

STOP LOOK READ!!

The opportunities offered you to buy a lot or acreage in Rainier, the most substantial and prosperous little City on the coast, at prices that will astonish you. We will sell you property on a 10 per cent cash payment, balance easy terms, that will double in value before you get it paid for. We have never sold a piece of property that the purchaser could not get more than they paid for it. We have some snags to offer now. Full size lots, 50x100 \$200 and up.

Buy Business Property

We own the choicest sites on the principal streets of the City that offer a speculative profit of 50 per cent within a year. Watch Commercial Street, the coming business thoroughfare of the City.

Buy a Fruit or Dairy Farm

Choice acreage that will raise anything and a local market to consume it. The Rainier Creamery can use 100 per cent more dairy products, the Grocers will take all your farm products at top prices.

WHY RAINIER?

Because it has six miles of the best fresh water harbor on the Pacific Coast, accommodating the largest seagoing vessels from all parts of the world, with a railroad running along the shore providing shipping facilities for manufacturers to load direct to ship or rail. It is a tributary to an almost inexhaustible supply of the best timber in the world and the richest agricultural ground. It has extensive deposits of clay for the highest known grade of brick and tiling, and immense deposits of iron ore and cement rock. It has cheap fuel and cheap electric power and it has a beautiful, elevated, healthy townsite with all modern improvements, a population of 2,000 and a pay roll of \$50,000 per month.

Notes from O. A. C.

That the annual agricultural production of this state could be increased \$10,000,000 in five years without adding one square rod to the farm acreage, was the contention of Dr. James Withycombe, director of experiment stations at the Oregon Agricultural College, in a recent address on the value of demonstration farms. He advocated that establishment of a demonstration farm in each county under competent supervision, the superintendent to act as advisor to the farmers of his district, and to assist in the formation of rural organization for the improvement of educational, social and financial conditions.

"In many foreign countries the value of demonstration farms and special agricultural educational work is strongly in evidence," said Dr. Withycombe. "The little country of Denmark has made phenomenal agricultural progress under the system of demonstration. With an area equal to but one-sixth of Oregon Denmark supports 2,690,500 people and exports annually over \$100,000,000 worth of butter, eggs and bacon. This is accomplished under adverse agricultural conditions, much of the country being so bleak that it is necessary to blanket the cows in pasture to keep them comfortable in summer.

"If such results can be secured under such unfavorable conditions, what results might we not justly expect from a similar system here in Oregon where conditions for dairying and general farming are so favorable?"

"Teach your pupils at school to try to inculcate the doctrine at home that dirt means filth, and filth means abnormal kinds of germs," said Prof. T. D. Beckwith, head of the bacteriology department at the Oregon Agricultural College, in an address

before the teachers in the summer session classes.

Germs which cause milk to sour, bacteria which dispose of filth and aid in making fertile soil, and microbes which cause disease were shown through a powerful microscope magnifying 1,400,000 times, and the professor explained their action on food and soil. The bacteria which cause the souring of milk were shown, 15,000 of which placed in a line make just an inch.

"Germs are alive. It is safe to say the ordinary human being voids thirty-three-million-million germs a day, most of them by way of the faces," said Prof. Beckwith. "Since a cow is so much larger, how much greater a number of germs it throws off each day.

"What do you think of the farmer who keeps his cow in a dark, muddy, wet stable dripping with manure, or in summer in the dry season allows her to accumulate an armor of manure? Every bit of that filth is full of germs which, if they get into the milk, produce abnormal changes, some of them breeding disease.

"The farmer sits down under such a cow, without cleaning it, and milks into a wide-mouthed pail into which at every motion and every breath of air, there drop particles containing germs. Each germ makes two every twenty minutes, that is, they multiply to eight times their number every hour at ordinary temperature. You can see what it means to allow the milk to cool slowly instead of cooling it artificially at once.

"If children drink milk from untested cows which have bovine tuberculosis, the germs do not pass out, but remain in the body, and by slow change in twenty or twenty-five years become human tuberculosis. All dairy animals should be tested so that we may know that there is no tuberculosis. Your teachers can do a great deal by teaching your pupils the importance of these things."

