There is need of more houses in St. Helens—small cottages that will rent at from eight to ten dollars each.

After ten days of winter Old Webfoot is itself again. We beg pardon of Mr. Himes and the Society for the Emasculation of Names. We meant to say the Beaver State has resumed its customary moistness.

THE PEOPLE RULE

The election of Chamberlain as United States Senator, while undoubtedly a very great personal triumph and the culmination of a wonderful political career, is in its broad sense a victory for the people over their would-be masters—a victory for popular government over machine rule. Should the United States Senate accept his credentials there will be no more quibbling as to the constitutionality of the Statement No. 1 way of electing Senators and it will spread until the Congress complies with the popular demand and places before the people an amendment to the Federal Constitution providing for the election of United States Senators by direct vote of the people.

It is well, for the triumph of the principle involved, that its first fruit should be the election of a Democratic Senator in a Republican State, for it has demonstrated that men will keep their pledges under the most trying circumstances, and that, even when not directly pledged, some members deem it their duty to be guided by the wishes of their constituents. The battle was a fierce one and nothing was left undone to induce Statement representatives to forsake their pledges. The Paper Pope fulminated its decree of excommunication against all who took the Statement and promises to do its utmost to defeat all who in the future so far forget their allegiance to the old regime as to insist that the people shall rule in Oregon.

The Mist finds no fault with this decision, but it doubts the power of the Oregonian to enforce its edicts. Unquestionably it has a great influence, and, as a rule, this influence has been exerted along the line of truth and therefore it has achieved some notable victories. It has refused to teach that round is flat or that you can make a gold dollar out of a clamshell and compel the business communities of the world to accept it at its face value. The time has gone by when the people accepted unthinkingly the views of any paper, however ably they may be expressed. We believe Statement No 1 will be the dominant issue in the next campaign and that, if necessary, its friends will unite without regard to party lines.

As to the present result, if the election of a Democrat is a disaster to the State let the blame be placed where it belongs—upon the Oregonian, Ralph Williams, Senator Fulton and the others who, to put it very mildly, did not exert themselves to secure the defeat of Governor Chamberlain at the polls.

Last May was the time the Republican National Committee should have sent its moderator to Oregon.

You can not, under the new system, elect a Republican United States Senator by voting for the Democratic opponent.

MORE WATER NEEDED

There seems to be water everywhere and yet there has been a water famine in St. Helens for the past two weeks due to the effects of the unusually cold weather. This is a temporary shortage and will be overcome in a short time, but the city is called upon to face the fact that all the water available under our present system is inadequate for the wants of our present population, and as there will be an increase of over five hundred in a few months it is absolutely necessary that some action be taken to procure an increased supply. It is reasonably certain that within two years a population of over two thousand people will depend upon the city for their water supply for household uses, for lawns, gardens and for fire protection. There is nothing that helps a city's appearance or contributes more to the comfort of its people than an abundance of water for all purposes. It is the first essential in the upbuilding of a community and one of the first questions asked by an intending homebuilder is as to the water supply. The common council is composed of business men who undoubtedly have the welfare of the city at heart, and the Mist is not criticising them in any way, but merely pointing out that an emergency exists, and we have full faith that they will act as promptly as possible and that the people will sustain them in whatever they may attempt in the way of bettering matters.

GOOD AND BAD ROADS

Extract from an article by J. H. Albert, Chairman of the Committee on Ways and Means, Oregon Good Roads Conference. Published in Pacific Homestead.

Judge Thayer of Iowa said on this subject; "My plan to build good roads would be to borrow money on a long time bond at a low rate of interest and use the taxes to pay the interest and principle. To do this a great many people will have to conquer their prejudice and listen to a kind of reason and argument that they turn from now with a solemn shake of the head and the exclamation; 'No bonds, if you please, and no debt for road building.' No debt! I admit there are mistakes made every day by cautious, prudent, experienced business men going in debt. But for that reason shall there be no more going in debt? The business of barbarism is transacted on the no trust plan. The 500,000,000 who go in debt have food to eat, clothes to wear, and at night a place to lay their heads. The 500,000,000 who do not posess sufficient confidence in themselves to trust one another never tasted flour or beef, go naked and sleep out of doors. Activity, prosperity and thrift are the fruits of mutual dependence on one another, cemented with the legend, 'I promise to pay.' Stagnation, savagism and ignorance are the fruits of transacting business on the theory that nobody is entitled to the confidence of anybody."

