FAIRGROUNDS A DELIGHT.

Carried Out

Salem-Not the least important of the many improvements being made at the fair grounds in preparation for the Greater Oregon State fair, September 16-21, is the transformation of the unartistic sense that has been attempted slong this line, and, although it has one district, and dozens of unsightly shacks destroyed. New walks have been laid throughout the grounds, the idea being to combine beauty with convenience as far as possible Buildings have been moved whenever necessary, and other conditions made to conform to the new arrangements. The walks will all be of fine gravel, dressed with granite sand.

The main improvement is noticeable in the square between the main pavil-ion and the dairy building, which has been moved to a site northeast of its old position. The visitor is no longer confronted with the row of candy stands and lunch counters of all sizes, age and colors, and the expanse of dry grass which formerly assailed the eye.
