

Pure Blood

Be certain if you take Hood's Sarsaparilla. This great medicine cures those eruptions, pimples and boils that appear at all seasons; cures scrofula sores, salt rheum or eczema; adapts itself equally well to, and also cures, dyspepsia and all stomach troubles; cures rheumatism and catarrh; cures nervous troubles, debility and that tired feeling.

Sarsaparilla—For those who prefer medicine in tablet form, Hood's Sarsaparilla is now put up in chocolate tablets called Sarsaparilla, as well as in the usual liquid form. Sarsaparilla have identical the same curative properties as the liquid form, besides accuracy of dose, convenience, economy, no loss by evaporation, leakage or leakage. Drugists or promptly by mail. C. I. Hood Co., Lowell, Mass.

Mrs. C. K. Tyler, Burlington, Vt., says: "The cure of a large tumor, so much to do and so little health to do it with, caused almost a complete breakdown; blood poor and thin, no strength, little sleep. Hood's Sarsaparilla gave appetite, natural sleep, perfect health, strength to do all my work."

An English View of Robert E. Lee.
General Robert E. Lee was indeed fully Washington's equal as a hero and gentleman and much his superior as a soldier. It is only in the larger political or semipolitical sphere that he stands lower and there perhaps only because his opportunities were so much smaller.—London Times Review of Trevelyan's History.

He Could Improve It.
"I went to the theater last night."
"What did you see?"
"A play called 'Hamlet.'"
"How was it?"
"Fair; only fair. A good, lively sex would do it a world of good."—Washington Herald.

Outside of His Practice.
"All that is the matter with you, sir," said the eminent physician, after a thorough examination, "is lack of nutrition. You don't eat enough."
"I eat all I can hold, doctor," said the attenuated caller.
"Then you need to have your capacity enlarged, and that's a case for a surgeon, five dollars, please. Good morning."—Chicago Tribune.

UNITED STATES NOW WEALTHIEST NATION.

Treasury Figures Show that the Per Capita is in Excess of \$1,310.

VAST GROWTH OF FINANCES.

Money in Circulation on Jan. 30 Last Was Nearly \$3,000,000,000.

Major Alfred R. Quiffie, vault clerk of the United States treasury, who has charge of Uncle Sam's money, called my attention the other day to the almost incredible growth of the business of the Treasury Department since he came into the service, forty-two years ago, and he furnished me with some very interesting and rather startling comparisons, writes William E. Curtis, the Washington correspondent. For example, the wealth of the country, which, of course, has kept pace with the transactions of the treasury, is three and one-half times greater to-day than it was in 1870. The total then was \$30,068,518,000. The estimated total to-day, based upon the census reports and information received by the Agricultural Department, the Secretary of the Treasury and the Comptroller of the Currency, is \$107,104,211,917.

The wealth per capita of citizens of the United States, based upon similar estimates, has increased from \$770.53 in 1870 to \$1,310.11 in 1907, which makes the United States, with its enormous population, the richest country in the world.

The money in circulation has increased four-fold since Major Quiffie came into the treasury. The total in 1870 was \$675,212,704, while on Jan. 30, 1907, it was \$2,914,342,256. The circulation per capita has almost doubled, notwithstanding the present money famine, and has increased from \$17.50 to \$33.86 during the last forty-two years.

When Major Quiffie came into the cash room we had only \$25,000,000 in gold; to-day we have \$750,000,000 in gold; to-day we have \$750,000,000 in gold coin in the treasury alone, not counting that in circulation and hoarded away.

Uncle Sam's working capital on Dec. 14, 1907, amounted to \$1,756,491,464.31—all of which is hard cash. Of this amount \$1,253,705,809, in coin is held on deposit to secure the payment of \$750,000,000 gold certificates, \$471,325,000 silver certificates, and \$5,515,000 treasury notes outstanding. The treasury reserve, which is kept by law, amounts to \$150,000,000. The cash balance available to pay the current expenses of the government on Dec. 14 was \$250,702,309.65.

