Simple Dresses

TWO charmingly simple dresses
 are shown here, both suitable for
 cotton or soft woolen materials.
 The first has a panel of trimming,
 either braiding or broderie Anglaise,
 according to material used; the foot
 of skirt is trimmed to match. The
 yoke of the Magyar bodice is of
 finely turked material edged with
 a shaped piece of trimming, the
 material being gathered to this, and
 shaped plastron is arranged beneath;
 the belt is of trimming, so are the
 sleeve bands. Hat of straw edged
 with roses and foliage.
Materials required: Five yards 46
 inches wide, if braided material forms
 trimming, four yards, if not, 2 1/2 yards
 broderie Anglaise 18 inches wide, if
 used.
 The second costume is in thistle
 mauve cashmere; it has the skirt
 trimmed down sides with panels of
 chene silk edged with narrow satin
 bands. The over-bodice is entirely
 of the cashmere, edged with satin,
 while chene silk is used for the under-
 slip, which is finished off at neck and
 elbows by narrow lace frills. A belt
 of satin encircles the waist. Hat of
 thistle mauve straw, trimmed with
 black wings.
Materials required: Four yards
 cashmere 44 inches wide, one yard
 satin, 2 1/2 yards silk 22 inches wide.

FOR THE TIME OF SORROW

Proper Way to Extend Condolences
to One's Friends Who
Are in Grief.

There are persons who never take
 notice of another's sorrow. They
 wait until the bereaved one is met.
 Sometimes this attitude is from
 fear of intrusion, again it is from
 fear of not saying the right thing,
 too often it is from procrastination.
 Whatever the reason it is a mistake.
 There are some few who dislike out-
 side sympathy in sorrow, the major-
 ity are hurt if it is not given. They
 never quite feel the same toward the
 friend who they think was neglectful
 of their trouble.
 The visiting card with a few words
 of sympathy is sufficient, save among
 close friends. A married woman in-
 closes the card of her husband.
 Never make a note of condolence
 stilted. It should express you, and
 not be an essay on grief. Also be
 brief. A few sincere sentences count
 more than pages of rambling platitudes.
 It is customary to send the note to
 the member of the family you know
 best, including the others in your ex-
 pressions of sympathy.
 It is customary now to have en-
 graved forms of acknowledgment on
 black-edged cards. These are sent
 out in the name of the head of the
 family, and are sent to all who of-
 fered sympathy. They can be had in
 a few days on a rush order.
 There are many who think such a
 card too formal, and in any case in-
 timate friends should have personal
 notes. Flowers always require a note
 in the first person from some member
 of the family, or in case the note is
 written by a friend it should say:
 "Mrs. Blank has asked me to thank you
 for the flowers," etc.
 When one is a Catholic, with these
 acknowledgments are sometimes in-
 closed small, black-edged engraved
 cards asking for prayers for the de-
 ceased. Occasionally a small portrait
 of the deceased is used on the inner
 fold of the card, with the date of
 death beneath.

Novelty Wraps.
 Many novelty wraps of voile, chif-
 fon and marquisette are being shown
 by the large department stores, says
 the Dry Goods Economist. These are
 usually left unlined and look particu-
 larly attractive over evening or lin-
 gerie gowns. Some of these are made
 like the fashionably-cut coat, with
 peasant sleeves, pointed collars, large
 revers, etc. Others are cape-wraps
 which can be readily slipped on or off.
 These coats are shown in black,
 cerise, purple, Holland blue, Empire
 green and other fashionable colors.

Neckband Again.
 The mode of the low-necked dress
 and the collarless frock has called out
 the black velvet neckband once more.
 This band is about an inch in width.
 When last worn this was merely a
 band, fastening in back or front un-
 der a buckle or pretty pin. Now,
 however, it is fastened in the back in
 the manner of 30 or 40 years ago,
 with the long ends hanging down the
 back.

