## NEWS OF THE WEEK

In a Condensed Form for Our Busy Readers.

A Resume of the Less Important but Not Less Interesting Events of the Past Week.

The Philippine general assembly has opened at Manila.

The American battleship fleet is now at anchor off Gibraltar.

Prominent American horsemen will make entries on English circuits.

The International Opium conference held its first session at Shanghai.

A 3-year-old boy in Philadelphia died of fright on seeing a dog that had bitten him seven weeks ago.

President Roosevelt will be offered \$300,000 to head a Wild West show in a 30 weeks' engagement.

A slight earthquake shock is reported from Montreal. Heavy shocks have been felt along the southern coast of Spain.

The Japanese consul at San Francisco belittles the recent attack of students on a Japanese student, and says it is a matter for the police court.

A London hotel employe has brought suit against his employers for \$45,000 in tips which he claims belonged to him but were collected and appropriated by the house. A similar suit was won by an employe recently.

While a brother of Mayor Duesse, of Chicago, was instructing a servant in the use of a revolver, the weapon was discharged, the bullet passing through two windows and killing Mrs. Lucius Tuckerman, daughter of General A. C. Girard, U. S. A., retired.

South African colonies are about to form a federation.

An earthquake in Morocco caused great damage and killed about 100 persons.

The Eastern blizzard now extends over the entire Atlantic and Gulf coasts.

An unknown steamer foundered off the Virginia coast and all on board are believed to be lost.

A political quarrel in Cuba between President Gomez and Vice-President Zayas was won by the latter.

A Chicago woman procured a divorce because she preferred to give her whole time to driving and borsercing.

The Oregon presidential messenger has reached Washington several days late, and his fine has been remitted.

A pit full of bones of extinct animals has been found in California and will be thoroughly explored by scientists.

John Barrett, director of the bureau of American republics, says the Panama canal will be an immense success financially, as well as in other ways.

Thirty-one new cases of cholera were reported in St. Petersburg in 24 hours.

August Belmont has been operated upon for appendicitis. He will recover.

Benoit Constante Coquelin, the greatest French actor of the age, is dead.

The deadlock in the Illinois legislature continues, though Hopkins is losing ground.

Mayor Rose, of Milwaukee, Wis., is determined to stick to his policy of open saloons.

It is said that President Roosevelt advises California to take no action on the Jap matter for two years.

The Spanish steamer Trinidad rammed and sunk an unknown Belgian steamer and eight lives were lost.

Ex-Senator W. A. Clark is reported to be at the head of a company who will manufacture the new explosive, Titanite.

The 200 clerks in the office of the treasurer of Cook county, Illinois, which is mostly Chicago, have struck for more pay for overtime.

Lake Michigan is so polluted with the sewage from the Calumet river that the new \$3,000,000 Southwest Land tunnel may prove useless.

Oregon's electoral messenger has not yet reached Washington, nor has the messenger from Montana. They will not be fined, as the returns have been sent by mail.

Wheat sells in Portland markets at \$1.09.

Attorney Jerome wants to prosecute the canal scandal case.

Chinese laundries are accused of spreading leprosy in Chicago.

The Oklahoma grand jury has found three true bills in their land fraud inquiry.

The Prussian diet has turned down several measures favoring election reforms.

Signals from five imprisoned miners near Pittsburg have ceased, and they are given up for dead.

Governor Gillett has sent a special message to the California legislature against anti-Jap bills.

Captain Sealy, of the lost Atlantic liner Republic, was given a great ovation upon his arrival in New York.

A Japanese prince was secretly married to a Hungarian woman and now he and his whole family are in disgrace.

Floods in a California river carried three railroad restaurants out to sea, and the entire city of Santa Maria is in danger.

A woman in Burlington, Wash., drove out three burglars at the point of an empty revolver. Then she locked the door and faint.

Jeffries, retired heavyweight champion pugilist, has signed a contract to appear on the vaudeville stage throughout the large cities of the East.

### JEROME WILL PROSECUTE.

Federal Attorney Will Help Get Evidence Against New York World.

New York, Feb. 2.—United States District Attorney Henry L. Stimson made public tonight a letter, in reply to one written by District Attorney Jerome on the subject of beginning an action for criminal libel in the state courts against the publishers of the New York World because of published charges regarding the Panama canal purchases.

