IN EVERY STATE.

In many respects the Toledo Blade is the most remarkable weekly newspaper published in the United States. It is the only newspaper especially edited for National circulation. It has had the largest circulation for more years than any newspaper in America. Furthermore, it is the cheapest newspaper in the world, as will be explained to any person who will write us for terms. The News of the World so arranged that busy people can more easily comprehend, than by reading cumbersome columns of dailies. All current topics made plain in each issue by special editorial matter written from inception down to date. The only paper published especially for people who do or do not read daily newspapers, and yet thirst for plain facts. That this kind of a newspaper is popular, is proven by the fact that the Weekly Blade now has over 180,000 yearly sub scribers, and is circulated in all parts of the United States. In addition to the news, the Blade publishes short and serial stories, and many departments of matter suited to every member of the family. Only one dollar a year.
