State News

The program for the twentieth annual meeting of the Oregon Dairyman's Association to be held in Portland December, 7-8 has been issued and it contains a great deal that will be of much interest to the keeper of cows. Addresses by practical experts and exhibits showing improved methods will be seen. Nothing can be of greater value, not only to those actively engaged in the dairy industry, but to the whole state as well. A large attendance is expected. Butter and cheese makers will meet in Portland at about the same time.

A special committee of the Portland Commercial Club is boosting flax culture with the hope of building up an industry in this state. A meeting was held during the week and considerable progress is being made. Investigations have shown that flax of exceptionally long fibre can be grown here and all facilities are favorable for linen manufacture.

That seaweed of the Pacific Coast will produce \$12,000,000 annually in potash for fertilizer is a discovery lately made by Secy. Wilson of the Department of agriculture. Here is a chance for Oregon's coast line to contribute an entirely new product to the wealth of the state.

Boys Conference at Corvallis

On December 1st, the Friday following Thanksgiving Day there will assemble at Corvallis between a hundred and fifty and two hundred of the picked boys of Oregon for a three days conference. This will be the sixth Annual State Boys Conference held under the auspices of the Oregon-Idaho Young Men's Christian Association and is open to any boy over fourteen representing any Boys' Bible Study Club or Sunday School Class in the State.

The good people of Corvallis are throwing open their homes to the boys and entertainment will be provided for all bona fide delegates. The Oregon Agri-

cultural College Y. M. C. A. men are also planning to assist in entertaining the boys and will give them a banquet in their building Saturday evening. The college men will also serve as guides taking the boys over the campus and through the buildings.