Tailored Suits.
 In tailored suit skirts fullness has
 been introduced through plaited sec-
 tions, set into rather close fitting
 skirts as broken panels and also
 through the use of plaited panels over-
 hanging in tunic form.
 In the former style is an interesting
 skirt model which has a back panel
 two deep, closely plaited founces,
 which divide their width to form the
 skirt length, with the exception of a
 few inches, which are taken by the
 shallow hip yoke.
 Of similar type is another skirt with
 the plaited founces on either side of
 the flat center panel. Both of these
 models were much admired. These
 designs offer an accepted solution
 of a gradual break away from the in-
 conveniently close fitting skirt still
 shown by many Paris houses.

The Fabric Gloves.
 Chamols finished Hsie are coming
 into popularity.
 The fine suede Hsie is the kind of
 glove which, having made friends,
 keeps them.
 The silk glove is cool, but makes
 the hand look larger.
 The cotton glove does not wear
 very well.
 Several pairs should be possessed to
 admit of frequent washing.
 The washable glove, which is not al-
 lowed to get very dirty, wears the
 longest.

Weak Heart

Many people suffer from weak hearts. They may experi-
 ence shortness of breath on exertion, pain over the heart,
 or dizzy feelings, oppressed breathing after meals or their
 eyes become blurred, their heart is not sufficiently strong
 to pump blood to the extremities, and they have cold hands
 and feet, or poor appetite because of weakened blood supply
 to the stomach. A heart tonic and alterative should be taken
 which has no had after-effect. Such is Dr. Pierce's Golden
 Medical Discovery, which contains no dangerous narcotics
 nor alcohol.
 The ingredients, as attested under oath, are Stone root (Collinsonia Canadensis),
 Bloodroot (Sanguinaria Canadensis), Golden Seal root (Hydrastis Canadensis),
 Queen's root (Stillingia Sylvatica), Black Cherry bark (Prunus Virginiana),
 Nettle root (Podophyllum Spicata), with triple refined glycerine, prepared
 in a scientific laboratory in a way that no druggist could imitate.
 This tonic contains no alcohol to shrink up the red blood corpuscles; but, on
 the other hand, it increases their number and they become round and healthy.
 It helps the human system in the constant manufacture of rich, red blood. It
 helps the stomach to assimilate or take up the proper elements from the food,
 thereby helping digestion and curing dyspepsia, heart-burn and many uncom-
 fortable symptoms, stops excessive tissue waste in convalescence from fevers;
 for the run-down, anemic, thin-blooded people, the "Discovery" is refreshing
 and vitalizing. Stick to this safe and sane remedy, and refuse all "just as good"
 medicines offered by the druggist who is looking for a larger profit. Nothing
 but Dr. Pierce's Golden Medical Discovery will do you half as much good.

Useful Goat.
 A good many of the goats of history
 have been made to look like sheep in
 the modern commentaries, and the
 tribe of the goat was considerably ex-
 tended the other day when a venerable
 creature was seen leading to safety 75
 sheep whose lives were endangered in
 a stock yards fire at Kansas City.

I AM taking the above text for the
 reason that I want to instill into the
 people self-reliance, self-ability, self-
 sovereignty. I want every person to
 feel that they are above deception, hatred,
 selfishness, jealousy, envy or revenge.
 I want the person who is pinched by
 poverty, who has suffered great reverses,
 who is weighted down with some great
 sorrow to become ac-

 Hope. I want them

 That the lower bowel is responsible for
 most bodily ills is now being recognized
 by the leading physicians throughout the
 world. There is no further excuse for be-
 lying bilious, for having headaches, for
 suffering with dyspepsia or indigestion,
 for putting up with a sluggish or lazy liver,
 for poisoning the blood as a result of con-
 stipation, for Munyon's Paw Paw Laxative
 Pills are positively correcting all these ail-
 ments. They assist in digesting everything
 that is put into the stomach. They stimu-
 late the liver into activity. They start
 the secretions of the stomach, which carry
 off all the bile and poisonous matters
 through the bowels. They strengthen the
 lower bowel, so that it empties itself natu-
