A Green Food Rack. A skillful device for furnishing green feed to poultry consists of a frame made several inches high and covered with netting. Oats, or any preferred crop may be sowed and the rack with netting placed over it when of suitable size and the fowls then turned loose. They seem to delight in walking about on the netting and snipping off the green blades within reach. Yet, they cannot get at the roots to scratch and the plants have a chance to renew their growth thus pruned off, and the fowls are continually adding fertilizing material. For poultry kept on close range as a means of furnishing food the plan is certainly commendable.

PERSIA FIRMLY DEFIES RUSSIA

People Throughout Provinces Support Government.

W. Morgan Shuster, American Treasure General, Dismisses British Assistants.

Teheran, Persia—Persia is in a ferment over the warlike action of Russia, and the excitement in the capital was intense at the news of the Russian advance. Placards proclaiming "death or independence" were posted both on the walls of the city and on the legations. Thousands of persons formed in procession and marched past the legations. To add to the excitement two prominent politicians were assassinated. Hadji Mohammed Tagi, a prominent reactionary, was killed in the capital. Prince Firman Firna, at one time minister of justice and subsequently governor of the province of Azerbaijan, was assassinated at Kasbin, 90 miles northwest of Teheran.

Persia's reply to Russia's ultimatum is calm. It gives the reasons for the rejection of Russia's demands and invites the Russian government to examine into the facts more closely and then reformulate her demands. Messages from the provinces assure the Persian government of unlimited support. A general boycott on Russian goods has been begun and the people are preventing the use of the Russian tramway.

M. LeCoffre, whose appointment was used as an argument against W. Morgan Shuster, the American treasurer general, was not appointed by Mr. Shuster, but has been in the Persian Northern service for two years. Mr. Shuster merely transferred him to a new post at Tabriz. The treasurer general has decided to dispense with the services of British officials appointed by him in Northern Persia, with the exception of one man, who has a contract approved by the national council. This is Mr. Shuster's reply to the charge that he is trying to Anglicize the service. In an interview he said: "Sir Edward Grey, the British foreign secretary, accuses me of endeavoring to Anglicize the Persian service. This is absolutely false. It is true that I am seeking here for employees familiar with modern accounting and with a knowledge of the Persian language and customs. I have found several Britishers who are available, and also two Belgians now in the service. Had any Russians possessing the necessary qualifications presented themselves, I would gladly have engaged them."

STEAMER HAD NARROW ESCAPE Canadian Pacific Passenger Boat Tees Rescued From Rocks. Victoria—Lost for nearly 70 hours, following going on the rocks in Kyquot Sound, the Canadian Pacific steamer Tees, for which grave fears had been entertained since Wednesday morning, when she sent out distress calls, is afloat and all aboard are safe. The Canadian fisheries tug William Jolliffe picked up a lifeboat from the Tees, in which were Chief Officer Thompson and four of the steamer's crew. The men piloted the Jolliffe to the distressed steamer and three boats are now standing by, expecting to tow her to Victoria. Concerts were arranged by the steward and while the rescue steamers were hurrying through the fog and fighting the heavy seas, trying to enter the sound to lend aid, those aboard the vessel kept good cheer and whiled away the time merrily. There were 31 first cabin and seven second cabin passengers. The wireless operator worked his key constantly, but the interference of the high cliffs surrounding the helpless craft prevented communication.

King and Queen Greeted. Bombay—"King-Emperor" George and "Queen-Empress" Mary, as they are officially styled since their arrival in India, landed here from the steamer Medina. They were met by the governor of Bombay and a large gathering of high officials and proceeded to a huge amphitheater which had been erected opposite the landing stage, which was filled to its utmost capacity with many thousands who had come to welcome their majesties. Addresses of welcome were presented by the municipality and other bodies.

Buttons Litter Streets. Los Angeles—Ten thousand Harriman buttons were swept up on the city streets by the street cleaners. This is considered significant in view of the fact that it comes immediately upon the McNamara pleas of guilty. The assumption is that the Harriman buttons are being discarded by former supporters of the Socialist candidate, who made a statement that he would have fought to the bitter end for his clients.

\$4,000,000 Entrance Cost. Winnipeg—The first Great Northern freight train to arrive over its own tracks reached here Saturday. A temporary bridge has been constructed over the Assiniboine river, but a new steel bridge will be constructed in the spring. The Great Northern spent \$4,000,000 for this entrance into Winnipeg.

Would He Die or Undersirades. Ambassadors from a besieged town were treating with Alexander the Great on the terms of surrender. Alexander ordered that Acuphis, the eldest of the ambassadors, should be the governor of the town, and that he should send immediately as hostages 100 of the best citizens. Acuphis then smilingly observed: "Sire, I could govern better if thou wouldst permit me to send thee 100 of the worst citizens instead of 100 of the best."

The Blushing Octopus. The octopus frequently changes its color, like a marine cameleon. It would appear, from recent studies of the creature, that the colored pigment whereby this change in color is effected is contained in envelopes in its skin, in the tissues of which are muscular fibers actuated by nerves. Should these fibers become relaxed a dark pigment appears. The phenomenon is said to be analogous to blushing.—Harper's Weekly.

London's Italian Colony. The Italians in London, England, are sufficient of themselves to form a large town. The other 11,000 are chiefly engaged as plaster bust sellers, artists' models, cooks, valets, teachers, artists, restaurant and hotel keepers, and so on.

Woman's Power Over Man

Woman's most glorious endowment is the power to awaken and hold the pure and honest love of a worthy man. When she loses it and still loves on, no one in the wide world can know the heart agony she endures. The woman who suffers from weakness and derangement of her special womanly organism soon loses the power to sway the heart of a man. Her general health suffers and she loses her good looks, her attractiveness, her amiability and her power and prestige as a woman. Dr. R. V. Pierce, of Buffalo, N. Y., with the assistance of his staff of able physicians, has prescribed for and cured many thousands of women. He has devised a successful remedy for woman's ailments. It is known as Dr. Pierce's Favorite Prescription. It is a positive specific for the weaknesses and disorders peculiar to women. It purifies, regulates, strengthens and heals. Medicine dealers sell it. No honest dealer will advise you to accept a substitute in order to make a little larger profit.

Origin of Uncut. The seashore book shop was crowded. Best sellers at \$1.15, \$1.25 and even \$1.50 were going like hot cakes. The proprietor, pushing through a throng of pretty girls in white, said joyously: "We don't need to handle uncuts in this glorious country of ours. Why actually, I've just had to wire to New York for two extra salesmen." "But what has that got to do with the uncuts?" the reporter inquired. "Uncuts," said the dealer, "are books with uncut edges. They originated in Scotland. In Scotland, in the past, a man would enter your shop today, read a chapter of some book or other and saunter out without buying anything. Tomorrow he would read another chapter gratis, and by the end of the month he would have finished the volume and be well into another. "Hence the Scottish publishers and booksellers hit on the uncut, which you can't read without buying." The dealer helped a pretty girl to stow in her limousine a stack of best sellers. "But thank fortune," he said, "we don't need uncuts here."

WHY THE CHICKEN BUSINESS PAYS. According to government reports, more than 300,000,000 chickens were marketed in the United States in 1910, and the value of eggs marketed was \$40,000,000, equal to that of the entire wheat crop of the nation.
