RAINIER.

A NARROW ESCAPE. — What might have been a very serious accident occurred at Mr. Geo. Rockey's camp last Sunday morning. No lives were lost, but it was only by the greatest good luck that at least one man was not killed. The engineer left the camp with two trucks ahead of the engine and had gone but a short distance when he lost control and jumped off. The foreman then took hold of the throttle and tried to stop her, but could do nothing, and said to Mr. Jos. Ley, who was also on the engine, "She's gone," and jumped also. Then Mr. Ley, who is engineer, tried to stop her. As there is an eight per cent grade at this place she had gained considerable headway, and was going at the rate of about thirty miles an hour. The engine was carrying 150 pounds of steam, and as Mr. Ley looked ahead he saw that the trucks had broken away from the engine. He immediately reversed her, but could do nothing, and stepped out just as the draw bar, which remained coupled to the engine, dropped, hit a tie and raised the front part of the engine up and it toppled over, unfortunately for Mr. Ley to the side on which he stood, burying him under the engine. Mr. Ley says the last he knew was when she was going over. The engineer and foreman came rushing down the track, thinking of course Mr. Ley was killed, but when the engine was sufficiently raised he crawled out from under, and, with the exception of a few scratches and bruises, was none the worse for his thrilling experience. It will probably cost five hundred dollars to repair the damage to the engine.