Mr. Stimson tells Mr. Jerome to go ahead.

Mr. Jerome had asked if action in the state courts on behalf of Douglas Robinson, the president's brother-in-law, would be an unwise interference with the actions begun under Federal jurisdiction.

Mr. Stimson answers this question negatively, but does not state that the Federal inquiries or prosecutions will cease if Mr. Jerome begins an action.

It is apparent that while the Federal authorities concede to Mr. Jerome the right to appear as the protector of Douglas Robinson's good name, they reserve to themselves the privilege of acting in defense of the reputation of "a gentleman who occupied the position of head of the War department" in any Federal jurisdiction where the case applies.

The reference to the "gentleman who occupied the position of head of the War department" probably refers to Elihu Root, who was the secretary of war under whom the negotiations were completed.

### NOT PREPARED YET.

Governor-General Smith Gives Further Advice to Filipinos.

Manila, Feb. 2.—The Philippine assembly opened today with simple ceremonies, President Osmena presiding. The first business to come before the body was the annual message to the assembly of Governor-General James F. Smith, which read, in part, as follows:

"My last word to the Filipinos is that until the great majority and not a small minority of the citizens are prepared to make intelligent use of the franchise; until democratic usages and customs have permeated throughout the population, and become a part of the daily life of the people; until the power of unconscionable agitators and demagogues is broken; until education has created a just public sympathy that specious arguments and false doctrines cannot destroy; until a citizen has not only the power to judge but also the courage to act for himself, the best future of the islands lies with the land which has given the Filipinos freedom of speech; liberty of the press; freedom of worship; the right of the accused to meet witnesses against him face to face; the exercise of the franchise; free schools; autonomy in municipal and provisional affairs; the right to participate in making laws through the assembly, and many other rights, liberties and privileges not enjoyed by peoples which have had independence and national existence for hundreds of years."

Governor Smith deplored the growing gulf between the Americans and the Filipinos in the Philippines, and strongly urged that they draw closer together and act in unity for the best interests of both. His message sharply criticizes the municipal government of Manila and the municipal police force, the personnel of which, he said, was not equal to that of the house servants of the city.

The provincial government, Governor Smith pronounced to be entirely satisfactory.

The annual report on the revenues of the islands shows a decline of about a million pesos (about \$500,000) for 1908 under the figures of 1907.

### Treat All Aliens Alike.

Sacramento, Feb. 2.—Governor Gillett made public tonight the text of a letter received today from President Roosevelt with regard to anti-Japanese legislation now pending in the California legislature.

President Roosevelt begins by quoting a letter from the secretary of state to Governor Gillett, in which Mr. Root said that he saw no objection to the passage of a law which treated all aliens alike in acquiring and transferring real property, but "to avoid conflict with the constitution of the United States, such statute should contain an expressed provision excepting from its operation any rights secured by treaty between the United States and foreign nations."

President Roosevelt then gives the text of a memorandum from Secretary of State Root, which, he says, has his cordial approval.

### Calm Foretold for Cuba.

Palm Beach, Fla., Feb. 2.—Charles E. Magoon, ex-governor of Cuba, left here tonight for Washington. He will make a supplemental report relative to the provisional government, covering what he has done since the last annual report was made, December 1 last.

He will also give a detailed report of the inauguration of President Gomez. Mr. Magoon said today that President Gomez had shown excellent judgment in selecting his cabinet and he thought that the new government would have reasonably fair sailing.

### Chinese Laundry a Peril.

Chicago, Feb. 2.—Criminal action may be taken against Chinese laundrymen who sprinkle clothes by blowing water through their mouths. Complaints have been brought to the attention of Health Commissioner Evans that disease has resulted from this practice. These complaints come upon the heels of reports from Pateron, N. J., that a citizen of that place had contracted leprosy from a collar ironed by a Chinese laundryman.

### Wheat \$1 at Walla Walla.

Walla Walla, Wash., Feb. 2.—For the first time in more than 20 years wheat today sold in Walla Walla for \$1 a bushel. The sale was made to the Jones-Scott company, who said this evening the wheat was No. 1 milling bluestem, and the price was paid because it was worth the amount in the market. The lot consisted of 1,000 sacks.

## PROCEEDINGS OF OREGON LEGISLATURE

Tuesday, February 2.

