"Oh, you are Mrs. Blitzer?" asked the vivacious and beautiful woman, on being introduced to her. "I have often met your husband. I must congratulate you. He is always such a happy-looking man. I have noticed that particularly every time he has chatted with me." That evening Mrs. Blitzer says calmly, but sternly to her husband: "Will you be so good as to tell me what makes you look happy when you are talking to other women?"—Judge.

Berlin Not So Slow.
In Berlin, where much wood is burned, they are not so slow. A motor truck drives up to a house and delivers a load of logs. A motor sawing machine rolls up under its own power, cuts, with saws run by gasoline, the wood into fireplace lengths as desired, cleans up the litter and moves on. Very little noise.

Vain Attempt to Show Off.
A youthful masculine, scarce three years old, was listening to a story by his mother, but despite his devotion to her stories, kept making unaccountable excursions to a clear space on the park lawn and solemnly airing his sole physical accomplishment of a neat somersault. The mother wondered, but asked no questions. Presently, however, the mystery was explained. Another boy, seated near the open space with his parents, rose and walked away. The little acrobat sighed sadly. "I guess he never even saw me," he remarked.

Where Addison Was Married.
St. Edmund's, Lombard street, London, the rectory of which is vacated by the death of omiscient Canon Benham, had previously registered literary associations. The registers record the marriage of Joseph Addison to the dowager countess of Warwick on August 9, 1716. Dr. Johnson grimly remarks that this match resembled the marriages in which a sultan gives his daughter a man to be her slave; and Addison used to escape from the uncomfortable splendor of Holland house to a coffee house at Kensington.

Rubber Planted on Waste Land.
The wide reaches of waste lands on the island of Singapore, which have been of no use since the culture of gambier, coffee, and pepper was given up, are now the scenes of great activity. Rubber plants are being set out over these wastes and seem to do well. In the suburbs of Singapore a considerable area of swamp land has been drained and converted into a nursery for Para rubber plants, which are sold at a good profit to the planters.

French Woman's Long Sleep.
A curious case is that of a woman in the hospital at Alencon, France, who has been asleep for 30 days, and, unlike most patients who fall into a lethargy, this patient has a perfectly normal temperature. Her teeth are rigidly set, and she has to be fed through a tube, which was introduced with great difficulty, and has been left between her teeth.

How He Knew.
"Love is blind," said the pessimistic looking man, quoting this worn-out chestnut axiom with as much fervor as its originator could have done. "How do you know?" questioned the severe-looking woman with the high cheek bones. "I'm married," said he.

LIVELY SHOW AT PENDELTON.

Frontier Celebration and Roundup
Will Be "Wild and Woolly."
Pendleton—The final touches of the program for the Round Up and Frontier celebration which is held at Pendleton this year, September 23 to October 1, have been made, the list of prizes and purses finally decided upon, the wild horses secured, the famous bucking horses secured and everything is ready now. The program with the purses and prizes is as follows:
Bucking contest for the championship of the Northwest: Purse, \$125 and silver mounted saddle and championship of the Northwest.
One half of the contestants in this event are entered to ride the first day and one half to ride the second day.
Riders for each day to be determined by lot, horses furnished by the Round Up and riders to draw for mounts. Not less than six of the best riders of the first two days will be chosen by the judges to ride the third day in the final championship riding. Each contestant to ride any horse and as often as the judges may deem necessary; riding to be with plain halter, one end of rope free, with chaps and spurs, no quirt, all riding slick, no saddle trees over 14 inches wide to be used. Purse divided: first, \$50 and championship

Peculiar Church Ornament.
Lambeth "Old" church has numerous historic monuments, and in one of the windows is the full length figure of a peddler with his pack, staff and dog. This is supposed to represent the unknown person who presented "Peddler's Acre" to the parish upon condition that his portrait and that of his beloved canine companion should be preserved in the church and that his dog should be buried in consecrated ground.—Pall Mall Gazette.

