where each will give satisfactory service," he continued. All forms of surfacing will be discussed, from the plain gravel and crushed stone to the bituminous or tar macadam and the brick pavement; and the importance of an accurate traffic census in determining the proper material for use on any highway will be shown.

Eyes of Eastern people have been fixed on Oregon during the past two weeks. The Governors' Special, carrying an exhibit of state products has been visiting the principal cities of the country and has attracted great attention everywhere. Oregon has been favored with more interest than any other state, judging from the great number of inquiries asked of those on board.

At the Chicago Land Show, too, this state has played a prominent part. Oregon Day, December 7, was marked by a very large attendance of interested people who were eager to learn more of Oregon. At St. Paul's Land Show, which opens this week for 11 days, Oregon will also be represented by delegates and an exhibit. These big features will do much to point land hungry people to this state, where agricultural opportunities awaits them.

A Northwest dairy stock exhibit has been suggested in connection with the annual state dairy convention. It is planned to bring prize animals here for display and the management of the Portland Union Stock Yards has offered the use of the barns show ring and pens for exhibition purposes. It is thought such could be made of interest to the dairymen of Oregon, Washington Idaho and Northern California.

Great advances in road building throughout this state are shown by figures of county judges. In 1806 Oregon had 35,000 miles of roads and spent \$200,000 in paving and maintenance.

In 1910 with 40,000 miles of roads, \$2,000,900 was spent.

Trains will probably be running to Lakeview by late Winter or early Spring, as rail connection has been completed with that city from Alturas, Modoc County, California. A wonderfully rich country will be opened up to the outside world.

That Oregon Creamerymen need not take second place in the manufacture of dairy products was stated on undoubted authority at the recent convention of butter and cheese makers in Portland. Prof. John Sollie of Alberta, Lea., Minn., chief judge of the exhibits, said he was surprised at the high quality of cheese and butter he found here. He said the butter shown would rank with any he has judged in New York and the Eastern States.
