

Catarrah

In a constitutional disease originating in impure blood and requiring constitutional treatment setting through and purifying the blood for its radical and permanent cure. The greatest constitutional remedy is

Hood's Sarsaparilla

In usual liquid form or in chocolate tablets known as Sarsaparilla. 100 doses \$1. Name and other local forms of catarrah are relieved by Sarsaparilla, which allay inflammation and expedite discharge. 50c.

How to Work Buttonholes.
When working a buttonhole in a heavy cloth, or one that pulls and frays, it saves much trouble to work the hole by basting thread, then stitching close to this on the machine, putting in two rows just the length of the buttonhole to be. Cut with a sharp penknife between these lines and work closely in the ordinary way over the machine stitching. This buttonhole will keep its shape and remain intact as long as the cloth holds together.

More About It.
(Concerning the fair maid of Nantahet, who put the marked egg in the basket, a correspondent tells the rest of the story.)
A young man in old Narragansett, on finding the egg, said: "Chance!"—and decided quick not to. For the egg, when it got to Old Nantahet, was in transit.

Different Methods.
Some men break into a bank by violence and with slaughter; And some men find an easier way By wedding a banker's daughter.

His Idea of It.
Here the locomotive freeman spoke up: "It makes me tired," he said, "to hear the bosses talk about killing of the smoke nuisance by 'intelligent firms.' If I was running things I'd do a little intelligent firm myself. You can bet your life on that. I'd fire some of the bosses."

Reasonable Enough.
"I'm told," said the rector, sternly, "that you play golf on the Sabbath."
"Yes," replied Miss Per, "but I only use the clubs that I won at our church fair."—Philadelphia Press.

Not in Stock.
Customer (at bookstore)—I'd like to get a cheap edition of Shakespeare's plays.
New Salesman (after an extended search)—Sorry, sir, but we haven't got anything but his works.

One Exception.
"You can't get a money order for more than \$100, can you?" asked Grinder.
"Don't you believe it," replied Batchelder Hall. "I got one the other day for \$250."
"Through the postoffice?"
"Sure. It was from my wife. She said: 'Send me \$250 at once.'"—Philadelphia Press.

Strange Facts.
Bacon—I see it is said that a man is regarded as of great value to his country at the age of 24.
Egbert—And yet that is about the time of his life that he goes about with a hank of some girl's hair in his watch case.—Yonkers Statesman.

A Roof Guardian.
The new Singer building in New York is now up to its thirty-sixth floor and has only sixteen more floors to add. Of course it is a little early yet to select an aerial white wings, but it will have to be done pretty soon.
The duty of this important official will be to push the clouds off the roof.—Cleveland Plain Dealer.

WONDERFUL CHANGE

Great Structures Stand Where Earthquake Left Waste.

SAN FRANCISCO HOLDS RECORD

Since the Great Fire 18 Months Ago Buildings Have Been Begun to Cost \$100,000,000.

San Francisco, Oct. 26.—It is 18 months ago that San Francisco was swept by fire and earthquake. Since then she has been afflicted with industrial strife, civic corruption and a bubonic plague. It is no opportune moment to take stock. It does not require an optimist to write the rosy story of the revival. The facts and the figures tell their own story and they are here for everyone to see. Great buildings with their rigid frames facing across the sky, commercial avenues crowded with pedestrians and a vast industrial army tell a tale that even the casual observer must note.

The San Franciscan may be in truth pardoned if he shows a disposition to place his thumbs in his vest and boast of what he has done. But he hasn't much time for boasting. The terrible pace begun when the first frame structure was started has not abated. The point has been reached where results are beginning to show, and with this has come a new zest for the vast work.

Since the fire buildings have been begun to cost \$100,000,000—five times as much as in any similar period of time before the fire. They range all the way from the small structure to skyscrapers 14 or 15 stories high. It is as though a building were begun every day to cost \$180,000. There is no sign of a decrease, although it is expected that there will be a natural falling off over the winter months.

