

IN MY FAMILY

"I Have Used Pe-ru-na at Various Times for Several Years."

MR. EDWARD M. BARTT, JR.

I Recommend Pe-ru-na
Mr. Edward M. Bartt, Jr., 5 N. Jefferson Ave., St. Louis, Mo., writes:
"It affords me much pleasure to announce that I have used your medicine at various times for several years, and that it has given entire satisfaction, not only in my own family, but also that of others of my friends. And would cheerfully recommend the use of Pe-ru-na, as I certainly do endorse your medicine."

Catarrh of Head, Nose, Throat.
Mr. Charles Levy, 80 Allen St., New York, N. Y., writes:
"I am very glad to tell you of the cures wrought by Pe-ru-na in my family. My son, aged seven, who had catarrh of the nose, was cured by two bottles of Pe-ru-na, and I had catarrh of the head, nose, throat and ears. One bottle of Pe-ru-na cured me."

Pe-ru-na Tablets—Some people prefer tablets, rather than medicine in a fluid form. Such people can obtain Pe-ru-na Tablets, which represent the solid medicinal ingredients of Pe-ru-na.

Thousands Try It
HOME-MADE MIXTURE SAID TO BE CURING ALL RHEUMATISM.

The Philadelphia and New York News papers Print Simple Prescription Which Thousands of Readers Take Advantage Of.

Some remarkable stories have been told in the large Eastern dailies of this simple home-made mixture curing Rheumatism and Kidney trouble ever after the noted health resorts failed here is the recipe and directions for taking: Mix by shaking well in a bottle one-half ounce Fluid Extract Dan delion, one ounce Compound Kargon pills. Take as a dose one teaspoonful after meals and at bedtime.

No change need be made in your usual diet, but drink plenty of good water.

This mixture, writes one author in a leading Philadelphia newspaper has a peculiar tonic effect upon the kidneys; cleansing the clogged-up pores of the eliminative tissues, forcing the blood to sift and strain from the waste matter, overcoming Rheumatism Bladder and Urinary troubles in a short while.

A New York druggist who has had hundreds of calls for these ingredients since the first announcement in the newspapers last October stated that the people who once try it "swear by it," especially those who have Urinary and Kidney trouble and suffer with Rheumatism.

Any druggist can supply the ingredients, which are easily mixed at home. There is said to be no better blood cleansing agent or system tonic known and certainly none more harmless or simple to use.

For Lung Troubles

Ayer's Cherry Pectoral certainly cures coughs, colds, bronchitis, consumption. And it certainly strengthens weak throats and weak lungs. There can be no mistake about this. You know it is true. And your own doctor will say so.

"My little boy had a terrible cough. I tried everything I could hear of but in vain until I tried Ayer's Cherry Pectoral. The first night he was better, and he steadily improved until he was perfectly well."—Mrs. S. J. STEVENS, Alto, Ill.

Not Run by a Irishman.
When a French chauffeur brought an imported machine to the repair shop one of the mechanics became interested in the ingenious speed indicator which records the distance covered in the metric system.
"It's surely fine," remarked the man, "but it would take a Frenchman to read it."
"Do you sink," exclaimed the chauffeur, "zat zees masheea ees rus by an Irishman?"—New York Times.

Precedent.
"Tommy," said Mrs. Tucker, who was showing him through the geological department of the great museum, "these are called aerolites. They are supposed to be fragments of some planet that has been broken up. They come within the attraction of our planet and fall to the earth."
"O, I know what they are, all right," said Tommy. "They're the ballast the man in the moon has to throw out to keep himself up in the sky."

Our Own Misadventure.
"Mistah Walkah, what am de dif'ence 'tween money and a man?"
"I can't answer that one, George. What is the difference between money and a man?"
"When de money am locked up it gits tight, an' when a man gits tight he am locked up."

Ladies and gentlemen, the celebrated vocalist, Mr. Morningale, will now sing that old favorite, "Break It to Him Gentle, Nurse: It's a Pair of Twins!"

Distressing.
Tess—And were you really thrown out of the auto?
Jess—Yes, right out on the road.
Tess—Gracious! You must have felt awful.
Jess—Oh, terrible. I just knew that my hat wasn't on straight, but I had no way to fit it."—Philadelphia Press.

It was growing very late, but the young man in the parlor scene showed no signs of making a home run.
"You evidently have a very vivid imagination, Mr. Borem," said the dear girl as she made an unsuccessful attempt to strangle a yawn.
"Why do you think so?" queried the unsuspecting Borem.
"I thought perhaps you imagined yourself in the arctic regions, where the nights are six months long," she explained.
And thirty seconds later he had faded into the glum gloom.—Chicago News.

Troubles of the Ancestors.
Hannibal's scouts had reported to him that Rome was wild with fear on account of his approach.
"Ha!" cried the Roman mind Punie in a sycophantic way, "is it?"
But this was wholly wasted on the cheap mercenaries whom the Carthaginians had hired to do their fighting for them.

Her Wish.
"Do you think it is wrong for women to bet?" said the woman who plays bridge.
"No," answered Mrs. Torkins. "I wish that whenever Charley makes a bet I could bet a similar sum the other way. We would save a lot of money."—Washington Star.

Waste of Time.
In the days when piano lessons were thought a necessary part of a young woman's education, without regard to aptitude, the head of a fashionable school in St. Petersburg asked Rubinstein how many hours a day her pupils should practice the piano.
"None," was the laconic response of the great pianist.

