Pettit's Eye Salve FOR ALL SORE EYES

A Rainfall of 450 Inches.
The rainfall of a village among the hills of Anam, during ten weeks this year, was 250 inches. The village is Cherrapunji, the rainiest spot in Asia and presumably in the world. Its annual rainfall is something over 450 inches—say, fifteen times as much as London. Cherrapunji stands on a plateau, overlooking the plain of Sylhet, and it is 4,455 feet above sea level.—Westminster Gazette.

Myth Concerning the Salamander.

News and salamanders are pretty much like frogs and toads, only they have a tail and look like a lizard, and then in some breeds the pair of hind legs are small and in others lacking. Salamanders often get into old rotten logs and if put on the fire run out without being hurt in many cases, because they are more or less damp and may not actually pass through much fire. But folk think a salamander is right at home in the fire.

English Hermit's Strange Life.

There died the other day, at the age of eighty-two, a hermit named Lewis, who for the last 20 years has existed on shellfish and lived in his covered trowler, beached at Lower Flagguard. He never varied his dietary, except when shellfish was scarce, and then he substituted bread and cheese. He was in robust health.—London Answers.

What He Might Expect.

"Trimmins has a first-rate voice," said the critic at the concert; "but he always comes in behind time." "Yes," replied the man who lends money. "I guess it's force of habit. Trimmins' notes are always overdue."—Stray Stories.

Must Have Dined Well.

The electric ventilating fan on the wall of the restaurant was whizzing round. A gentleman who had dined extremely well sat looking at it for some time. "Walter," he complained at last, "that clock's fast!"—Punch.

AMERICANS CAUSE RAID.

John Hays Hammond Tells "Inside" of Boer War.
Boston—Released by time from an oath not to talk on South African affairs nor reveal any of the "inside" as to the events leading up to the Boer war, for a period of years, John Hays Hammond, who was conspicuous in that war, broke his silence for the first time at a dinner of the clover club.

Noiseless Furniture.

Irritating noises can be avoided by taking some old felt hats, cutting out from these disks about the size of a quarter and securely fastening them to the bottoms of the legs of all chairs, tables and other movable articles not provided with casters. This also prevents the scratching of polished floors.

Particularly the Ladies.

Don't Expect Kindness.

There are six sorts of people at those hands you need not expect much kindness. The narrow minded think of nobody but themselves, the lazy are too indifferent, the busy have no time to think, the rich disregard appeals for kindness, the poor have neither spirit nor ability, and the good natured fool is not capable of serving you.—Home Notes.

Immense Bird's Eggs.

The largest known bird's egg is that of the extinct megaportia of Madagascar, of which the museum of New York has now a specimen. It has a capacity of two gallons, measures 26 inches round the middle, and the shell is one-eighth of an inch thick. The largest egg of a living bird is that of the ostrich, which is equal to about thirty-six hens' eggs.

Homemade Perfume.

Into a bottle holding two ounces alcohol put one-half ounce orris root, broken into fine pieces. Add to this a bunch of newly gathered rose petals. Cork the bottle tightly and shake well. After it has stood ten days, a few drops on the handkerchief will give the scent of fresh roses.

Municipal Reform in Georgia.

For several years there has been a law forbidding the running of bulls loose on the streets. This law has not been enforced for several years, but it does seem that it should now be enforced, as there are several such animals now at large.—Blackshear Times.

Evidently He Was Jealous.

A strange plea for divorce was unsuccessfully put forward in the French courts recently by a man who complained that his wife had allowed her photographs to be used on picture postcards against his will.

A Drop of Blood

Or a little water from the human system when thoroughly tested by the chief chemist at Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., tells the story of impoverished blood—nervous exhaustion or some kidney trouble. Such examinations are made without cost and is only a small part of the work of the staff of physicians and surgeons under the direction of Dr. R. V. Pierce giving the best medical advice possible without cost to those who wish to write and make a full statement of symptoms. An imitation of nature's method of restoring waste of tissue and impoverishment of the blood and nervous force is used when you take an alterative and glyceric extract of roots, without the use of alcohol, such as

Dr. Pierce's Golden Medical Discovery

Which makes the stomach strong, promotes the flow of digestive juices, restores the lost appetite, makes assimilation perfect, invigorates the liver and purifies and enriches the blood. It is the great blood-maker, flesh-builder and restorative nerve tonic. It makes men strong in body, active in mind and cool in judgment. Get what you ask for!

Endurance Tests.

"I kind of wish," remarked the government employe, "that they'd give me another kind of an endurance test." "You want physical exertion?" "Yes. I wish that for a change they'd let me see how many miles I can ride on horseback instead of how many hours I can sit at a desk."

Test that failed.

Jean is a very matter-of-fact tot of three summers. Her mother one day, while holding in her arms the wee baby sister, who was very delicate, remarked: "Dear me, she looks so frail a breath would blow her away." Jean, taking a long breath, puffed it suddenly into the face of the little sister, and, stepping back, waited a moment in silence. Then in a disappointed tone she said: "Well, why don't you go?"

Sacrifice Not His.

Note in the Ceylon Independent: "Dear Sir—Mudalzar Harry Jayawardana has evidently forgotten that he handed me his hat at the cremation of the late high priest. I am sorry I failed to inform him before that, carried away by the sentiment of the moment, I flung it to the burning pyre, hoping for future merit. May the merit be his, as he was the owner of the hat!"

Dissolving Alum.

When alum is intended for external use, where it is purposely to cauterize the flesh, as in the case of fever blisters and heated or even frost-bitten feet, if it is dissolved in alcohol it will be twice as effective. The alcohol is quickly absorbed by the flesh, carries some of the dissolved alum with it, and, therefore, less applications will be required to achieve the desired results.

Would Change Sleeping Position.

A French doctor, M. V. Fischer, advocates a complete reversal of the present method of making up beds. You must have your head on a level with, or lower, than your feet. If pillows are to be used they must be under the feet instead of the head. The result, he claims, will be amazing, being a sure cure for insomnia as well as a preventive of nightmare.
