CONDITION OF JAPAN & RUSSIA

N. Raffalovitch, a Russian banking expert, is quoted as saying that country has 500,000,000 roubles in gold, or upwards of \$250,000,000, to draw on for emergency. Russia's mainstay is the Bank of Russia, which has been fortifying itself for some years. Russia's gold at bank and in the treasury in November last amounted to \$344,098,000, silver \$33,775,000 while the circulating notes outstanding were \$309,188,000.

The bank of Japan, at the same date, according to the report of the Secretary of the finance department, at Tokio, has gold holdings valued at \$57,834,478, with outstanding circulation of \$101,423,396, expressed in dollars. It is interesting to note that since 1898 the gold supply in the Bank of Japan has increased more than \$26,000,000, while the Bank of Russia's stock of the yellow metal has decreased, presumably in connection with the debt refunding operations.

Easy Pill

Easy to take and easy to act is that famous little pill DeWitt's Little Early Risers. This is due to the fact that they touch the liver instead of forcing it. They never grip nor sicken, not even the most delicate lady, and yet they are so certain in results that no one who uses them is disappointed. They cure torpid liver, constipation, biliousness, jaundice, headache, malaria and ward off pneumonia and fevers.

THE SIGHT OF A FARM

has a whole lot to do with its value as an investment. If it is well drained, high healthy ground, close to a good market it is naturally worth more than low land, marshy or rocky land situated three miles from no where.

IF YOU ARE LOOKING for a farm better consult us before you buy. We know of several good farms that will suit you either as a homestead or as a money-making investment, and we have the very lowest figures they which they can be bought. How big a farm are you looking for.