The remarkable feature of the matter, however, is the stability of the savings accounts. Predictions were freely made that San Francisco could be built only upon the savings of its citizens. Although \$100,000,000 in buildings are under way or completed, the savings accounts in the local banks have shown but a small decrease and still stand at the comfortable figure of \$157,000,000.

It has been pointed out that it required two years for Baltimore to erect buildings to cost \$50,000,000 after its fire, but San Francisco has done four times as well in six months less time. Baltimore's achievement was commended upon at the time as marvelous.

For the Children

To succeed these days you must have plenty of grit, courage, strength. How is it with the children? Are they thin, pale, delicate? Do not forget Ayer's Sarsaparilla. You know it makes the blood pure and rich, and builds up the general health in every way.

The children cannot possibly have good health unless the bowels are in proper condition. A sluggish liver gives a coated tongue, bad breath, constipation, and all the other signs of a disordered system. Correct all these ailments with the small, sugar-coated pills of Ayer's Sarsaparilla. All vegetable, laxative coated.

Made by J. C. Ayer Co., Lowell, Mass. Also manufactured by
BAIR YEOH,
AGUE CURS,
CHERRY PECTORAL.

Just What He Meant.
Goodley—Of course Meanley led a very bad life.
Knock—Yes, and he's going from bad to worse.
Goodley—You haven't heard, then, that he's dying?
Knock—Yes, I have.—Philadelphia Press.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Love's Awakening.
"I'm almost sure the count is in love with me," excitedly exclaimed the first belle.
"What makes you think so?" inquired the other.
"He asked me today how much I was worth."—Philadelphia Press.

Advise.
"So you are anxious to go into public life," said the influential man.
"Yes. How would you advise me to go about it?"
"Well, if you are personally ambitious I should suggest politics. If your wife is socially ambitious I should suggest diplomacy."—Washington Star.

R Cures While You Walk.
Allen's Foot-Pain is a certain cure for hot, swollen, callus, and swollen, itching feet. Sold by all druggists. Price 25c. Don't accept any substitute. Trial package FREE. Address Allen S. Olmsted, Le Roy, N. Y.

Steady Company.
"I suppose," said Citiman, "you find the ride home to Swamphurst every day pretty long and lonesome, don't you?"
"Well," replied Subbub, "of course it's long, but I can't say it is lonesome. You see, I usually have a new servant girl with me."—Philadelphia Press.

Nathan Straus, an eastern philanthropist, has established in New York City a series of milk booths where pure sterilized milk is sold to the poor for one cent a bottle. Absolute antiseptic cleanliness is required by him in all branches of the enterprise. In cleaning the milk bottles he uses two things—hot water and BORAX. The glistening bottles testify to the effectiveness of this method.

Servile Flatterer.
Alexander the Great had mounted his sery Bucephalus and was putting the famous war horse through his paces.
"How do I look?" he asked.
"Like a Chicago mounted policeman," said his chief of company.
Pleased with the comparison, Alexander spurred Bucephalus straight at a five barred gate and nodded to the young man with the camera.

\$100 Reward, \$100.
The readers of this paper will be pleased to learn that there is at least one disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure makes internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for each case that it fails to cure. Send for list of testimonials.
Address F. J. CHENEY & CO., Toledo, O. Sold by all druggists, 75c.
Take Hall's Family Pills for constipation.

A Born Diplomat.
Canvasser—Good morning, madam. I'm introducing a polish for cleaning silver. It is superior to anything now on the market and the price is only 50 cents a box.
Mrs. Smart (sharply)—Don't waste any.
Canvasser—Sorry to have troubled you, madam. I see the lady next door was right. I see the lady next door was right.
Mrs. Smart—Eh! What did she say?
Canvasser—She said I needn't waste my time calling here, as you had no silver.
Mrs. Smart—The impudent thing! Give me six boxes.

Trip to California

OVER "The Road of a Thousand Wonders"

From Portland to Los Angeles Through San Francisco

An artistic book with 114 beautiful colored pictures has been published by the Southern Pacific Company illustrating and describing the attractions of this wonderful road and the country through which it passes. It can be obtained by sending 15 cents to Chas. A. Fox, Passenger Traffic Manager, room 99, Flood Building, San Francisco, Cal., or the undersigned.