Uncle Sam does not keep all of his money in Washington, although there is a good deal of it here. The remainder is scattered among the different subtreasuries, mints and national bank depositories as follows:

Treasury, Washington	\$175,971,843.79
Subtreasury, New York	270,623,907.87
Subtreasury, Baltimore	10,027,023.41
Subtreasury, Philadelphia	18,938,820.00
Subtreasury, Boston	19,928,271.90
Subtreasury, Cincinnati	13,417,882.59
Subtreasury, Chicago	55,083,802.72
Subtreasury, St. Louis	18,000,852.40
Subtreasury, New Orleans	23,679,620.80
Subtreasury, San Francisco	33,430,693.79
Mint, Philadelphia	354,178,511.72
Mint, Denver	58,370,907.19
Mint, New Orleans	33,392,871.34
Mint, San Francisco	322,483,714.10
Assay office, New York	79,838,325.27
National banks	246,284,455.69
Treasury Philippine Islands	3,795,399.59
In transit between offices	490,788.45

In addition to the working balance and the reserve, there is a total of \$811,730,128 in bonds in the vaults at Washington, of which \$633,535,970 is to secure circulation of national banks and \$178,200,158 to secure deposits in national banks. An additional sum of \$103,751,580 is deposited for similar purposes in the subtreasuries of New York and San Francisco, making a total of \$915,487,518 of other people's money in Uncle Sam's charge.

Flexner Transfers Vital Organs.
A paper read before the American Association for the Advancement of Science in the University of Chicago reveals the fact that Dr. Simon Flexner of New York City has succeeded in transplanting arteries from one animal to another successfully. The experiments have thus far been confined exclusively to the lower animals, but the favorable results in this field are believed to point the way to a successful application of the practice to human beings.

Ships to Use Gyroscopes.
It is reported that the Hamburg-American line, having bought the Gorman rights of the Schlich gyroscope, intends to equip all its North Sea and channel boats with the apparatus, which it is expected will keep the ship steady in the roughest weather. The gyroscope will be located at the stern of the vessel.

A TEMPERANCE WORKER

Says Pe-ru-na is a Valuable Nerve and Blood Remedy.

MISS BESSIE FARRELL

Miss Bessie Farrell, 1011 Third Ave., Brooklyn, N. Y., is president of the Young People's Christian Temperance Association. She writes:

"Peruna is certainly a valuable nerve and blood remedy, calculated to build up the broken down health of worn out women. I have found by personal experience that it acts as a wonderful restorer of lost strength, assisting the stomach to assimilate and digest the food, and building up worn out tissues. In my work I have had occasion to recommend it freely, especially to women."

"I know of nothing which is better to build up the strength of a young mother, in fact all the ailments peculiar to women, so I am pleased to give it my hearty endorsement."

Dr. Hartman has prescribed Peruna for many thousand women, and he never fails to receive a multitude of letters like the above, thanking him for the wonderful benefits received.

Man-a-lin the Ideal Laxative

Overdid it.
Hospital Physician (to reassure him)—That snake you see is not a real one you know.
Delirium Tremens Patient—You see it too, do you, doc? Ah, ha!

No Affinity.
He—I have made a discovery.
She—And what is it?
"You have spent \$500 for dresses this year and \$200 for hats!"
"Well, what does that all prove?"
"That you are not my affinity!"—Yonkers Statesman.

Her Loving Friends.
Nan—Where do poor, dear Lil and the husband she has managed to get at last expect to spend their honeymoon?
Fan—There won't be any honeymoon. She's a wasp.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Child Punishment.
Never punish a child for a first offense. When about to punish always be very sure that you are punishing him for a fault and not simply because the wrongdoing has caused you annoyance. Remember that it is not wise to inflict corporal punishment unless every other method has failed to impress the small offender.

Appeasing a Thirst for Knowledge.
Caller—I wish you would tell me what the real difference is between a Stradivarius and any other violin.
Information Editor—Well, sometimes it is as much as \$5,000.

Truth and Quality

Appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing. Accordingly, it is not claimed that Syrup of Figs and Elixir of Senna is the only remedy of known value, but one of many reasons why it is the best of personal and family laxatives is the fact that it cleanses, sweetens and relieves the internal organs on which it acts without any debilitating after effects and without having to increase the quantity from time to time.

It acts pleasantly and naturally and truly as a laxative, and its component parts are known to and approved by physicians, as it is free from all objectionable substances. To get its beneficial effects always purchase the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists.

Keeps Them Away.
First Landlady—"My boarders loiter around the parlor every evening, much to my annoyance. Does yours?"
Second Landlady—"No, indeed! My daughter is learning to play the piano."
Ugh!
"The 'Great White Plague,' my son," said the Injun chief, in a passion, "is that wicked, thieving race That calls itself the Caucasian!"

Echoes of the Past.
Wagner was writing the music of the future.
"I intend to produce something," he said, "that will go thundering down the ages."
How well he succeeded let the ages bear witness.

The Right End.
One day Percy, aged 3, was playing with the tail of a big dog.
"Look out," said a careful aunt; "he'll bite you, dear."
"Oh, no, auntie," he said. "I've not at the bitin' end."—Harper's Weekly.
