The schooner Bartlett after a stay of two weeks at this port during which time she took on 700 M ft. of lumber for delivery at Callo, Peru, sailed Wednesday morning.

The steamer Klamath left out Wednesday night with the largest cargo of piles and lumber that she has yet carried, having aboard 1153 M ft. She also had her full complement of 60 passengers bound for California ports.

The Steamer Yellowstone completed her cargo of railroad ties at the boom and sailed Thursday night for San Francisco.

The schooner Irene, Capt. Mitchell, after a passage of 24 days from San Diego, arrived in port Wednesday night. She will load a full cargo of lumber for the McCormick yards at San Diego.

The Schooner Oceanic Vance arrived in Wednesday and is loading a full cargo for Southern California. The Vance is one of the old timers on the coast, having been built in 1888 but is a good sound vessel yet.

and apparently has many years to go before being consigned to the "bone yard."

The Schooner Jewett finished loading her cargo of 690 M ft. of redwood at Eureka, will arrive in St. Helens about the 31st inst. She will load two million feet of Oregon Fir for delivery at Melbourne, Australia.

London England is now using some of the big fir timbers for which St. Helens is noted, the British Ship Kirkcudbrightshire having arrived there last week after a passage of about 135 days from St. Helens.

The Steamer Willamette arrived in the river today with freight and passengers from San Francisco. She will be at St. Helens Sunday to take on a full cargo of lumber for the California market.

MATCH IS A BIG SUCCESS

LOCAL MAN WINS FROM PORTLAND PROFESSIONAL

The wrestling match at the city hall last Saturday night was quite well attended and reports from those who attended are that it was a contest worth seeing. Two preliminary events consisting of a wrestling match between a couple of local boys, which was very interesting, and a four round boxing bout between Billy Moriarity and Kid Washburn of Portland. The referee gave the decision to Moriarity on points. The main event was the wrestling match between Nels Carlson of St. Helens and Walter Arndt, the instructor at the Y. M. C. A. of Portland. It was an even match in weight and size but the St. Helens man was the better of the two, securing two straight falls, the first in 12 and the second in 10 minutes. Carlson proved himself to be a very clever mat man and as a result arrangements have been made for him to give some exhibitions in athletic stunts at the Arcade Theatre next week, beginning Wednesday evening and continuing for four nights.

MERCED TO HAVE SHELTER

BIG BOAT REPAIRING COMPLETION

A large shed roof is being erected at the ship yards over the Merced, the big boat being built there now. This shed when completed will permit the men to work during the rainy season without having to work in the rain. The Merced is rapidly nearing the state when it will follow its sister ship into the waters of the Columbia and taken to San Francisco where the machinery will be installed and then placed on the run from this port to California ports. Already plans are under way for the laying of the keel of a new boat, somewhat smaller than the Multnomah and Merced, but a lumber carrier for coastwise trade.

Firm Has Moving Day

MORGUS & SON TO CARRY COMPLETE LINE OF FURNISHING GOODS

H. Morgus & Son are moving their large stock of dry goods, furnishing goods, furniture and house furnishings into the new building adjoining the room where for so long this popular firm has been doing business. Morgus & Son have decided to go out of the grocery and feed business and will hereafter conduct strictly a store along the lines mentioned above. Mr. A. S. Harrison will take over the grocery department and combine it with his already large stock of groceries and move into the larger quarters in the Morgus Building.

NEW BUSINESS FIRM

In this issue of the Mist appears the announcement of a new business firm opening in this city. F. H. Sherwood of Rainier who has been conducting undertaking parlors in that city for several years, and Mr. E. Adin Ross of St. Helens are the new proprietors and have already purchased a fine stock of furniture and undertaking goods. Mr. Sherwood will continue to conduct his undertaking parlors in Rainier and Rainier but will also devote some of his time to the St. Helens business. A new house of latest design has been purchased and will be put into the St. Helens store. Mr. Sherwood is so well known in Columbia County that no introduction is necessary to our people and his business standing is first class. Mr. Ross has been a resident of this city for about two years coming here from Beloit, Wisconsin. He is a capable business man and one who will undoubtedly handle the affairs of the new concern to the satisfaction of all persons dealing with them. Two large store rooms in the new Bank Building have been secured and stock will begin to arrive the first of next week. The columns of the Mist will keep the people informed of the stock carried by the new firm and we bespeak for them a successful business in our thriving city.

Bourne Rally

R. H. ROBINSON TO SPEAK TO THE VOTERS OF ST. HELENS

Posters were out in the week announcing that Mr. R. H. Robinson would be the speaker at a Bourne Rally at the city hall on Thursday evening. On that evening however the gentleman was in town but for some unexplained reason the big Bourne Rally failed to materialize. In a conversation with Mr. Robinson, he said that Bourne sentiment in Portland was very strong and that no other candidate had a chance in the city, but that after visiting the larger towns in Columbia County he was also convinced that Mr. Bourne had very little chance here. That seems really to be the case, that Bourne will poll quite a heavy vote in the city of Portland but in the outlying counties he will run quite a ways down the line from the top.

