer Railroad Company's stock filed a petition in Judge Kohlsaat's court, asking to be allowed to intervene in pending litigation against the company, and charging Edward H. Harriman, James Stillman, Jacob H. Schiff and George J. Gould with causing the bankruptcy of the company through fraud. The petitioners are George L. Malcom, George D. Mackay, Edward A. Morgan, Edward L. Oppenheim and James L. Laidlaw.

Override Schmitz' Veto.

San Francisco, June 25.—The Board of Supervisors this evening passed the city budget over the veto of Mayor Schmitz. The budget was returned with six vetoes. The others were those appropriating \$720,000 for establishing an electric conduit railroad on Geary street and \$720,000 for the repairing of streets. A development of the session was the breaking away of Supervisors Tweitmo and O'Neill from Schmitz.

Pulsjanism Ended in Island

Manila, June 25.—Governor-General Smith has returned from a month's tour of inspection of the northern provinces. He declares that Pulsjanism is ended on the islands of Samar and Leyte. He gives the entire credit for the solution of the difficult situation to Governor Curry, of Samar and Governor Deveyra, of Leyte.

EV DENCE HE'D JACK.

State Saving Important Testimony in Haywood Case.

Boise, Idaho, June 25.—The closing of the case of the state leaves the great battle against and for the life of William D. Haywood in midfield, and from now forward the sides change—the defendants assume the aggressive, the prosecutors are on the defensive. The state will carry its case through an aggressive cross-examination and then present testimony in rebuttal, but its main proposition and showing are already before the jury.

As to the Steenberg crime, which is the one specifically charged against Haywood, the state has made the following showing:

Jack Simpkins, member of the executive board of the Western Federation of Miners, went to Caldwell three months before Steenberg was murdered. He traveled under the assumed name of "Simons," and lived with Orchard. He left Caldwell at the end of a week's stay and later returned for a brief visit of less than a day. His presence and movements are shown by independent witnesses and the registers of hotels where he stopped.

Haywood sent \$100 to Simpkins on December 21, 1905, nine days before the murder of Steenberg, and an unregistered letter, sent from Denver on December 30, 1905, and showing by its address to "Thomas Hogan," that the writer knew the alias of Harry Orchard, contained the statement that "that" had been sent to "Jack" on December 21, 1905. Orchard testified that Pettibone, one of Haywood's co-defendants, wrote the letter.

Without making any request legal aid was extended to Orchard within two days after his arrest through Attorney Fred Miller of Spokane.

NEW KIND OF ELECTRIC LIGHT

Made of Incandescent Air and Has Breathing Apparatus.

London, June 23.—An entirely new and wonderful form of electric light is now used to illuminate the courtyard of the Savoy hotel, the great American rendezvous in London. It is the invention of a young American, McFarlan Moore, who has perfected his system after 12 years' work.

The light, which resembles daylight in color, is produced by making rarefied air incandescent by an alternating current of electricity. The air is contained in a vacuum tube, 200 feet long, with its ends meeting in a terminal box containing a motor-generator.

This tube glows with a strong, steady light, but it would flicker and go out if the air was not constantly renewed by an automatic valve, by which it practically "breathes." When the resistance in the tube is lowered by the exhaustion of the air by electrical action, a minute cone of porous carbon is lifted automatically from the mercury in which it rests, and through this porous cone fresh air passes. As soon as the interior resistance is restored, the cone sinks again, and the covering of mercury prevents the entry of more air. Thus the supply of air is kept up by this novel breathing apparatus.

Schmitz May Yet Get Bail.

San Francisco, June 22.—Some decision by the District Court of Appeals is looked for soon in the application of Mayor Schmitz for release on bail by writ of habeas corpus. Judge Hall is out of town, but Judges Cooper and Kerrigan are in chambers. They have taken the mayor's application under advisement, but it is understood, though not officially that the writ will be granted. This does not necessarily mean that the mayor will be admitted to bail, but that his allegation that he is suffering from an incurable disease, which may be rendered fatal by confinement, entitles him to a fuller hearing before the court to determine its merit.

Only Three to Take Notes.

San Francisco, June 23.—The three cabinet officers who are coming to San Francisco are not, it is said, expected to settle the present strike, according to the conciliation committee. That body announced that the presence of the three secretaries would be used not as a means of bringing about industrial peace, but simply for the purpose of education and obtaining their views on the general relations between capital and labor. It is hoped that the local strikes will be settled before the peace conference takes place.

Business Side of War Talk.

Tokio, June 23.—A joint meeting of five chambers of commerce was called to consider and pass resolutions on the American question, but owing to the inability of representatives from Kyoto and Kobe to arrive in time, the formal meeting was postponed. The absentees are, however, expected early next week. The Chambers of Commerce to be represented are those of Tokio, Osaka, Kobe, Kyoto and Yokohama. It is apprehended that the subject of commercial relations will not assume any definite shape.

To Be Coal and Car Famine.

Bellingham, Wash., June 23.—Howard Elliott, president of the Northern Pacific Railway Company, predicted for next winter a repetition of last winter's fuel famine. Mr. Elliott says it will be difficult to secure supplies from the mines, and another car shortage is almost sure to occur. "Owing to hostile legislation and the high cost of maintenance, improvements and extensions in the Northwest will be few and far between," said Mr. Elliott.

Get One Fare for Trip.

Chicago, June 23.—Secretary Shepard of the National Educational Association today announced that all objections to the rates of fare to and from the convention to be held at Los Angeles have been finally adjusted. Under the arrangements as they now stand tickets will be sold for one fare for the round trip.

## My Hair Ran Away

Don't have a falling out with your hair. It might leave you! Then what? That would mean thin, scraggly, uneven, rough hair. Keep your hair at home! Fasten it tightly to your scalp! A well-known New York golf enthusiast said: "When I first learned the game I did not care very much for it. One day I was out with my caddy and was making a miserable attempt at playing the game. I said to the caddy: 'I suppose you have been around the links with worse players than me, eh?'"

"The caddy made no reply, so I again put the same question to him in a much louder tone, to which the caddy answered: 'I heard very well what you said the first time, so I am just thinkin' about it.'"

"Horror of Horror!" "Speaking of 'cold weather pitchers,' mentioned the umpire, braving on his numbered fingers and holding an outcurve 'the best cold weather pitcher in the business, to my way of thinking, is a pitcher of something hot.'"

Hanna's Corn Beef.  
Corned beef hash as made by Senator Hanna's cook was very popular in Washington several years ago. When the head waiter of the senate restaurant wanted hash prepared very carefully he ordered it this way: "One corned beef hash for Senator Hanna." One day when the restaurant was doing a heavy business almost everybody seemed to want corned beef hash. "Corned beef hash for Senator Hanna" had been ordered fourteen times. When the fifteenth order went down to the kitchen the chef shouted: "That's fifteen orders for Senator Hanna! He'd better watch out or he'll founder himself."—St. Paul Pioneer Press.