Literary Calamity.
Borns (struggling author)—You book reviewers were unnecessarily severe on that last novel of mine.
Naggus—Why, you ungrateful hound, with one accord we pronounced it one of the cleanest and most uplifting works of fiction that had appeared this season.
Borns—That's what I mean. I haven't sold a single copy.

His Strong Point.
"I don't look much like an athlete now," said Wadsworth Long with his mouth full, "but when I was young I held a championship for two years, had runnin'."
"Championship for what?" asked the woman of the house.
"Pie eatin', ma'am."

Urgent.
"Ma," began Tommy, trying for the sixth time to say something.
"Tommy!" said his mother, sternly. "Didn't I tell you not to interrupt Mrs. Gaddie and me? Wait until we are through."
"But, ma, I want to say this to-day."

His Little Joke.
"The run on the bank is over, isn't it?"
"O, yes; it petered out as soon as the crowd saw there was more money coming in than was going out."
"You knew it to be a perfectly solvent bank, didn't you?"
"Of course."
"Then why did you join in the run on it?"
"O, just for fun."

At the Swell Banquet.
"Who's that little man up at the head of the table?"
"He's one of our biggest capitalists."
"I see. And who is that giant of a man down there near the foot?"
"He's one of our small merchants."

FLEET IS ASSEMBLED

All Preparations Completed for Great Naval Movement.

ADMIRAL EVANS IS IN COMMAND

Voyage to Pacific Greatest Test Ever Undertaken in History of the American Navy.

Old Point Comfort, Va., Dec. 10.—The double-starred flag of blue, emblem of the commander-in-chief of the Pacific bound battleship fleet, was flung to the breeze from the main track of the battleship Connecticut yesterday, and Rear Admiral Robley D. Evans formally assumed his position as leader of the greatest naval movement in the history of the American people.

Yesterday was assembly day for the fleet, which is to set sail next Monday, and of the 16 great fighting machines ordered to skirt the southern end of all America and inaugurate a new naval era in the Pacific ocean, there were but two lagards. These were the 16-000-ton Minnesota, flagship of Rear Admiral C. M. Thomas, commander of the second squadron of the fleet, and the Kentucky, whose paltry 11,150 tons relegated her to a position at the end of the armored column. The Kentucky also is the oldest vessel among the 16, having been laid down with her sister, the Kennerly, in 1898, at the beginning of the war with Spain. Nine years ago is an ancient period in modern battleship construction, so great have been the strides in American naval architecture.

The collier Abrenda has preceded the fleet south with coal. There were scenes of activity on board the vessels yesterday. The crews of many of the battleships were engaged in filling the bunkers with "picked" coal, while others were engaged in loading supplemental magazine stores.

RECOVERING BODIES.
Band of Rescuers at Monongah Are Making Slow Progress.

Monongah, W. Va., Dec. 10.—When darkness came last night a total of 86 bodies had been brought from the two wrecked mines at Monongah. Rescue work, while slow, was progressing smoothly and as rapidly as due precaution for the rescuers would permit.

It is believed that close on to 100 of the dead will have been recovered by daylight today. The fire which caused a suspension of rescue work Sunday and early Monday in mine No. 8, was extinguished, it is said, at noon yesterday.

The fourth day was a repetition of its three predecessors in the matter of pathetic scenes; hundreds of women remained near the mines all day, screaming and crying until they almost collapsed. As on former days, hot coffee was served at intervals by the company to keep the unfortunate women from falling to the ground in exhaustion.

LOOKING BEYOND BALLOON.
American Army to Experiment With Aeroplanes.

Washington, Dec. 10.—The army is already looking beyond the simple balloon, the dirigible balloon and like contrivances for navigating the air, to the more scientific aeroplane, and it was announced today that the chief signal officer will soon call upon American inventors to submit plans for a practical machine, heavier than air, to be used instead of a balloon for military purposes. The terms of the advancements are now under consideration.

The beginning of experimentation in the use of aeroplanes, it is said, will not interfere with the War department plans now in execution for the training of selected men in the use of balloons or with the projected construction of at least two dirigible airships.

Hommage to New King.
Stockholm, Dec. 10.—Attended by the prince and his suite, King Gustav V at noon yesterday received the homage of the troops, who were drawn up in a semicircle around the palace. The king addressed the troops briefly, saying that it was his firm conviction that they would always be ready to follow him when the welfare of the country required them to do so. The funeral of the late king is expected to be held December 19. Only the reigning sovereign of Sweden, among the crowned heads, is likely to attend.

Build Only Big Ships.
Seattle, Dec. 10.—According to advices received by the steamship Empress of Japan, the naval program of the Japanese admiralty will entirely eliminate cruisers, coast defense ships, dispatch boats and gunboats, which in view of the past experience are considered useless. A prominent Japanese naval official says that future building will be confined to battleships, armored cruisers, destroyers and torpedo boats. The new battleships will be of 20,000 tons and the armored cruisers not greatly inferior in armament.

Confess Land Stealing.
Carson City, Dec. 10.—In the United States Circuit court yesterday Senator Williams and his brother, George B. Williams, indicted for illegally appropriating government land, through their attorney entered a plea of guilty. Sentence will be passed by Judge Farrington today. The United States grand jury has brought in an indictment against A. B. Hardin, one of the richest cattle owners of Humboldt county, Nev., for illegal fencing of government land.

Reduction of Wages.
Goldfield, Nev. Dec. 10.—Late yesterday afternoon the Goldfield Miners' association issued its ultimatum to the miners in Goldfield, in the shape of a set of resolutions adopted at the meeting which had been in progress all day. These resolutions embody the new scale of wages to be in vogue from this time on, showing a lowering of the scale about 20 per cent.