HIGH SCHOOL NOTES

Prof. Joseph Shafer, head of the extension division of the University of Oregon, author of the state text book on Oregon history, will be in St. Helens to deliver a lecture on the subject of Oregon history at the high school on the evening of November 22. This is another of the series of social center meetings at the high school. The address will be of special interest as it will deal largely with the history of this state and the history of St. Helens. There will be no charge for admission.

DEBATE QUESTION RECEIVED.

"Resolved, that the electoral college should be abolished and the president nominated and elected by direct vote of the people," is the question to be debated by St. Helens high school in the state league this year. The question was received Wednesday and placed before the students. A large number signified their intention to try for the team.

Some good practice, and at the same time some good review in his history, was attained Wednesday when a debate was pulled off in which Mildred Allen, Charles Smith and Fred Morgus defeated Frank Robertson, Charles Laws and Keturah Dixon on the question "Resolved that the progress of England between 1066 and 1154 was retarded by the Norman conquest." Dale Perry presided and Virgil Hutton, Cecil Ross and Sarah Burns acted as judges.

FRANCHISE GRANTED

TIMBER COMPANY WILL BUILD LOGGING ROAD AT RAINIER

Hammond Lumber Co., of Astoria, will construct about four miles of logging railroad into a tract of timber they own back of Rainier. A franchise for the use of certain streets in Rainier has been granted by the council of that city. Work will begin in the very near future. Thus another lumbering industry is added to the list of similar enterprises in this county, which, by the way, has more separately owned and controlled logging railroads than any other county in the state.

Eastman vs. the Jennings McRae Dugging Co. was tried before Judge Edlin and a jury this week, the jury returning a verdict for plaintiff in the sum of \$1400—actual damages with special findings of negligence on the part of the defendant. The verdict means that the verdict is double of \$700. This was an action for \$500 damages by Mr. Eastman for negligence on the part of the company in setting out fences and allowing it to spread so that the timber of plaintiff was destroyed. Mr. Eastman was represented in the case by F. M. Saxton and Claude M. Johns of Portland while the defense was looked after by Dillard & Day of St. Helens and Harrison Allen of Portland.

SCAPPOOSE

On Monday morning October 21, 1912, a beautiful baby girl was born into the home of Mr. and Mrs. Deloss Barnett. The following Wednesday morning an angel visited this home and carried the tiny spirit away.

Only a tiny rosebud,
Sent from the Father above;
To cheer, to bless to brighten,
And carry a message of love.

Its mission on earth was ended,
The fleet was its little life;
Then back to God who sent it,
Away from this world of strife.

CARD OF THANKS.

We wish to thank our many unknown friends for the kindness and favors shown us in our bereavement, caused by the death of our dear baby.

Big Meeting at Warren

MEASURES TO BE LOOKED INTO AT NON-PARTISAN RALLY

Tonight the people of Warren will hold a public meeting at which nearly every voter in the district will be present. The object of the meeting is to discuss the various measures to be voted on next Tuesday. It will be strictly a non-partisan meeting and every body will be called on to explain his understanding of the various measures. Each one of the measures will be discussed and debated from all angles and the people are really in hopes some clear and definite understanding of the many proposed laws will be arrived, so that an intelligent vote may be made by them.

NEW PAPER PUBLISHED

We have a new baby brother at our house. It was born today at Houlton. The proud father of this new child is Mr. D. H. Ashmun, an old newspaper man of Portland. The infant has already been through the christening ceremony and is now officially called the Columbia County Herald. It is a neat little six column four page paper containing all of the leading business firms of our sister city and some well written editorials and local news. We extend the glad hand of the fraternity to our new brother and wish him success in the venture.

Congregational Church

Services at the Congregational Church Sunday Nov. 3rd. Morning service at 11 o'clock and evening service at 7:30 o'clock. We are indeed glad for the continued interest and for numbers of faithful attendants at all services. We are trying to hold up a standard of religion that is within the reach of all and yet so sincere that it is beyond all doubtful questioning.

To all desiring a place to worship we give you a hearty welcome. We'll do all in our power to make strangers feel at home among us.

David Jopling, Pastor.

Fine Cattle to Arrive

Harry West returned from a trip through the eastern states last week where he went in quest of some fine Jersey cattle. He succeeded in securing two car loads to suit him, part of them coming from Princeton New Jersey and part from Kentucky. Mr. West intended when he left here to go to the Jersey Islands to get his stock but on account of a quarantine being on against shipping cattle from there he did the next best and got the stock from American breeders. The two car loads of fine Jerseys will arrive at the Scappoose Farm within a few days.