FASHION HINTS

Dark blue homespun is used for this early Fall suit. The jacket effect is novel. In front there is a panel from waist down, in semi-princess style. Silk is self color is used for banding and there is just a touch of braiding on the waist.

mounted saddle; second, \$50; third, \$25. Fifty dollars is offered by the management for the best bucking horse; \$15 for second; \$10 for third, and \$5 for fourth.

Steer roping contest for Championship of Northwest. Two men to catch the steer to have thirty feet start of the roper. One man to catch the steer by the horns and the other man to throw the rope on his hind feet and hold him. One man dismounts and throws steer and hog-ties him. If the steer is down before the man dismounts he must be allowed to regain his feet before being thrown and tied. Three minutes is the limit on this event.

Wild horse race: This event is open to all. Purse, \$200.
This contest is probably the most exciting event of its kind ever seen in the Northwest. The contestant, each with one assistant, is lined up on the starting tape. The gun is fired. He must then rope, saddle, mount and ride his wild horse once around the track.

Pony express race: First prize, \$50 cash and silver mounted saddle; second, \$30, and third \$20. Each rider to have two ponies and one assistant. No race horses can be entered.

Ladies' relay race: First prize, \$75 cash and Northwest championship cup; second, \$50, and third \$25.
Men's relay race (cowpony): First prize, \$75 cash and silver cup; second \$50 and third, \$25.

Packers race: First prize, \$25 and Stetson hat; second \$15 and third, \$10. In this contest the entrant must furnish his own horse, saddle and rope. The load to be packed will be furnished by the management.

These are the main events. The others are: Maverick race each day; barrel race, three races, one each day; cowpony hurdle race; slow mule race; men's cowpony race each day; Ladies' cowpony race each day; ladies' riding contests; ladies' shooting contests; ladies' roping contest; men's riding, roping and shooting contests; Indian square races, Indian races, Indian riders and war dancers.

As a side feature there will be Buffalo Vernon, who throws a steer single handed and holds him down with his teeth. This is an event that has been put on at the Cheyenne shows with great success. Vernon rides into the arena on a horse, jumps from the horse to the back of the steer, slips down between the horns, gets a strangle hold and downs the steer. It is wildly exciting.

Special rates of one and one-third fare have been made by all railroads from all points in the Northwest.
Ed. Howe's Philosophy.

What a busy man is compelled to neglect would keep a lazy man employed. The funniest kind hair the girls are wearing is the kind that shoots out a long way behind.
There are all kinds of tastes in this world, including people who enjoy the illustrated song at a moving picture show.

Did you ever note how cordial and pleasant a hostess can be when her summer guest announces that she will depart the following day?
Unprofitable Employment.
Galveston News.
Probably there is no more unprofitable employment on earth than that of counting the buttons down a woman's back.
The experimental use of the photograph on Saxon railways is reported by Consul Thomas H. Norton, of Chemnitz. Two local inventors have patented a system which is adapted to both trains and stations.

Powerful British Windmill.

What is claimed as the largest and most powerful windmill in Great Britain has just been completed at Williston, where its capacity is being tried under varying conditions. It is intended for a farm near Bristol, its use there being to generate electricity, supply power to run crushing machinery and work the pumps. From the trials made it is said this new wind machine is capable of generating sufficient electricity for 800 lights, to crush oats and grind maize, work an electric lift, cook the food and heat a room at a cost of 4d a unit.

Lived in One House 94 Years.
In the village of Stath (Somerset) on the banks of the River Parrett, resides William Broome, who has lived the whole of his life—ninety-four years—in the same cottage. Broome has his own property. Broome has always enjoyed good health, is still very active and has never tasted medicine. He is a great grandfather, grandfather and father, but only six of his descendants are living.—London Evening Standard.