Salem, Feb. 2.—Salary log rollers in both houses discarding party lines today succeeded in overriding vetoes of Governor Chamberlain on bills to increase the pay of the sheriff of Harney county and school superintendent of Polk and to grant fees to the sheriffs of Malheur and Lake. The Harney veto must yet be voted down in the house before becoming a law and the two other vetoes must be so disposed of in the senate.

Today's action of the two bodies indicates quite conclusively that the two bodies will reciprocate in this matter. The Harney veto was overridden in the senate by 23 members supporting the bill and the two other vetoes in the house were overcome by a vote of 37 to 16 in the case of the Polk county school superintendent and 52 to 4 in the case of the sheriff's fees in Malheur and Lake.

Appalled by the enormous call for appropriations, the ways and means committee are whetting their knives for the pruning. Senate appropriation bills aggregate \$1,200,000 and house bills \$1,800,000, while the secretary of state's recommended budget amounts to \$3,400,000. The total of all cash calls is \$5,500,000, making allowance for duplications of the house, the senate and the secretary of state.

Appropriations two years ago were \$3,083,895, which exceeded those of the session before by \$200,000.

A horde of bills creating new jobs, most of them at fat pay, have invaded the legislature—no less than 200 new seats at the pie counter being provided for. How far the combination against the governor, as signalled today, will extend for enactment of these bills, it is impossible yet to foretell.

Monday, February 1.

Salem, Feb. 1.—The anti-statement bill, introduced jointly by Representatives Bean and Brooke, created something of a stir in the house this morning when it was reported back by the committee on elections with a favorable report. Brooke moved the adoption of the report, which was opposed by Orton and several of the statement republican members and the motion finally prevailed by a vote of 23 to 22, 15 being absent. The bill was made a special order for Wednesday at 2 p. m.

The house committee on railroads tomorrow will recommend favorably a bill requiring that all cars on interurban street railway lines be equipped with toilets.

Representative McCue's bill, authorizing the different counties to levy a tax of not to exceed two mills, when approved at a special election, for the purpose of advertising the state and its resources, met with opposition in the house this afternoon, and was passed by a vote of 34 to 19.

The house committee on revision of laws tomorrow will recommend favorably Representative Buchanan's bill providing for a constitutional convention. The bill provides that the question of holding such a convention shall be submitted to the people at the November election in 1910.

If such a convention shall be ordered, a special election is to be held in June, 1911, when 60 delegates, one from each of the representative districts in the state, shall be elected to revise the constitution. The constitutional convention will meet at Salem in October, 1911, and the constitution, as revised and amended, shall be submitted to the voters at another special election in April, 1912, for their approval.

With only 13 yeas in its favor, Representative Calkins' bill providing that a new school district must have a school population of 15 before it could be established and receive state aid, was defeated in the house this afternoon.

Saturday, January 30.

Salem, Jan. 30.—District attorneys all over the state are interested in senate bill 117, by Smith, of Umatilla, which prohibits the incumbents of that office from engaging in private practice. It is understood that Senator Smith, who is a doctor, introduced the bill at the request of lawyers, who did not like to introduce the bill themselves, for fear of incurring the displeasure of district attorneys.

The purpose of Senator Albee's bill relating to hours of labor on public work is to make the eight-hour provision apply to employes of contractors or sub-contractors on public work. The present law, the act of 1907, applies only to persons employed by the state or county, and not to contractors or sub-contractors doing work for the state or county. Neither the present law nor the Albee bill (S. B. 131) applies to state institutions other than the penitentiary, for it has been found impracticable to put an eight-hour law in force in the asylum, or the mute, blind or reform schools.

Senator Bailey's bill regulating the hours of employment of females extends the provisions of the act of 1903 (amended in 1907) so that it applies to females employed by telegraph, telephone, express and transportation companies.

To give the governor and secretary of state joint authority with the state treasurer in the examination and approval of securities accepted by the treasurer from banks in which state funds are deposited, is the purpose of Senator Parrish's senate bill 144. At the present the treasurer is sole judge of the sufficiency of security, but is exempted from liability for any loss sustained by reason of the failure of any bank in which funds are deposited according to law.

Senator M. A. Miller's senate bill 128 proposes to amend the road law of 1903, by permitting the voters of a road district to vote a special tax levy at a special meeting called by petition.

Friday, January 29.