When you get ready to start remember that you can save two-thirds of a day and enjoy a through trip direct to Chicago without change, first or second class, by purchasing your ticket over the O. R. & N., Short Line, Union Pacific and Chicago & North Western. Address or apply to any O. R. & N. agent for more complete information. Wm. McNeughey, General Passenger Agent, Portland, Oregon.

Empress is Nearly Well.

Vienna, Oct. 26.—The physicians in attendance upon Emperor Francis Joseph yesterday decided not to issue any further bulletins, as they consider that his convalescence is progressing satisfactorily.

JURY IS COMPLETE.

Second Trial of Ford for Bribing Filaco Supervisors On.

San Francisco, Oct. 23.—The jury to try ex-Attorney General T. J. Ford, chief counsel of the United Railroads, accused of bribing Supervisor Jennings J. Phillips in the sum of \$4,000 to vote for the trolley franchise was completed shortly before the noon hour yesterday. The prosecution exhausted all five of its peremptory challenges in the selection of the jury. The defense used only five of its ten.

At 2:10 p. m. Mr. Heney began his opening address. After stating that the indictment charged Patrick Calhoun, T. J. Ford, Thornwell Mulally and William M. Abbott jointly with the bribing of Supervisor Jennings J. Phillips in the sum of \$4,000 to vote in favor of the United Railroads trolley franchise, Mr. Heney sketched in outline the facts he expects to prove in asking for a conviction of Ford. He followed closely the lines of the opening statement made by him to the jury in the first trial of Ford, in which the jury disagreed.

The only marked difference lay in the fact that throughout his statement yesterday Mr. Heney intimated that he would prove these allegations without the testimony of Roof. The general belief is that Roof is holding out for a contract with complete immunity. Notwithstanding his submission of himself to the bribery graft prosecution, Mr. Heney and his associates have repeatedly declared that it is their intention to send Roof to jail when they are through with him.

The surprise of the day was the seeming recantancy of Jennings J. Phillips, the second witness called. He declared himself unable to remember whether Supervisor James J. Gallagher, allegedly acting in behalf of the United Railroads and by direction of Roof, had paid him the first half of the \$4,000 bribe before or not until after the passage of the franchise; and Mr. Heney had great difficulty in getting him to admit that "to the best of his recollection" the offer of money was made in the period that elapsed between its introduction and its passage.

STRIKE OVER IN NORTHWEST.

Union Calls It Off at Helena, Big Relay Point.

Helena, Oct. 23.—That a third great dam across the Missouri river near here will be built immediately is no longer a possibility, it is an assured fact. Ex-Governor S. T. Hauser has just returned from New York, and stated that the necessary \$3,000,000 had been secured before the great slump in stocks and tightening of money. The statement is further borne out by the fact that the Capital City Power company today bought from the state of Montana all of the remaining land which is to be flooded by the backwaters, and which lies on either side of the river.

While a portion of the power generated will be utilized in the Butte mines and Anaconda smelter of the Amalgamated Copper company, no small amount will be used in the reclamation of arid lands in this immediate vicinity. Speaking on the subject, Governor Hauser said that the financial success of the first two dams was all the argument needed to enlist capital for the third.

THIRD DAM ON MISSOURI.

Capital Secured and Bottom Lands Bought for Undertaking.

Helena, Oct. 23.—At a meeting of the local Telegraphers' union in this city last night the strike was formally declared off and 10 men have asked Manager Taylor, of the Western Union, or their old positions. Forty men walked out in this city when the strike was first inaugurated, and the first break in the ranks came several days ago when one of the strikers asked for reinstatement and was sent to the St. Paul office.

It is believed that the action of the local union here will have the effect of breaking the backbone of the strike throughout the Northwest, as Helena, being a big relay point, is one of the most important offices west of Chicago.

Mr. Taylor believes that before tomorrow night practically every operator who quit the service of the Western Union here will ask for reinstatement.