This is Rather Neat.
An English critic of American social conditions says that men in this country are too much inclined to put women on pedestals. The only answer to such criticism is pity for the nation that has not such a beautifully decorative sea for pedestals.

Dismal Outlook.
"Do you believe we shall ever have universal peace?" "Not unless women quit offering higher wages to their neighbors' cooks."

Not an Improvement.
Gerald—"People like to walk over me." Geraldine—"I don't see why they should; you hardly come under the head of improved pavement."

FLAG SALUTED BY OLD RIVALS

Union and Confederate Veterans Mingle at Atlantic City

"Dixie" Arouses Cheers—Movement to Unite Grand Armies to Eliminate Sectional Feeling.

Atlantic City, N. J., Sept. 20.—The hotels, piers and board walk are crowded with old soldiers and their families here to attend the 44th annual encampment of the Grand Army of the Republic. Every train brings re-enforcements to the crowd that began arriving last week.

Five thousand veterans gathered in the Savoy theater and listened to a patriotic sermon by the Rev. Robert A. Elwood, chaplain of the department of Pennsylvania.

Commander Van Sant and Hilary A. Herbert, of Albany, ex-secretary of the navy and a general in the Confederate army, were the principal speakers at a large gathering of veterans on the steppochase pier.

General Herbert eulogized the members of the Grand Army. He told how the wearers of the blue and the wearers of the gray were welded together in the cause of the Union.

Commander-in-chief Van Sant and General Daniel E. Sickles both said they would work for the proposition advocated by General Herbert, of bringing the grizzled veterans of the North and South together. It is believed that this demonstration of feeling will end the agitation against the placing of a statue of General R. E. Lee in Statuary Hall at Washington.

A remarkable scene occurred with the entrance of General Sickles. As he swung down the aisle the veterans arose as one man and four of his command lifted him, chair and all, and placed him on the platform while the band played "Dixie" and the crowd cheered as General Sickles grasped the folds of a huge silk flag, with Commander Van Sant, General Herbert stepped up and said:

"Had I been told when I was in Antietam that in the years to come I would stand side by side with Federal soldiers and grasp the Stars and Stripes with them, I would have been insulted. But I love that old flag now."
Commander Van Sant said he was proud of the fact that no American army ever surrendered to anything but an American army.

A ripple of applause greeted the mention of Colonel Roosevelt during the Grand Army leader's address. The name of President Taft was mentioned.

NEW NAVY FOR CHINA.
Entire Fleet of Battleships May Be Built on Coast.

San Francisco—A fleet of battleships for the Chinese navy is to be built in San Francisco. Millions will be spent here in the purchase of supplies and for the living expenses of thousands of workmen needed to turn out the gigantic order, if the efforts of some of the foremost financiers of this country are crowned with success.

This is the purpose of a visit which Charles M. Schwab, ex-president of the United States Steel corporation and owner of the Union Iron works and other large plants, is to pay to this coast.

The big financier is hurrying across the continent in his private car to meet Prince Tsai Haun, uncle of the emperor of China, who is due to arrive on the steamer Manchuria. Schwab and his party, which comprises prominent steel magnates, will accompany the Chinese imperial party to Washington.

Ward Workers Unionized.
Milwaukee, Wis.—One of the first unions of city employees in the country was organized here by ward workers of the Seventh, Eleventh, Twelfth and Fourteenth wards, and sponsored by Socialist municipal officials. There were 30 present, waterway drivers, ward teamsters, steam roller men and street sweepers. There was some suspicion on the part of the wardworkers as to what position they would be in if the present administration should be ousted at the next election two years hence.

Greater Boston is Planned.
Boston—A bill will be introduced at the next session of the legislature calling for a Greater Boston, to embrace 40 cities and towns included in the metropolitan district and establish a metropolitan council to consist of mayors and the chairmen of boards of selectmen in the district. The measure will not provide for the annexation to Boston of any of the cities or towns included in the Greater Boston district, and the metropolitan council will have merely advisory powers in considering many legislative matters.