Salem, Jan. 29.—This promises to be the most extravagant legislature Oregon ever had at Salem, not only on account of appropriations, but also on account of new offices to be created and higher salaries enacted. There are bills for creation of no less than 200 new jobs, most of them at fat pay—political berths, for few of which the state and its subdivision have any need.

War between Governor Chamberlain and salary logrollers in the legislature was declared today from the governor's office in a special warning message. The house replied by passing Multnomah's bill for an extra circuit judge and overriding his last session vetoes on four agricultural fair senate bills appropriating money for Eastern Oregon districts.

Five of the six senate bills of the 1907 session, vetoed by the governor and which were passed over his veto in the senate at this session, were passed by the house this morning, when they came up as a special order. Four of the bills provide for district agricultural societies in Eastern Oregon and carry appropriations of from \$1500 to \$2500 per annum each. The fifth measure permits the garnishment of the salaries and wages of state and county officials.

The most sweeping anti-trust bill that has been introduced in the legislature appeared in the senate today. It was introduced by Senator Bingham and is senate bill 161. It not only prohibits every form and shade of trust and combination agreement, but requires corporations to make an annual statement under oath that they have not made any agreements in restraint of trade or for the maintenance of prices or rates. It prescribes as penalties not only fines and imprisonment, but forfeiture of corporate existence and liability to repay all moneys received in violation of the anti-trust law.

Thursday, January 28.

Salem, Jan. 28.—Senator Bailey's motion for an amendment to the constitution permitting the legislature to amend a city charter with the consent of a majority of the voters of a city is looked upon by the anti-saloon people as an effort to circumvent the local option law.

Should the amendment be adopted any city that has become "dry" because it is in a "dry" county, could by vote of its people be made "wet" by an act of the legislature. This would practically set aside the local option, so far as cities are concerned.

The emergency tax law passed both houses today and provides that within five days the state board shall equalize the county assessments and levy a state tax at a uniform rate.

The bill carries an appropriation of \$5000 to meet the contingent expenses of the board, which may find it necessary in the process of its task to summon several of the county assessors to their assistance.

Certain Portland banks have renewed their old fight to restrict to themselves the use of the word "Trust," in the titles of firms and corporations. A bill introduced by Senator Bailey, and now gone to the house, forbids any of the numerous abstract and mortgage and agency companies the use of "Trust" in their business. Instead they must use "Trustee."

A big fight is waging over an attachment bill which bankers are boosting in order to save themselves from attachment in case of money stringency. The opposite contention is that the bill would so seriously impair attachment of personal property as practically to make it impossible.

The senate judiciary committee received a severe scolding from Senator Abraham, of Douglas county, this morning when the committee reported adversely on Abraham's bill making it manslaughter to kill a human being by mistake for a deer.

Oregon on a Novel Map.

Salem—Oregon has been asked to furnish a square of native wood which is to be polished, cut in shape of this state and used in a map that is to be one of the decorations of a new great lakes steamer, the "United States."

The request for a block of wood and a photograph came to Governor Chamberlain. The plan is to have each state furnish a block of wood which will be carved into the shape of that state and be fitted into the map. The request will be turned over the Oregon Lumber Manufacturers' association.

Want Malheur Project Begun.

Ontario.—The universal interest felt in this section concerning the building of the Malheur government irrigation project will find expression Friday and Saturday of this week in immense mass meetings to be held at Nyssa and Vale, this county. A similar meeting was held in Ontario last Saturday, and was attended by nearly 400 landowners. At this meeting, many attending were already owners of good water rights under existing private contracts.

More Paving for Salem.

Salem.—The city council has practically decided to pave several blocks of Court street with bituminous pavement. This means that next summer both of the broad avenues skirting the state capitol grounds will be paved.

Blizzard in Northwest.

St. Paul, Feb. 1.—A blizzard is raging in the Northwest with 500-mile communication with the East was almost destroyed during part of the day. Trains are hours late.

### NICEST IN HISTORY.

Taft's Expressed Wish About Inauguration to be Fulfilled.

Washington, Feb. 1.—"I want the very nicest inauguration in history!" That's what W. H. Taft said to half a dozen headlines in the house of representatives on the occasion of his last visit to Washington, and it goes to show that folks don't know what they are talking about when they say that the president-elect is trying to dodge all the frills and fuss and feathers attending his induction into office.