The utility of a good road may be mathematically demonstrated and expressed in dollars and cents by finding the difference in a load hauled over a good road and that hauled over a bad road, adding the wear and tear of rolling stock, and applying the equation to the total traffic. The average cost per ton per mile for hauling farm products on European stone roads is about 10 cents, while in the United States because of bad roads it is 25 cents, or two and one-half times as much, while the average rate per ton per mile by rail in the United States is 1 cent. The average freight rates from railroad points in the Willamette Valley to the docks in Portland on produce is about 2 cents per ton per mile. Now, the road to market begins at the farm and consists of two divisions, wagon road and railroad, for every carload of produce shipped by rail is first hauled in a wagon. This end of the road is FREE; the other end of the road is a TOLL road.

Here is an important UTILITY, this end of which, speaking from the farm, belongs to and is managed solely by the public, the other end by a soulless corporation: yet the freight on this end costs 20 cents per ton per mile, on the other end 2 cents, or just one-tenth as much.

President Helps Orphans

Hundreds of orphans have been helped by the President of The Industrial and Orphan's Home at Macon, Ga. who writes: "We have used Electric Bitters in this Institution for nine years. It has proved a most excellent medicine for Stomach, Liver and Kidney troubles. We regard it as one of the best family medicines on earth." It invigorates the vital organs, purifies the blood, aids digestion, creates appetite. To strengthen and build up thin, pale, weak children or run-down people, it has no equal. Best for female complaints. Only 50c at Houlton, Warren, and Deer Island dealers.

Dr. Clara Scott of New York says that "nobody with brains will kiss in the days to come." What have brains got to do with kissing, anyway?

Kodol for dyspepsia and indigestion will digest any and all food at any and all times. Kodol is guaranteed to give prompt relief. Sold by A. J. Deming and Scappoose Drug Co.

Senator Jeff Davis is ill from the effects of vaccination. There are a few members of the Senate who wish they had nothing worse than smallpox to fear.

Take DeWitt's Kidney and Bladder Pills. They are for weak back, backache rheumatic pains and all kidney and bladder troubles. Soothing and antiseptic. Regular size 50c. Sold by A. J. Deming and Scappoose Drug Co.

If all the members of Congress who have abused the franking privilege were investigated there would not be enough left to do the investigating.

Kodol digests all the food you eat. If you will take Kodol for a little while you will no longer have indigestion. It is pleasant to take, acts promptly. Sold by A J Deming and Scappoose DrugCo.

If President Roosevelt is to be loved for the enemies he has made he is sure to be the idol of his country.

A Horrible Hold-Up

"About ten years ago my brother was "held up" in his work, health and happiness by what was believed to be hopeless consumption," writes W. R. Lipscomb, of Washington, N. C. "He took all kinds of remedies and treatment from several doctors, but found no help until he took Dr. King's New Discovery and was wholly cured by six bottles. He is a well man today." It's quick to relieve and the surest cure for weak or sore lungs, Hemorrhages, Coughs and colds, Bronchitis, LaGrippe, Asthma, and all Bronchial affections. 50c and $1.00. Trial bottle free. Guaranteed by Houlton, Deer Island, and Warren dealers.

To absorb all that one may acquire from reading and travel and not to impart any of that knowledge for the benefit of others is nothing but refined selfishness.

For health and happiness—DeWitt's Little Early Risers—pleasant little liver pills, the best made. Sold by A. J. Deming and Scappoose Drug Co.

A man's life is to be measured as to its duration not by years but by character. As the Arabs well say, "A wise man's day is worth a fool's life." Length of days is not vouchsafed everyone but the ability to live well is.
