To get the melons to their varjous destinations in good condition necessitates considerable skill in packing the crated cantaloupes inside the cars. In addition to seeking an attractive appearance in the arrangement of the fruit. car, which appeals to the car-lot buyer when he inspects it at its destination, the shipper must see to it that the crates are securely fastentd to prevent them from shifting and to see that they are loaded and packed as to allow free ventilation and refrigera-