Those members of congress with whom the president-elect talked have been doing missionary work to secure pledges of enough votes to insure the passage of the joint resolution authorizing the use of the pension office for the inaugural ball. Four years from now Washington will have an immense auditorium to hold the biggest crowd that ever gathered to honor a president. But this year it is a safe proposition that the ball will be held in the pension office and it will be a wonder.

The programme is divided into five important features and others of less interest.

First, the imposing military division of the pageant, which is being arranged on a big scale by Major-General J. Franklin Bell, who has been appointed grand marshal.

Second, the civic organization division of the parade, with Major Thomas P. Morgan, chairman of the committee in charge, as marshal.

Third, the great display of fireworks on the White Lot, just in front of the White House, in combination with the illumination of the streets of Washington throughout the downtown section, the dome of the capitol and the Washington monument, and a drill and display of pyrotechnics by the Republican Flambaa club of Minneapolis.

Fourth, the inaugural ball in the pension building, the biggest brick structure in the world.

Fifth, the forenoon parade of American veteran soldiers and sailors of the G. A. R., the United Spanish War Veterans and the Army and Navy Union, which will form the escort of honor for President-elect Taft and Vice-President-elect Sherman, from the White House to the capitol, where they will take the oath of office, preceding the big parade and other features.

The latest reports from the chairman of the general committee indicate that the inauguration of Taft and Sherman will be a record-breaker, both as to features and attendance, and that there will be many innovations.

### HARRIMAN FORMS ARMY.

Discipline and Advancement Are Main Features of Plan.

Omaha, Neb., Feb. 1.—"The most difficult problem that confronts railway management today is the education and training of the staff to fill positions."

This statement was made by Julius Kruttschnitt, director of maintenance and operation, of all the Harriman lines, in explanation, in part, of a new plan of railway organization which is being tried out on the Nebraska division of the Union Pacific road. Under the new scheme of organization, if it proves successful, all of the 100,000 employes will be transformed into an army, each member of which can aspire with hope to the highest position in the gift of the railroad for which he works. In fact, it is the purpose of the Harriman management to train this vast army that each private will become fitted to fill the position next above him.

To accomplish these purposes Mr. Harriman has given his heads of departments carte blanche in the way of necessary expenditures, and his example in this respect must of necessity have great influence upon other railway managements.

### STUDENTS ATTACK JAP.

Graduate From Tokio University Is Beaten by His Fellows.

Berkeley, Cal., Feb. 1.—Following the removal of agitation for anti-Japanese legislation by the state legislature, Kenji Kaneko, a graduate of the Imperial university at Tokio and a student at the University of California, was attacked by eight white students this afternoon and chased off the university campus. As a result of the incident, the Berkeley Japanese association, numbering about 1,000 members, has declared its intention of demanding that the Japanese consul general at San Francisco make representations to the American government through Ambassador Takahira in Washington.

Vice Consul General Takahashi, when seen at the Japanese consulate tonight, stated that the alleged attack upon a Japanese student at Berkeley had not been called to his attention.

"It is a matter for the police court," said the vice consul general. "Even should it be officially reported to me I consider it too trivial to pay any attention to it."

### To Fight Tuberculosis.

London, Feb. 1.—Following on the lines of Lady Aberdeen's campaign in Ireland, a movement on national lines is now being organized in this country to check the scourge of consumption. It is to be inaugurated at an important conference on tuberculosis at Caxton Hall, Westminster, on February 16, 17, 18 and 19, at which many experts will speak. An exhibition of models of sanatoria, nursing appliances, healthy and unhealthy rooms, compared food-stuffs, etc., will add to the value and interest of the gathering.

### Clash in Cuban Politics.

Havana, Feb. 1.—The first serious clash between President Gomez and Vice President Zayas over political appointments, which occurred when the proposal was made to appoint Ricardo Aranao chief of the secret police in place of Jose Jerez, has resulted in a victory for Senor Zayas, who, it is believed, presented an ultimatum that he would resign immediately if the appointment were made. Bad feeling exists between the men.

## OREGON STATE NEWS

### THESE HENS BREAK RECORD.

Albany Man Gets 2595 Eggs From Dozen Fowls in Year.

Albany—A. S. Hart, of this city, has 12 hens which have laid 2,595 eggs in the past year, and he claims it is the champion laying brood of the world. Included in this flock is a hen which recently established a new world's record by producing 256 eggs in a year. An average of 218 eggs for 12 hens is also a remarkable record.

