HARBOR VIEW SITE OF THE EXPOSITION, WHERE THE MIDWAY AND CONCESSIONS WILL BE LOCATED.

Today San Francisco is the newest city in the world. Its buildings represent the latest type of modern reinforced concrete structures. It has more than 1,300 hotels and apartment houses, with accommodations to suit all persons.

In preparing for the Panama-Pacific International exposition hundreds of its emissaries are visiting all the regions of the world. Fourteen governors of western states on a 4,000 mile trip through the east on a special train recently called attention to the exposition and became better acquainted with their brothers of the eastern states.

Golden Gate park will be the seat of the permanent features of the exposition. With an area of more than a thousand acres Golden Gate park, forested and created of sand dunes, today presents one of the most notable achievements in landscape gardening in the world. The west end of Golden

Gate park, comprising 540 acres, will be utilized for exposition purposes. Around a great stadium, already built, will be erected a huge concrete coliseum, the largest structure of its kind in America, capable of seating 75,000 people and in architecture like that at Rome. A chain of lakes at different levels will be connected by a working model of the Panama canal.

Lincoln park, where the Golden Gate rounds out into the Pacific ocean, commands a panorama of the Pacific ocean, of San Francisco harbor and of the hills of the city. Its area is 150 acres, and its contour rises more than 300 feet above sea level. At Lincoln park will be erected a great commemorative statue welcoming ships to the Golden Gate. Tentative plans for St. Francis memorial tower call for a structure 850 feet in height, with a base 300 feet square. The top of the

tower will be almost 1,500 feet above the waters of the Golden Gate.

From Lincoln park the boulevard, turning south toward Golden Gate park, will pass through an area of 20 acres that have been secured by the directors for exposition purposes. Here will be located the foreign buildings, live stock exhibits, mining, horticulture and agriculture and other displays requiring extensive space.

One of the directors of the exposition is now in Japan. It is said that his majesty the Emperor Meiji will donate the use of the Imperial art collection to the exposition. The board of lady managers, of which Mrs. Phoebe Hearst is honorary president, is independently taking up those phases of the exposition that belong particularly to woman's domain.

The setting is being prepared. With impressive exposition structures rising

from San Francisco bay, with city and wooded slopes as a background and in the foreground a vast fleet of battle-ships of the world, the sight will be one of the magnificent spectacles of history.