Stamping Out Plague.

Seattle, Oct. 23.—Mayor Moore yesterday formally requested Governor Mead to request the surgeon general of the Public Health and Marine Hospital service to take charge of the prophylactic measures that may be necessary to stamp out bubonic plague in Seattle, and Governor Mead immediately wired the department at Washington.

The city council has prepared an ordinance providing for a bounty on rats and the board of health has divided the city into sanitary districts for the purpose of cleaning up the city.

Call Strike Off at Butte.

Helena, Mont., Oct. 26.—The Anaconda Telegraphers' union, with which Butte is affiliated, today decided to call the strike off and return to work tomorrow. There are 16 operators in Butte and Anaconda including the Associated Press operators, who have asked for reinstatement. The Western Union opened its office in Great Falls today and, according to reports received here tonight, Billings will open up tomorrow.

Driver Puts Up a Fight.

Helena, Mont., Oct. 23.—A letter from Lewistown, Mont., says that the Musselshell stage was held up by two robbers, but that the driver, named Launeford, put up such a fight with one of the robbers that the second man was obliged to leave the horses' heads to assist his comrade in crime. While the fight was in progress the team ran away, thus permitting the mails and other matter to escape the hands of the robbers.

Empress is Much Improved.

Vienna, Oct. 23.—Information obtained from all sources indicates that the condition of the empress is very much improved. Last night was a good night for him and yesterday was a good day.

Truth and Quality

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing. Accordingly, it is not claimed that Syrup of Figs and Elixir of Senna is the only remedy of known value, but one of many reasons why it is the best of personal and family laxatives is the fact that it cleanses, sweetens and relieves the internal organs on which it acts without any debilitating after effects and without having to increase the quantity from time to time.

It acts pleasantly and naturally and truly as a laxative, and its component parts are known to and approved by physicians, as it is free from all objectionable substances. To get its beneficial effects always purchase the genuine—manufactured by the California Fig Syrup Co., only, and sold by all leading druggists.

The San Franciscan may be in truth pardoned if he shows a disposition to place his thumbs in his vest and boast of what he has done. But he hasn't much time for boasting. The terrible pace begun when the first frame structure was started has not abated. The point has been reached where results are beginning to show, and with this has come a new zest for the vast work.

Since the fire buildings have been begun to cost \$100,000,000—five times as much as in any similar period of time before the fire. They range all the way from the small structure to skyscrapers 14 or 15 stories high. It is as though a building were begun every day to cost \$180,000. There is no sign of a decrease, although it is expected that there will be a natural falling off over the winter months.

The remarkable feature of the matter, however, is the stability of the savings accounts. Predictions were freely made that San Francisco could be built only upon the savings of its citizens. Although \$100,000,000 in buildings are under way or completed, the savings accounts in the local banks have shown but a small decrease and still stand at the comfortable figure of \$157,000,000.

It has been pointed out that it required two years for Baltimore to erect buildings to cost \$50,000,000 after its fire, but San Francisco has done four times as well in six months less time. Baltimore's achievement was commended upon at the time as marvelous.

WONDERFUL CHANGE

Great Structures Stand Where Earthquake Left Waste.

SAN FRANCISCO HOLDS RECORD

Since the Great Fire 18 Months Ago Buildings Have Been Begun to Cost \$100,000,000.

San Francisco, Oct. 26.—It is 18 months ago that San Francisco was swept by fire and earthquake. Since then she has been afflicted with industrial strife, civic corruption and a bubonic plague. It is no opportune moment to take stock. It does not require an optimist to write the rosy story of the revival. The facts and the figures tell their own story and they are here for everyone to see. Great buildings with their rigid frames facing across the sky, commercial avenues crowded with pedestrians and a vast industrial army tell a tale that even the casual observer must note.

The San Franciscan may be in truth pardoned if he shows a disposition to place his thumbs in his vest and boast of what he has done. But he hasn't much time for boasting. The terrible pace begun when the first frame structure was started has not abated. The point has been reached where results are beginning to show, and with this has come a new zest for the vast work.