The first of the flock laid for the first time on November 20, 1907, and the last of the flock completed its year January 27, 1909. Hart has kept a record by the trap-nest system. He is preparing to substantiate the figures by affidavits and claim some world's records in the poultry journals of the world.

Four hens laid more than 200 eggs each, scoring, respectively, 256, 244, 216 and 205. Two laid 197 each, another 194, and two 190 each. The other three scored 178, 172 and 162, respectively. All of the champions are Barred Plymouth Rocks.

### EVERYBODY HELPS.

Brownsville Raises \$1 Per Capita for Publicity Campaign.

Brownsville.—The Brownsville Commercial club held an important meeting Tuesday night, with the largest attendance in its history and much enthusiasm. Again was the record broken. Brownsville has the distinction of being the only town in the Pacific Northwest that has raised a publicity fund of \$1 per capita without outside assistance.

Last night President Holloway announced that every single business man in the city had contributed to the publicity fund, which now reaches over \$1500 and is still growing. The whole Colapsa valley is becoming imbued with the publicity spirit and the citizens are arranging to contribute liberally. The Colapsa valley is one of the best in the state, but its resources have never been exploited abroad to any extent. It contains some of the best agricultural, fruit, grazing and timber lands in the state.

To aid in placing Brownsville "on the map" the women of the city have become imbued with the spirit of progress and enthusiasm and last night met 25 strong and organized an auxiliary to the club. Much enthusiasm prevailed. The object of the women's club is to obtain chiefly a public park, cleaner streets and alleys and to promote civic improvement throughout the town and county. Officers were elected as follows: Mrs. Wayne Stander, president; Mrs. W. J. Hooker, secretary; Mrs. Clara McCoy, treasurer.

### Cold Kills Loganberries.

Salem—According to statements made by loganberry growers, the recent freeze killed all kinds of vines down to the snow line, and there will be no loganberry crop this year, except what berries will grow on the few vines which, through neglect, were lying upon the ground and were protected by the snow. This will be a severe blow to the loganberry industry, for a beginning was made the past season in finding a permanent market for the fruit. There are also many reports that rose bushes have been killed down.

### U. of O. Takes Up Wrestling.

University of Oregon, Eugene.—The university students have taken up wrestling with a great deal of zeal. Twenty or 30 are out on the mat every afternoon. Joe La Salle, who had the match recently with O'Connell in Portland, is being conditioned by Trainer Hayward and at the same time is teaching wrestling to the students. Bill Hayward is trying to arrange a match with O. A. C. for the latter part of February.

### Examination Dates Set.

Albany.—The semi-annual examination of Linn county teachers will be held in this city February 10 to 13, inclusive.

### Gold Injures Fruit Trees.

Echo—Advises from Hermiston are that young fruit trees were injured by the recent cold weather.

### PORTLAND MARKETS.

Barley—Feed, \$27@27.50 per ton; brewing, \$28.

Wheat—Bluestem, \$1.05; club, 92c; 85c; 92c; red Russian, 90c; 49-fold, 95c; valley, 95c.

Oats—No. 1 white, \$33.50 per ton.

Hay—Timothy, Willamette valley, \$16 per ton; Eastern Oregon, \$17@18; clover, \$12@13; alfalfa, \$14; grain hay, \$12@13.

Fruits—Apples, 75c@83c per box; pears, 10c@1.75 per box; quinces, 10c@1.25 per box; cranberries, 14.50@15 per barrel; persimmons, 10c@12.5c.

Potatoes—\$1.25@1.50 per hundred; sweet potatoes, 25c per pound.

Onions—Oregon, \$1.75@2.25 per hundred.

Vegetables—Turnips, \$1.50 @ 1.75 per sack; carrots, \$1.25@1.50; parsnips, \$1.50@1.75; beets, \$1.50@1.75; horseradish, 80c@1.00 per pound; artichokes, \$1.40 per dozen; beans, 25c per pound; cabbage, 25c per pound; cauliflower, \$2 per crate; eggplant, 11c per pound; parsley, 30c per dozen; peas, 20c per pound; peppers, 15c@20c per pound; pumpkins, 10c@12c per pound; sprouts, 10c per pound; squash, 10c@12c per pound.