WARREN

The Warren baseball team went to Houlton Sunday July 7th and played against the champion Amateur team of Houlton. This was the first game the Warren boys had played this season but they soon won with a score of 14 to 7. The batteries for Warren were Duncan and Duncan; for Houlton, Hammer and Hammer.

Misses Inez and Martha Powers of Quincy are visiting Miss Alice Erickson this week.

A merry party of about fifteen young people went to St. Helens Saturday evening and spent the evening at the skating rink.

Mr. and Mrs. O. A. Erickson and Miss Helen Metzger spent the Fourth with relatives at Gresham.

Born, to Mr. and Mrs. J. Erickson Jr., July 8th, a son.

The Swedish church people had a picnic on the Fourth of July which was well attended by young and old.

Mrs. N. F. Baker and her father Mr. McQueen of Vancouver spent the Fourth with Mrs. Baker's sister at Philomath, Oregon.

Miss Mabel Ferry and Mr. Raymond Ferry spent the Fourth at the Baker home.

Mr. Bert Ferry of Portland visited friends here on the 5th.

Mrs. Stockenberg of Mayger has been a guest of Mrs. J. Erickson, Sr., for a few days this week.

Michigan Picnic

There will be a Michigan picnic in the grove at St. Helens, Oregon on Friday, August 30, 1912.

All persons living in Oregon and vicinity, who formerly were residents of Michigan, are requested to come and enjoy themselves.

Every effort will be made to insure a good time for everybody.

Music and various games and sports suitable to the occasion, will be the order of the day.

For further particulars enquire of George Wilson, Secretary, Tremholm, Oregon, George R. Hyde, Yankton, Oregon, M. L. Dean, Clatskanie, S. Malcolm, Goble.

Judge John W. Wescott, who made the principal speech placing Woodrow Wilson in nomination at Baltimore.

MEXICAN WAR ZONE SHIFTS

Rebels Go to New Base at Casas Grandes.

Juarez, Mex.—The Mexican revolution has begun to shift its scenes from the state of Chihuahua, bordering Texas and New Mexico, to the state of Sonora, bounding Arizona and Southern California. Nearly 2000 rebel troops were sent 140 miles southwest of here to Casas Grandes, on the Mexican Northwestern railroad, the new rebel base from which the invasion of the state of Sonora is being directed.

Simultaneously, according to advices reaching here, about 2000 federal cavalry under Generals Tellez and Rabago were moving northwest from the city of Chihuahua, where General Huerta holds sway.

This force will ride toward Casas Grandes, threatening it from the rear, while the government forces in the state of Sonora, commanded by General Sanjines, will assume the defensive with the intention of preventing the passage of the rebels into Sonora.

Camorrista Found Guilty of Murder

Viterbo, Italy.—The Camorrista who have been on trial for nearly two years on the charge of having murdered Gennaro Cuocolo and his wife in June, 1906, were adjudged guilty in varying degrees. The verdict declares Corrado Sortino guilty of both murders; Nicolo Morra, Antonio Cerrato and Mariano Di Gennaro guilty of the murder of Cuocolo and Giuseppe Salvi guilty of the murder of Cuocolo's wife.

Torrential Rain Breaks Heat Wave.

Chicago.—Disastrous floods have temporarily broken the fierce heat wave which has caused 24 deaths in Chicago in three days and taken a lesser toll in other cities.

AMERICANS LEAD IN OLYMPIC EVENTS

Stockholm.—Five of the six Olympic runners who qualified for the finals of the 100 metre dash to be run off were Americans, and eight of the 14 qualifying for the 800 meter race also carried Uncle Sam's colors.

That was America's record on the initial day of the two weeks' Olympic games, and more than 60,000 people from all over the world, who thronged the stadium, were convinced that the Yankees had made good, while the folks from home were more than sure that they had not overestimated the prowess of their athletes.

American athletes won three notable victories at the Olympic games so far. R. C. Craig, of the Detroit Y. M. C. A., captured the final of the 100-meter dash; James E. Meredith, of Mercerburg Academy, won the final of the 800-meter run, one of the most coveted events on the programme, and James Thorpe, of the Carlisle Indian school, won the pentathlon, a series of five events.
