

"A Good Name at Home"

"Is a tower of strength abroad"—and the excellent reputation of C. I. Hood Co. and their remedies in the city of Lowell, where they are best known, inspires confidence the world over, not only in the medicines but in anything their proprietors say about them. "If Made by Hood It's Good."

"I believe Hood's Sarsaparilla the best all-round family medicine known today." Mrs. G. D. FARLEY, 632 Wilder St., Lowell, Mass.

"I recommend Hood's Sarsaparilla to any one." JOHN B. DUFFY, 14 Auburn Street, Lowell, Mass.

"I am a strong and healthy woman today, from taking Hood's Sarsaparilla, which I keep in the house for all the family." Mrs. FANNIE BALCH, 108 Leverett St., Lowell, Mass.

"I consider Hood's Sarsaparilla the best blood-purifier in the world." Mrs. JENNIE E. CARLTON, 113 Liberty St., Lowell, Mass.

Hood's Sarsaparilla is sold everywhere. In the usual liquid, or in tablet form called **Sarsatabs**. 100 Doses One Dollar. Prepared only by C. I. Hood Co., Lowell, Mass.

Righteous Indignation.

"Colonel," said the reporter, "I am told that you once made a fortune in hay. Would you mind telling me the story?"

"The only foundation for the story, uh," responded Col. Hanklander, "is that I married a rich grass widow some years ago, and I can lick the man that sent you to ask me that question, begad, uh!"

The Pygmy Cattle of Samon.

The Samon Islands are the natural habitat of the most diminutive species of variety of the genus now known to the naturalist. The average weight of the males of these lilliputian cattle seldom exceeds 200 pounds, the average being not greater than 150 pounds. The females usually average about a hundred pounds larger and are very "stocky" built, seldom being taller than a Mexican sheep. These dwarf cattle are nearly all of the same color—reddish mouse color, marked with white. They have very large heads as compared with their bodies, and their horns are of exceptional length.

The Hopeful One.

"Sorry, old man," said Goodley. "You haven't got a job yet, eh?"

"No," replied Sunnysman, "but I guess my luck'll change pretty soon."

"Still hopeful, eh?"

"Yes, something's bound to turn up, if it's only my toes."—Philadelphia Press.

All Mapped Out.

"I suppose you are going to make some speeches?"

"Yes," answered Senator Sorghum. "I shall deliver a few timely and significant utterances."

"Have you thought out what you will say?"

"Yes, I shall follow my usual formula. To a few extemporaneous remarks about what I have done for the good of the country, I will add a humorous anecdote and conclude by assuring my constituents that I rely on the wisdom of the plain people."—Washington Star.

Imitation Pearls.

Imitation pearls are plentiful and look so like the real thing that they deceive experts. They are made by means of a transparent glass shell, a little glue, and some essence of the orient, a silvery, pearly substance composed of fine scales rubbed from a small fish called the "bleak" or the "ablete," 17,000 of which require rubbing to get a pound.

Depends on the Locality.

Happened in Minneapolis.

"What would the history of this country have been," exclaimed the eloquent lecturer, "without the immortal John Smith?"

He paused.

"Applaud that name?" he said sternly. "Although most of the persons in the audience were named Johnson they applauded, merely to show that they bore the late John Smith no grudge."

Corrected.

"How much did he make out of that latest graft scheme?"

"A clean million."

"You mean a million."—Cleveland Plain Dealer.

Construction work on the Panama Canal will be rushed next year. Thirty-two millions, approximately, are to be expended. Congressman James A. Tawney of Minnesota, chairman of the committee on appropriations, just returned from Panama with seventeen members of the committee, predicts that the canal will be completed by Dec. 31, 1914. "We found everything going along in the most satisfactory way," the Congressman declares. "There may be a million cut off the sum of \$32,000,000 asked for construction, although demands in the main have been modest. Reductions will be asked in only a few departments. "Social conditions there are better generally than among the workmen of the United States. Workmen are well cared for and satisfied. We found the employes, clerical, medical and engineering, were paid 50 per cent more than at home, while quarters are furnished. A single man gets a room; married men a house. Canal men are paid one-third more than at home, and they can live more cheaply. The government sells them supplies at a lower rate than home prices. Ice water and light are cheaper than in New York. Sanitary conditions are all that can be desired."