Montenegro is Kingdom.
Rome—It is asserted in diplomatic circles here that during recent visits in Cotinje, the Montenegrin ruler assumed the title of king, elevating his country to the rank of a kingdom. An offensive and defensive alliance between Montenegro, Bulgaria and Serbia was signed. Each of these nations is pledged to give military aid to the others in case the sovereign rights of any of them are attacked by Turkey or Austria.

Cattle Firm Indicted.
Sacramento—A special to the Union from Carson City, Nev., says that the Federal grand jury has found an indictment against the Golconda Cattle company, of Nevada, of which William E. Kent, Republican candidate for congress from the Second district of California, is president. The charge is illegal fencing of government land.

Castro is Accused of Plot.
Teneriffe, Canary Islands—A manifesto bearing 1,500 signatures and accusing ex-President Castro, of Venezuela, of organizing a plot in the Canaries against the life of the present Venezuelan executive, Juan V. Gomez, is being circulated here.

CASTORIA

The Kind You Have Always Bought has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision for over 30 years. Allow no one to deceive you in this. Fascination of Golf.
"The 'card of Nero' playing on 'is little, sir, when 'is 'ome was a-burnin'," said the landlady, putting down the local paper, "but this 'ere game of golf must be the most fascinating hobby in the world. I've been reading about the fire up at the golf ground last Friday, and it says 'The fire broke out promptly responded to the call, and when darkness closed in they were still playing upon the ruins of the clubhouse.'—Golf Illustrated.

Nothing Uglier.
Nothing is uglier in American life than the tendency to delight in tearing down reputations. We consider the old Romans brutal because they gazed with pleasure on wild beasts tearing men to pieces. We bend not back our thumbs as we behold the rending of things that are more precious to a man than his body.—New York Globe.

Infatuation.
How many men are groaning in spirit at this moment over an infatuation that made them sacrifice the whole worth of life for the sake of a pretty face and a plastic manner?

Parent's Incentive.
Many a man holds on a staid course because of Tommy's framed school certificate upon the mantelpiece.

Tenant's Reward.
A certain landlord called on a tenant one day and said: "Jones, I'm going to raise your rent." "What for?" Jones asked, anxiously. "Have taxes gone up?" "No, not at all," the landlord answered, "but I see you've painted the house and put in a new range and bathtub. That, of course, ought to make it bring more rent."

It's Pure—Drink it Pure
Nothing has been added to the juice at any stage of the refining process—no sugar, no water, no preservative. We literally and absolutely wash. We simply leave the juice from such source matter as will filter out and then dehydrate it in the bottle.

It's Hawaiian Pineapple
Grown under the tropical skies of Hawaii. The juice of a ripe Hawaiian Pineapple is just a mixture of dew, sunshine and oxygen. It is pure as spring water.

It's the Drink Delightful
Clear as crystal, beautiful as liquid amber, smooth, mellow and satisfying to the taste, Dole's Pure Hawaiian Pineapple Juice is as much an appetizer as a cocktail, in fact it can easily replace. Non-alcoholic of course.

Where to Find It
Ask the man at the soda fountain for a glass or a bottle; or ask your grocer for quarts, pints or smaller bottles. If you should not easily find Dole's Pure Hawaiian Pineapple Juice, write us for booklets and directions where to get it. Send for this useful menu booklet anyway.

Ayer's Hair-Food
Ayer's Hair Vigor, new improved formula, is a genuine hair-food. It feeds, nourishes, builds up, strengthens, invigorates. The hair grows more rapidly, keeps soft and smooth, and all dandruff disappears. Aid nature a little. Give your hair a good hair-food.
Does not change the color of the hair.

Ayer's
You need not hesitate about using this new Hair Vigor from any fear of its changing the color of your hair. The new Ayer's Hair Vigor prevents premature grayness, but does not change the color of the hair even to the lightest degree.
