Good Blood

Means good health, and Hood's Sarsaparilla has an unapproached record as a blood-purifier.

It effects its wonderful cures, not imply because it contains sursaparilla but because it combines the atmost remedial values of more than 20 different ingredients. There is no real substitute for it. If urged to buy any preparation and to be "just as good" you may be sure it is inferior, costs less to make, and yields the dealer a larger profit. Also Draws Salaries of Both Places-Supreme Court of Oregon So Ruled Many Years Ago.

Salem, March 2 .- In the presence of practically all the state officials, Sec. retary of State Benson yesterday took the oath of office as governor of Oregon and immediately entered upon the performance of his duties as such. The oath was administered by Chief Justice COLDS, CATARRH and diarrhoea. F. A. Moore in the governor's private office. Following the administration of the oath, the assemblage expressed

their approval by generous applause and then extended congratulations to Mr. Bennon. The first official act of Governor Behson was the appointment of S. A. Koger, as insurance commissioner and Miss Flossie Shambrook as stenographer to the governor. Half an hour later the

land sgent, was signed.
C. N. McArthur, who has been chosen as private secretary of Governor Benson, is at work in the governor's office, but he will not be officially appointed to that position until after the special session, as McArthur desires to perform his duties as speaker of the house. McArthur is not drawnig his salary as private secretary but is still drawing pay as speaker of the house while helping to revise the house journal.

Mr. Benson will now draw two salaries, \$5,000 a year as governor and try."-\$4,500 a year as secretary of state. His right to the two salaries was declared by the Supreme court many years ago, when Secretary of State Chadwick became governor, Under the decisions of the Supreme court Benson will continue to be governor after his term as secretary ends. His term as secretary will end when the next legislature meets. His term as governor will not end until his successor has been inaugurated.

FIND PORPHYRY GOD.

Believed to Prove That Egyptians Settled in Mexico.

Los Angeles, Cal., March 2.-That the Egyptians crossed from the land of the Nile and settled in Mexico, by means of the lost continent, Atlantis, is the new theory advanced by Colonel L. R. Telephone and the Farmer. In speaking of the recent change in its telephone exchange, made by Western Electric company, at Fetaluma, California, the Petaluma Courie gives an exposition of the value of the telephone, which the farmers in this vicinity should profit by. To quote

"The addition of the farmers line will not only be a great advantage to the farmer but will also tend to greatly increase the business of the

"Only recently has the farmer seen the great benefits to be derived from the use of the telephone. It used to happen that frequently a farmer would come to town with a load of grain or produce and stand around all day waiting for the highest bidder on the load. If it hapened that he came at a time when the market was favorable, he might get bids, unless the buyers had eliqued against him; but more often he would be obliged to hang around all day and then either sell at the same pprice offered in the morning or haul

the load back home. "It's different now. The rural tele phone has changed all this. Today the farmer has no excuse for driving to town without first knowing the exact condition of the market, for he can call up the buyer in advance and if the market is right he can contract for his produce before leaving home.

"This enables him to get the highest possible price for his produce and conequently he has more money to

"This is only one of the many uses of the telephone by which the farmer is greatly benefited. Today there is hardly any one in a well settled country who has not availed himself of it by telephoning for a doctor when some one was ill or for a broken part of a machine that stopped farm operations until it was mended.

"The telephone is a great protection against loss of crops due to sudden weather changes. Recently the United States Weather bureau has put into operation a system which will enable them to warn the fruit grower in advance when any sudden drop in the temperature is expected. By means of a main office and various sub-stations these reports are sent out over a telephone to practically all fruit grow A clerk is on duty at all hours at the Los Angeles office to send out these warnings. When notified of an expected drop in temperature the fruit grower can make the necessary arrangements for protecting his crops.

Socially the telephone has worked wonders among the farmers and by its use the greatest disadvantage to farm life-that of social isolation-has been

"These are only a few of the many uses which the successful farmer makes of his telephone. In short he is in touch not only with his neighbors, but the entire world."

STATEHOOD BLOCKED. Senate Committee Terminates Labor

on Hearing of Corruption. Washington, March 1 .- Arizona and New Mexico's hope for statehood at the present session of congress went glimmering today in a sensational

manner when the members of the sen-ste committee that had the bill under discussion rose one by one and left their places without arranging for any future meeting, after the most sensa-tional charges of political corruption in New Mexico had been made.

This action occurred at the conclu-sion of the reading of reports prepared by Beveridge and Nelson, in which it was stated that a gang had charge of New Mexico's interior affairs, and that corruption, jury bribing and many oth-er offenses were the rule and not the exception.

Among the statements made was a telegram from J. J. Hagerman, former governor of New Mexico, reflecting upon the character of the people who are in control of politics in that territory, and declaring that these men ex-pect to continue their control after the territory becomes a state. He refers to them as "freebooters," and says that 60 per cent of the voters are Mex icans, and one-half of that number are illiterate and ignorant, and easily could be governed by the "gang" to which he referred. He suggested that it would be well to wait until after the next census before admitting New Mexico to statehood.

JAPAN FUSS ENDS.

Good Humor Returns to Brown Man of Island Empire.

Tokio, March 1 .- During the recent liscussion in Japan of the attitude of sertain persons in California in regard to the Japanese residents it appears that one of the difficulties faced by the Japanese newspapers was that their correspondents at the various points acked an appreciation of conditions in America, as well as capacity to analyze the feelings of the people or the standng of those who espoused particular

As a result only the most sensational publications appearing in the newspa-pers in America as a rule rerched the ewspapers in Japan, the result being that from the outset there was almost an entire misunderstanding as to the real situation.

Later, as the position of the leading people of California developed through the more reliable press dispatches, a better feeling begin to prevail, and now this controversy has almost en-tirely ceased. In fact many of the newspapers say that much good has come out of the evil, inasmuch as the discussion brought out even a greater degree of friendship on the part of America toward Japan than was at first believed to exist.

ate Venezuelan Ruler Says He Never Planned Gomez' Death.

Dresden, March 1 .- Cipriano Castro, ate president of Venezuela, today acthorized the publication of a declaration of his innocence of the charge that he had conspired to bring about the assassination of Juan Vicente Gomez, the present president of the republic, "It is incredible," says he, "that after having shown my interest in him in so many ways I should try to cause him to be murdered. If Gomez had given me occasion to suspect him, I

yould have given orders regarding him before my departure from Venezuela, and I would not have been so stupid as to send such an order by cable. Wireless From Train to Train. Cleveland, Ohio, March 1.-Remarkable wireless telegraph experiments were made today when a number of messages were successfully sent from a special train running between Buffalo and this city at the rate of 70 miles an hour. A Lake Shore train espe-cially equipped for the purpose left Buffalo this morning and arrived here this afternoon, when the success of the tests was reported. One message was sent to President Roosevelt. The experiments cost \$6 a minute.

Berlin Not Enthusiastic.

Chicago, March 1 .- Marked indifference characterizes the German reception of President Roosevelt's propos of an international conference for the conservation of natural resources, according to a cablegram from Berlin. The dispatch adds that the proposal, however, doubtless will be accepted. K financial authority suggests that Roosevelt is "trying indirectly to get back at the trusts, which are exploiting America's natural wealth."