In all the money centers of the country, as well as in Wall street, the news of the government's bond and note issues caused a feeling of relief and the financial skies were clearing. Everywhere bankers were eager to get the new securities and there was no need of an underwriting syndicate. Many sent telegrams of congratulation to the President and Secretary Cortelyou. Subscriptions to both issues have already begun to pour in. Nevertheless Chicago's clearing house carried out its project of issuing certificates in denominations of \$1, \$2, \$5 and \$10, and over \$3,000,000 in these were eagerly grabbed for current business needs. At New York quantities of currency brought 2 and 3 per cent on the curb. But at the same time arrangements were in progress for a resumption of a cash basis all over the country. The indictment of three officials of the Borough Bank of Brooklyn for false reports of the bank's condition was taken as another sign of the financial house-keeping in progress.

Three railroad companies, the Atchafalaya, Topeka and Santa Fe, St. Louis and San Francisco, and the Missouri Pacific, have absolutely declined to comply with an order of the Postoffice Department that for the next forty days these roads should carry empty mail bags and other mail equipment back to the distribution centers without compensation therefor. The reason for this order was a desire to prevent a tie-up or congestion of mail during and just preceding the holidays. To this end, it was thought that it would be well to have the equipment transferred more speedily than can be done by freight, which is the method provided. While there is some doubt as to the right of the department to enforce its order, the law permits the use of the express companies for the purpose in question, which would meet the emergency, though proving rather expensive.

The military authorities of the various governments have not overlooked the important part which airships will probably play in the wars of the future, and are making active preparations for both offensive and defensive operations along this line. It is reported that Captain Thomas T. Loveless, the aeronaut, recently made a balloon trip over the walls of Fort Wadsworth, New York Harbor, and took a series of bird's-eye photographs of the fortifications, showing the entire practicability of obtaining information in this way. This material was turned over to the War Department, and it is intimated that the aeronaut will be given a commission in the United States Army Balloon Corps.

Developments in regard to the pending prosecutions of the whisky dealers for violation of the pure food law indicate that the question as to what should be construed as pure whisky was finally decided by President Roosevelt, to whom the matter was taken by Dr. Wiley, chemist of the Department of Agriculture. The President concurred with the chemist in the opinion that to meet the requirements of the law the whisky must be the pure spirits, unadmixed with neutral spirits, flavoring or coloring matter, which produces the article called "blended whisky."

Tommy—Paw, what is the higher criticism?

Mr. Tucker—It's the hasty remark usually made by the man who finds he can't get a lower berth.

Beware of Ointments for Catarrh that Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescription from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists. Price, 75c. per bottle. Take Hall's Family Pills for constipation.

CONTAGIOUS BLOOD POISON

NO LIMIT TO ITS POWERS FOR EVIL

Contagious Blood Poison has brought more suffering, misery and humiliation into the world than all other diseases combined; there is hardly any limit to its powers for evil. It is the blackest and vilest of all disorders, wrecking the lives of those unfortunate enough to contract it and often being transmitted to innocent offspring, a blighting legacy of suffering and shame. So highly contagious is the trouble that innocent persons may contract it by using the same table ware, toilet articles or clothing of one in whose blood the treacherous virus has taken root. Not only is it a powerful poison but a very deceptive one. Only those who have learned by bitter experience know by the little sore or ulcer, which usually makes its appearance first, of the suffering which is to follow. It comes in the form of ulcerated mouth and throat, unsightly copper colored spots, swollen glands in the groin, falling hair, offensive sores and ulcers on the body, and in severe cases the finger nails drop off, the bones become diseased, the nervous system is shattered and the sufferer becomes an object of pity to his fellow man. Especially is the treacherous nature of Contagious Blood Poison, shown when the infected person endeavors to combat the poison with mercury and potash. These minerals will drive away all outward symptoms of the troubles for a while, and the victim is deceived into the belief that he is cured. When, however, the treatment is left off he finds that the poison has only been driven deeper into the blood and the disease reappears, and usually in worse form because these strong minerals have not only failed to remove the virus from the blood but have weakened the entire system because of their destructive action. S. S. S. is the only real and certain cure for Contagious Blood Poison. It is made of a combination of healing blood-purifying roots, herbs and barks, the best in Nature's great laboratory of forest and field. We offer a reward of \$1,000 for proof that S. S. S. contains a particle of mineral in any form. S. S. S. goes down to the very bottom of the trouble and by cleansing the blood of every particle of the virus and adding rich, healthful qualities to this vital fluid, forever cures this powerful disorder. So thoroughly does S. S. S. cleanse the circulation that no signs of the disease are ever seen again, and offspring is protected.
